## THE DRY GOODS TRADE.

*New York, Friday Night, March* 6 1908.

While the volume of business transacted in the primary cotton goods market during the week has again been small, some encouraging repeat orders have been received for spring merchandise, and buying has been larger than in the recent past. The most favorable feature of the present situation is the comparatively good business being done by jobbers, which must soon result in the replenishing of supplies. It is true that they are offering goods at very low prices, and it is possible that agents may have to reduce their figures before goods will be purchased in any quantity. The fact that many lines are being re-offered by second hands at very low prices makes the market a difficult one to operate in and serves to unsettle the minds of buyers. It is hoped, however, that these accumulations will soon be worked off and that the market will settle down to a more stable basis. In the meantime curtailment is becoming more general, particularly in the South, and the cost of production is being lessened by reductions in wages and the lowering of prices of materials generally. In New England mills are still running on part time, and a decision is expected to be arrived at shortly by the Arkwright Club of Boston, extending the recent curtailment agreement. Exporters generally are optimistic regarding the outlook, although current business is of only small proportions. Encouraging reports have been received regarding the Chinese situation, and it is expected that a larger business will be done with that country during March than during the first two months of the year. In the men's wear woolen and worsted goods market the feeling is somewhat better, and in the dress goods division sales are on a satisfactory scale.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Feb. 29 were 2,318 packages, valued at $177,273, their destination being to the points specified in the tables below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| *New York to Feb. 29.* | *Week.* | *Since Jan. 1* | *Week.* | *Since Jan. 1* |
| Great Britain | 8 | 85 | 118 | 531 |
| Other Europe | 16 | 111 | 27 | 121 |
| China | 5 | 3,738 | 1,032 | 4,111 |
| India | 288 | 3,120 | 1 | 2,857 |
| Arabia | 125 | 3,906 | 1,695 | 12,271 |
| Africa | 8 | 933 | 123 | 2,201 |
| West Indies | 529 | 3,529 | 457 | 4,509 |
| Mexico | 91 | 368 | 22 | 374 |
| Central America | 40 | 2,287 | 441 | 3,253 |
| South America | 856 | 8,131 | 2,409 | 9,531 |
| Other countries | 352 | 2,845 | 55 | 8,984 |
| Total | 2,318 | 29,053 | 6,380 | 48,743 |

The value of these New York exports since Jan. 1 has been $1,927,018 in 1908, against $2,975,299 in 1907.

There have been some sales of heavy brown drills and sheetings for immediate delivery, but the market is irregular as the result of re-selling by second hands. Medium and light-weight sheetings have been in fair request, and in the primary market are quotably unchanged. Chinese purchases have included medium-weight drills at recent prices. The demand for bleached goods is increasing slightly, but the more prominent lines have been affected by the lower values named for low-count goods; stocks of goods awaiting shipment orders are still heavy. Kid-finished cambrics have been reduced ¼c., but so far this has failed to materially stimulate the demand. It is expected that cotton blankets will be opened shortly, and a good deal of interest is being shown in the question of prices. In the meantime there has been some active purchasing of domets for fall at the prices recently named, and this department is among the most satisfactory of the whole market. There has been some spot buying of fancy prints and ginghams, but staple prints are only moving slowly. Print cloths have been quiet and buying has been confined almost entirely to small lots offered by second hands. Standard gray goods are again slightly lower for the week.

WOOLEN GOODS.—In the men's wear woolen and worsted goods market there has been a small improvement in the demand for low-grade manipulated fabrics, and the buying of fancies has been maintained. Practically all of the initial business has now been placed, however, and on the whole the results are from satisfactory. The better feeling in the trade is due mainly to the belief that duplicate orders will have to be heavy, and that there is some foundation for this is shown by the fact that orders have in several cases been materially increased by buyers who on returning home realized that they had not adequately protected themselves. A feature of the situation that is attracting a good deal of attention is the canceling of orders for spring goods by retailers, but it is not believed that this will be carried on to any great extent, particularly in the South and Southwest, where conditions are much better than they are in the East. From now until after Easter will naturally be a quiet period in the trade, and developments then will indicate how the season is likely to compare with last year. Dress goods buyers are operating with a great deal more freedom than men's wear buyers, and the business for fall already transacted has been quite satisfactory. It is not expected that the total sales will equal last year, but there are indications that the falling off will not amount to more than about 25%, compared with some 50 to 60% in the men's wear division. At present staples are being principally taken, with broadcloths the best in demand. Fair duplicate orders for worsteds are being received, and these are likely to prove popular all the year.

FOREIGN DRY GOODS.—The imported woolen and worsted goods market is moderately active. Silks and ribbons are quiet and featureless. Linens are rather more active. Burlaps are slow.

**Importations and Warehouse Withdrawals of Dry Goods.**

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 29 1908 and since Jan. 1 1908, and for the corresponding periods of last year, are as follows:

### *MUNICIPAL BOND SALES IN FEBRUARY.*

The total amount of municipal bonds placed during the month of February was $60,573,180, or over five millions more than that of any month reported by us. Temporary loans and Canadian securities, which are never included in our totals, amounted to $6,935,000 and $1,634,259, respectively. In May 1904 we reported the only other monthly output which exceeded fifty millions. The total for that month was $55,110,016. The large offerings of corporate stock and assessment bonds made by New York City were responsible for both these enormous totals. The city obtained an average price of about 100.94—a basis of about 3.461%—for 3½% 50-year corporate stock to the amount of $32,000,000 offered in May 1904, while the $47,000,000 50-year stock bearing 4½% interest sold on Feb. 17 1908 brought 104.22—a basis of about 4.295%. The $3,000,000 4½% 10-year assessment bonds offered in February brought 100.90—a basis of about 4.388%, against 100.13, or a basis of about 3.485% for $5,000,000 3½% 10-year assessment bonds offered in May 1904. Ninety-eight bids, aggregating $126,071,950, were received at the sale of the 3½s, while the 4½% bonds offered last month attracted 1,168 bids, aggregating $271,242,650.

Other large municipal issues which go to form part of the record for the month just past were as follows: $1,917,500 4% bonds of Chicago Sanitary District, Ill., sold at 98.0978; $550,000 5% bonds (two issues) of Bayonne, N. J.; $300,000 4½s of Tucson, Ariz., sold at par; $284,000 4s of Louisville, Ky., sold at par; $280,000 4s of Cincinnati, O., sold at 106.07; and $200,000 5s of Orange, N. J., sold at 107.643.

The number of municipalities emitting bonds and the number of separate issues made during February 1908 were 153 and 259 respectively. This contrasts with 136 and 166 for January 1908 and with 137 and 207 for February 1907.

For comparative purposes we add the following table, showing the aggregates for February and the two months for a series of years:

| | Month of February. | For the Two Mos. | | Month of February. | For the Two Mos. |
|---|---|---|---|---|---|
| 1908 | $60,573,180 | $71,509,816 | 1899 | $7,038,318 | $13,114,275 |
| 1907 | 37,545,720 | 47,705,866 | 1898 | 9,308,489 | 17,456,382 |
| 1906 | 28,350,635 | 36,698,237 | 1897 | 12,676,477 | 23,082,253 |
| 1905 | 9,310,631 | 17,746,884 | 1896 | 4,423,520 | 10,931,241 |
| 1904 | 7,951,321 | 31,795,122 | 1895 | 5,779,486 | 16,111,587 |
| 1903 | 5,150,926 | 21,092,722 | 1894 | 11,966,132 | 19,038,389 |
| 1902 | 12,614,450 | 23,530,304 | 1893 | 5,071,660 | 10,510,177 |
| 1901 | 4,221,249 | 13,462,113 | 1892 | 7,761,931 | 14,113,931 |
| 1900 | 5,137,411 | 25,511,733 | | | |

Owing to the crowded condition of our columns, we are obliged to omit this week the customary table showing the month's bond sales in detail. It will be given later.

## Bond Proposals and Negotiations this week have been as follows:

**Ashtabula School District (P. O. Ashtabula), Ashtabula County, Ohio.**—*Bond Offering.*—Proposals will be received until 6 p. m. March 17 by Charles E. Peck, Clerk Board of Education, for $8,000 4½% coupon school bonds. Authority Section 3994, Revised Statutes. Denomination $500. Date, day of sale. Interest April 1 and Oct. 1 at the District Treasurer's office. Maturity $500 yearly on April 1 from 1910 to 1925 inclusive. Certified check on a national bank for $500 is required. Bidders must satisfy themselves as to the legality of the bonds before submitting their bids.

**Aurora, St. Louis County, Minn.**—*Bond Sale.*—We are advised that on Feb. 28 the Commercial Investment Company of Duluth was awarded the following bonds at par:

$20,600 5% sewer construction bonds. Denomination $5,000.
5,000 5% water bonds. Denomination $1,250.

Date April 1 1908. Interest semi-annual. Maturity twenty years.

**Baltimore, Md.**—*Bond Offering.*—Attention is called to the advertisement elsewhere in this Department of the offering on March 16 of the $1,000,000 4% Registered Park Loan and the $1,000,000 4% registered Annex Loan. Full description of bonds and terms of offering will be found on page 558 of last week's "Chronicle.

**Bartlesville, Washington County, Okla.**—*Bond Sale.*—This city recently awarded $50,000 5% 20-year sewer-extension bonds and $54,000 6% 25-year refunding bonds to John Nuveen & Co. at par. These bonds are in denomination of $1,000 each. Date Nov. 1 1907. Interest semi-annual.

**Batavia School District (P. O. Batavia), Genesee County, N. Y.**—*Bond Offering.*—Proposals will be received until 7:30 p. m. to-day (March 7) by Albert J. Squires, Clerk Board of Education, for $18,000 4½% registered Pringle Avenue school bonds. Denomination $1,000. Date Jan. 1 1908. Interest semi-annual. Maturity $1,000 yearly on Jan. 1 from 1909 to 1926 inclusive. Certified check for 5% of the bid is required. Bonds to be delivered May 1 1908.

**Bay Minette School District (P. O. Bay Minette), Baldwin County, Ala.**—*Bond Election.*—An election will be held March 14 for the purpose of voting on a proposition to issue $5,000 school bonds.

**Beaver City, Furnas County, Neb.**—*Bonds Not Yet Sold.*—Up to Feb. 10 this city had not yet succeeded in disposing of the $25,000 6% 5-20-year (optional) water-works bonds mentioned in V. 85, p. 1475. We are advised, however, that proposals for these securities will be received at any time. W. L. Leonard is City Clerk.

**Beaver Pond School District (P. O. Bluefield), Mercer County, W. Va.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 21 by E. L Bowman, Secretary Board of Education, for the $150,000 6% gold coupon bonds voted on Feb. 11. Denomination $100 or multiple. Date March 1 1908. Interest annually in Bluefield or New York. Maturity March 1 1928. Bonds are exempt from taxation. Certified check for 1% of bid, payable to E. L. Bowman, Secretary Board of Education, is required.

**Belleville School District (P. O. Newark), Essex County, N. J.**—*Bonds Defeated.*—A proposition to issue bonds for school purposes was defeated by the voters of this district at an election held Jan. 22. The vote was 171 "for" to 221 "against."

**Bellevue, Huron County, Ohio.**—*Bond Sale.*—On March 2 the $4,000 6% coupon Castalia Street improvement assessment bonds maturing $400 yearly on Dec. 21 from 1908 to 1917, inclusive, and described in V. 86, p. 495, were awarded to Dennison & Farnsworth of Cleveland at 107.25 and accrued interest. Following are the bids:

| | | | |
|---|---|---|---|
| Dennison & Farnsworth, Cleveland | $4,290 00 | Security Savings Bank & Trust Co., Toledo | $4,214 00 |
| First Nat. Bank, Cleveland | 4,270 00 | Otis & Hough, Cleveland | 4,202 00 |
| Seasongood & Mayer, Cinc. | 4,267 75 | Hoehler & Cummings, Tol. | 4,212 50 |
| New First National Bank, Columbus | 4,266 00 | Fremont Sav. Bk., Fremont | 4,175 00 |
| Weil, Roth & Co., Cinc. | 4,246 00 | Bellevue Sav. Bk., Bellevue | 4,145 00 |
| W. J. Hayes & Sons, Cleve. | 4,242 00 | First Nat. Bank, Barnesville | 4,121 00 |

**Beloit, Rock County, Wis.**—*Bond Offering.*—Proposals will be received until 12 m. to-day (March 7) by J. A. Jauvrin, Chairman Finance Committee, for $15,000 5% coupon bonds. Denomination $500. Date April 1 1908. Interest annually in Beloit. Maturity $1,000 yearly on April 1 from 1909 to 1923 inclusive. Bonds are exempt from all taxes. Certified check for $1,000, payable to the City Treasurer, is required.

**Berne, Albany County, N. Y.**—*Price Paid for Bonds.*—We are advised that the price paid for the $10,000 5% coupon highway-improvement bonds disposed of on Feb. 1 (V. 86, p. 558), was par. Denomination $1,000. Date, Feb. 1 1908. Interest annual. Maturity part yearly from 1912 to 1921 inclusive.

**Bruce, Rusk County, Wis.**—*Bond Offering.*—Proposals ill be received until 8 p. m. March 30 by the Bond Committee, Ava Blackman, Chairman, for $7,800 5% coupon water-works, electric-light and sewer bonds. Authority Section 943, Statutes of Wisconsin, as amended by the Laws of 1907. Denomination $650. Date, April 1 1908. Interest annually in Minneapolis or Chicago. Maturity part yearly on April 1 from 1916 to 1927 inclusive. Certified check for $390, payable to S. M. Alvey, Treasurer, is required. Total bonded debt, this issue. Assessed valuation, $176,372. Real value (estimated), $250,000. Official circular states there has never been any default in the payment of principal or interest.

**Burlington, Alamance County, N. C.**—*Bond Sale.*—On Feb. 15 the $50,000 water and $50,000 sewer 5% 30-year coupon bonds, bids for which were rejected on Feb. 10 (V. 86, p. 433), were awarded to Emery, Anderson & Co. of Cleveland.

**Calgary, Alberta.**—*Debenture Sale.*—This city, it is reported, awarded $76,000 4½% 20-year debentures to Wood, Gundy & Co. of Toronto on Feb. 26.

**Cambridge Springs, Crawford County, Pa.**—*Bond Sale.*—On Feb. 19 $11,000 4½% bonds, proposals for which were asked until Feb. 3, were awarded to the First National Bank of Cambridge Springs at par. Denomination $500. Interest Jan. 1 and July 1.

**Canfield Township (P. O. Canfield), Mahoning County, Ohio.**—*Bonds Defeated.*—An election held here Feb. 18 resulted in the defeat of a proposition to issue $50,000 bonds. The vote was 49 "for" to 71 "against."

**Canton, Haywood County, N. C.**—*Bond Offering.*—Proposals will be received until April 1 by J. W. Scott, Town Clerk, for $65,000 5% 30-year sewerage water-supply, electric-light, school and street-improvement bonds. Denomination $1,000. Certified check for $100 is required.

**Canton, Ohio, Union School District.**—*Bids.*—Following is a list of the bids received on Feb. 27 for the $30,000 4% 20-year coupon public-school-property-improvement bonds awarded, as stated in V. 86, p. 558, to the Western German Bank of Cincinnati:

| | | | |
|---|---|---|---|
| Western German Bk., Cin. | $30,165 50 | H. E. Fife, Canton | $30,011 50 |
| Breed & Harrison Cin | 30,159 50 | Cleveland Trust Co., Cle | 30,123 00 |
| Seasongood & Mayer, Cin. | 30,150 00 | | |

**Carberry, Man.**—*Debenture Sale.*—G. A. Stimson & Co. of Toronto, according to reports, were recently awarded $11,367 5% debentures maturing part yearly for twenty years.

**Carman, Man.**—*Debenture Sale.*—According to reports, the $16,000 5% coupon water-works and sewer debentures, proposals for which were asked until Feb. 25 (V. 86, p. 433), have been sold to G. A. Stimson & Co. of Toronto. Debentures are dated June 30 1907 and mature part yearly on June 30 from 1908 to 1927 inclusive.

**Champaign County (P. O. Urbana), Ohio.**—*Bond Sale.*—On March 2 the $1,400 4% coupon Mohr Ditch construction bonds, maturing $140 each six months from Sept. 5 1908 to March 5 1913, inclusive, were awarded to the Citizens' National Bank of Urbana at par while the $3,610 4% coupon Hodge Joint Ditch construction bonds maturing $370 on Sept. 5 1908 and $360 each six months from March 5 1909 to March 5 1913 inclusive were awarded: $2,520 to W. R. Ross of Urbana at 101.40 and $1,090 to Miles Bodey of St. Paris for $1,091 75—the price thus being 100.16. See V. 86, p. 433, for a description of these bonds.

**Charleston, Kanawha County, W. Va.**—*Bond Sale.*—On Feb. 21 the nine issues of 4½% bonds, aggregating $170,000, offered without success on Oct. 28 (V. 85, p. 1658) were awarded to Seasongood & Mayer at par and accrued interest. A bid of par was also received from the Union Savings Bank & Trust Co. of Cincinnati.

**Chemung County (P. O. Elmira), N. Y.**—*Bond Sale.*—We are advised that the $15,300 5% 1-year road-improvement bonds, bids for which were rejected on Jan. 28 (V. 86, p. 299), have been disposed of at par.

**Chicago, Ill.**—*Bond Sale.*—We are advised by wire that this city on March 6 awarded $1,000,000 4½% bonds to the syndicate headed by Lee, Higginson & Co. of Chicago for $1,028,127 (102.812) and accrued interest. The following bids were received:

| | | | |
|---|---|---|---|
| Lee, Higginson & Co., Chic | $1,028,127 | W. H. Colvin & Co. (for $50,000 bonds) | $51,425 |
| Harris Tr. & Savs. Bk., Chic | 1,026,830 | | |

Bonds mature $56,000 yearly from January 1911 to January 1927 inclusive and $48,000 in January 1928.

**Claremore, Okla.**—*Bond Sale.*—On Feb. 20 an issue of $20,000 5% 20-year school-building bonds was purchased at par by G. D. Davis, Cashier of the Bank of Claremore. Denomination $1,000. Date Sept. 1 1907. Interest semi-annual.

**Clark County (P. O. Springfield), Ohio.**—*Bond Sale.*—On March 2 the $4,990 4% coupon Hodge Joint Ditch bonds described in V. 86, p. 241, were awarded to Lawrence E. Saybourne for $5,013 (100.46) and accrued interest. A bid was also received from L. H. Houston of South Charleston. Maturity $490 on March 2 1909 and $500 each six months from Sept. 2 1909 to Sept. 2 1913 inclusive.

**Clarksdale, Coahoma County, Miss.**—*Bond Sale.*—Reports state that on Feb. 25 the $30,000 school-building, $30,000 water-works-plant-construction and the $30,000 street-improvement 5% coupon bonds offered but not sold on June 4 1907 (V. 86, p. 299), were awarded to the Thomas J. Bolger Co. of Chicago at par.

**Cleveland, Ohio.**—*Vote.*—The unofficial vote cast at the election held March 3 to vote upon the propositions to issue the $725,000 sewer bonds and the $225,000 paving bonds mentioned in V. 86, p. 181, was 13,603 "for" to 6,704 "against" on the former, and 12,729 "for to 6,561 "against" on the latter proposition. It will require an official canvass to determine whether 2-3 of the votes cast were in favor of the propositions.

*Bonds Withdrawn from Market.*—We are advised that the $250,000 paving-intersection fund (city's portion) and $40,000 sewer-intersection fund 4% coupon bonds, mention of which was made in V. 86, p. 181, have been withdrawn from the market and destroyed.

**College Hill (P. O. Station K, Cincinnati), Ohio.**—*Bonds Not to Be Offered at Present.*—The Village Clerk advises us that, owing to the amount of preliminary work to be done, no steps have yet been taken looking towards the offering of the $45,000 sewer bonds voted (V. 86, p. 182) on Jan. 15.

**Commerce, Hunt County, Texas.**—*Description of Bonds.*—We are informed that the $16,000 4½% 20-30-year (optional) coupon water-works bonds offered but not awarded on Oct. 7 1907 and registered by the State Comptroller on Dec. 12 1907 (V. 85, p. 1658) are in denomination of $500 and are dated Aug. 1 1907. Interest semi-annual.

**Concordia Parish School Districts Nos. 1 and 2, La.**—*Bonds Not Yet Sold.*—Under date of Jan. 31 we are informed that the $1,500 District No. 1 and the $3,000 District No. 2, 5% 1-5-year (serial) coupon bonds, proposals for which were asked for at any time (V. 85, p. 1658), are not yet sold.

**Cook County (P. O. Chicago), Ill.**—*Bond Election.*—At the spring election next month the question of issuing $2,000,000 bonds for an infirmary for consumptives and a poor farm near Blue Island will be voted upon.

**Corinth Union Free School District No. 7 (P. O. Corinth), N. Y.**—*Description of Bonds.*—We are advised that the $20,000 4½% registered school-house bonds offered without success on Feb. 3 (V. 86, p. 361) are dated Nov. 1 1906 and are exempt from all taxation. Denomination $1,000. Interest annually at the Corinth National Bank of Corinth. Maturity $2,000 yearly on Nov. 1 from 1911 to 1920 inclusive. Total debt this issue. Assessed valuation $780,000.

**Croswell, Sanilac County, Mich.**—*Bond Offering.*—Proposals will be received until March 16 for the $18,000 4½% coupon street-improvement bonds offered but not sold on Aug. 26 1907.

**Denver, Col.—Montclair Park District.**—*Bond Offering Postponed.*—Dispatches state that the offering of the $397,700 6% 5-17-year (optional) park bonds which was to have taken place March 3 (V. 86, p. 434) has been postponed until March 24.

**Devil's Lake, Ramsey County, N. D.**—*Bond Sale.*—On Feb. 1 an issue of $12,000 5½% 10-year refunding bonds dated Feb. 1 1908 was awarded to the American Order of United Workmen of North Dakota at par. Denomination $1,000. Interest semi-annual.

**Dixon School District (P. O. Dixon), Lee County, Ill.**—*Bond Offering.*—Proposals will be received until 1 p. m. March 12 by E. W. Smith, Secretary, for $50,000 5% coupon school-building bonds. Denomination $500. Date March 12 1908. Interest annually on July 1 in Dixon. Maturity $3,000 yearly, beginning July 1 1914. Certified check on a local bank for $2,500 is required. Total debt at present $6,000.

**Douglas County (P. O. Omaha), Neb.**—*Bond Election Proposed.*—The County Commissioners are considering the advisability of calling an election some time next May to vote on the question of issuing court-house and jail bonds.

**Douglas County School District No. 4, Ore.**—*Bond Sale.*—On Feb. 10 an issue of $9,300 4½% refunding bonds was awarded to the following bidders at par for 4½s:

| | | | |
|---|---|---|---|
| F. R. Sheridan | $3,000 | E. M. Moore Sr | $1,000 |
| G. W. Kimball | 2,100 | Chas. B. Arnold | 800 |
| H. Little | 2,000 | Carl Schunnstein | 400 |

Interest annual. Maturity part yearly on Feb. 20 from 1909 to 1913 inclusive.

**Dublin, Laurens County, Ga.**—*Bonds Voted.*—The questions of issuing the $25,000 paving, $25,000 improvement, $12,000 school and $3,000 park 5% 29-year bonds mentioned in V. 86, p. 182, received a vote of 343 to 32 at the election held Feb. 25.

**Dundee, Monroe County, Mich.**—*Bids Rejected—Bond Offering.*—All bids received on March 2 for the purchase of the $13,357 74 6% Special Paving District No. 1 bonds, mentioned in V. 86, p. 559, were rejected. These securities will again be offered for sale and proposals will be received, this time until March 27. Fred. B. Clark is Village Clerk.

**El Paso County (P. O. El Paso), Tex.**—*Bonds Voted and Sold.*—On Jan. 4 this county voted to issue $28,000 court-house bonds. These securities, we are informed, will be taken by the State Permanent School Fund.

**Florence School District (P. O. Florence), Florence County, S. C.**—*Bond Offering.*—Proposals will be received until 12 m., March 20, by the Board of School Commissioners, J. L. Mann, Secretary, for $35,000 5% bonds. Authority, an Act of the Legislature approved in Feb. 1908. Denomination $1,000. Date May 1 1908. Interest semi-annual. Maturity May 1 1928. Certified check for $500 is required.

**Fort Morgan School District No. 3 (P. O. Fort Morgan), Morgan County, Col.**—*Bond Offering.*—Proposals will be received until 6 p. m. April 1 by L. C. Baker, Secretary Board of School Directors, for the following bonds:

$15,000 5% building bonds. Denomination $5,000. Maturity fifteen years, subject to call after five years.
15,000 5% refunding bonds. Denomination $500. Maturity twenty years, subject to call after ten years.

Date April 1 1908. Interest semi-annually at the County Treasurer's office at Fort Morgan. Certified check or deposit of $2,000 is required. Accrued interest to be paid by purchaser.

**Fostoria, Seneca County, Ohio.**—*Bond Sale.*—The $6,000 refunding Sewer District No. 1 and the $2,000 North Main Street improvement 4% 17-year bonds described in V. 86,

p. 496, were sold on March 2 to Dennison & Farnsworth of Cleveland and Boston at 100.087 and accrued interest. The bids received were as follows:

| | | | |
|---|---|---|---|
| Denison & Farnsworth, Cleveland and Boston | $8,007 | R. Kleybolte & Co., Cin. | $8,005 |
| | | Chas. C. Murray & Co., Cin. | 8,000 |

All bidders offered accrued interest in addition to their bids.

**Galveston County (P. O. Galveston), Tex.**—*Bond Offering.*—Proposals were asked for up to 3 p. m. yesterday (March 6) by John M. Murch, County Auditor, for the following bonds:

$31,000 seawall and breakwater bonds.
1,700 general funding scrip bonds.
1,200 road and bridge scrip funding bonds.

The result of this offering was not known to us at the hour of going to press.

**Gardner, Worcester County, Mass.**—*Note Sale.*—Reports state that on March 3 an issue of $5,000 park notes was awarded to the Westminster National Bank of Gardner at 100.52 for 5s. Denomination $1,000. Date March 2 1908. Maturity $1,000 yearly. Interest semi-annual. Following are the bids:

| | | | |
|---|---|---|---|
| Westminster National Bank, Gardner | $5,026 | Capitol Savings Bank & Trust Co., Montpelier | Par |
| Gardner Sav. Bank, Gardner | Par | | |

**Gloversville, Fulton County, N. Y.**—*No Action Yet Taken.*—The City Chamberlain writes us that up to Feb. 5 no date had yet been set for the offering of the $75,000 high-school bonds voted last September. See V. 85, p. 1227.

**Graham Independent School District (P. O. Graham), Young County, Tex.**—*Bonds Registered.*—School-house bonds to the amount of $18,000 were registered on Jan. 18 by the State Comptroller. Bonds carry 5% interest and mature Dec. 1 1923, but are subject to call in five and ten years after date.

**Grand Forks County (P. O. Grand Forks), N. D.**—*Bonds Not Yet Sold.*—In reply to our inquiry as to whether any action had been taken looking towards the re-offering of the $15,500 7% coupon Drain No. 4 construction bonds which were offered but not disposed of on Dec. 10 1907 (V. 85, p. 1536), the County Auditor advises us that it is not expected that they will again be placed on the market as the cost of constructing the drain will be paid for from time to time from the tax levy raised for that purpose.

**Greensville County (P. O. Emporia), Va.**—*Bond Offering.*—At 12 m. March 23 B. W. Wyche, County Treasurer, will offer at public auction $7,000 6% court-house-repair bonds. Denomination $1,000. Date March 23 1908. Interest Jan. 1 and July 1. Maturity $1,000 yearly on Jan. 1 from 1909 to 1915 inclusive.

**Greenville, Greenville County, S. C.**—*Bond Sale.*—On Feb. 26 the $18,000 5% 20-year coupon refunding bonds described in V. 86, p. 497, were awarded to Thackston & Son at 102.916. The following is a list of the bids received:

| | | | |
|---|---|---|---|
| Thackston & Son | $18,525 00 | Thos. J. Bolger & Co., Chi. | $18,137 50 |
| Weil, Roth & Co., Cin | 18,321 00 | E. H. Rollins & Son., Chi | 18,059 40 |
| Robinson Humphrey Co., Atlanta | 18,237 50 | Dewitt, Trimble & Co., Chi | 18,051 00 |

**Grimstad, Roseau County, Minn.**—*Bond Offering.*—Proposals will be received until 2 p. m., April 16, by Peter Palmeson, Town Clerk (P. O. Garland), for a $6,000 road-building bond at not exceeding 6% interest. Authority, Chapter 64, General Laws of 1905; also election held Jan. 25 1908. Date May 1 1908. Interest annually on July 1. Maturity May 1 1928.

**Guelph, Ont.**—*Debenture Sale.*—On Feb. 26 $33,000 5% debentures were disposed of, it is stated, to Wood, Gundy & Co. of Toronto.

**Hamilton, Ohio.**—*Purchaser of Bonds.*—We are informed that the $15,168 87 4½% coupon Park Avenue improvement assessment bonds, mention of which was made in V. 86, p. 435, were awarded on Feb. 7, and not on Jan. 22 as at first reported. The purchaser was W. R. Todd & Co. of Cincinnati and the price paid was $15,303 87, or 100.889. Maturity part yearly on Dec. 1 from 1908 to 1917 inclusive.

**Harrisburg School District (P. O. Harrisburg), Dauphin County, Pa.**—*Bond Offering.*—Proposals will be received by D. D. Hammelbaugh, Secretary of the School Board, for $65,000 4% gold coupon school bonds. Denomination $1,000. Date Jan. 1 1908. Interest semi-annually at the office of the City Treasurer. Bonds will be certified to as to their genuineness by the Columbia Trust Co. of New York City. Bids must be made on a blank form furnished by the city and must be accompanied by a certified check for 2% of the bonds bid for, payable to the District Treasurer. Bonds will be ready for delivery any time after March 15. Purchaser to pay accrued interest. These securities are part of the $69,000 bonds offered but not sold on Jan. 18 (V. 86, p. 123). Of the total issue, $4,000 has been purchased by N. W. Halsey & Co. of New York City at par and interest.

**Hartwell, Hart County, Ga.**—*Bonds Not Sold.*—A letter received on March 2 from the City Secretary and Treasurer stated that the $16,000 5% 10-25-year (serial) gold coupon school-house bonds dated July 1 1907 and described in V. 86, p. 241, were not yet sold.

**Hastings County, Ont.**—*Debenture Sale.*—According to the "Toronto Globe," this county recently disposed of $20,000 5% bridge debentures to Aemilius Jarvis & Co. of Toronto. Maturity part yearly for twenty years.

**Hildreth, Franklin County, Neb.**—*Bonds Not Yet Sold.*—Under date of Feb. 21 the Village Clerk, A. L. Beck, informs us that no sale has yet been made of the $10,000 6% 5-20-year (optional) coupon water-works-construction bonds described in V. 86, p. 182.

**Huntsville, Madison County, Ala.**—*Bond Sale.*—An issue of $18,000 5% bonds has been awarded, it is stated, to Horace E. Garth at par.

**Irvington (P. O. Station Newark), N. J.**—*Bond Offering.*—Proposals will be received until March 17 by the Town Council for $58,000 4½% school-building-addition bonds. Denomination $1,000. Interest semi-annual. Maturity fifty years.

**Jefferson, Ashtabula County, Ohio.**—*Bond Sale.*—Dispatches report that $40,000 4½% water-works bonds were recently purchased by Weil, Roth & Co. of Cincinnati for $42,011—the price thus being 105.027. These bonds were offered without success as 4s (V. 84, p. 1321) on May 27 1907.

**Jennings, Calcasieu Parish, La.**—*Bonds Not Yet Sold.*—We are informed, under date of Jan. 22, that the city has been unable to find a purchaser for the $40,000 5% 30-40-year (optional) school-building bonds mentioned in V. 85, p. 616. Securities are dated July 1 1907. Interest semi-annual.

**Kamsack School District, Sask.**—*Debenture Offering.*—Proposals will be received until April 14 by E. C. Lawrence, Secretary-Treasurer of the School Board, for $5,000 school debentures. Maturity twenty years.

**Kankakee, Kankakee County, Ill.**—*Description of Bonds.*—We are advised that the $12,000 5% judgment bonds recently purchased by N. W. Halsey & Co. of Chicago (V. 86, p. 497) "at par and accrued interest and a premium" are in the denomination of $1,000 and are dated Jan. 1 1908. Interest annual. Maturity part yearly from 1909 to 1914 inclusive.

**Kearny (P. O. Jersey City), Hudson County, N. J.**—*Bond Sale.*—John D. Everitt & Co. of New York City advise us that they recently purchased the $23,000 5% 20-year fire-house and site-purchase bonds, the $62,000 5% 25-year school-building and site-purchase bonds and the $150,000 5% 6-10-year (serial) street and sewer improvement bonds first offered (V. 85, p. 1163) on Oct. 30 1907.

**Kettle River Township (P. O. Willow River), Pine County, Minn.**—*Bids Rejected.*—On Feb. 25 the Township Supervisors rejected all bids received for the $7,500 refunding bonds described in V. 86, p. 242.

**Knoxville, Tenn.**—*Bond Offering.*—Proposals will be received until 10 a. m. March 10 for the $60,000 6% coupon street-improvement (city's portion) bonds mentioned in V. 86, p. 560. Denomination $500. Date April 1 1908. Interest semi-annually in Knoxville. Maturity $20,000 on Oct. 1 in each of the years 1908, 1909 and 1910. W. O White is City Comptroller.

**Leadwood School District No. 63 (P. O. Leadwood), St. Francois County, Mo.**—*Bonds Withdrawn from the Market.*—We are advised that, owing to the discovery of an error in the proceedings, the $25,000 5% registered school-building bonds which this district has been offering for sale (V. 86, p. 182) have been withdrawn from the market.

**Lenoir, Caldwell County, N. C.**—*Bond Sale.*—The $80,000 6% 30-year water and sewerage bonds offered on Feb. 15 and described in V. 86, p. 435, were awarded to Emery, Anderson & Co. of Cleveland at 104.40 and accrued interest.

**Liberty, Amite County, Miss.**—*No Action Yet Taken.*—No steps have yet been taken looking towards the re-offering of the $10,000 6% bonds offered but not awarded on May 7 1907. The Town Clerk states that he is unable to say when any action will be taken in this matter.

**Lima, Allen County, Ohio.**—*Bond Sale.*—The following bonds were sold on Feb. 27 to the Securities Savings Bank & Trust Co. of Toledo at 103.077—a basis of about 4.243%:

$5,400 00 5% South Broadway paving refunding bonds. Denomination $600.
3,376 80 5% North Cole Street paving refunding bonds. Denomination $375 20.
4,382 10 5% South Baxter Street paving refunding bonds. Denomination $486 90.

The bids received were as follows:

| | | | |
|---|---|---|---|
| Sec. Sav. Bk & Tr. Co., Tol | $13,563 90 | Weil, Roth & Co., Cincin. | $13,422 90 |
| Otis & Hough, Cleveland | 13,555 90 | Old National Bank, Lima | *a*3,503 39 |
| The Lima Trust Co., Lima | 13,458 90 | | |

*a* For $3,376 80 Cole Street bonds. We are informed that this bid was "irregular."

Bonds are dated Feb. 1 1908. Interest annually on March 1 at the office of the Sinking Fund Trustees. Maturity one-ninth of each issue yearly on March 1 from 1909 to 1917 inclusive.

**London, Madison County, Ohio.**—*Bids Rejected.*—All bids received on Feb. 28 for the $2,241 42 5% High Street improvement assessment bonds described in V. 86, p. 497, were rejected.

**Louisville, Jefferson County, Ky.**—*Bonds Awarded in Part.*—Up to and including Feb. 29 $84,000 more of the $1,000,000 4% Louisville Water Co. gold coupon mortgage bonds mentioned in V. 86, p. 124, had been sold at par and interest. This makes a total of $687,000 bonds disposed of up to date. Bonds are dated July 2 1906 and mature July 2 1946.

*Bond Sale.*—During the months of January and February the remainder of the $1,000,000 4% 40-year gold coupon sewerage-system-construction bonds which this city has been selling from time to time since July 10 1907 (V. 86,

p. 124) were disposed of. We are informed that $98,000 were disposed of in January and $200,000 in February.

**Loveland School District No. 2 (P. O. Loveland), Larimer County, Col.**—*Bonds Not Yet Sold.*—We are informed that this district has not as yet disposed of the $5,000 5% building bonds mentioned in V. 84, p. 1659.

**Lumberton, Robeson County, N. C.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 23 by E. J. Britt, Mayor, for $25,000 6% gold coupon funding bonds. Denomination $500. Date July 1 1908. Interest semi-annually at place designated by purchaser. Maturity July 1 1938. Bonds are exempt from municipal taxation. Certified check for $500, payable to E. J. Britt, Mayor, is required.

**Luzerne County (P. O. Wilkes-Barre), Pa.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 19 by James M. Norris, County Comptroller, for $300,000 4½% coupon bonds. Denomination $1,000. Date Dec. 1 1907. Interest semi-annual. Maturity $15,000 yearly from 1912 to 1916 inclusive, $18,000 yearly from 1917 to 1920 inclusive, $19,000 in 1921 and $19,000 in 1922 and $23,000 yearly from 1923 to 1927 inclusive. Bonds are tax free in Pennsylvania. The legality of the bonds has been approved by John G. Johnson, Esq., of Philadelphia. Certified check for 2% of bid is required. Of the total issue, $200,000 will be delivered on April 1 and the balance within thirty days, at option of purchaser. James A. Dewey is Deputy County Comptroller.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Lynn, Mass.**—*Temporary Loan.*—This city recently negotiated a loan of $75,000, maturing in six months, with Loring, Tolman & Tupper of Boston at 4.54% discount.

**Madisonville (P. O. Station M, Cincinnati), Hamilton County, Ohio.**—*Bonds Proposed.*—According to reports in local papers, the Village Solicitor has been instructed to draft an ordinance providing for the issuance of $10,000 electric-light-plant-improvement bonds.

**Manchester, Hillsboro County, N. H.**—*Temporary Loan.*—This city recently borrowed $100,000 from Bond & Goodwin at 4.60% interest, loan maturing Dec. 9 1908.

**Marion County (P. O. Indianapolis), Ind.**—*Bond Offering.*—Proposals will be received until 12 m., April 11, by Albert Sahm, County Auditor, for the following bonds, mention of which was made in V. 86, p. 560:

$200,000 3½% refunding court-house bonds. Denomination $1,000. Date Jan. 1 1908. Maturity Jan. 1 1928.
100,000 3½% bridge construction bonds. Denominations $500 and $1,000. Date May 1 1908. Maturity May 1 1928.

Interest semi-annual. Certified check for 3% of the bonds bid for, made payable to the Board of County Commissioners, and drawn on some reliable bank of Indianapolis, is required. Bid must be made on printed form furnished by the County Auditor and be accompanied by an affidavit of non-collusion, as provided by law. Purchaser to pay accrued interest.

**Maxton, Robeson County, N. C.**—*Bond Offering.*—Proposals will be received until 7:30 p. m. April 7 by R. M. Williams, Mayor, or McLean & Black, Attorneys for the Board of Commissioners for the $50,000 5½% water-works and sewerage bonds voted on Dec. 9 1907. Denomination $1,000. Interest semi-annual. Maturity thirty years. Certified check for $1,000, payable to R. M. Williams, Mayor, is required. Date April 20 1908. Interest payable at the Bank of Maxton.

**Medford, Taylor County, Wis.**—*Bond Sale.*—On Feb. 25 $30,000 4½% coupon water-works-improvement and extension bonds described in V. 86, p. 301, were awarded to Thomas J. Bolger & Co., Chicago, at par, less $870 for attorneys' fees and blank bonds. A bid was also received from the Harris Trust & Savings Bank of Chicago for par, less $875 for attorneys' fees and blank bonds. Maturity $2,000 yearly on March 1 from 1909 to 1923 inclusive.

**Memphis, Shelby County, Tenn.**—*Bond Sale Not Consummated.*—In local papers it is reported that the sale of the $551,000 4½% 30-year coupon Flippen compromise refunding bonds, which were awarded on May 29 1907 to the Manhattan Savings Bank & Trust Co. of Memphis and MacDonald, McCoy & Co. of Chicago (V. 84, p. 1322), was never consummated. It is also stated that these bonds will shortly be re-offered for sale.

**Mercer Special School District (P. O. Mercer), Mercer County, Ohio.**—*Bond Sale.*—On March 3 the $7,000 5% school-building bonds described in V. 86, p. 497, were awarded to the New First National Bank of Columbus at 105.457 and accrued interest. Following is a list of the bids received.

| | | | |
|---|---|---|---|
| The New 1st Nat. Bk., Col. | $7,382 00 | The Sec. Sav. Bk. & Tr. Co., Tol | $7,072 00 |
| Jno. M. Schlosser, Celina | 7,290 40 | Citizens' Banking Co., Celina | 7,005 00 |
| W. J. Hayes & Sons, Cleve. | 7,202 00 | The 1st Nat. Bk., Celina | 7,003 00 |
| Hayden, Miller & Co., Cleve | 7,157 00 | Commercial Bank | 7,001 00 |

Maturity $400 yearly on Aug. 20 from 1910 to 1914 inclusive, $500 yearly on Aug. 20 from 1915 to 1918 inclusive and $600 yearly on Aug. 20 from 1919 to 1923 inclusive.

**Middleton, Butler County, Ohio.**—*Price Paid for Bonds.*—We are advised that the price paid for the $2,041 29 5% 1-10-year (serial) sewer-construction assessment bonds awarded on Feb. 25 to the Provident Savings Bank & Trust Co. was 103.79 and accrued interest. Following are the bids:

| | | | |
|---|---|---|---|
| Prov. Sav. Bk. & Tr. Co. | $2,118 50 | W. R. Todd & Co., Cin. | $2,113 29 |
| Monroe Nat. Bk., Monroe | 2,089 99 | Merch. Nat. Bk., Middlet'n | 2,066 29 |

**Mineola, Nassau County, N. Y.**—*Bonds Legalized.*—Governor Hughes on Feb. 27 signed the bill passed by the last Legislature which legalizes the issue of $40,000 water bonds awarded last August to O'Connor & Kahler of New York City. See V. 85, p. 484.

**Minneapolis, Minn.**—*Bonds Authorized.*—We see it reported that the City Council recently passed ordinances providing for the issuance of $2,000,000 bonds for a municipal gas plant; $200,000 for trunk sewers; $50,000 for park improvements; $250,000 for the permanent improvement revolving fund, and $100,000 for permanent improvements.

**Mississippi County (P. O. Charleston), Mo.**—*Bond Offering.*—Among the advertisements elsewhere in this Department will be found the notice of the offering of $205,000 6% coupon drainage bonds to be issued April 1 1908. Details of issue will be furnished by C. M. Davis, County Clerk.

**Moundsville Independent School District (P. O. Moundsville), Marshall County, W. Va.**—*Bond Election.*—The Board of Education has decided to submit to a vote of the people on March 14 the question of issuing $35,000 5% coupon bonds for the purpose of building an addition to the school in the First Ward. Denomination $500. Date March 1 1908. Interest annually at the Mount City Bank in Moundsville. Maturity "on or before March 1 1928.

**Mount Vernon, Westchester County, N. Y.**—*Bond Offering.*—Attention is called to the advertisements elsewhere in this Department of the offering on March 17 of the $60,000 5% tax relief bonds and the $35,000 5% school-tax-relief bonds to be sold on that day. Description of bonds and terms of offering were given in last week's issue.

**Nashville, Davidson County, Tenn.**—*Bonds to Be Offered in the Spring.*—City Recorder H. S. Bauman advises us that the $200,000 water-main-extension bonds authorized at the election held Oct. 10 1907 (V. 85, p. 1041) will probably be offered for sale some time in the spring.

**Natchez, Adams County, Miss.**—*Bond Offering.*—Proposals will be received until March 18 by the Mayor and the Board of Aldermen for $6,000 7% street-paving (city's portion) bonds. Denomination $500. Interest annual. Maturity three years from date of issue. George T. Eisele is City Clerk.

**Newfolden School District (P. O. Newfolden), Marshall County, Minn.**—*Bond Sale.*—We are informed that the State of Minnesota has taken at par the $4,000 4% school-building bond mentioned in V. 86, p. 242. Date Feb. 10 1908. Interest annually in July. Maturity July 1927, subject to call at any time.

**New Kensington School District (P. O. New Kensington), Westmoreland County, Pa.**—*Purchaser of Bonds.*—We are advised that the purchaser of the $38,000 5% 15-30-year (optional) school-building-improvement bonds mentioned in V. 86, p. 242, was N. W. Harris & Co., New York. The district is still in the market with the remaining $25,000 bonds.

**Newport, R. I.**—*Temporary Loan.*—This city has borrowed $30,000 from Bond & Goodwin of Boston at 4.60% discount. Loan matures Sept. 15 1908.

**New Scotland, Albany County, N. Y.**—*Bond Sale.*—On Feb. 29 the $18,000 5% 5-10-year (serial) coupon highway-improvement bonds described in V. 86, p. 561, were awarded to J. H. Loucks at 101.105—a basis of about 4.843%.

**Newton Falls, Trumbull County, Ohio.**—*Bonds Voted.*—It is stated that the election held Feb. 24 to determine whether or not this village should issue the $20,000 water-works-system bonds mentioned in V. 86, p. 498, carried by a vote of 191 to 3.

**New York City.**—*Bond Sales in February.*—In addition to the $50,000,000 4½% corporate stock and bonds sold on Feb. 17 (V. 86, p. 498) $667,000 3% corporate stock due in 1957 was purchased in February by the sinking fund.

The following revenue bonds (temporary securities) were also issued:

| | *Interest.* | *Maturity.* | *Amount.* |
|---|---|---|---|
| Revenue bonds, current expenses | 2 | | $2,500,000 |
| Revenue bonds, special | 4½ | Jan. 15 1909 | 28,000 |
| Revenue bonds, special | 4½ | (On or after) Jan. 2 1909 | 150,000 |
| Revenue bonds, special | 4⅝ | | 400,000 |
| Total | | | $3,078,000 |

**North Bend School District No. 13, Coos County, Ore.**—*Bond Offering.*—Proposals will be received until 8 p. m. April 1 by C. E. Maybee, District Clerk, for $40,000 5% gold school-building bonds. Authority, election held Jan. 25 1908. Interest April 15 and Oct. 15. Maturity April 15 1928, subject to call after April 15 1918. Certified check for $2,000, payable to "School District No. 13, Coos County, Ore.," is required. Purchaser to furnish blank bonds. Bonded debt, including this issue, is $50,000. Assessed valuation for 1907, $1,282,126. Actual value (estimated), $2,500,000.

**Norwich, Chenango County, N. Y.**—*Loan Authorized.*—Reports state that at an election held March 2 this village

was authorized to borrow $20,000 for repairing the municipal building, by a vote of 279 to 102.

**Okmulgee, Okla.**—*Bond Sale.*—We are advised by George E. Thayer, Recorder, that the $60,000 water-works and the $7,000 sewer-system 5% construction bonds described in V. 86, p. 437, were sold at par to the First National Bank of Okmulgee. Maturity Oct. 24 1927.

**Osceola County Drainage District No. 6 (P. O. Sibley,) Iowa.**—*Bond Sale.*—On Feb. 17 the $6,353 6% coupon bonds described in V. 86, p. 437, were awarded to U. M. Stoddard Co. of Minneapolis for $6,375—the price thus being 100.344. Date April 1 1908. Interest semi-annually at the County Treasurer's office. Maturity $635 30 yearly on April 1 from 1909 to 1918 inclusive.

**Pasadena, Los Angeles County, Cal.**—*Bond Election.*—This city, it is stated, will vote March 13 on the question of issuing $150,000 bonds to improve the city schools.

*Vote.*—We are informed that the election held Feb. 20 to vote upon the question of putting out the two issues of improvement bonds mentioned in V. 86, p. 561, resulted in the following vote:

$50,000 4½ % electric light bonds authorized by a vote of 1,318 "for" to 454 "against."
50,000 4½ % sewer construction bonds authorized by a vote of 1,358 "for" to 390 "against."

**Pelham, Westchester County, N. Y.**—*Bond Offering.*—Proposals were asked for until 8 p. m., yesterday (March 6) by the Board of Village Trustees, for the $8,000 registered street-improvement bonds at not exceeding 5% interest, offered without success on Dec. 18 1907. See V. 86, p. 243. Denomination $500. Date March 1 1908. Interest semi-annually at the Village Treasurer's office or in New York exchange, at option of purchaser. Maturity $500 yearly on March 1 from 1913 to 1928 inclusive. Total debt, not including this issue, $8,000. Assessed valuation for 1907, $1,277,299. R. B. Nutting is Village Clerk. The result of this offering was not known to us at the hour of going to press.

**Portland, Jay County, Ind.**—*Bond Sale.*—The three issues of 6% improvement assessment bonds aggregating $5,731 offered without success on Feb. 3 (V. 86, p. 501) were recently disposed of.

**Portland School District No. 1 (P. O. Portland), Ore.**—*Bond Election.*—The Board of Education has ordered an election to be held April 7 to vote on a proposition to issue $250,000 high-school-building bonds.

**Pueblo, Pueblo County, Col.**—*Bonds Not Yet Sold.*—The City Auditor writes us, under date of Jan. 25 that he has not yet awarded the five issues of bonds, aggregating $19,000, mentioned in V. 85, p. 962.

**Richmond, Henrico County, Va.**—*Bonds Not Yet Sold.*—Edward J. Warren, City Auditor, is still offering, at par and accrued interest, the unsold portion of the issue of $500,000 4% registered bonds mentioned in V. 86, p. 243. Securities are in denominations of multiples of $100. Maturity Jan. 1 1941.

**Rochester, Strafford County, N. H.**—*Bonds Authorized.*—Reports state that the City Council has voted to issue $65,000 4% city-hall bonds. Denomination $100. Date Jan. 1 1908. Interest semi-annual. Maturity part yearly on Jan. 1 from 1912 to 1927 inclusive.

**Rockport (P. O. West Park), Cuyahoga County, Ohio.**—*Bond Sale.*—On March 2 the $13,000 4% 30-year water-main-extension bonds dated Oct. 15 1907 and described in V. 86, p. 302, were sold, according to Ohio papers, to Seasongood & Mayer of Cincinnati for $13,025—the price thus being 100.192—a basis of about 3.99%.

**Rome, Floyd County, Ga.**—*Bonds Awarded in Part.*—Of the three issues of coupon (with privilege of registration) bonds, aggregating $150,000, the following were disposed of at private sale at par and accrued interest:

$50,000 5% 1-10 year (serial) bonds and
$29,000 of the $50,000 4½% 10-20 year (serial) bonds.

B. I. Hughes, Cashier of the First National Bank, who is offering the bonds, acting as agent for the city, advises us that the balance of the 4½s ($21,000) is now under option at the same figure. The $50,000 4% 20-30-year (serial) bonds are still unsold. The date of the bonds has been changed from Sept. 1 1907 to May 1 1908. Interest payable in January and July. For other details of bonds see V. 86, p. 184.

*Bond Election Proposed.*—It is stated that the General Council is considering the question of calling an election to vote on the issuance of $50,000 city-hall bonds.

## NEW LOANS.

### Proposals for $2,000,000

OF

# BALTIMORE CITY STOCK

Baltimore, Md., February 24 1908.

Proposals will be received at the Mayor's office, City Hall, Baltimore until 12 o'clock noon, on MONDAY, MARCH 16, 1908, **for the purchase ,in whole or in part, of $1,000,000 of the registered stock of the City of Baltimore, redeemable on the 1st day of June in the year 1954,** and bearing interest, at the rate of four per centum per annum, payable semi-annually on the first days of June and December in each and every year; the stock to be deliverable on the 1st day of April, 1908, and the interest thereon to commence from the 1st day of December, 1907.

This stock is issued in pursuance of anAct of the General Assembly of Maryland passed at its January session in the year 1904, Chapter 274, and by virtue of the Ordinance No.216 of the Mayor and City Council of Baltimore approved March 6, 1905, which provided for the issuance of the stock of the Mayor and City Council of Baltimore to an amount not exceeding Two Million Dollars to supply means of defraying the expenses and costs of carrying into execution the plan of improvement adopted or to be adopted under the terms of an Act of the General Assembly of Maryland passed at its January session in the year 1904. Chapter 274, creating a commission to be known as the "Annex Improvement Commission," and authorized and empowered the Commissioners for Opening Streets to perform the duties and functions provided for the Annex Improvement Commission in said Chapter 274 of the Acts of the General Assembly of Maryland of the year 1904, and prescribed the manner in which the Commissioners for Opening Streets shall perform the duties and functions so committed to them, and repealed Ordinance No. 169, approved December 5, 1904, and was ratified by the legal voters of the City of Baltimore at the municipal election held on May 2, 1905.

Also, at the same time and place, proposals will be received **for the purchase, in whole or in part, of $1,000,000 of the registered stock of the City of Baltimore, redeemable on the 1st day of May in the year 1955,** and bearing interest at the rate of four per centum per annum, payable semi-annually on the first days of May and November in each and every year; the stock to be deliverable on the 1st day of April, 1908, and the interest thereon to commence from the 1st day of November, 1907.

This stock is issued in pursuance of an Act of the General Assembly of Maryland passed at its January session in the year 1904, Chapter 338, and by virtue of the Ordinance No. 228 of the Mayor and City Council of Baltimore, approved March 20, 1905, which provided for the issuance of the stock of the Mayor and City Council of Baltimore to an amount not exceeding One Million Dollars for the extension of the present park system of the City of Baltimore,and for the development and improvement for park purposes of the lands over which it shall be so extended, in such manner as the Mayor and City Council shall by ordinance prescribe,and was ratified by the legal voters of the City of Baltimore at the municipal election held on May 2, 1905.

The city does not tax ANY of its issues of stock and takes the place of the holder of these two ssues in the payment of the annual State tax thereon for which the holder is legally liable.

All bids must be made at a "price and accrued interest" and no bid for "all or none" will be received.

A deposit with the City Register of a certified check for 2 per cent of the amount of stock awarded, drawn to the order of the Commissioner of Finances, must be made within 24 hours from the time of the award, the same to be held until the certificates of stock are ready for delivery.

Proposals must be sealed and addressed to the "President of the Board of Commissioners of Finance, City Hall, Baltimore, Md.," and marked "Proposal for Baltimore City Stock."

The right is reserved to reject any or all bids.

JOHN M. LITTIG,
President of the Board of Commissioners of Finance for Baltimore City.

ISAAC L. NEWMAN, Clerk.

## NEW LOANS.

### $35,000

### Wilmington, Delaware,

### 4% BONDS.

Sealed bids will be received by the Finance Committee of the Council and the Commissioners of the Sinking Fund of the City of Wilmington until 12:00 O'CLOCK NOON ON MARCH TWENTIETH, 1908, for the purchase of all or any part of Thirty-five Thousand Dollars Bonds, issued as follows:

Twenty Thousand Dollars under the provisions of Section 14 of Chapter 177, Volume 24, Laws of Delaware, and an Ordinance entitled "An Ordinance to borrow Twenty Thousand Dollars Fifteen Thousand Dollars of which shall be used for the purpose of purchasing land for park purposes, and Five Thousand Dollars of which shall be used for the erection of a bath-house in or near Kirkwood Park," passed by Council January 30th, 1908;

Ten Thousand Dollars under the provisions of Chapter 171, Volume 22, Laws of Delaware, and an Ordinance entitled "An Ordinance to authorize the Mayor and Council of Wilmington to borrow Ten Thousand Dollars to be applied and expended under the charge of the Board of Park Commissioners of the said City for the purpose of improving the public parks," passed by Council July 25th, 1907;

Five Thousand Dollars under the provisions of Chapter 163, Volume 23, Laws of Delaware, and an Ordinance entitled "An Ordinance to authorize the Mayor and Council of Wilmington to borrow Five Thousand Dollars to be applied and expended under the charge of the Board of Park Commissioners of the said City for the purpose of improving the public parks," passed by Council July 25th, 1907.

All of the said bonds will bear date of April 1st, 1908; will bear interest at the rate of four per centum per annum, payable semi-annually on April 1 and October 1 of each year, fall due on the first day of October, 1930, and are in denominations of Fifty Dollars or multiples thereof.

All bids must be in sealed envelopes and endorsed; "Bids for the purchase of Wilmington City Bonds," and delivered to the undersigned in the City Treasurer's office at Wilmington, on or before 12:00 o'clock noon on March twentieth 1908.

The right is reserved to reject any and all bids. Each bid must be accompanied by a certified check, payable to City Treasurer of Wilmington on a Bank or Trust Company of Wilmington for 3% of the amount of the par value of the bonds bid for, which amount will be accepted as a part of the purchase price if the bidder is successful, or will be returned if not.

The successful bidder must pay for the bonds on April first, 1908, at 12:00 o'clock noon in the City Treasurer's office at Wilmington, Delaware, at which time said bonds will be ready for delivery.

WM. B. WHITE,
Chairman, Finance Committee.
ALFRED B. MOORE,
WM. T. LYNAM,
FRANK D. MACKEY,
Commissioners of the Sinking Fund.

**Roselle Park School District (P. O. Elizabeth), Union County, N. J.**—*Bond Offering.*—Proposals will be received until 8 p. m. March 16 by J. Wallace Higgins, Clerk of School District, for $68,000 4½% coupon school bonds. Denomination $1,000. Date Jan. 1 1908. Interest semi-annually at the First National Bank in Roselle. Maturity on Jan. 1 as follows: $18,000 in 1928, $25,000 in 1933 and $25,000 in 1938. Bids to be made on blank forms furnished by the city and accompanied by certified check for 2% of the amount of bonds bid for, payable to J. W. Higgins, District Clerk. Bonds will be certified to as to their genuineness by the United States Mortgage & Trust Co. of New York City. The proceedings relative to the issue have been approved by Hon. Robert H. McCarter, Attorney-General of the State of New Jersey. Bonds to be delivered on April 1 1908. Purchaser to pay accrued interest.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Roseville, Placer County, Cal.**—*Bonds Defeated.*—The citizens of this place on Feb. 15 defeated a proposition to issue bonds.

**Roxboro, Person County, N. C.**—*Bonds Not Yet Sold.*—Up to Jan. 23 the 20,000 5% 30-year graded-school-building bonds which this town failed to sell on Aug. 26 1907 (V. 85, p. 680), had not been disposed of.

**Rye, Westchester County, N. Y.**—*Bond Sale.*—The four issues of registered bonds aggregating $480,000, described in last week's issue, were awarded on March 4 to Wm. A. Read & Co. of New York City at 104.31 for 5s.

The following bids were received for 5% bonds:

| | $300,000 sewer bonds. | $40,000 fire-house bonds. | $125,000 street-impr. bonds. | $15,000 dock bonds. |
|---|---|---|---|---|
| Wm. A. Read & Co., N. Y. (for all issues) | 104.31 | | | |
| Kountze Bros., New York (for all issues) | 100.25 | | | |
| A. B. Leach & Co., N. Y. (for all issues) | 100.017 | | | |
| N. W. Harris & Co., N. Y. (for all issues) | 101.314 | | | |
| Adams & Co., Boston | | | | 100.316 |
| Geo. M. Hahn, New York | 100.023 | 100.023 | 100.023 | 100.27 |

**St. Joseph, Buchanan County, Mo.**—*Bond Election.*—An election will be held April 7 to vote on the question of issuing $345,000 4% sewer bonds, to mature in twenty years.

**Salem, Essex County, Mass.**—*Bond Sale.*—This city on Feb. 14 awarded the following-described bonds to the Salem Five Cents Savings Bank at 100.45:

$19,000 4% Forest River Park bonds. Date July 1 1907. Interest semi-annual. Maturity $1,000 yearly from 1908 to 1926 inclusive.
6,000 4% water bonds. Date Oct. 1 1907. Interest semi-annual. Maturity $1,000 yearly from 1914 to 1919 inclusive.

Denomination $1,000.

**Salem, Harrison County, W. Va.**—*Bonds Not Yet Sold.*—We are advised under date of Jan. 23 that no award has yet been made of the $31,500 5% 34-year water-works, paving and sewer bonds mentioned in V. 85, p. 179. These securities were offered on March 14 and again on April 11 1907.

**Schenectady, Schenectady County, N. Y.**—*Bond Offering.*—Proposals will be received until 11 a. m., April 11, by O. S. Luffman, City Comptroller, for $180,000 4½% registered sewer bonds. Authority, Sections 60-61, Chapter 473, Laws 1906. Denomination $1,000. Date April 1 1908. Interest semi-annually at the City Treasurer's office. Maturity $9,000 yearly on April 1 from 1909 to 1928 inclusive. Certified check for 2%, payable to the City Comptroller, is required.

**Seward, Seward County, Neb.**—*Bond Election Date.*—We are informed that the election to vote upon the question of issuing the $10,000 city-hall and fire-engine house construction bonds, mentioned in V. 86, p. 501, will be held April 7.

**Shelby, Cleveland County, N. C.**—*Bonds Not Yet Sold.*—Under date of Jan. 24 Ryburn & Hoey, Attorneys and Counsellors at Law of Shelby, acting as agents for this town, advise us that no sale has yet been made of the $100,000 5% coupon water-works and sewerage bonds, which failed to sell on Sept. 2 1907. See V. 85, p. 1043. They add, however, that proposals for these bonds will be received at any time. Interest is payable semi-annually.

**Sherbrooke, Que.**—*Debenture Offering.*—Proposals will be received until 12 m. March 20 by F. J. Griffith, Secretary-

## NEW LOANS.

**$35,000**

**City of Mount Vernon,**
**Westchester County, N. Y.**

**SCHOOL TAX RELIEF BONDS.**

The Common Council of the City of Mount Vernon, N. Y., will at its Chambers in the Lucas Building, Depot Place, in said City of Mount Verno , N. Y., on the 17TH DAY OF MARCH 1908, at 8 o'clock p. m., receive sealed proposals for the purchase of thirty-five (35) School Tax Relief Bonds of said city, numbered consecutively as issued from 430 to 464, both inclusive, and that the said thirty-five (35) bonds will be sold to the highest bidder at a public sale to be held at said time and place.

These are a series of bonds which are authorized to be issued under and pursuant to Section 229 of Chapter 182 of the Laws of 1892 as amended in 1895. Each bond will be for the principal sum of One Thousand ($1,000) Dollars and will bear interest at the rate of 5 per centum per annum, payable semi-annually at the office of the City Treasurer of the City of Mount Vernon. They will be dated March 1, 1908, and will be payable on the 1st day of March, 1911. The bonds will be delivered to the purchaser on or before the 24th day of March, 1908. Each bid for the said bonds must be accompanied by a certified check for One Thousand ($1,000) Dollars, as security for the performance of the bid if accepted.

That said Common Council will at said time open such proposals as may be received and accept the highest thereof if it deem it for the best interests of the City so to do, but reserves the right to reject any or all bids or proposals should it deem it advisable.

Bonds will be engraved under the supervision of and certified as to their genuineness by the United States Mortgage & Trust Company, and their legality approved by J. H. Caldwell, Esq., of New York City, whose opinion as to legality will be furnished to the purchaser.

By statute the bonds cannot be sold for less than par and accrued interest.

By order of the Common Council of the City of Mount Vernon, N. Y.

Dated Mount Vernon, N. Y., Feb. 20th, 1908.

Said bonds bear interest at the rate of 4% per annum, payable semi-annually, and mature thirty years from April 1, 1908. Principal and interest payable in New York.

No bid will be accepted for less than par and accrued interest.

All proposals must be accompanied by a certified check for bank draft or 2% of the par value of the bonds bid for.

For further particulars address

WM. N. TRACY, City Treasurer.
Stamford, Conn.

Treasurer, for $170,000 5% debentures. Interest payable April 2 and Oct. 2. Maturity part each six months.

**Sheridan School District No. 7 (P. O. Sheridan), Wyo.**—*Bonds Proposed.*—This district has applied to the State of Wyoming for a loan of $18,000, carrying 5% interest, with which to build a school.

**Skaneateles School District (P. O. Skaneateles), Onondaga County, N. Y.**—*Bonds Defeated.*—At an election held Feb. 22 a proposition to issue $20,000 school-building-addition construction bonds was defeated by a vote of 62 "for" to 96 "against."

**Statesville, Iredell County, N. C.**—*Bond Offering.*—Proposals were asked for until 12 m. yesterday (March 6) for $25,000 5% coupon funding bonds. Interest semi-annually at the office of the City Treasurer. Maturity thirty years. Official advertisement states that there is no litigation threatened or pending affecting this issue of bonds, and that the city has never defaulted in the payment of principal or interest on its bonds. The result of this offering was not known to us at the hour of going to press.

**Stevens Point, Portage County, Wis.**—*Bonds Not Yet Sold.*—No award has been made of the $10,000 4% bonds mention of which was made in V. 85, p. 1477.

**Summerberry School District No. 33 (P. O. Summerberry), Sask.**—*Debenture Offering.*—Proposals will be received until April 1 by James Alex. M'Cowan, Secretary-Treasurer, for $10,000 6% school debentures. Interest annual. Maturity twenty years.

**Taylor, Williamson County, Texas.**—*Bond Election.*—At an election to be held April 14 the voters will decide whether or not this city shall issue $25,000 5% 20-40-year (optional) street-improvement bonds.

**Toledo, Ohio.**—*Bond Offering.*—Proposals will be received until 7:30 p. m. April 1 by Amos M'Donnall, City Auditor, for the following bonds:

$230,000 4% coupon water works-improvement bonds dated Feb. 1 1908. Maturity $50,000 on Feb. 1 in each of the years 1916, 1917 1918 and 1919 and $30,000 on Feb. 1 1920.
140,000 4% coupon street-improvement and sewer construction (city's portion) bonds dated Feb. 1 1908. Maturity Feb. 1 1918.
30,000 4% coupon fire-engine-house-construction bonds dated March 1 1908. Maturity March 1 1928.

Authority resolutions passed by City Council Jan. 27. The above bonds are in denomination of $1,000 each. Interest semi-annually at the United States Mortgage & Trust Co. of New York City. Certified check on a national bank of Toledo for 5% of the amount of bonds bid for, payable to the City Auditor, is required. Purchaser to pay accrued interest.

**Troy, Rensselaer County, N. Y.**—*Certificate Sale.*—On Feb. 29 the $150,000 5% certificates of indebtedness described in V. 86, p. 563, were awarded to the Troy Savings Bank at par. Maturity Oct. 29 1908.

**Truckee Sanitary District (P. O. Truckee), Nevada County, Cal.**—*Bonds Not Yet Sold.*—Under date of Jan. 24 we are advised that this district has not yet succeeded in selling the $16,000 5% 1-20-year (serial) gold coupon sewer-construction bonds which were offered without success on Sept. 7 1907, as stated in V. 85, p. 1231.

**Trumbull County Road District No. 1 (P. O. Warren) Ohio.**—*Bond Offering.*—Proposals will be received until 1 p. m. March 27 by Jennie B. Griffith, Clerk of the Board of Road Commissioners, for $10,000 5% coupon road-improvement bonds. Authority Sections 4757-1 to 4757-21 inclusive of the Revised Statutes. Denomination $1,000. Date March 1 1908. Interest semi-annually at the County Treasurer's office. Maturity March 1 1923. Certified check for $500 is required.

**Tuckahoe, Westchester County, N. Y.**—*Bond Sale.*—On March 4 $6,000 sewer-extension and $3,000 Breckenridge Street improvement registered bonds were awarded, we are advised, to Rudolph Kleybolte & Co. of New York City as 4.95s. Denomination $500. Date April 1 1908. Interest semi-annually at the First National Bank of Mount Vernon. These bonds were previously offered (V. 85, p. 1166) on Oct. 30 1907.

**Union (P. O. Weehawken), N. J.**—*Bond Sale.*—The $15,000 5% coupon bonds for the re-improvement of the Bulls Ferry Road, offered on March 2 and described in V. 86, p. 501, were purchased by Wm. Rannenberg, Mayor, at par. Accrued interest, if any, to be paid by purchaser. Maturity $3,000 yearly on May 15 from 1913 to 1917 inclusive

Maturity part yearly for ten years.

**Walnut Springs Independent School District (P. O. Walnut Springs), Bosque County, Texas.**—*Bond Offering.*—Proposals will be received at any time by Tom Massey, Secretary Board of Education, for the $14,500 5% school-house bonds registered on Jan. 15 (V. 86, p. 245) by the State Comptroller. Denomination $250. Date Jan. 1 1908. Interest annual. Maturity forty years, subject to call after ten years.

**Waltham, Mass.**—*Temporary Loan.*—This city borrowed $50,000 recently through Loring, Tolman & Tupper of Boston at 4.59% discount and a premium of $5. Loan matures Nov. 5 1908.

**Warren County (P. O. McMinnville), Tenn.**—*Bonds Not to Be Re-offered at Present.*—According to information received from the County Clerk, no action will be taken looking towards the re-offering of the $150,000 road bonds offered without success on June 25 1907 (V. 85, p. 367) before next April.

**Wheeling School District (P. O. Wheeling), Ohio County, W. Va.**—*Bonds Awarded in Part.*—Of the $200,000 4½% gold coupon high-school bonds offered on March 2 (V. 86, p. 564) $37,000 were sold to local parties.

**White County (P. O. Monticello), Ind.**—*Bonds Not Sold.*—We are advised that no bids were received on Feb. 28 for an issue of gravel road bonds offered on that day.

**Wilmington, Del.**—*Bond Offering.*—Proposals will be received until 12 m. March 20 by Wm. P. White, Chairman Finance Committee, and the Commissioners of the Sinking Fund, at the office of the City Treasurer, for the following bonds:

$20,000 4% bonds, of which $20,000 will be used to purchase land for park purposes and $5,000 for the erection of a bath house in or near Kirkwood Park. Authority Chapter 177, Volume 24, Laws of Delaware.
10,000 4% bonds for the improvement of public parks. Authority Chapter 171, Volume 22, Laws of Delaware.
5,000 4% bonds for the improvement of public parks. Authority Chapter 163, Volume 23, Laws of Delaware.

Denominations: $50 or multiples thereof. Date, April 1 1908. Interest semi-annual. Maturity Oct. 1 1930. Certified check for 3% of the bonds bid for, drawn on a bank or trust company of Wilmington and made payable to the City Treasurer, is required. Bonds will be delivered on April 1 1908.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Youngstown, Ohio.**—*Bond Sale.*—This city has sold to its sinking fund $15,000 bonds to supply funds to purchase land options for the Berlin Reservoir, $4,000 for street cleaning and $4,000 for park improvements.

*Bond Offering.*—Proposals will be received until 2 p. m. March 30 by William I. Davies, City Auditor, for the following bonds:

$15,000 5% street improvement (city's portion) bonds. Maturity $3,000 yearly on Oct. 1 from 1910 to 1914 inclusive.
3,500 5% sanitary bonds. Maturity on Oct. 1 as follows: $500 in the year 1909 and $1,000 in the years 1910, 1911 and 1912.

Certified check for 2% of the amount of each block of bonds bid for, upon a national bank, payable to the City Auditor, is required. Purchasers must be prepared to take the bonds not later than April 6, the money to be delivered at one of the banks in this city or at the office of the City Treasurer. Bonds will be dated April 1 1908.

## NEW LOANS

**$200,000**

**City of Wilmington, North Carolina**

**WATER and SEWERAGE BONDS**

**FOR SALE**

Sealed proposals for the sale of $200,000 City of Wilmington, N. C., Water and Sewerage Bonds will be received at the office of the City Treasurer of said City until 12 o'clock m. March 16th, 1908.

Said Bonds bear interest at the rate of 4½% per annum, payable semi-annually, and mature forty years after date of their issue.

A deposit of 2% required with each bid.

The City reserves the right to reject any or al bids.

JNO. J. FOWLER,
City Clerk and Treasurer.

## *THE FINANCIAL SITUATION.*

A noteworthy activity in railroad stocks on the Wall Street Stock Exchange and a quite wide rise in their values has been in progress during the last two or more weeks. No known facts have been found to justify this movement and it consequently is especially noteworthy. So far as the published net earnings of railroads go, they have been, since the new year opened, becoming week by week less favorable. As they are the basis of dividends, and, indeed, of the solvency of the railroads, that, obviously, is an adverse fact. We should, however, cite as features conspicuously out of character with the foregoing, and so tending to aid, sympathetically at least, this more general advance movement, that the steel and iron markets are reported in a promising state, and it does not need to be said that they are very broad factors in and towards an industrial revival; while copper's present abnormally large exports may be claimed as a favorable feature which ought not to be overlooked. It is to be added, however, that in face of the large exports and fractionally better prices for the metal, it is to be said that there is no improvement in the domestic demand, and the copper companies are still reducing their dividends, as was the case last week with the Calumet & Hecla Co., which will pay only $5 per share in March 1908, against $20 per share in March last year.

The dislocation of industrial affairs which has involved the country only needs a starter to unravel it. Every labyrinth has its clew. We have a great many times called attention to this situation, but people are so blinded by their prejudices that they neglect to take advantage of our suggestion. Nature must do the work, and will do it, if the broken threads are put in place. The position differs materially from other like occasions, because our greatest industry, the railroad system, is incapacitated from being of, or doing, any curative service. If our people would only study the events of this week, they would have an eye-opener at hand. What has been the most striking incident? Indeed, there have been two of them along the same lines. The first was the turn in the stock market on Tuesday. Before that day the market had been going up with a daily increasing rapidity. What checked the movement? It was Mr. Taft's denial that the persecution of railroads was to be stopped if he (Taft) was elected President. That rumor was, when first afloat, a very thin-spun story, growing more and more in detail and substance for the three weeks of its existence. Indeed, it has existed longer than that. Every individual who favored Mr. Taft's nomination has all along carried the same rumored belief in solution in his mind; no one of Mr. Taft's closest friends who, by chance, whispered to another friend about the political outcome but closed by stating Taft is "all right;" and no one who has known Taft when he was his own master but believes that statement even now. They all say he cannot so have forgotten himself as to sell himself for an office.

But whatever is or may be at any time in the future the position of Mr. Taft in respect to these matters, the interest and duty of every voter is to get the railroads free from the shackles that prevent their full recuperative action through natural law. They include our largest industry, and are therefore most potent in the matter of recovery. As to Mr. Taft, we seem to be forced to believe what he now says. It is a hard necessity to put his word against his character and life; but we see no way out of the dilemma. There is nothing to hinder a rapid and complete recuperation if the railroads can be made free as a restorative agent, and as they have always heretofore been on the occasion of other calamities upsetting our industries like those we are laboring under now. After the events of the current week no one can doubt where and what the weak spot is.

The other conspicuous and similar incident of the week, designating and bringing to light the same defect and need as a complete cure for our industrial involvement, was the rumor on Wednesday that President Roosevelt had agreed to a proposal for a general 10% increase in freight rates. The effect on Wall Street was an immediate advance in values of railroad stocks. As soon as this rumor was pronounced false, the advance in prices weakened. Clearly, here again it was made, and became, obvious that our industrial distress arises wholly from our railroad derangement and disorganization. This same truth we have been proving daily for two years or more, and have thereby brought home to Mr. Roosevelt that he is the cause of all our troubles. No truth has been more clearly established, but has been as wilfully denied. Such denials we are every week receiving by letter. With these incidents before us, the weak spot in the industrial situation needs no further proof. It does not admit of denial. If our railroads can be freed from the shackles which have taken away their freedom of action, natural law—the existing system of things—will do the rest.

---

We have another illustration this week going to show that there is no scarcity of investment funds and that when an offering of bonds is made, the standing of which is not threatened by the present political crusade, bids in abundance can be obtained. The State of New York on Wednesday of this week opened bids for $5,000,000 highway-improvement bonds, running 50 years and bearing 4% interest. Of course in this case the State offered a higher rate of interest than in other bond issues of recent years (the present outstanding State debt bearing only 3@3½% interest), but that is simply owing to the fact that in lowering railroad credit and the credit of other large corporations we necessarily depreciated security values as a whole—and to such an extent that State and municipal bonds have not escaped the adverse effects. All States and municipalities are now obliged to pay a higher rate on their borrowings than a year or two back.

The point to which we wish to direct attention on this occasion is that these State and city offerings find abundant takers at a time when corporate securities, even those of the very best class, are very difficult to dispose of at all, though offered at very attractive rates. The form in which borrowing by corporations is now chiefly carried on is in the shape of short-term notes. Some of these notes of very high grade can be bought at figures yielding the purchaser a rate of 5½@7% per annum. Even on such attractive terms, the notes are often slow of sale. The reason is, not that there is anything inherently wrong in the properties themselves, but that investors are

holding aloof on account of the unfair treatment to which railroad and other corporations are being subjected. The fact that the political leaders are doing everything to keep alive the agitation makes the investor and moneyed classes generally timid and cautious and disposed to hold off until it can be known what the ultimate outcome is to be.

In the case of State and municipal obligations the situation is entirely different. Their stability is unquestioned. Accordingly, when New York City offered $50,000,000 4½ per cents it received bids aggregating more than five times that amount, or $271,242,650 altogether, and disposed of the long-term bonds on an interest basis of 4.29% and the short-term assessment bonds on a basis of about 4.38%. New York State this week did even better. The rate of interest, we have seen, was ½% lower than that in the case of the New York City bonds, but the offerings were more than sixteen times the amount of the loan, reaching over $80,000,000, and the bonds commanded a very good premium, the successful bidder paying a price ranging from 106.456 to 109. On these prices the rate of return to the buyer falls appreciably below 4%, the average being, in fact, only 3.694%. The contrast between this low rate and the rate which our best railroads are obliged to pay for money at this time is striking and the lesson to be drawn will, we think, be obvious—except, of course, to those who are so blind that they will not see.

---

In their circular letter of last Saturday, the banking house of Middendorf, Williams & Co. of Baltimore undertake to point out the South's duty to itself in view of the suffering that that section of the country is now enduring by reason of the business depression brought on by the hostile attitude of so many of the Southern States against the railroads and against invested capital generally. The subject is treated in a very kindly and instructive way and the arguments and facts adduced are so convincing they should have an important influence in inducing the Southern people to reconsider the course so detrimental to their own best interests and induce them, by retracing their steps, to invite a return of the capital which by their present attitude they are so industriously expelling. It is pointed out that hardly more than a dozen years ago the South was the poorest section of the country —poor in known wealth, poor in recognized resources, poor in manufactures, poor in agricultural production with the prices which then prevailed, poor in railways and other forms of transportation, poor in known mineral resources, poor in everything save hope and ideal and lofty purpose. In the short space of a decade a wonderful transformation was worked and a wholly different picture presented—a new empire of the South, builded on the solid, rough-hewn foundation of that old South the memories of which are still treasured by all; an empire of tremendous wealth of resource, rich in transportation facilities, rich in agricultural products, rich in manufactures, rich in mineral wealth, rich in industry of all kinds, rich in lumber—in a word a wealthy empire instead of a poverty-stricken group of States.

It is well said that what has been accomplished is a mere fragment of the possible range of accomplishment in so fertile and resourceful a region; what has been done will be multiplied tenfold in the next ten, twenty or thirty years if the South welcomes and encourages and seeks new capital, so essential to make passive natural resources active and fruitful; if there is a cessation of hostilities against capital and the latter is allowed free play within just limits to pursue its life-giving work. If that is done, then the South's present greatness is but the shadow cast before by what is to come. But if the South wars on capital, assumes a defiant attitude toward new enterprise, blindly antagonizes its best interests by driving capital from its borders, then the decade running from 1897 to 1907 will remain the South's golden age for many years to come; for without the leavening influence of outside money, outside capital, it cannot go forward or even hold its own, but must of necessity go backward.

In this state of things the problem of overwhelming importance for the South, it is pointed out, is to determine to what limits the campaign of hostility towards corporations which has been pushed vigorously in almost every Southern State, is to be carried. It is well enough to attack evils and root them out, says this Baltimore firm, but to attempt to dictate to owners of a property exactly how that property shall be operated, to legislate away almost every right which inheres in control, to arbitrarily enforce reductions of revenue at a time when hundreds of millions are needed by the railroads of the South for growth and expansion and improvement, is in a way to kill the goose which has left so many golden eggs scattered through the South. The South needs capital above everything else, but capital can be encouraged and welcomed only through sincere assurances of fair play. Capital has proved what it can do for the South, and politics has shown what it can do to capital. It now remains for the South to say whether it wishes to continue the advance begun so splendidly a decade ago and halted only when the feelings of the people got the better of their judgment.

We hope this appeal to the South will not be in vain. And the same appeal may be made with advantage to the West and to other undeveloped sections of the country. They need outside capital for their growth and development and this outside capital cannot be obtained unless there is assurance of fair treatment and likewise assurance that an investment once made shall have adequate and full protection.

---

The reduction by the Imperial Bank of Germany on Saturday of last week of its official rate of discount from 6% to 5½% marks the return to the normal of one of the first of the European banks which raised its rate to abnormally high figures during the height of the late crisis; this action by the German Bank, as also the similar action by the other European institutions, was due to the augmentation of reserves following the crisis, and the restoration of confidence. In three successive days in November 1907, it will be remembered, the three larger banks of Europe raised their discount rates —the Bank of England on Nov. 7 to 7%, that of France Nov. 6 to 4% and that of Germany Nov. 8 to 7½%. Reductions to minimum rates were made by the Bank of France to 3% Jan. 23, by that of England to 3½% March 5 and by that of Germany, as above noted, to 5½% March 7.

The hitherto unexplained delay by the Bank of England until March 5 in reducing its discount rate to 3½% seems now to be accounted for by the report

that the Bank Governors were apprehensive lest the liquidation by London bankers of a considerable amount of gold which had been procured from Russia during our recent crisis might tend to divert the market accumulations of the metal to St. Petersburg. It is said that in November and December last year $50,000,000 gold was received by London bankers, of which $35,000,000 was from Berlin and $15,000,000 from Paris; but $20,000,000 of the German consignment is reported to have come from St. Petersburg, through Berlin. Recently the British bankers have repaid to Russia $5,000,000 of their indebtedness, and it is understood that they have arranged to liquidate the remaining $15,000,000 at the rate of $5,000,000 per month. This somewhat unexpected prospective drain from the market, together with the anticipated withdrawal from the Bank of gold for shipment to the provinces, incident to the season, and also the anticipation of more or less urgent demands for gold for export to Argentina, appeared to induce the Bank's Governors to await before reducing the rate below 4% for futrher accumulations of the metal. Last week's reduction by the Bank of England of its rate to 3½% followed the procurement by the Bank of the bulk of the arrivals of gold from the Cape. The return of the Reischsbank for the week showed an important increase in cash and a contraction in note issues, and that Bank on Saturday, as above noted, reduced its rate to 5½%. This had an assuring effect in London. If the Reichsbank shall continue to gain cash to the end of the quarter, it may be in a position to again reduce its rate, even though the Bank were to liquidate its above-noted indebtedness to Russia.

The call for the first installment—or 10%—of the public funds in the depository banks, amounting to about 14 millions, which was made by the Secretary of the Treasury on Feb. 24, matured on Monday, and by March 13th 13¾ millions of the deposits had been surrendered; the remainder of this installment will doubtless be turned over to the Treasury early in the ensuing week. The call for the final installment of 15% of deposits, or 21 millions, will mature March 23. The surrenders of funds thus far effected have made but a slight impression upon the money market, time loans only showing a firmer tone. It is expected, however, that the surrenders of deposits under the March 23d installment will have a more decided influence, for there is now in progress comparatively large retirements of circulation, not only under the 9 millions per month limitation, but through direct surrenders of the 3% Treasury certificates which were accepted as pledge for circulation; the amount of such surrenders thus far reported is 1¼ millions out of 15 millions that were issued last November, and accepted as security for bank notes.

---

The report on stocks of cereals in farmers' hands in the United States on March 1 1908, issued on Monday last by the Department of Agriculture, possesses more than ordinary interest in view of the present general left-over shortage of the crops of 1907. It seems that the reserves of wheat, corn and oats on the farms were at the date mentioned less than at the corresponding time in either 1907 or 1906, and that the same was true of the visible supply of various cereals at interior and seaboard points of accumulation. But while the deficiency from most recent years is very important, and has resulted in a marked appreciation in prices, there would seem to be little reason to fear an exhaustion of supplies before the crops of 1908 are harvested, if harvesting is not abnormally late. The Department's report indicates that the quantity of wheat in farmers' hands on March 1 approximated 23.5% of the 1907 yield, or 148,721,000 bushels. This total appears meagre when compared with the 206,644,000 bushels held in reserve on the corresponding date in 1907, but contrasted with the result in 1906 the deficiency disclosed is less than 10 million bushels and there is a clear excess of 37 millions over 1905.

As regards corn, the quantity on hand on farms on March 1 covered 37.1% of the last harvested crop, or 962,429,000 bushels, which compares with 1,298 million bushels in 1907 and 1,108 millions in 1906. But, as in the case of wheat, this year's carry-over is greater than in 1905 or 1904. The true corn-crop situation of 1907 is indicated by the remark in the Department's report that only 77.7% of the yield is estimated to be merchantable, whereas in 1906 the proportion was 89.1% and in 1905 was 84.2%. Of oats, farmers are reported to have held at the beginning of the current month only 39.8% of last year's crop, or 267,467,000 bushels, or much smaller holdings than at the similar time in any of the three preceding years.

In connection with the foregoing it is interesting to note that the outlook for winter grains is considered to be promising. The area seeded last fall of both wheat and rye was, according to the Department of Agriculture, slightly less than in the preceding year. No Governmental report on condition is issued until April; but reliable private advices, especially those promulgated through the "Cincinnati Price Current," are to the effect that the outlook is fairly promising. Moisture is stated to have been ample in most sections, freezing and thawing conditions have not affected the plant to any material extent and insects have caused but little damage as yet.

Recent advices from Argentina give very satisfactory accounts of the situation there, the yields of the various crops in 1907-08 having been of record proportions. The out-turn of wheat is stated at 109,680,000 centals, against 84,900,000 centals in the preceding year, and a previous high record of about 93½ million centals. The oats yield is placed at 8,860,000 centals, or a much larger crop than in 1906-07. As regards corn, late-planted has been very slightly damaged by drought, but the crop as a whole is reported excellent and by far the largest ever raised in Argentina.

---

Our foreign export trade in February, as indicated by the advance statement of shipments of leading articles, was of record proportions for the short month. Mainly as a result of the higher prices secured, the outflow of breadstuffs aggregated a value of $19,959,991, or nearly six millions of dollars more than in February 1907. Wheat shipments, while double in quantity what they were in the period last year, represented a value 1½ times greater, and flour and corn, although showing decreases in quantity, exhibited excesses in value. Meat and dairy products shipments were much greater than in any recent period, exceeding the January total by 3 million dollars, February last year by

3½ millions and closely approximating the record aggregate of January 1906. Cotton exports were appreciably less in quantity than for February 1907, but as a result of better prices the decrease in value was only 4 millions of dollars. Cattle, sheep and hog shipments, and of mineral oil also, were greater this year than last. Altogether the shipments of these leading articles of commerce reached an aggregate value of $94,332,779, which compares with $87,682,072 in February 1907 and $74,659,506 in 1906. For the eight months of the fiscal year 1907-08 the outward movement of these commodities covers a value of $723,939,468, or 43½ millions greater than for the same period of 1906-07, and largely in excess of any earlier year.

On the other hand, and as noted from month to month recently, our import trade continues to show a declining tendency, compared with either of the three preceding years. Articles that class as luxuries of course show the greatest proportionate decrease in importation, but a glance at the detailed statement for January reveals the fact that there are very few commodities in the schedules that are not coming in less freely this year than last. At the port of New York, through which about 60% of the country's imports are received, the arrivals of merchandise in February aggregated barely 45 millions of dollars, or over 28 millions less than in the month of 1907. In precious stones alone the decline for the month was over 4 million dollars, this February's importations having been but $200,443, as against $4,275,300 in 1907 and $3,067,036 in 1906. And during the last three months (Dec. 1907 and Jan. and Feb. 1908) the total inward movement of precious stones was barely 1 million dollars, against nearly 13 millions for the same period a year ago. With such a situation to face as a result of last fall's financial crisis, trouble in the diamond industry causes no surprise. It is stated as a fact that three-fourths of the world's production of diamonds are purchased by the people of this country. With almost literally no demand from such an important market, it is not strange that upwards of 2,000 diamond cutters should be thrown out of work at Antwerp, the seat of the industry.

---

Curtailment of production continues to be the order of the day in the cotton-manufacturing industry in various countries. It has been decided by many of the leading cotton-manufacturing companies of New England to continue in force for another three months the curtailment of production of goods. The original plan, which was agreed to last December by about 75% of the spindleage of New England, called for a curtailment of 25% (16 working days) between Dec. 25 and March 1, each corporation to arrange its own schedule so as to prevent interference with contracts. The agreement was quite generally lived up to and resulted in a cutting down of the accumulated stocks of goods. But with the expiration of the time during which the agreement was to be in force, the absence of such a demand as would warrant full operation caused an agitation in favor of continuing it for another three-month period. Fall River manufacturers have declined to enter into any signed agreement to curtail at any certain time, as some of them are under contracts that must be filled within two or three months. It is stated, however, that they will continue to curtail in their own way. The motive back of the further curtailment is reported to be the quite general belief among manufacturers that they will thus be able to keep the supply of goods down close to the actual needs of the country and avoid the piling up of a large surplus stock, which would be difficult to dispose of unless there should be material trade revival.

In addition to the curtailing of production of goods in New England, wage reductions have either been announced or are in contemplation. In fact, in seven of the large mills of Lowell, notices of a 10% reduction in wages were posted at noon on Thursday. The reduction will become effective on March 30th and will affect over 20,000 operatives. Moreover, the Amoskeag Mfg. Co. of Manchester, N. H., employing 15,000 hands, and the Nashua Mfg. Co. and Jackson Mfg. Co. of Nashua, N. H., which jointly employ about 4,000 operatives, announced on Friday cuts in wages similar to that at Lowell and to go into effect at the same time. Advices from some other points in New England indicate that while nothing relative to a cut-down in wages has yet been done, there is a probability that the action of the Lowell manufacturers will be followed in a number of localities. Manufacturers are stated to look upon the outlook in the textile industry as not hopeful, and hold that the high cost of cotton, coupled with lower prices for goods and inactive demand, warrant wage reductions.

At the South, although no general plan of curtailment has been entered upon, the production of goods is being moderately reduced in a number of important mill towns in North Carolina, and by cutting down wages there has been some saving in expense of operating.

According to late cables it does not appear that any reduction in cotton-mill operations involving a cutting down of consumption of the raw material has yet occurred in Europe. In fact, conditions on the Continent seem to favor the continuation of full consumption throughout the current season. In Great Britain, however, a different situation prevails. We hear from time to time that demand is poor, both for home trade and foreign account, and that many looms have been stopped. It is therefore probable that before the season is much further advanced the stoppage of spindles will be in order. Advices from Japan are to the effect that the cotton-yarn mills of that country put in force on Jan. 12 a three-month curtailment plan which will reduce the output by about 122,000 bales of 400 pounds each.

Altogether it would seem that with curtailment of production, present or prospective, in so many quarters, it will be necessary to further reduce estimates of the season's cotton consumption requirements. Mr. Ellison's original estimate of last October called for 14,890,000 bales of 500 pounds average net weight each to supply the wants of Europe, the United States, Canada, Japan, &c., for the season of 1907-08, or an increase of 188,000 bales over 1906-07. This seemed to us at the time, and as we then intimated, rather high. It has since been reduced 400,000 bales. But whatever may be the final result of the season's cotton-mill operations, no appreciable decline in the value of the raw material is to be apprehended, at least not until such time as the new crop becomes a factor in making prices.

---

There was no change in official rates of discount by any of the European banks this week; the Imperial Bank of Germany lowered its rate to 5½% last Saturday. Unofficial or open market rates were easy at all the chief centres.

The most notable of the changes shown by last week's Associated Bank statement was the increase of $3,917,000 in the cash holdings, which resulted largely from receipts from the interior. Public deposits were reduced about 1 million and circulation nearly 2 millions. The surplus reserve was augmented $4,492,600, to $32,281,675, loans decreased $6,093,200 and deposits decreased $2,301,200. The bank statement of this week is expected to reflect the greater part of the surrender of about 13¾ millions of public deposits, which was effected on Monday, in response to the call for 10% of such deposits that was made by the Secretary of the Treasury on Feb. 24. Hereafter, until March 23, when the call for the final installment, or 15%, of such deposits matures, the banks should, it would seem, gain more or less cash through Sub-Treasury operations, though this gain may be offset to some extent by movements incident to bank-note retirements and current redemptions.

---

The market for money was only slightly influenced this week by the surrenders of public deposits; it, however, reflected in firmer rates for long-time loans the expected prompt response by the banks to the call for the remainder of such deposits. The large subscriptions on Wednesday for 5 millions 50-year 4% highway-improvement bonds offered by the New York State Comptroller had little effect on the call loan branch of the market; the great volume of over-subscriptions indicated that there was an enormous accumulation of funds awaiting employment on choice security. One notable feature of this week was the revival of the demand, which recently seemed to have subsided, for corporation collateral notes, and it is reported that foreign purchases thereof are large, especially for those that will mature in November and later this year. The securities, other than Government bonds, which have been released as pledge for public deposits, through the surrender of such deposits, are also in good request, as likewise is high-grade commercial paper, which is freely bought by New England and Western institutions.

Money on call, representing bankers' balances, loaned at the Stock Exchange this week uniformly each day at 2% and at 1¾%, averaging 2%, at which rate by far the largest amount of loaning was effected; banks and trust companies quoted 2% as the minimum, though some balances were placed by the former at the lower rate. Time contracts were in better request for the longer than for the shorter maturities. The latter are quoted, on good mixed Stock Exchange collateral, at 3½@3¾% for sixty to ninety days and 3¾@4% for four months, while for six months 4½% is demanded and a good business is reported. Rates for commercial paper are 5½@6% for sixty to ninety-day endorsed bills receivable and for prime four to six months' single names.

---

The Bank of England rate of discount remains unchanged at 3½%. The cable reports discounts of sixty to ninety day bank bills in London 2⅞@3%. The open market rate at Paris is 2½% and at Berlin and Frankfort it is 4¾%. According to our special cable from London, the Bank of England gained £718,309 bullion during the week and held £39,997,883 at the close of the week. Our correspondent further advises us that the gain was due mainly to imports from Egypt and purchases of bar gold in the open market. The details of the movement into and out of the Bank were as follows Imports, £998,000 (of which £397,000 from Egypt, £40,000 from Constantinople, £11,000 from Panama, £5,000 from Paris, £5,000 from Australia and £540,000 bar gold bought); exports, £330,000 (wholly to South America), and receipts of £50,000 *net* from the interior of Great Britain.

---

The derangement to the European mail service, there being no fast steamer after Tuesday until Saturday, seemed to afford opportunity for speculators in foreign exchange, early this week, to operate with some assurance of success, though not with much profit. The pendency of the London Stock Exchange settlement was a factor favoring such speculation, owing to reports of some nervousness arising from the adjustment of large differences on French account. The exchange market was quite inactive on Saturday of last week, but on Monday liberal selling of sight bills by brokers and only a moderate demand for remittance by Tuesday's mail caused a sharp fall, which affected the whole list until the afternoon, when an attempt to cover the oversold bills brought about a reaction and the market closed at a substantial rally, though irregular. The tone was dull on Tuesday, with a light inquiry for remittance, but as there were only small offerings of bills, rates showed some improvement; cables were steady, indicating only a meagre demand on American account incident to the London settlement. The movement was sluggish on Wednesday, and rates fell off in the absence of requirements for the next day's mail by the French steamer; the tone was heavy on Thursday. Among the features other than those of a speculative character, one was some offering of bankers' bills which were reported to have been drawn against corporation collateral notes that have been placed abroad, and also such drafts against New York City revenue bonds. It was expected that successful bidders among large bankers for the New York State issue of highway-improvement bonds would find a market for them in Europe, thus contributing to later offerings of exchange.

On Saturday of last week rates for exchange, compared with those on the previous day, were but slightly changed, long falling 10 points to 4 8345@4 8350 and cables rising 5 points to 4 8665@4 8670, while sight was unaltered. On Monday long declined 10 points to 4 8335@4 8340, short 20 points to 4 8610@4 8620 and cables 20 points to 4 8645@4 8650. On Tuesday long rose 10 points to 4 8345@4 8350, short 15 points to 4 8625@4 8630 and cables 5 points to 4 8650@4 8655. On Wednesday rates fell 5 points all around—long to 4 8340@4 8345, short to 4 8620@4 8625 and cables to 4 8645@4 8650. On Thursday the market was heavy with long 5 points lower at 4 8335@4 8340, short 20 points at 4 86@4 8605 and cables 20 points at 4 8625@4 8635. On Friday the market was weak in the absence of demand at a decline of 15 points for long, of 20 for short and of 25 for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers

| | | Fri., Mch. 6 | Mon., Mch. 9 | Tues., Mch. 10 | Wed., Mch. 11 | Thurs., Mch. 12 | Fri., Mch. 13 |
|---|---|---|---|---|---|---|---|
| Brown Brothers | 60 days | 4 84½ | 84 | 84 | 84 | 84 | 84 |
| | Sight | 4 87½ | 87 | 87 | 87 | 87 | 87 |
| Kidder, Peabody & Co | 60 days | 4 84½ | 84 | 84 | 84 | 84 | 84 |
| | Sight | 4 87½ | 87 | 87 | 87 | 87 | 87 |

| | Sight | 4 87½ | 87 | 87 | 87 | 87 | 87 |
| Lazard Freres | 60 days | 4 84½ | 84 | 84 | 84 | 84 | 84 |
| | Sight | 4 87½ | 87 | 87 | 87 | 87 | 87 |
| Merchants' Bank of Canada | 60 days | 4 84½ | 84½ | 84½ | 84½ | 84½ | 84½ |
| | Sight | 4 88 | 87½ | 87½ | 87½ | 87½ | 87½ |

The market closed on Friday at 4 8320@4 8330 for long, 4 8580@4 8590 for short and 4 86@4 8610 for cables. Commercial on banks 4 82½@4 82¾ and documents for payment 4 82¼@4 83. Cotton for payment 4 82¼@4 82½, cotton for acceptance 4 82½@4 82¾ and grain for payment 4 82¾@4 83.

The following gives the week's movement of money to and from the interior by the New York banks.

| Week ending March 13 1908. | Received by N. Y. Banks. | Shipped by N. Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $8,361,000 | $5,822,000 | Gain $2,539,000 |
| Gold | 940,000 | 400,000 | Gain 540,000 |
| Total gold and legal tenders | $9,301,000 | $6,222,000 | Gain $3,079,000 |

With the Sub-Treasury operations the result is as follows.

| Week ending March 13 1908. | Into Banks. | Out of Banks. | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' interior movement, as above | $9,301,000 | $6,222,000 | Gain $3,079,000 |
| Sub-Treasury operations | 30,101,000 | 36,032,000 | Loss 5,931,000 |
| Total gold and legal tenders | $39,402,000 | $42,254,000 | Loss $2,852,000 |

The following table indicates the amount of bullion in the principal European banks.

| Banks of | March 12 1908. | | | March 14 1907. | | |
|---|---|---|---|---|---|---|
| | Gold. | Silver. | Total. | Gold. | Silver. | Total. |
| | £ | £ | £ | £ | £ | £ |
| England | 39,997,883 | ---- | 39,997,883 | 35,983,716 | ---- | 35,983,716 |
| France | 110,158,662 | 36,014,950 | 146,173,612 | 104,551,157 | 39,236,743 | 143,787,900 |

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-quarter of the total.

## *EUROPE AND THE WORLD'S MONEY MARKETS.*

The developments of the past ten weeks on the money markets of the world have been of a nature to indicate some differences in the existing situation from what was expected a few months ago. Writing on January 18, when some doubt appeared to exist as to whether the bank rates at important European centers would fall to a normal level, we pointed out that such a downward reaction in the immediate sequel to a panic strain on resources had always occurred at a juncture of this sort. The course of events since that time has been in accordance with precedent. To-day the Bank of England rate stands at 3½ per cent as against 7 per cent at the opening of the year, the present rate being in fact the lowest reached at this time of year since 1905. The Bank of Germany's reduction of its rate last week brought it to 5½ per cent, against 7½ at the opening of the year, and this is a matter of particular interest, because the general feeling of the financial community was that the tension on capital would last longer at Berlin than at any other European center.

When one looks more closely at these foreign bank returns, be will observe that the increase in cash holdings has been abnormally large during the period. A statement published by the Bank of Germany a couple of weeks ago showed $70,000,000 more in cash reserve than was held at the opening of the year. Since January 1 the Bank of England's gold holdings have increased $37,000,000; in the same period a year ago the increase was only $28,000,000. The English Bank's gold holdings, by last Thursday's statement, were actually the largest on record for the second week in March. Furthermore, its ratio of reserve to liabilities, which was reported on Thursday at fifty per cent, as against the traditional forty per cent minimum, is the largest for the period since 1905, and is substantially higher than in any other year of the past decade excepting 1901, when, it will be recalled, stagnation and financial liquidation of the Boer War was increasing the supply of idle money at the European centers.

If it is asked, what is the specific cause of the sudden accumulation of gold in the European banks at the present time, a condition not wholly unlike that of 1901 will be assigned as at least a partial cause. The shock which culminated in the American panic of October, and in the lesser panics at such points as Amsterdam, Denmark, Egypt, Chili, Hamburg and Genoa, has necessarily had far-reaching effects on the world's trade. Something of industrial reaction has made its appearance at all the great centers. In England, attention is called to the substantial decrease in railroad earnings since the opening of the year, to the eight per cent shrinkage in exchanges at the London Bankers' Clearing House, and to the very considerable decrease in the aggregate foreign trade of important European nations. We in this country have in the past had abundant illustration, notably during the recent trade reaction of 1904, as to what the effect of such a slackening in trade will be on the distribution of the circulating medium. When business activity is at its maximum, exceptionally large amounts of actual currency are kept in hand-to-hand circulation, in the tills of merchants, or in quarters where manufacturers can utilize it for their large weekly or monthly pay-rolls; alter the situation through a distinct diminution of trade activity, and a mass of idle currency instantly flows back into the reserve depositories, accumulating in the rapid transfer mechanism of the present day very soon in the central banks of the large financial cities.

This tendency alone would explain much of the increase in foreign bank reserves which we have pointed out. Another influence, however, which is by no means to be ignored is the continuance of the large gold output from the mines which chiefly supply the European markets. Notwithstanding a moderate decrease in the Transvaal gold output of last month as compared with January, the officially reported product ran $1,000,000 ahead of February 1907. The world's gold output in 1907, as we showed

in our recent review, did indeed indicate that the rapid advance of recent years had been checked. But it cannot as yet be said that the inflow of the precious metal into the world's markets is appreciably less than it was a year ago, at which time it far surpassed all records in history.

Whatever importance may be placed in this phase of the situation, the effect of the general strengthening of foreign bank reserves may have some interesting bearing on the general situation. In the first place, rapidly expanding reserves of gold at the European banks, along with slackening foreign trade and a continued decline in the money rates on those markets, would operate against the tendency, which lately seemed particularly strong, for export of gold in great quantities from this country. It has been the habit of the market, since our import of $100,000,000 gold from abroad during the strain of panic, to argue that in the natural order of events this gold would be re-shipped to the foreign markets. Such a movement would not be at all illogical, particularly in view of the recent Government report showing that in the face of a 25% decrease in business activity, as indicated by American Clearing House exchanges, the country's entire circulating medium outside of the Treasury is $200,000,000 greater than it was a year ago.

Nevertheless, the volume of such a return movement must bear some relation to the need for gold on the foreign markets, and, to the extent that gold is already piling into the European banks from other sources, such requirements will certainly be less urgent than they have been on other occasions. The natural comparison has been with the year after the panic of 1893, when export of $80,000,000 gold to Europe—mostly procured from a falling Government reserve through presentation of legal-tender notes for redemption—became a seriously unsettling factor in the year's finances. Quite aside, however, from the circumstances which we have already noticed on the European markets, the situation in this country bears the slightest possible resemblance to that which existed in 1894. Foreign capital, which at that time was invested in our securities in enormous quantities, was withdrawn by its owners at an alarming rate throughout the year, the successive and very formidable railway insolvencies stimulating the movement. The prospect, which then seemed very near at hand, of a break-down of the Treasury's gold reserve and a relapse to depreciated currency, naturally increased this outward movement of capital. Whatever else is happening to-day, that situation does not appear to be before us.

It is not easy to say off-hand precisely what would be the result of a continuous strengthening of the bank position at home and abroad. That it will make for easy money goes without saying. That it will immediately stimulate trade activity and speculation cannot be so easily taken for granted. The experiences of the past year have taught this market, at any rate, that something more than large gold production and abundant bank reserves is needed for a basis of such a movement. Accumulation of free and available capital, and confidence in its employment, are two prerequisites which do not necessarily follow even an exhibition of abundant reserves in excess of legal requirements. . . . . .

## *WHERE GOVERNOR HUGHES STANDS REGARDING RAILROAD REGULATION.*

On Friday night of last week Governor Hughes delivered an address at the Hotel Astor at the annual dinner of the Traffic Club of New York. In this speech Mr. Hughes devoted himself chiefly to a discussion of the subject of Railroad Regulation. The present week he also delivered a series of addresses in Boston in which he incidentally referred to the same matter. As Mr. Hughes is a candidate for the Presidential nomination of the dominant political party, great interest naturally attaches to his views on the subject referred to, and which will probably be the burning issue of the campaign. The great need of the hour is conservatism in the matter of the treatment of the railroads—undoubtedly the largest single industry in the country, and which now, also, is suffering beyond all others—and any candidate who fills the requirements in that respect can count with the utmost confidence upon the support of the business classes.

The address before the Traffic Club will serve to dispel any illusions that may have existed that Mr. Hughes had modified or was ready to modify his views —that now he might be counseling moderation in the treatment of the roads. On the contrary, he seems to be as emphatic and insistent as President Roosevelt himself in urging regulation of the most comprehensive and all-pervading sort—regulation delegating the details and administrative management of the roads in large part to the care of the Government, without, however, having the latter assume ownership of the properties or take upon itself responsibility for their finances. In other words, shareholders are to bear the losses and to remain the nominal owners, but to be deprived in great measure of the direction of the roads, the Government taking upon itself this last function through regulative boards, clothed with power over both receipts and expenditures, inasmuch as they will at once have authority to fix rates and charges and to make orders of all kinds involving the expenditure of money. That is the policy which has brought the railroads and all industrial interests to their present pass, and its continuance could not fail to render the future even less inviting than the present.

There are a number of apparently very assuring phrases and statements in Mr. Hughes's remarks. These have been given great prominence in the newspapers. No one will wonder at that, for the whole public is looking anxiously for some prominent candidate to rise up and vigorously combat the present destructive policy. In this frame of mind it is willing on almost any pretext to declare loyalty and allegiance to any one who promises to lead in such a fight, even without definite assurance that its fealty is not misplaced. But the words uttered by Mr. Hughes, which appear to be so full of encouragement, can not be taken apart from the context. For Mr. Hughes resembles Mr. Roosevelt in the facility and readiness with which he indulges in the use of sentences and expressions tending to disarm criticism by reason of the fair spirit they seem to breathe. Many of Mr. Roosevelt's sayings stand as models in that respect, and Mr. Hughes is no mean pupil in the same school. We do not question the sincerity of either. The important thing after all, however, is what policies and

course of action these statements are meant to support. Judged from that standpoint, the position of our Governor seems to be no different from that of the President, since in all essential respects they are both advocating the same things. Speaking to the traffic men, Mr. Hughes said "You are subject to public regulation because the people have made up their minds that there shall be regulation of railroads—complete and adequate regulation." "It is idle to protest against it." He refers to what he is pleased to term "the capitalization of hope," and says that "What is desired is that securities should represent value, should be fairly issued."

But "hope" is what has given this country its immense railroad system with all the benefits accruing from the same. In any new railroad project through undeveloped parts of the country (and hardly any part is fully developed as yet), a portion of the capitalization necessarily represents "the capitalization of hope." The promoters issue capital in excess of the cost of the work in the hope and expectation that, with the building up of the adjacent territory, which is sure to follow the creation of railroad facilities, the enterprise will be able to earn a return on such excess capital. If the expectation is realized, the securities appreciate in value and the promoter gets compensation for the risks he has assumed. On the other hand, if the expectation is disappointed, the price of the securities fails to respond and he has to bear the resulting loss. For, contrary to the belief in many quarters, it is impossible to manipulate the security markets in such a way as to give a level of values for any considerable length of time above the intrinsic worth of the properties.

Nor is any harm done by the issue of securities in excess of the cost value of the work. As far as the investor is concerned, the Stock Exchange quickly puts its proper estimate upon the intrinsic value of any securities issued, and as far as the shippers and patrons of the road are concerned, it is a well-established fact that there is not the remotest connection between capitalization and rates and charges. Furthermore, State railroad commissions or other governmental agencies are sure to see to it that rates are not too high. If, now, the old-time policy, under which so much progress has been made, is to be changed—and it must be admitted that the trend of legislative and governmental action is in the direction of limiting the issue of securities to the cost value of the work—railroad extension and railroad development are sure to be seriously crippled, in some directions perhaps entirely checked. For neither capitalists nor investors will put their money at stake if they are not to have protection and fair treatment and also adequate compensation for the risks assumed.

Mr. Hughes argues in favor of sane regulation and then shows what sort of regulation in his estimation would measure up to that requirement. Here is what he says on this point

> It was with that spirit and intent that the Public Utilities Bill was enacted last year. It was with the desire to make such a provision in this State that the Public Service Commission was organized, and under its provisions matters relating to the issue of securities, matters relating to rates, matters relating to service, matters relating to any of these questions as to which grievances may be alleged, may be taken before a body that has no object but to ascertain the truth, and, with a fair hearing on both sides, may be adjusted; and I believe in that policy, both with reference to the Inter-State Commerce Commission and with reference to the Public Service Commission. It is a great mistake to oppose it.

Thus Mr. Hughes comes back to his plan of a Public Service Commission, a body which, though having an official life of only eight months, is already thoroughly discredited. He would delegate to the Inter-State Commerce Commission the functions now possessed by the Public Utilities Commission—that is, give it a power over "matters relating to the issue of securities, matters relating to rates, matters relating to service, matters relating to" anything else. The "New York Press," an ardent advocate of Mr. Hughes for the Presidential nomination, in expressing approval of the scheme, sums up its real scope and meaning in these words: "This would be doing for the Federal Government" what "the Legislature has done for the State of New York in relinquishing to the Public Service Commissions *complete and exclusive sovereignty over all questions of transportation*—from the putting in of a door in a street car up through the whole business to the issue of $100,000,000 of stock in a railroad corporation." In one of his speeches at Boston this week Mr. Hughes declared against "arbitrary governmental interference" with any business "to prevent its growth." But how can the foregoing scheme be termed anything but "arbitary" and how can its effect be other than to check growth?"

We cannot see that what Mr. Hughes is advocating is any different from what Mr. Roosevelt is so urgently insisting on, except that Mr. Hughes would make the National Government body even more meddlesome than it is at present—would have it assume supervision of all the details and minutiae of railroad affairs. The shareholders would be in effect divested of all control of the properties in which they had their money invested. It is because the trend of governmental action has been so strongly in this direction that railroad securities have suffered such tremendous shrinkage in values and that capital and investors are fleeing from the railroad field, with the result that all our industries are completely prostrated and that all enterprise is halted. We fail to discern any hope of a revival in suggestions that this policy, so detrimental and destructive in its operation thus far, is to be continued. Nor can we regard such recommendations as "conservative" or as evidencing moderation and self-restraint.

As for Mr. Hughes's statement contained in the above-quoted paragraph, that a political body like the Public Service Commission "has no object but to ascertain the truth," it is only necessary to say that it has one other and a paramount object, and that is to preserve its official life. For this reason its members, however high-minded they may be, cannot be indifferent to public clamor. If they fail to heed the demands made upon them, however unreasonable, they are in danger of being legislated out of existence. A few years ago a State Gas Commission was created in New York for the ostensible purpose of dealing fairly in the matter of fixing the price of gas, but really for the purpose of reducing said price. When the next Legislature met and it was found that this Commission had not lived up to expectations, and had failed to cut the price of gas, a resolution was promptly introduced providing for the abolition of the Commission. Its life thus threatened, it at once proceeded to issue an

order reducing the price (in this city) to eighty cents. The Legislature, still afraid of being balked in its endeavors, then made matters doubly sure by reducing the price to the same figure by legislative enactment. Even at the present time our legislators at Albany are seeking to force the hand of the Public Service Commission of this District with reference to the establishment of a five-cent fare to Coney Island.

There is another particular in which Mr. Hughes is like Mr. Roosevelt in his actions and opinions. He is apparently entirely oblivious of the harm which has resulted to railroad interests from the political assaults upon the same and the carrying of governmental regulation beyond a point where the capital invested in the same could feel sure of full and adequate protection. After reading his address one cannot avoid the conclusion that Mr. Hughes imagines the tremendous losses in income which the roads are experiencing, and the unparalleled prostration of all our industries, are mere passing phenomena—that all that is necessary to do is to resolve to go ahead and an immediate return of prosperity will follow. Two weeks ago we quoted the remarks of Mr. Roosevelt in addressing at the White House the delegates of the National Education Society to the following effect: "Seriously, friends, it is idle for any man to talk of despairing of the future of the country or feeling unduly alarmed about it." In almost identical language Mr. Hughes, in concluding his address last week Friday, spoke in the same confident way. Here is what he said, according to the account of the speech printed in the "Press:"

"My friends, we shall soon emerge from the temporary difficulties under which we have labored. You cannot stop this country. There is nothing intrinsically the matter with this country. It is full of men with activity and push. On every hand you meet those that are simply crying for opportunity; the working man wants work; employers want to give him a chance to work. All we want to do is to believe in ourselves and recognize the facts."

We wish we could take the same philosophical view of things. We wish we could persuade the investor and the capitalist to disregard the fact that the securities they hold have a market value only one-half or one-quarter or one-tenth what they had before the crusade against the railroads was begun. We wish we could make them act and think as if nothing had happened—as if bonds and stocks were worth just as much as before, as if railroad receiverships and inability to meet obligations were not a crushing reality, as if railroad revenues and railroad credit were as large and as good as before. We very much fear, however, that those thus shorn of their possessions will not come meekly to the slaughter again, with more money to carry on the development and extension work, the continuance of which alone can insure the future welfare and prosperity of the country. They will want some guaranty against similar treatment hereafter should they put their savings or accumulations once more at risk. We think it a pity that a man like Governor Hughes, temperamentally so different from Mr. Roosevelt, should fail to recognize this fact or should seek to obscure it, and should be willing to trail behind Mr. Roosevelt, hoping to gain political preferment in that way. Unfortunately, too, practically all the other prominent political leaders, whatever their party affiliations, seem to be bedeviled in the same way.

## *THE FOWLER CURRENCY BILL.*

We have refrained heretofore from an analysis of the bill introduced in the House of Representatives by Congressman Fowler because it seemed to us that the measure was so radical and so revolutionary in the changes which it proposes to make in our existing currency system that there was little chance of its finding acceptance at the hands of our National Legislative body, so many of whose members are wedded to the present system. Notwithstanding the development of recent weeks, apparently favorable to the prospects of the measure, we are still of the same opinion. As, however, considerable attention is now being directed to the scheme, it will be useful to furnish an outline of the same and discuss the bearing and application of some of its provisions.

The aim of the author of the measure is an excellent one, and the proposed law embodies many good features. In the first place, Mr. Fowler undertakes to wipe out the bond-collateral element in bank note circulation, for which there never was any decent excuse except the necessity which arose, when the country was in dire extremities during the Civil War, of providing a market for the obligations of the Government. That feature, grafted upon our bank note issues at a critical period in the country's history, it has never been possible to get Congress to eliminate since then. In any sound currency system the note issues must rest upon mercantile assets—upon goods and products in course of conversion, or passing from producer to consumer, the notes being emitted to facilitate the process of conversion and returning to the issuer when they have served that purpose.

A second good point in the Fowler Bill is that it seeks to make provision for the ultimate retirement of the existing $346,681,016 of legal-tender notes. These, also, are a product of war times, and should not be allowed to remain a fixture. Section 35 of the bill provides that, whenever the accumulations or accretions of the Guaranty Fund (the nature of which we shall presently explain) shall reach $25,000,000, after the payment of all expenses and losses, the excess above that sum shall on each Jan. 1 and July 1 be used to cancel the legal-tender notes. Mr. Fowler also seeks to provide, what is entirely lacking in the existing bank note system, a series of redemption agencies for the retirement and redemption of the notes. The Comptroller of the Currency immediately upon the passage of the bill is to designate cities for the location of bank note redemption agencies, not exceeding twenty in number. Furthermore, these redemption districts are to be under the control of a board of managers selected by the banks themselves.

All the national banks of each bank note redemption district must organize themselves into an association to be known by the number assigned to the district, and must elect a board of managers consisting of eight members. Each board in turn is to select a ninth member, who is thereupon to become a Deputy Comptroller of the Currency and give his entire time to the bank note redemption district, receiving as compensation for his services a salary of $6,000 a year, and in certain contingencies a larger sum. Each board of managers is to "have entire and sole charge of the

organization and conduct of its bank note redemption agency, and shall select and direct such a number of bank examiners as the board may from time to time deem requisite for the proper supervision of the national banks within its redemption district; and thereafter all bank examinations under the direction of the Comptroller of the Currency shall cease, except when, in his judgment, the public interests demand a special examination, which shall be conducted under his direction."

Finally, the Government is to be eliminated as a disturbing force in the money market. We need hardly urge how very desirable such an accomplishment would be. By Section 33 it is provided that from and after the date that the Guaranty Fund shall amount to the sum of $25,000,000, the Secretary of the Treasury shall deposit from day to day all Government receipts, from whatever source received, in such national banks as he may select.

But while we heartily agree with Mr. Fowler's aims and purposes, it strikes us that the means he has chosen to attain his ends are not altogether fortunate. It seems to us that Mr. Fowler starts wrong. While eliminating the provision of Government-bond collateral for bank notes, he provides—doubtless a concesison to a supposed public sentiment with regard to bank notes—for a Guaranty Fund for the protection of the notes. The whole superstructure of the bill rests upon this Guaranty Fund, and, as devised, it appears to be an objectionable feature in the scheme. For this Guaranty Fund is to be used not only for the protection of the notes, but also to guarantee the deposits. Obviously, guaranteeing the deposits is a very much bigger job than guaranteeing the notes alone. The volume of outstanding notes is $632,458,712, but the aggregate of the deposits at the December call was $5,800,644,223. In Section 17 it is provided that the purpose of the Guaranty Fund is to be as follows; "To guarantee the payment of all individual deposits, all bank notes, all bank deposits and all Government deposits, *without discrimination or preference,* and to pay all the expenses incurred in any way," &c. It should be distinctly understood that the *Government* does not undertake to insure the deposits, or assume responsibility for them in any way. The only guaranty is in the Guaranty Fund, and this the banks themselves are to provide.

To our mind any kind of guaranty for the deposits is wrong. Its tendency would be to lessen the inducement to efficient, careful and conservative management over imprudent, slovenly and hazardous management. In the estimation of depositors, the good bank would have no advantage over the poor bank. All would stand on a common level. Even capital and surplus would count for little. On the contrary, with all deposits guaranteed, there would be slight inducement to offer a large capital to attract deposits, or to accumulate a large surplus for such purpose. The ordinary depositor would no longer be put on inquiry with reference to the character of the management or the standing of the institution, since, with his deposits protected, or apparently protected, he would feel that he had small cause for uneasiness in any event. Thus, the bad bank would flourish with the good bank until failure overtook the scheme, and it was shown by experience that the plan was Utopian and visionary. We know it is urged that as all banks are to share in the burden of losses, this will ensure increased watchfulness on the part of the soundly managed institutions, and hence that the likelihood of failures will be diminished rather than increased. But failures are more often caused by bad banking practices than by illegal practices. Have not our clearing-house associations just as good means for discovering such practices as the boards of managers of the redemption districts will possess? Nevertheless, it is not always possible to prevent such practices, as witness the recent experiences here in New York in connection with the Morse-Thomas doings. It is also to be remembered that the most ceaseless vigilance cannot guard against the display of poor judgment on the part of the poorly managed banks or their proneness to make imprudent loans.

Under Mr. Fowler's bill, therefore, the good bank would inevitably have to bear the losses and meet the deficiencies of the poor bank. For by Section 23 it is provided "that whenever any bank failure occurs after Jan. 1 1909, one-fourth of the loss resulting therefrom shall be borne by the banks of the bank note redemption district to which the bank failing belongs ,pro rata or according to their respective deposits and note issues, the same being deducted from the interest due such banks upon their deposits in the Guaranty Fund, and the balance, or three-fourths of the loss, shall be borne by the general or common Guaranty Fund."

It seems to be thought that the existence of this Guaranty Fund would put an end to runs on the banks. On the contrary, in a time of panic like that of last autumn, should a couple of dozen medium-sized institutions (say carrying 15 to 20 million resources each) throughout the country close their doors, it might easily happen that confidence in the whole financial structure would be impaired, and general runs be started. The public would not stop to consider that the loss in these cases might not be total, but, knowing that the solvent banks would have to bear it, whatever it was—to the extent of one-quarter of the amount by the banks of the redemption district where the failures occurred and to the extent of the other three-quarters by all the banks in the country—the fear might easily be engendered that the burden would be so heavy as to endanger the solvency of many institutions.

Is it not a mistake also not to give the notes a lien on the Guaranty Fund superior to the lien of the deposits? It is a question whether in any event the notes should not have a first lien upon the assets, but under such a system as that proposed by Mr. Fowler, a first lien would seem to be absolutely essential in order that the notes might gain and retain public confidence The noteholder has no such means of protecting himself as the depositor. The latter need not patronize a weak or poorly-managed institution. Sometimes it may be necessary to go a little outside of the immediate neighborhood to find the strong and properly-managed bank, but at any rate he is in position, with a little pains and inconvenience, to guard the money he has at risk. Not so the noteholder. Mr. Fowler proposes to make his series of bank notes full legal tender for everything except the payment of interest on the public debt. Thus, every one would be obliged to accept the notes. Fur-

thermore, these notes would not circulate merely in the district where the issuing bank was situated, and where its condition and character could be ascertained, but might circulate 3,000 miles from the point of issue, where knowledge concerning the issuing bank might not be available and certainly would not be within the reach of the whole population. With the notes, therefore, standing on a level with the deposits, and with a pseudo guaranty of the deposits, it might easily happen that the notes would not command full public confidence. It is no answer to say, as does the Merchants' Association in its argument in favor of the bill, that the Guaranty Fund at the end of the first year would reach a sum amounting to ten times the total losses of depositors and note holders of all the national banks during the forty-two years from 1865 to 1907. With the incentive to good management and to large capital and surplus in large measure removed, are not conditions so totally different that computations based on past losses possess little value?

It should also be noted that forming the Guaranty Fund will impose considerable burdens upon the banks. To create this Guaranty Fund the banks are required to deposit with the Treasurer of the United States in gold coin or other lawful money 5% not alone (as already said) of their circulating notes, but of their deposits. A 5% redemption fund against their circulating notes they are now required to keep. The new feature is the 5% fund against the deposits. This involves an amount nine to ten times as large. The 5% on the $632,458,712 notes is only a little over $31,500,000. But the 5% on the $5,800,644,223 deposits calls for more than $290,000,000. This would make over $320,000,000 which would pass permanently out of the possession of the banks since it is required that each institution must at all times have on deposit on the 10th days of January and July 5% of its average deposits during the preceding calendar six months and 5% upon its outstanding notes. It is true that the banks are to be allowed to count as a part of their required reserve the amount on deposit with the United States Treasurer. But on the other hand they are to keep the same reserve against their outstanding note circulation that they now are required to hold against their deposits, namely 25% in reserve and central reserve cities and 15% elsewhere.

The situation as regards the individual banks may be illustrated by taking the case of a bank with a capital of $1,000,000, a circulation of $1,000,000 and deposits of $15,000,000. Such a bank, by reason of the 5% requirement, would have to contribute to the Guaranty Fund $750,000 on its deposits and $50,000 on its circulation, making $800,000 altogether. A bank like the National City Bank of New York, which by its statement of Feb. 14 had $12,712,497 of circulating notes outstanding and $193,563,232 of deposits, would be obliged to contribute to the Guaranty Fund $9,678,162 as the 5% on its deposits and $635,625 as the 5% on its circulation, making $10,313,787 together. This it would be allowed to count as part of its 25% reserve; but on the other hand its aggregate reserve requirement would be $3,178,125 greater than under existing law by reason of the 25% reserve requirement against circulation. Nor will the banks any longer have the use of Government deposits free of interest. The bill provides that they must pay 2% per annum on such deposits. On the other hand, the rate of interest allowed the banks on their deposits in the Guaranty Fund is to be only 1%.

The author of the bill evidently entertains the idea that some State institutions might come into the national system with the bill a law, but there is at least a possibility that some of the national banks, in view of the 5% requirement against the deposits, might decide to forsake the national system. Yet, it is difficult to see how Mr. Fowler could discard the 5% requirement against deposits, because with the 5% figured on the circulation alone the Guaranty Fund would be so much reduced (amounting to only $31,500,000, as we have already seen) that it would no longer be of imposing magnitude, and thus lose its potency for impressing the public by reason of its very size.

The Guaranty Fund is to perform another function besides serving as a protection for deposits and circulation. It is to be used to purchase the Government bonds released with the removal of the requirement of Government bond collateral as security for the notes. On Feb. 29, $560,353,850 of the 2% consols of 1930 were held as security for bank circulation and $43,342,000 were held as security for Government deposits, making together $603,695,850. These bonds, no longer needed for the purpose they now serve (for Mr. Fowler, by Section 15, also eliminates the requirement of collateral as security for Government deposits), the greater portion would necessarily come on the market, since, bearing only 2% interest, there would be no inducement to hold them as investments. Furthermore, their price would drop heavily in any event, since it is only the fact that they have been indispensable as security for bank notes that has given them their present market value. We certainly could not expect our 2% consols to command a higher figure than the British 2½% consols, which sell in the neighborbood of 87.

Accordingly, in disposing of their present holdings of Government bonds—and by Section 24 of the bill no national bank is to be allowed to pay out over its counter after Jan. 1 1909 any bond-secured notes—the banks would be involved in large losses. With a view to guarding against such contingency, it is provided in the bill that the bonds shall be purchased from the banks at 104 and accrued interest. The Guaranty Fund is to provide the means for the purpose. This is obviously a clever contrivance, but the banks will themselves be providing the funds with which to buy the bonds. No money for the purpose will come from any other source.

Even as it is, the Guaranty Fund will be quite inadequate for the purpose. In the bill as drawn by Mr. Fowler there was a provision that if the 5% fund should not amount to sufficient to purchase all the U. S. 2 per cents held by the banks, the U. S. Government should use so much of its deposits then held by the banks as might be necessary to purchase the remainder of the bonds to an aggregate of $200,000,000. But with Government revenues falling off, as they are now doing, and Treasury disbursements exceeding Treasury ingoes, there was evidently an element of risk to the Government in the retention of this provision. The eventual outcome might have been that the Government would have been obliged to issue new bonds in order to get the funds with which to take up the bonds held by the banks. Accordingly, in the bill

as reported to the House, the provision referred to has been stricken out, and therefore the Guaranty Fund will provide the only money with which to purchase the bonds at 104 and interest. It may be noted that this price is also an amendment made in committee, as Mr. Fowler had proposed to pay the price paid by the respective banks for the particular bonds held by them.

The situation, therefore, is that the 5% Guaranty Fund, as based on both deposits and circulation, will provide a total of only $320,000,000 (even when figuring the deposits on the largest possible basis, including Government deposits, amounts owing to other banks, &c., &c.), whereas the 2% consols now held by the banks aggregate, as we have already seen, $603,695,850. In this contingency it is now provided that if more bonds are offered than there are funds available for purchase, there shall be taken only a pro rata proportion of such offerings. The rest the banks would have to hold until more funds became available—a slow process.

Is it not likely, too, that the low tax imposed upon the notes would prevent ready contraction in their volume? This tax is only 1% each six months, or 2% per annum. At the same time the banks are to be allowed to issue these credit notes to the amount of their capital, and, with the consent of the board of managers of the Bank Note Redemption Agency in which the bank is located, they may even issue notes to an amount 100% in excess of the paid up and unimpaired capital. The capital of the banks is $901,681,682; twice this latter would be $1,803,000,000 as the maximum of notes that could be issued. At present only $632,458,712 of notes are outstanding. Of course, with the absence of a bond requirement for the notes, there would not be the restriction on the taking out of circulation that now exists, and thus the possibility is presented of a maximum note issue nearly three times the amount of the present volume of notes. As an offset to this possible addition of $1,171,000,000 of new notes, there would be simply the contraction to be effected by the retirement of the legal-tender notes, and this would come slowly and reach a maximum of only $196,681,016—namely $346,681,016 of legal-tenders less the $150,000,000 of gold reserve now held against the same. It is rather noteworthy that there is no reference whatever to the outstanding silver or silver certificates, of which $532,730,594 are in circulation. As the bill contemplates the use of the $150,000,000 gold reserve in the retirement of a corresponding amount of legal tenders, the situation ultimately will be that there will be no special gold fund to ensure the convertibility of silver into gold.

Just how much money would be withdrawn from circulation by the requirement of a reserve against circulation it is impossible to tell, as the requirement varies. Out of the 25% required in reserve cities 7½% may be kept in central reserve cities, and out of the 15% required by the country banks 4% may be kept on deposit in reserve or central reserve cities. The requirement of actual cash, therefore, is 25% in central reserve cities, 17½% in reserve cities and only 11% by the country banks. Whatever the amount of money tied up under the reserve requirement, it would be relatively small alongside the tremendous increase permitted in circulation.

We have already seen that very extensive facilities are provided for the retirement of the notes through the redemption agencies to be created. But the notes are sent out clothed with full legal-tender attributes in every-day business affairs and under such circumstances a tax of no more than 2% per annum would be manifestly insufficient to drive the notes home when they were no longer needed to move the crops or for other mercantile purposes. The Merchants' Association in its argument in support of the bill says that a credit currency founded upon adequate cash reserves will so respond to the demands of business that when no longer needed no high tax will be required to drive it out of circulation. This, however, loses sight of the fact that the notes by reason of their legal-tender character are made so attractive—being available for all uses except as bank reserves and in payment of interest on the public debt—that there would be little inducement to get rid of them. Possibly with the note-issuing function lodged in some large central bank, as is the case in many of the European countries, the argument might not be open to the same criticism, but there are over 6,600 banks in the national system, and it would be too much to expect these banks to be governed by considerations such as would influence the action of the managers of a central banking institution. With the tax only 2%, the cost of the notes to the banks would be less than 2¾% per annum, after allowing for the 25% cash reserve required against the notes, and hence any rate of interest above 2¾% would leave a profit in keeping the notes afloat. In this state of things, would not the notes once out stay out? Would they not drift towards the financial centres, and become available for speculative uses? What a gigantic speculation it would be possible to foster under such conditions, particularly with a deposit-guaranty provision putting good management at risk, seems very obvious. And when a panic like that of last October came with the maximum amount of notes already out, how would the banks be in position to meet this special need for currency.

The Banking and Currency Committee has stricken out the provision in the bill allowing the banks to engage in a savings bank business. The committee should have gone a step further and eliminated also the section of the bill allowing the banks to do a trust company business. In the form in which this provision now stands, it is as little objectionable as it is possible to have it, since the investments of all trust funds are to be expressly subject to the laws of the several States. But the provision is nevertheless wrong in principle. National banks should be limited to a strictly mercantile business. Acting in a fiduciary capacity should be left to local institutions especially created for the purpose. As, however, we have discussed the suggestion embodied in this provision quite at length on a previous occasion, there is no need to rehearse here the numerous objections which exist against endowing the national banks with trust functions.

The conclusion to which all this leads is that the Fowler bill, while possessing many good points, also contains much of a highly experimental nature. It seems to us that to make it workable and acceptable it will be necessary to alter it in some essential respects.

## *RAILROAD GROSS AND NET EARNINGS FOR THE CALENDAR YEAR.*

The compilations of the gross and net earnings of United States railroads which we present to-day possess unusual interest at this juncture. As far as the exhibit of the gross is concerned, it is highly satisfactory, for the falling off in traffic and collapse in general trade which came after the panic in October did not make their influence felt until the last month of the year. As regards the net results, however, the showing is just the reverse. In face of an improvement of large magnitude in the gross revenues, net earnings, treating the roads collectively, are found to be actually smaller than in 1906. This gives an idea of the trying conditions under which railroad affairs have been carried on, and the peculiar dilemma in which the railroads find themselves at this moment.

As these figures show, the situation was bad enough before, when gross earnings were still mounting up in a striking way; but now that the gross receipts are falling away in a most startling manner, the roads are reduced to a state of helplessness. It is this fact that gives force and timeliness to the discussions which have been current this week of a movement for a general advance in freight rates. Either higher rates must be obtained or wages will have to be reduced; and the way losses in earnings are piling up, it may become necessary to take both steps in order to avert general insolvency. The old level of expenses cannot be continued if, owing to business depression (resulting mainly from the condition to which the railroads have been reduced), there is to be shrinkage in traffic to the extent of 10 to 25%.

Our totals are of enormous magnitude, and serve by their size to direct attention to the importance of the railroad industry—that industry which now, above all others, has been put in peril. The aggregate of the gross earnings for the twelve months of the calendar year 1907 of the roads contributing returns to our compilations is $2,287,501,605. This compares with a total for the same roads for the calendar year 1906 of $2,090,595,451. Thus, there is an increase of 9.59%, or $196,906,154, notwithstanding the loss which came in the closing month, December. Owing, however, to the higher operating cost, expenses increased 14.13%, or $201,432,800. As a consequence, net earnings have actually fallen off in amount of $4,526,646. Let the reader ponder well the significance of these figures. The railroad transportation service rendered by the roads was augmented to such an extent that their gross revenues were increased in amount of nearly 200 million dollars, and yet their profits were cut into in such a way that this huge addition to their revenues yielded no gain whatever in net, but actually left them 4½ million dollars poorer than they were in the year preceding.

Bear in mind one other circumstance. To be in position to move the enormous additional traffic represented by the 200 million dollars gain in gross receipts, the companies had to make large additions to their equipment and facilities. In other words, considerable new capital had to be put into the properties, on which the roads are entitled to earn a decent return. Get with a larger requirement for dividends and interest charges, net earnings, as we see, were really less than in 1906. In such a state of things, and with our legislators, both State and national, still keeping up their attacks on the railroads, and doing everything in their power on the one hand to decrease railroad rates and railroad revenues, and on the other hand by new and vexatious requirements adding further to their expense accounts, is it at all surprising that railroad values kept steadily shrinking throughout the year, until confidence became completely undermined and the panic, with all its disastrous consequences, ensued, bringing industrial activity suddenly to a stop, which now, in turn, is being reflected in perfectly frightful losses in railroad earnings, both gross and net? We need not discuss here the causes of the great increase in operating cost, since the facts are familiar to practically everyone. The chief factors were the increases in wages, the decreased efficiency of labor, the higher price of many things entering into the operating cost of the roads, and last, but not least, the extra burdens imposed upon the carriers by governmental regulations and requirements, State and national.

| January 1 to December 31. (152 roads.) | 1907. | 1906. | Increase or Decrease. Amount. | % |
|---|---|---|---|---|
| Miles of road | 173,028 | 171,316 | +1,712 | 0.94 |
| | $ | $ | $ | |
| Gross earnings | 2,287,501,605 | 2,090,595,451 | +196,906,154 | 9.59 |
| Operating expenses | 1,626,748,060 | 1,425,315,260 | +201,432,800 | 14.13 |
| Net earnings | 660,753,545 | 665,280,191 | —4,526,646 | .68 |

Though our totals are of huge proportions, they by no means cover the entire railroad system of the country. For a number of large companies, prominent among which are the Milwaukee & St. Paul and the Great Northern, the Northern Pacific and the Burlington & Quincy, we have been able to procure only figures of gross. These added roads we bring together in a separate table at the end of this article. With them included, the length of road for which we have returns of gross is raised to 205,276 miles, embracing a few thousand miles in Canada but none in Mexico. On this 205,276 miles, the aggregate of the increase in gross is brought up to the imposing figure of $221,642,861. Even then we do not have the entire railroad mileage of the whole country, a small amount of road being still unrepresented. We estimate that if we could have returns for all the roads, the gain in gross earnings for the twelve months of the calendar year would reach $230,000,000. The loss in net we should judge (based on the net results of the missing roads for the fiscal year ending June 30 1907) would be not less than $10,000,000—in other words, an addition of $240,000,000 in expenses turned a gain of $230,000,000 in gross into a loss of $10,000,000 in the net.

There has been only one other calendar year since 1896 that has shown any loss in net, namely the calendar year 1904. In the gross the record of growth has been absolutely uninterrupted. In previous annual reviews we have always taken great pleasure in referring to this achievement in railroad development, pointing with pride to the yearly additions to the revenues that had been piling up in such a magnificent way ever since the successful political settlement of 1896, when truth triumphed over error, and when so many of the political heresies of the day, some of which are again current, were consigned to what was supposed to be a lasting oblivion. To-day, with the railroads everywhere in great stress, with earnings falling off and showing losses as large as the previous gains, we can simply point to this

magnificent record of the past as showing the state of things upon which the country has turned its back, deliberately as it were. The following furnishes a summary of the gains in gross and net for each of the last eleven years.

| *Increase in—* | *Gross.* | *Net.* |
|---|---|---|
| 1907 over 1906 | $230,000,000 | Loss $10,000,000 |
| 1906 over 1905 | 250,000,000 | 85,000,000 |
| 1905 over 1904 | 180,000,000 | 60,000,000 |
| 1904 over 1903 | 10,000,000 | Loss 5,000,000 |
| 1903 over 1902 | 210,000,000 | 50,000,000 |
| 1902 over 1901 | 105,000,000 | 2,000,000 |
| 1901 over 1900 | 155,000,000 | 70,000,000 |
| 1900 over 1899 | 120,000,000 | 32,000,000 |
| 1899 over 1898 | 140,000,000 | 55,000,000 |
| 1898 over 1897 | 90,000,000 | 30,000,000 |
| 1897 over 1896 | 75,000,000 | 45,000,000 |
| 1907 over 1896 | $1,565,000,000 | $414,000,000 |

Thus during these eleven years of progress and development we added $1,565,000,000 to the annual gross earnings of United States railroads and $414,000,000 to the annual net earnings—that is to say our railroad carriers actually earned 1,565 millions more gross in 1907 than they did in 1896 and 414 millions more net. The history of nations affords no more imposing exhibit of advancement than this—no more surpassing triumph. The era of progress and development might still be going on to-day except that through our policy in destroying railroad credit and railroad activity, we have been inviting the very disaster under which the country is now groaning. We are paying the penalty for our recklessness and lack of foresight and wisdom. By striking at the railroads we have been simply striking at our industrial vitals and the whole country is now staggering under the effects of the blow. The moral and the lesson are obvious. We can bring back the old state of activity and prosperity if we will simply reverse our policy, send the political leaders responsible for this policy to the rear, and give assurance to investors and the moneyed classes that the principle of live and let live is to govern hereafter, thereby attracting capital again into the railroads and other industrial agencies instead of repelling it.

The figures in the table above, given in round numbers, are approximations intended to cover in each year the results for the whole railroad mileage of the country. In other words, we have made an allowance for the small percentage of mileage in each year unrepresented in our statements. In the following we show the totals just as registered in our compilations each year. The aggregates are a little smaller, but the general results are the same. In the whole series of years since 1896 there has been not one in which we have been obliged to record any loss in gross and only two (besides 1907) in which there has been any loss in the net.

| Year | *Gross Earnings.* Year Given. | Year Preceding. | Increase or Decrease. | *Net Earnings.* Year Given. | Year Preceding. | Increase or Decrease. |
|---|---|---|---|---|---|---|
| | $ | $ | $ | $ | $ | $ |
| 1890 | 995,911,844 | 923,921,519 | +71,990,325 | 325,070,666 | 310,533,311 | +14,537,355 |
| 1891 | 1068,333,466 | 1025,147,383 | +43,186,080 | 348,999,840 | 327,648,764 | +21,351,076 |
| 1892 | 1068,570,963 | 1013,500,678 | +55,070,285 | 341,021,517 | 334,279,273 | +6,742,244 |
| 1893 | 950,257,148 | 966,601,520 | —16,344,372 | 292,489,300 | 302,900,174 | —10,410,874 |
| 1894 | 930,303,005 | 1049,745,525 | —119,442,520 | 286,166,115 | 325,605,016 | —39,438,901 |
| 1895 | 976,821,976 | 920,006,966 | +56,815,010 | 308,915,881 | 283,227,325 | +25,688,556 |
| 1896 | 970,867,270 | 972,173,718 | —1,306,448 | 293,856,699 | 299,637,327 | —5,780,628 |
| 1897 | 1050,003,222 | 998,025,924 | +51,977,298 | 341,280,498 | 306,365,696 | +34,914,802 |
| 1898 | 1118,561,053 | 1050,691,611 | +67,869,442 | 364,293,656 | 342,385,415 | +21,908,241 |
| 1899 | 1209,137,161 | 1099,217,301 | +109,919,860 | 413,354,253 | 367,336,951 | +46,017,302 |
| 1900 | 1374,123,161 | 1265,982,763 | +108,140,398 | 461,790,985 | 432,565,578 | +29,225,407 |
| 1901 | 1522,309,165 | 1383,335,544 | +138,973,621 | 528,962,185 | 464,161,655 | +64,800,530 |
| 1902 | 1528,344,977 | 1446,397,592 | +81,947,385 | 489,879,407 | 493,045,517 | —3,166,110 |
| 1903 | 1733,784,055 | 1547,759,417 | +186,024,638 | 552,260,597 | 503,557,044 | +48,703,553 |
| 1904 | 1774,971,552 | 1766,512,970 | +8,458,582 | 553,586,219 | 557,485,916 | —3,899,697 |
| 1905 | 1895,473,120 | 1745 392,445 | +150,080,675 | 591,875,952 | 543,770,532 | +48,105,420 |
| 1906 | 2103,087,760 | 1894,068,617 | +209,019,143 | 665,080,905 | 592,176,002 | +72,904,903 |
| 1907 | 2287,501,60 | 2090,595,451 | +196,906,154 | 660,753,545 | 665,280,191 | —4,526,646 |

*Note.*—The number of roads included was 202 in 1890; 214 in 1891; 206 in 1892; 192 in 1893; 199 in 1894; 202 in 1895; 196 in 1896; 185 in 1897; 176 in 1898; 168 in 1899; 175 in 1900; 155 in 1901; 166 in 1902; 167 in 1903; 170 in 1904; 148 in 1905, 159 in 1906 and 152 in 1907.

Neither the Mexican roads nor the coal-mining operations of the anthracite coal roads are included in this table.

When the roads are arranged in groups according to their location or the character of their traffic, the same feature of high operating cost and increased expenses as that already noted in the case of the grand totals is observable. Everyone of the eight groups shows a gain in gross, but all except two of the groups have losses in the net. The two groups which form exceptions to the rule of loss in net are the Anthracite Coal group and the Middle Western group. The gain in this last instance is trifling. The increase in the net of the coal group follows a loss the previous year and is entirely due to a special cause; in 1906 the coal roads suffered from a suspension of coal-mining in the spring, there having been complete abstention by the miners from work during April and up to the 10th of May; and a heavy increase in expenses resulted from that cause. In 1907 there were no labor troubles at the Anthracite mines and coal-mining was prosecuted on a greatly enlarged scale, allowing the roads to save a considerable portion of the increase in the gross for the net. This improvement in the net of the Anthracite roads gives additional significance to the loss in net by United States railroads as a whole, for it brings out the fact that, except for the gain by the Anthracite roads, the general loss in net would have been of yet larger proportions. In the following we show the comparative totals for the different groups. Further below we furnish a detailed statement giving all the separate roads for each group.

SUMMARY BY GROUPS.

*Mileage.*—The mileage for the above group is as follows: New England, 6,141 miles, against 6,102 miles in 1906; Trunk Lines, 29,060, against 28,973; Anthracite Coal, 5,670, against 5,670; Eastern & Middle, 4,087, against 4,111; Middle Western, 12,255, against 12,197; Northwestern & North Pacific, 31,631, against 31,163; Southwestern & South Pacific, 52,370, against 51,582; Southern, 31,214, against 31,098; grand total, 173,028, against 171,316. Mexican, 6,611, against 6,579.

It is rather noteworthy that losses in the net earnings were recorded through half the different months of the year. The months so distinguished were January, February and September, October, November and December. The losses in the two early months were due in great part to the circumstance that comparison was with a period of extremely mild winter weather in 1906 and with extraordinarily large gains in gross earnings at that time by reason of that fact. These losses were followed in April, May and June by gains of very exceptional magnitude in both gross and net by reason of the fact that comparison was with the period of the suspension of coal mining in both the anthracite and the bituminous coal districts. After that the gains in gross earnings rapidly diminished and in December there came an actual loss in the gross. In the net decreases were resumed in September and grew each month thereafter until in December, with a falling off in the gross earnings and no saving in the expenses, the loss in the net amounted to $11,644,048, or over 25 per cent.

*Note.*—Percentage of increase or decrease in gross for the above months has been Jan., 8.22% inc.; Feb., 7.64% inc.; Mch., 10.09% inc.; April, 23.32% inc.; May, 10.89% inc.; June, 14.99% inc.; July, 15.63% inc.; Aug., 13.06% inc.; Sept., 10.28% inc.; Oct., 9.41% inc.; Nov., 3.60% inc.; Dec., 6.45% dec.

Percentage of increase or decrease in net for the above months has been: Jan., 2.18% dec.; Feb., 5.11% dec.; Mch., 0.15% inc.; April, 26.41% inc.; May, 17.27% inc.; June, 12.95% inc.; July, 6.17% inc.; Aug., 1.74% inc.; Sept., 7.92% dec.; Oct., 7.60% dec.; Nov., 15.05% dec.; Dec., 25.31% dec.

In Jan. the number of roads was 97; in Feb., 94; in March, 94; in April, 91; in May, 92; in June, 84 in July, 82; in Aug., 86; in Sept., 84; in Oct., 88; in Nov. 87; in Dec., 89.

The returns of the separate roads also furnish evidence of the general nature of the augmentation in expenses. The Pennsylvania Railroad is an excellent illustration. Counting all lines owned, operated and controlled, this vast system added $30,887,361 to its gross earnings, but suffered a decrease of $722,954 in its net earnings. The Southern Pacific, while adding $18,317,285 to its gross earnings, lost $2,376,492 in the net. The Union Pacific, though adding $9,405,665 to gross, has only $37,752 gain in the net. The Atchison, with $10,161,145 increase in gross, sustained $1,898,042 falling off in the net. And these illustrations might be continued almost indefinitely. In the following we show all changes for the separate roads for amounts in excess of $250,000, both in gross and net. In the case of the gross there is only one road with a loss reaching the amount named, the Chicago Great Western, while the array of gains is a most imposing one. In the net there are nearly as many losses as there are gains, and some of these are of large magnitude, more particularly in the case of the Baltimore & Ohio, which, with $2,805,021 gain in gross, is obliged to report a loss of $3,222,109 in the net.

*c* These figures are partly estimated.

*f* These figures are for 11 months only.

*Note.*—In the above we show in the case of the Pennsylvania Railroad the results for the lines *directly operated only*, east and west of Pittsburgh and Erie. Including the roads controlled but separately operated (such as the Northern Central, West Jersey & Seashore, Philadelphia Baltimore & Washington, Grand Rapids & Indiana, Terre Haute & Indianapolis, &c., &c., all of which will be found below in the respective groups where they belong), the aggregate gross earnings of the whole Pennsylvania Railroad system for the calendar year 1907 were $326,785,526, against $295,898,165 for the calendar year 1906, an increase of $30,887,361, and aggregate net earnings were $83,631,145 for 1907 and $84,354,399 for 1906, a decrease of $722,954.

*o* These are results after deducting the earnings of the Boston & Albany included in the New England group above.

| Mexican Internat'l. | 9,075,962 | 7,954,073 | 2,947,350 | 2,958,060 | —10,710 |
| National of Mexico. | 16,590,866 | 14,790,584 | 5,848,738 | 5,630,050 | +218,688 |
| Total (4 roads) | 68,565,663 | 58,913,452 | 21,326,635 | 19,055,384 | +2,271,251 |

As already stated, besides the roads furnishing exhibits of gross and net there are some important systems which give out figures only of the gross. Starting with the total of the gross in the foregoing, we add these other roads in the table we now subjoin

GROSS EARNINGS OF UNITED STATES RAILWAYS JAN. 1 TO DEC. 31.

| *Jan. 1 to Dec. 31.* | 1907. | 1906. | *Increase.* | *Decrease.* |
|---|---|---|---|---|
| | $ | $ | $ | $ |
| Reported above (152 roads) | 2,287,501,605 | 2,090,595,451 | 196,906,154 | |

| Detroit Toledo & Ironton | 4,456,702 | 4,198,249 | 258,453 | |
| Great Northern System | 60,109,023 | 54,705,443 | 5,403,580 | |
| Montana Central | | | | |
| International & Great North'n | 7,857,868 | 7,752,176 | 105,692 | |
| Peoria & Eastern | 3,010,347 | 3,059,281 | | 48,934 |
| Northern Pacific | 72,348,472 | 64,692,454 | 7,656,018 | |
| Sierra Railway | 411,931 | 415,948 | | 4,017 |
| Southern Indiana | 1,814,819 | 1,535,030 | 279,789 | |
| Toronto Hamilton & Buffalo | 937,414 | 770,277 | 167,137 | |
| Total (169 roads) | 2,595,531,672 | 2,373,888,811 | 221,718,341 | |
| Increase (9.33%) | | | 221,642,861 | |
| Miles of road | 205,276 | 202,953 | 2,323 | |

In this way we arrive at the gain of $221,642,861 referred to above. This, it will be understood, is not conjecture, but deals with actual recorded results. The mileage covered is 205,276 miles, leaving still a small percentage of roads not represented, and which, if they could be included, would swell the gain to $230,000,000, as stated above. We add the following, comparing the total in the table last given with similar totals derived in the same way for previous years.

| *January 1 to December 31.* | Mileage. | | Gross Earnings. | | Increase (+) or Decrease (—). |

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

—The public sales of bank stocks this week aggregate 24 shares, of which 22 shares were sold at the Stock Exchange and 2 shares at auction. The transactions in trust company stocks reach a total of 100 shares. Two shares of stock of the Nassau Bank were sold at 205⅜, an advance in price of 19 points since the latter part of January, when the last previous sale was made.

* Sold at the Stock Exchange.

—Announcements in the daily papers this week stated that President Roosevelt had delegated Herbert Knox Smith, Commissioner of Corporations, to institute an investigation into the methods of trading on the principal stock exchanges of the country, with a view, it was stated, to furnishing the basis of future legislation regulating such practices. Yesterday, however, Secretary Straus of the Department of Commerce and Labor issued the following explanatory statement:

Secretary Straus states in regard to the matter of bucket shops that the President has simply referred the matter to this Department, with the request that Herbert Knox Smith, Commissioner of Corporations, be instructed to examine certain bills aimed at bucket shops, and to report his views on the general subject.

The President has not ordered any general investigation of stock exchanges, and Mr. Smith has been instructed to use his own judgment in reporting upon the subject and getting the facts that the President desires.

—The New York State Senate, by a vote of 27 to 16, passed on Tuesday a bill creating the position of Third Deputy Superintendent of Banks, to take charge of the New York City branch of the State Banking Department.

—The bills regulating reserves recommended by Superintendent of Banks Clark Williams were reported for amendment and second reading in the Assembly on the 6th inst. According to the "Albany Evening Journal" the changes affect the banks, individual bankers and trust companies in the boroughs of the Bronx, Brooklyn, Queens and Richmond. The maximum reserve of 25% for banks and 15% for trust companies in these boroughs is unchanged, but the requirement as to cash in vault has been made 12½% for banks and 10% for trust companies. Under the provisions of the bill governing institutions in New York City which before amendment were to apply to the above-named boroughs, three-fifths of the 25% reserve required to be maintained by the State bank is to be in cash, while the whole of the 15% trust company reserve is to consist of cash.

—The Cincinnati Clearing House Association reported a week ago the amount of scrip still outstanding was only about $10,000, or in the neighborhood of one-half of one per cent of its total issue of $2,100,000.

—The Greeley, Col., Clearing House Association reports as outstanding less than $200 of the clearing house certificates issued last fall. The total amount of such issue, it is said, was but $36,000.

—Of the million or more certificates issued by the Seattle Clearing House Association, there is now outstanding, the Seattle "Post Intelligencer" states, not more than $20,000. The retirement of the certificates has been under way since January.

—A delegation representing the Merchants' Association of New York appeared before President Roosevelt this week and laid before him the objections framed against the Aldrich Bill by the Association's Committee on Commercial Law. One of the arguments against the measure made by the committee is that "upon the slender resource of a gold fund of 150 million dollars depends the solvency of 340 millions of United States notes, 600 millions of silver certificates, for whose parity with gold the nation's faith is pledged, and nearly 700 millions of national bank notes—a total of over 1,600 millions of promises to pay on demand. To this vast responsibility Senator Aldrich's bill proposes to add another 500 millions with no corresponding increase of reserve gold—making more than 2,000 millions of currency to be made good by the United States with 150 millions in gold."

—A report expressing the opposition of the Finance Committee of the New York Board of Trade and Transportation was presented to the latter on Wednesday by Alexander S. Gilbert, Chairman of the Committee, and President of the New York Clearing House Association, and unanimously adopted by the Board. The objectionable features of the bill, in the estimation of the Committee, are:

"1. Its passage would postpone for an indefinite time further serious consideration of currency reform.

"2. It would add one more unwise provision to our already defective banking system, viz., the inducement it offers to banks to invest in railroad, State, county and municipal bonds.

"3. Under the provisions of the bill, the cost of taking out currency and putting it in circulation would be so heavy that the bill would probably be inoperative."

In the judgment of the committee the passage of the bill should be opposed on the general ground that "it would bring no benefit whatever to our defective currency system, but on the contrary would probably introduce an element of weakness into our banking situation." It is argued that investments in bonds by commercial banks is not in the line of good banking, and that no emergency currency measure should be adopted that would encourage banks to buy bonds for future use, or that will make necessary the purchase of bonds in an emergency in order to obtain a currency supply. Everything a bank owes, it is declared, is payable on demand, and its assets at all times should be kept in the most liquid state possible. "The provisions of the bill," say the committee, "would probably never be availed of except in the direst extremity. For stringency in crop-moving periods they would, in our judgment, be inoperative." "The purchase of bonds," it is added, "with its attendant risk of loss, the tax of 6%, the locking up of probably 15 to 25% of the cost of the bonds, would make the interest charge on the currency received so high that no banker could be induced to take it out. Even in the face of approaching panics bankers would hesitate to pay so high a rate for money." The report also declares that "the risk of loss involved in the purchase of bonds for emergency purposes would be great, especially if bought when speculative prices prevail." It is urged further that "the purchase of bonds during an emergency, as security for circulation, would weaken the cash condition of banks unless at the same time they were using Clearing-House loan certificates in settlement of balances between themselves, for the money required to purchase the bonds would be one-third greater than the amount of relief obtained and would have to be paid for in lawful money through the Clearing House." The committee recommends, for the reasons set out, that the New York Board of Trade and Transportation enter its protest against the passage of the bill, and that the Committee on Finance be authorized to take such steps as in its judgment seem wise to oppose the enactment of such law. Besides Mr. Gilbert, the members of the committee are Albert Plant, Louis Windmuller, William S. Gray, E. A. De Lima and George C. Boldt.

—The Committee on Currency of the National Association of Credit Men has issued to the members of the association a letter pointing out what it considers defective points in the Aldrich Currency Bill, and asking the members to act unitedly in protesting against the enactment of the measure. James G. Cannon, Vice-President of the Fourth National Bank of this city, is Chairman of the committee.

—At a meeting of the Boston Chamber of Commerce on the 6th inst., resolutions opposing the passage of the Aldrich Currency Bill were unanimously adopted. The resolutions were offered in a report presented by the Committee on Banking, of which James J. Storrow is Chairman, and are as follows:

*Resolved*, That the Boston Chamber of Commerce is opposed to the passage of Senate bill 3023, for the amendment of the national banking laws, known as "The Aldrich Bill," because,

1. It is makeshift legislation, which tends to perpetuate another piece of makeshift legislation originally adopted as a war measure, and which had chiefly for its object the creation of an artificial demand for Government bonds rather than a scientific, elastic currency.

2. It provides for the subtraction of $500,000,000 of mercantile balances from active trade.

3. It contemplates the investment of $500,000,000 of deposits payable on demand in long-time obligations instead of in short time, and constantly maturing obligations which constitute the proper and customary method of employing bank deposits.

The acute strain on our national banks of the recent panic is now over, the country is not under the stress of war, and the Boston Chamber of Commerce believes that now is the proper time to set the house in order by a comprehensive, constructive and scientific piece of currency legislation, and we have confidence that the intelligence and patriotism of Congress can give us a currency system which will equal in merit the best system in vogue in any other country.

The contemplated legislation should embody the following features:

(1.) An elastic currency which shall expand and contract, not merely under the crux of a great commercial crisis, but shall be sensitive to the seasonable and other minor fluctuations of trade.

(2.) The currency should be guaranteed by the Government.

(3.) The Government should be amply protected in its guaranty by such tax as shall serve to fully cover any possible loss under the guaranty.

(4.) The currency should not be marked or labeled in any way as emergency circulation, but should consist of a fluctuation in amount of the currency normally in use.

(5.) If the currency is to be secured by the special pledge of collateral the banks should be permitted to deposit with the Government clearing-house certificates secured in turn by the deposit with the local clearing house of short-time mercantile paper.

—The Chicago Association of Commerce has sent to the Chicago members of Congress a letter embodying resolutions adopted on February 28 by the Executive Committee of the Association disapproving of Senator Aldrich's Currency Bill. The Association regards as unsound the principle embodied in the bill that the currency should be based on bonds, believing that any such emergency is absolutely rigid and does not meet the varying demands of the country at different seasons of the year. It also declares as "unnecessary and oppressive" the high tax which the bill proposes on the the currency issued under its provisions. "If,

however," it states, "the bill were amended by reducing the tax to not over 2%, and by providing for the receiving as security for the currency (in addition to the bonds already specified therein) clearing-house certificates issued by the banks in reserve cities and based chiefly upon commercial paper, it is our opinion that the most objectionable features of the bill would be removed, and that the bill so amended might be a wise step toward currency reform."

—The motion for the appointment of a permanent receiver for the Knickerbocker Trust Co. of this city was dismissed on Saturday last at the hearing before Supreme Court Justice Clark, at St. George, Staten Island, and an order was signed permitting the company to resume business at noon on Thursday, the 26th inst. Justice Clark's action was based on the recommendation of State Superintendent of Banks Clark Williams, who was directed to examine into the company's affairs and report as to the safety and practicability of the plan for resumption. In his report Mr. Williams stated that the examination showed the capital of $1,200,000 to be unimpaired, and in addition there is a surplus of $711,444. The following tabular statement was introduced in the report to show the condition on Feb. 28 1908, after making proper deductions:

| | |
|---|---|
| Stock and bond investments | $5,736,391 84 |
| Bonds and mortgages | 2,986,293 59 |
| Real estate, net | 2,350,000 00 |
| Loans and bills purchased | 27,202,544 81 |
| Cash in office and on deposit | 11,765,015 99 |
| Due from banks | 4,002 28 |
| Accrued interest due company | 948,173 15 |
| Total | $50,992,421 66 |

The total liabilities are given as $49,080,978, exclusive of capital and surplus and inclusive of a contingent liability of $300,000 on account of real estate at Broadway and Exchange Place. The report gives the gross deposits of the company on Feb. 29 as $46,370,621, and makes the following statement with reference to the assents to the plan of resumption:

| | |
|---|---|
| General assents | $36,162,730 78 |
| Qualified assents | 1,254,852 17 |
| General approvals | 594,652 04 |
| Total | $38,012,234 99 |

The cash requirements at resumption are given as follows:

| | |
|---|---|
| Preferred deposits | $1,844,082 09 |
| Assenting deposits | 2,517,912 32 |
| Qualified assents | 77,154 13 |
| Non-assenting deposits | 1,232,715 76 |
| Cash reserve | 3,502,416 91 |
| Underwriting subscriptions | 86,056 29 |
| Commitments | 365,487 50 |
| Expense bills | 25,967 12 |
| National Bank of Commerce, &c | 1,521,983 59 |
| Total | $14,173,775 71 |

To meet these requirements, Mr. Williams stated, the receivers had up to Feb. 29 collected $11,765,016, and it was estimated that during the present month they would receive $1,500,000 additional. Besides this, it is stated, the contribution of $2,400,000 by the stockholders (one of the provisions of the resumption plan) has been made available. These several amounts, aggregating $15,665,016, it is pointed out, are sufficient to meet the above requirements and leave free cash of $1,491,240, from which amount proper allowance should be made for fees and expenses of receivership and the Committee on Resumption. Attention is also drawn to the fact that the above items include the payment in full of the obligation of the company to its former Clearing-House agent, the National Bank of Commerce, and provide for the legal cash reserve. Mr. Williams also takes occasion to state that "an analysis of the assets of the company and a conservative estimate of collections indicate the ability of the trust company to meet its obligations to depositors as they mature from time to time during the period covered by the agreements postponing payment thereof." He adds that "an estimate of the probable earnings of the company, made by the examiners, indicates that during the period covered by the plan of resumption (29 months), the gross earnings should approximate $3,800,000, while during the same period the expenses, including interest to be paid to depositors under the plan, should not exceed $2,000,000. The apparent profit thus indicated would be $1,800,000." The following statement was submitted as showing the approximate condition of the company on the day of opening, under the terms of the resumption plan:

*Assets.*

| | |
|---|---|
| Stocks and bonds | $5,735,000 |
| Bonds and mortgages | 2,986,000 |
| Real estate | 2,350,000 |
| Loans | 25,700,000 |
| Cash | 15,660,000 |
| | $52,651,000 |

*Liabilities.*

| | |
|---|---|
| Deposits payable at opening | $9,030,000 |
| Deposits deferred | 26,725,000 |
| Due National Bank of Commerce | 1,521,000 |
| Capital | 1,200,000 |
| Surplus subject to expenses of receivership, &c | 14,175,000 |
| | $52,651,000 |

The company has been closed since Oct. 22 last, its suspension following a run resulting in the withdrawal of $8,000,000. On the previous day the company had been notified by the National Bank of Commerce that that institution would cease to clear for it, and on that day, also, Charles T. Barney resigned as the company's President. Mr. Barney's death, it will be recalled, occurred on Nov. 14, from a self-inflicted pistol wound. The plan under which the company is to resume was given in full in this department on Dec. 28. Under its terms a majority of the stock has been deposited and is under the control of the following voting trustees: Lewis Cass Ledyard, Henry C. Frick and Myron T. Herrick, who are to choose the board of the reorganized company. The plan provides for the payment of all preferred deposits to the full amount. Of the other deposits, 70% are to be represented by special transferrable certificates of deposit, and 30% by "surplus certificates," the latter to be paid only out of net earnings and surplus and to bear interest at 4%. Ten per cent of the first-named certificates is to be paid on the date of resumption, and the balance in installments running over a period of two years and four months. It is stated, however, that if conditions warrant, the depositors may receive the whole amount of their deposits before the expiration of this time.

—The Advisory Committee of the American Bankers' Association, on the authority given it by the Executive Council at the annual convention last September, has selected Lakewood, N. J., as the place for holding the spring meeting of the Council. The dates chosen for the Council meeting are Tuesday and Wednesday, May 5 and 6, extending to Thursday, if necessary. Monday, May 4, will be set aside for meetings of the general committees of the Association and the various section committees, as the latter are expected to report to the Council at this meeting.

—At a recent meeting of the directors of the Mechanics' National Bank of this City, S. T. Morgan, President of the Virginia-Carolina Chemical Co., was elected to the board.

—Charles W. Morse and Alfred H. Curtis, formerly Vice-President and President, respectively, of the National Bank of North America of this city, were indicted on Wednesday by the Federal Grand Jury on charges alleging conspiracy and the making of false entries in the bank's books. The joint indictment contains twenty-nine counts, eleven for conspiracy and eighteen for false entries. Both pleaded not guilty to the charges. They were granted two weeks within which to change their pleas and argument on the motion was set for the week beginning March 30. Mr. Morse's bail was fixed at $30,000, and was furnished by the Masachussetts Bonding & Insurance Company. He is also held under a similar amount of bail on charges returned against him several weeks ago by the special grand jury, alleging grand larceny and purjury in matters connected with the discounting of a note received from Morgan J. O'Brien. Mr. Curtis was held in $10,000 bail, furnished by his sister-in-law.

—Suit against the former directors of the National Bank of North America for the recovery of some $700,000 claimed to have been lost in stock transactions was begun by Receiver Charles A. Hanna on the 7th inst. The defendants are reported to be Charles W. Morse, John H. Flagler, William F. Havemeyer, President of the bank at the time it closed in January; Alfred H. Curtis, former President; Ashbel H. Barney and James T. Barney, as executors of the will of Charles W. Barney; John W. Gates, Charles M. Schwab, Henry Chapin Jr., Robert M. Thompson and Morgan J. O'Brien. The complaint alleges, it is said, that the bank lost heavily in transactions in American Ice Securities Company stock bought from Mr. Morse at different times, and in various other purchases.

Receiver Hanna also instituted suit on Monday to recover $405,673 from Mr. Morse, alleged to have been obtained by the latter through dummy loan transactions. Besides this, there is understood to be an attachment against Mr.

Morse for $243,000 levied under the bank's claim during his absence in Europe. An involuntary petition in bankruptcy was filed against Mr. Morse yesterday in the United States District Court. The appointment of a receiver, however, was refused by Judge Holt until the settlement of the question as to whether the petitioners were genuine creditors of Mr. Morse.

—The receivers of the Mechanics' & Traders' Bank of this city, have discharged the debt of that institution to the Clearing House, having been accorded permission by the court to pay the indebtedness. At the time of the bank's closing on January 29 it held Clearing-House certificates to the amount of $1,900,000, secured by $6,000,000 collateral.

—The Phenix National Bank of this city issued on the 14th inst its third annual detailed statement, showing not only the condition of the institution, but the character and value of its assets. The present management has been in control a little less than three years, during which time, it is stated, it has charged out all bad and doubtful assets, added over $300,000 to surplus and profits, and on the first of the year commenced the payment of regular dividends. The statement referred to shows surplus of $400,000 and undivided profits of $130,036. The total resources are $12,476,-724.

—After reducing its capital stock from $1,000,000 to $500,000 last week, the directors of the Hudson Trust Co., Broadway and 42d St., this city, unanimously voted to add the entire amount represented by the reduction to surplus fund instead of distributing it to the stockholders. With a present capital of $500,000, its surplus is now over $600,000.

—John G. Jenkins Sr., ex-President of the First National Bank of Brooklyn Borough and of the Williamsburg Trust Co., died on Thursday at his home in Sea Cliff. Death was due to an attack of apoplexy believed to have been brought on through worry over his banking affairs. The several institutions with which Mr. Jenkins and his sons had been identified—the First National Bank, the Williamsburg Trust Co. and the Jenkins Trust Co.—closed their doors last October and indictments charging conspiracy and perjury were handed down in December against Mr. Jenkins Sr. and three of his sons. Mr. Jenkins Sr. had occupied a prominent position in business circles in Brooklyn, some of the interests with which he had been identified as officer or director having been the Brooklyn Queens County & Suburban RR. Co., the Brooklyn Heights RR. Co., the Brooklyn Rapid Transit Co., the Brooklyn Union Elevated RR. Co., the Fuse Wire & Mfg. Co., the Tompkins Realty League, &c., &c. Owing to his financial troubles Mr. Jenkins had severed his connection with some of these interests.

Supreme Court Justice Townsend Scudder on the 7th nst. granted the motion for a change of venue for the four members of the Jenkins family indicted on conspiracy charges. He moved the venue from Kings County but did not transfer the trial to any specified place.

—The hearing on the application for the discharge of the temporary receivers of the Borough Bank of Brooklyn Borough was adjourned last Saturday by Judge Betts at Kingston until the 28th inst., in order to permit Referee Walter Shaw and State Superintendent of Banks Clark Williams to complete their examinations. Goodwin Brown, as Receiver of the International Trust Co., has been authorized by Judge Betts to sign the deferred-payment plan for the latters' claim of $500,000. An order has also been signed by Judge Betts authorizing the transfer of stock of the Borough Bank to enable the new directors chosen by the depositors to elect officers.

—The stockholders of the Ironbound Trust Co. of Newark, N. J., at a meeting on Wednesday ratified a proposition to increase the capital from $100,000 to $200,000. The surplus will also be raised from $50,000 to $100,000. The institution began business on June 3 of last year.

—The Lincoln Trust Company of Boston, Mass., has been incorporated with $200,000 capital. Fisher K. Rice is given as President and Howard P. Dodge as Treasurer.

—The Merchants' National Bank at 324 Chestnut Street, Philadelphia, is reported to have taken title to property at 310 and 312 Chestnut Street, both of which buildings are to be altered into banking quarters for its use.

—Arrangements for the payment of the second dividend to the depositors of the defunct City Trust, Safe Deposit & Surety Co. of Philadelphia have been made by receiver J. Hampton Moore. The distribution amounts to 19.607%, and with 41.115% previously paid makes the total payments 60.722%. The institution was placed in receiver's hands in June 1905.

—An assignment was made on the 6th inst. by William Slade Clark of Philadelphia, operating as William Slade Clark & Co. Frederick C. Newbourg Jr., the assignee, places the liabilities at about $75,000. Mr. Clark had been a member of the Philadelphia Stock Exchange since 1901.

—Jos. Channon has become Vice-President of the Northwestern National Bank of Philadelphia, succeeding the late L. J. Bauer. Mr. Channon also continues as Cashier of the bank.

—Charles F. Wignall was lately promoted from the assistant cashiership to the cashiership of the Western National Bank of Philadelphia. C. L. Gilliland and J. Baumgartner are the Assistant Cashiers of the bank.

—George W. White has succeeded R. A. Chester as First Vice-President of the Commercial National Bank of Washington, D. C. G. O. Walson takes the place of Cashier, previously held by Mr. White.

—In the "Indianapolis Star" of Feb. 27 G. E. Gregory, Assistant Cashier of the National City Bank of New York, is quoted as having made the following statement with reference to the building of the American National Bank of Indianapolis:

> "We have no bank in New York that will compare with your American National. It is the most complete as to minute detail I was ever in. In fact, we think so much of it that we will incorporate many, if not all, its most desirable features into our own building. Our bank will be housed in what is known as the old Custom Building, it having been bought from the Government. It has been remodeled and is now awaiting the interior finish. The directors ordered that no expense be spared in making the interior arrangement complete and artistic, and when completed it will be the most tasteful and convenient banking house in the United States. We think your American National will greatly aid in this."

—In the United States District Court at Chicago last week Judge Landis appointed the American Trust & Savings Bank of Chicago receiver for the Ravenswood Exchange Bank to supplant the Chicago Title & Trust Co., which was appointed by the State court at the time of the bank's suspension last November. The action of Judge Landis, according to the Chicago papers, was the result of bankruptcy proceedings started for creditors who became dissatisfied with the receivership in the State court and made charges of insolvency against the bank. Judge Landis stated that while he had nothing personal against the receiver first appointed, and had no doubt but that everything would be properly done, in view of the opposition shown by the State court receiver to the Federal court proceedings, it was obvious he could not appoint the same receiver. A 20% dividend was paid to the creditors of the Ravenswood Exchange Bank on the 1st inst.

—The motion for a new trial for John R. Walsh, formerly President of the Chicago National Bank of Chicago, Ill., was denied yesterday by Judge Anderson in the United States District Court, and Mr. Walsh was sentenced to five years' imprisonment. Preparations were immediately made for an appeal to the United States Circuit Court of Appeals on a writ of supersedeas to stay the execution of sentence pending review by the upper court.

—Manager Charles F. Hatfield, of the Fraternal Department of the American Trust & Savings Bank of Chicago, has issued a little pamphlet for the benefit of members of fraternal societies. He terms it "An informal heart-to-heart talk with members of fraternal insurance societies, calling attention to a radical and dangerous weakness in the system and pointing out a remedy." Mr. Hatfield gives figures to show the magnitude of the insurance business of beneficial fraternal societies and lays stress upon the importance of the adoption by them of an improved system of collecting. He also urges the superiority over an individual of an institution equipped as the American Trust & Savings Bank, and points out the safeguards offered in its new department through which collectors are relieved of the burdens of detail incident to their office. The Manager of the department, who inaugurated it and worked out its details, is a practical man of over twenty-five years' experience in a dozen of the leading fraternal societies.

—At a meeting to be held on the 23d inst. the stockholders of the failed National Bank of Commerce of Kansas City, Mo., are to act on several propositions incidental to the proposed reorganization of the institution. One of the matters to be considered concerns an addition of $1,000,000 to the capital, making it $2,000,000. An amendment to the by-laws is also contemplated, providing for a board of twenty-one members, instead of fifteen as at present. It is reported that the notices to the stockholders of the bank show that in order to meet the requirements of Comptroller Ridgely there must be provided $2,870,000 of new money before the reopening. These requirements are summarized in the Kansas City papers as follows:

| | |
|---|---|
| To cover money tied up in ranch and plantation in Mexico | $600,000 |
| Other real estate owned and not used in its business | 400,000 |
| Bad paper | 50,000 |
| Slow paper, face value, $220,000 | 220,000 |
| $500,000 face value 5% building bonds | 500,000 |
| Selling 10,000 shares new stock at $110 per share | 1,100,000 |
| | $2,870,000 |

Efforts are being made to induce Comptroller Ridgely to take the presidency of the reorganized bank. The institution has been closed since Dec. 5.

—It has been decided to hold the annual convention of the Tennessee Bankers' Association on May 26 and 27 at Memphis.

—An application to organize the Commercial National Bank of Greensboro, N. C., capital $200,000, was approved on the 7th inst. The proposed institution is to succeed the Greensboro Commercial & Savings Bank, and will be under the same management as the latter, the following officers continuing in charge: F. B. Ricks, President; E. J. Stafford, Vice-President, and F. C. Boyles, Cashier.

—The City National Bank of Greensboro, N. C., was put in charge of a receiver on the 6th inst., following the decision of the directors to place the institution in voluntary liquidation. The bank had a capital of $100,000.

—The Georgia Bankers' Association will meet in annual convention this year at Brunswick. The meeting is to take place about the middle of June.

—John J. Flowers has become Cashier of the New Farley National Bank of Montgomery, Ala., succeeding L. W. Tyson.

—A call has been issued for a meeting of the stockholders of the Merchants' National Bank of New Orleans, La., to be held on April 2, to take action on the proposition to change the name of the institution to the People's National Bank.

—J. E. McAshan, Cashier of the South Texas National Bank of Houston, Tex., since its organization, was elected a Vice-President of the institution on Feb. 24, in which capacity he continues in the active management of the bank. Beverly D. Harris, formerly Cashier of the Commercial National Bank of Houston, has been chosen to succeed Mr. McAshan as Cashier of the South Texas National.

—Guinn Williams has been chosen to succeed the late John C. Harrison as Cashier of the State National Bank of Fort Worth, Texas.

—George P. Levy has recently become President of the Western National Bank of Fort Worth, Texas, and F. H. McFarland has become Vice-President, succeeding William Bohning.

—A new financial institution in which Canadian capital is interested is being organized to operate in Spokane, Wash., under the name of the British-American Bank. The "Chicago Banker" states that this is announced to be the first attempt of Canadian capital to put the Canadian banking system into operation in this country under a State charter. In the application for a charter the capital is placed at $100,000, but it is said that the amount will be increased before the institution opens for business. H. C. Flumerfelt, President of the British-American Trust Co. of Vancouver, B. C., and H. N. Galer, Vice-President of that institution, will be identified with the management of the new bank.

—The Comptroller of the Currency has approved an application to organize the Union National Bank of Pasadena, Cal., capital $100,000.

—It is understood that the Farmers' & Merchants' National Bank of Colusa County, at Colusa, Cal., which suspended on Dec. 10, has been declared solvent by the Court and will resume business. The Bank Commissioners are said to have withdrawn the custodian who has been temporarily in charge of the institution.

## Monetary and Commercial English News

(From our own Correspondent.)

*London, Saturday, February* 29 1908.

Business has again been exceedingly slack and disappointing during the week. On Monday the fortnightly settlement in mining securities began; on the following day the settlement in all other securities began, and on Thursday the settlement was completed. On Friday the settlement in Consols began. Therefore, the members of the Stock Exchange have been very much employed in merely completing these several settlements. In addition to this, the joint-stock banks have been making up their accounts for the close of the month, and, as usual, have been calling in loans so as to make it appear that they hold larger reserves than they really do. This has made money scarcer and has compelled the outside market to borrow largely from the Bank of England. The best estimate amongst bankers is that the outside market has up to the present borrowed about eight millions sterling from the Bank of England, and between now and the end of March 1 borrowings will probably continue. On the one hand, this large borrowing has prevented money from becoming so scarce as at one time it threatened to be. By and by the inevitable repayment will come, and it looks now as if early in April there would not be as much cheapness of money as hitherto has been anticipated, unless, of course, some of the gold sent to New York during the crisis is returned.

Meantime, business on the Stock Exchange is exceedingly stagnant. There is a steady investment going on Prices are exceedingly attractive, and everybody who can scrape money together is buying favorite securities. But speculation has come to a standstill. Mainly, this is due to the rise in the value of money since the beginning of February. The great activity in January was in consols and other gilt-edged securities, all of which yield interest considerably lower than borrowers have to pay at the present time. Consequently, careful operators have been deterred from continuing their operations in consols, and the less careful, finding the public withdrawing, have got frightened and have sold. Probably there will be little resumption of the movement in consols until early in April, when, if the new Budget is favorable, the best judges are all looking for a very considerable further rise in all high-class securities.

In Paris business is quite as slack as it is in London. This is due mainly to the state of things in Morocco. Fully eight thousand French troops are now employed in Morocco, and it is possible that even that number may have to be increased. Yet the tribes, far from being alarmed, are gaining in confidence, and of late the French have had to fight two or three stiff engagements. Thus, the probability of an early restoration of order is growing less and less, and, considering the attitude of Germany, it would clearly be unsafe to adopt really effective measures. Yet it is scarcely possible for France to withdraw altogether from Morocco, were it only because of the engagements she undertook at Algeciras. In addition to the anxieties caused by Morocco, there is a certain amount of apprehension springing out of the various rumors concerning the Baltic and North Sea questions, the Austrian railway policy and the attitude of Russia with regard to that policy.

In Germany liquidation is going on. The banks hold an immense amount of stock for their clients, and they are gradually liquidating, and thus accumulating liquid funds. But the liquidation will have to continue for a long time yet.

Money, as already said, has been in strong demand during the week. The general expectation is that it will be more plentiful next week, and that, as March advances, the payments out of the Treasury will exceed the payments into it, and therefore will tend to make money more plentiful and cheap. Nevertheless, actual ease is not to be anticipated until early in April, for next month the usual spring agricultural requirements will take a good deal of money from London to the interior. In Paris money is exceedingly abundant—is, indeed, so over-abundant that the banks find it difficult to employ their balances. Yet the banks are not employing as large amounts in London and Berlin as might reasonably have been expected. Apparently, the political rumors receive more credence in Paris than they do in London, and the banks, therefore, think it necessary to keep larger reserves. In the long run, however, unless apprehension grows, the redundancy of money must compel greater activity upon the bourses.

The India Council offered for tender on Wednesday 40 lacs and the applications exceeded 39½ lacs, at prices ranging from 1s. 3 29-32d. to 1s. 3 15-16d. per rupee. Applicants for bills at 1s. 3 29-32d. per rupee were allotted in full.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years:

| | 1908. *Feb.* 26. | 1907. *Feb.* 27. | 1906. *Feb.* 28. | 1905. *March* 1. | 1904. *March* 2. |

Messrs. Pixley & Abell write as follows under date of Feb. 27.

GOLD.—The Bank purchased about £400,000 of gold in the open market, the balance being taken partly for the Continent and partly for India. The week's movements are: Received £550,000, of which £370,000 is in bars, while £150,000 has been withdrawn for South America. £821,000 is due from the Cape next week. Arrivals—South Africa, £554,000; Australia, £144,000; West Indies, £19,000; West Africa, £11,000; total, £728,000. Shipments—Bombay, £85,175; Calcutta, £20,000; Colombo, £3,000; total, £108,175.

SILVER.—The market has been weaker; the chief reason being that the Indian demand shows signs of being satisfied, the amounts already bought being very large, while, in addition, silver, nominally on the way to China by German steamer, has been sold in India. After dropping to 25⅜d. the price rallied to 25 13-16d. on further Indian orders, but to-day we only quote 25½d., and, although there are small buyers at the price, the tendency is towards lower rates. The price in India is Rs. 65 15-16 per 100 Tolahs. Arrivals—New York, £236,000; West Indies, £6,000; Australia, £2,000; total, £244,000. Shipments—Bombay, £63,500; Calcutta, £10,000; total, £73,500.

**Statement of New York City Clearing-House Banks.**—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending March 7. The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement for Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

*We omit two ciphers (00) in all cases.*

| Banks. 00s omitted. | Capital. | Surplus. | Loans. Average. | Specie. Average. | Legals. Average. | Deposits. a Average. | Res've. |

| Actual figures this morning | | | 1160,895,2 | 267,162,4 | 58,748,6 | 1174,517,3 | 27.7 |

On the basis of averages "circulation" amounted to $62,162,300 and United States deposits (included in deposits), $54,474,100; actual figures March 7, circulation, $61,944,300; United States deposits, $52,871,300.

The statements compiled by the State Banking Department, together with the totals for the Clearing-house banks, both the averages for the week and the actual figures at the end of the week, are shown in the following table. In the figures for State banks and trust companies all of these institutions in Greater New York are included.

NEW YORK CITY BANKS AND TRUST COMPANIES.

+Increase over last week. — Decrease from last week.
*a* Includes bank notes. *b* After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $619,701,600, an increase of $284,200 over last week's figures.

*Note.*—In the case of the Clearing-House banks the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual figures included U. S. deposits amounting to $52,871,300, a decrease of $2,515,200 from last week; averages included U. S. deposits of $54,474,100, a decrease of $876,000 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS AND TRUST COMPANIES OUTSIDE OF NEW YORK CITY
*Week ending March 7 1908.*

| | Loans. | Deposits. | Reserve. | % of Res. |

*Wall Street, Friday Night, March* 13 1908.

**The Money Market and Financial Situation.**—The security markets have displayed more animation and strength this week than for some time past. Inasmuch as there has been practically no change in conditions governing Stock Exchange values, it is not easy to determine on just what this revival of activity was based. The movement was accelerated and prolonged, however, by the circulation of reports which were intended in one case to enhance the value of Union Pacific shares and in another case to stimulate more hopefulness in regard to future railway earnings. When the groundlessness of the latter report became known, there was a corresponding decline in railway stocks.

We are pleased to note that there are evidences of a little more activity in the iron and steel trade and also in the export demand for copper. This fact is especially interesting when it is remembered that any general quickening of industrial activity would naturally begin with a larger demand for these metals.

The local money market remains in an apathetic condition, with the flow of currency from the interior increasing. The Bank of England reports a reserve of over 50%, and discount rates in the open London market are lower than for many months past.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¾% to 2%. To-day's rates on call were 1¾@2%. Prime commercial paper quoted at 5½@6% for 60 to 90-day endorsements and 5½@6% for best single names.

The Bank of England's weekly statement on Thursday showed an increase in bullion of £718,309, and the per cent of reserve to liabilities was 50.01, against 49.59 last week.

The rate of discount remains unchanged at 3½% as fixed March 5. The Bank of France shows a decrease of 4,750,000 francs gold and 2,875,000 francs silver.

*Note.*—The Clearing House now issues a statement weekly showing the totals of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—After an active movement early in the week, due to speculative operations, the market became quiet and irregular, though with a fairly strong undertone, and it so continued to near the close, when it became weak.

To-day's (Friday's) nominal rates for sterling exchange were 4 84@4 84½ for sixty-day and 4 87@4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8320@4 8330 for long, 4 8580@4 8590 for short and 4 86 @4 8610 for cables. Commercial on banks 4 82½@4 82¾ and documents for payment 4 82¼@4 83. Cotton for payment 4 82¼@4 82½, cotton for acceptance 4 82½@ 4 82¾ and grain for payment 4 82¾@4 83.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 20@5 19⅜ for long and 5 18⅛@5 17½*h* for short. Germany bankers' marks were 94 5-16@94⅜ for long and 94 15-16@95*d* for short. Amsterdam bankers' guilders were 40 11@40 13 for short.

Exchange at Paris on London to-day 25f. 18½c.; week's range 25f. 18½c. high and 25f. 18½c. low.

The week's range for exchange rates follows:

| | Long | | Short | | Cables |
|---|---|---|---|---|---|
| *Sterling, Actual—* | | | | | |
| High | 4 8345 | @4 8350 | 4 8635 | @4 8640 | 4 8665 @ 48670 |
| Low | 4 8320 | @4 8330 | 4 8580 | @4 8590 | 4 84 @ 48610 |
| *Paris Bankers' Francs—* | | | | | |
| High | 5 20 | @5 19⅜ | 5 17½*h* | @5 17½*d* | |

| *Germany Bankers' Marks—* | | | | | |
| High | 94⅜ | @ 94 7-16 | 95 | @ 95⅛ | |
| Low | 94 3-16 | @ 94 5-16 | 94 15-16 | @ 95 | |
| *Amsterdam Bankers' Guilders—* | | | | | |
| High | | | 40⅛ | @ 40 3-16 | |
| Low | | | 40 11 | @ 40 13 | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1,000 premium. New Orleans bank, 25c. per $1,000 discount; commercial, 50c. per $1,000 discount. Chicago, 30c. per $1,000 premium. St. Louis, 70c. per $1,000 premium. San Francisco, 25c. per $1,000 premium.

**State and Railroad Bonds.**—No sales of State bonds have been reported at the Board this week.

The market for railway and industrial bonds has, as noted above, been more active, and a large portion of the issues traded in have recovered an average of about 1 point from the low level reported last week. The transactions in this department of the Exchange have exceeded 2½ millions, par value, each day, and on Wednesday reached nearly 3 millions. New York City 4½s have been favorites at fractionally higher quotations. U. S. Steel 5s have been the active feature and close 2½ points higher than last week.

**United States Bonds.**—Sales of Government bonds at the Board include $20,000 4s, reg., 1925, at 122; $120 3s, coup., 1908-18, small bonds, at 101, and $20,000 Panama Canal 10-30 2s at 103¼ to 103½. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The stock market has been more active, the transactions on Wednesday approximating 1,000,000 shares, and the upward movement which developed at the close last week increased in force, until an advance of from 3 to 6 points or more has in many cases been recorded. Thursday's market was hesitating and unsteady, the volume of business fell over one third, and the high prices of Wednesday were not generally maintained. To-day's market was of yesterday's type until the last hour, when the upward movement was resumed and, in many cases, closing prices are the highest of the week.

Among the exceptional features are Union Pacific, which closes with a net gain during the week of over 10 points, Reading, which is 7½ points higher, St, Paul and Louisville & Nashville which are up between 6 and 7 points. Industrial issues have followed closely the general trend.

The copper stocks were strong on a better demand for metal and Am. Sugar Refining sold over 4 points above its previous highest price of the year. U.S. Steel common and preferred show an advance of over 3 points within the week.

*For daily volume of business see page* 659.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

**Outside Market.**—Trading in copper shares has dominated the "curb" market this week. The activity and strength of several issues has helped to impart a better tone, though on Thursday a reaction caused prices to sag somewhat. To-day's market was quiet but strong. Nevada Consolidated Copper was a prominent feature during the week, the stock moving up from 9 to 11⅜. It fell off to 10⅞ but to-day improved to 11½. closing at 11¼. The new 6% bonds, of which over 95% was reported subscribed for, sold "w. i" up from 109 to 125 and back to 118. Cumberland-Ely shared the attention, heavy transactions carrying the price up from 7⅛ to 8¾, the close to-day being at 8⅝. Boston Consolidated advanced a point to 15¼. Butte Coalition rose from 19⅞ to 20⅜. Davis-Daly Estates went up from 4¼ to 4½ and back to 4⅛. Douglas Copper gained half a point to 6½. Greene Cananea sold down from 8⅛ to 8, and up to 8½. Nevada-Utah advanced from 3 13-16 to 4⅜. United Copper common was weak, dropping from 5¾ to 5. Nipissing, after a decline from 7¼ to 6⅜, advanced sharply to 7⅛ and ends the week at 7. Micmac sold between 3½ and 3⅞, but on Thursday jumped to 4½, the final transaction to-day being at 4¼. But few transactions have taken place in the specialties. Havana Commercial preferred advanced from 47⅞ to 50½ and Central Foundry preferred from 7½ to 8. A sensational rise of 25 points in Standard Oil to 515 was one of the features in this department. Later it broke to 501, followed by a recovery to 510. To-day it sold at 509½. Chicago Subway advanced from 16½ to 17. Consolidated Steamship 4s were traded in from 10 down to 9¾ and up to 10⅛.

Outside quotations will be found on page 659.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. | | | July 1 to Latest Date. | |

| | $ | $ | $ | $ |
| Gross earnings (55 roads) | 42,834,461 | 47,278,296 | 4,443,835 | 9.39 |

It will be seen that there is a loss on the roads reporting in the amount of $4,443,835, or 9.39%.

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of Feb. 29 1908. The next will appear in the issue of March 28.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Figures revised for previous year so as to accord with the new classification of earnings and expenses now required by the Inter-State Commerce Commission.

p For January additional income was $118,453, against $3,098 in 1907, and for period from July 1 to Jan. 31 was $65,869 in 1908, against $21,782 in 1907.

s After allowing for miscellaneous income, which was a debit item for the month of Janaury, total net earnings were $293,111 in Jan. 1908, against $336,466 last year, and for period from July 1 to Jan. 31 were $2,363,222 this year, against $2,785,453.

x These figures are on the basis of accounting required by the Inter-State Commerce Cmomission.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges.

| Roads. | Int., Rentals, &c.—Current Year. | Int., Rentals, &c.—Previous Year. | Bal. of Net E'ngs.—Current Year. | Bal. of Net E'ngs.—Previous Year. |

### Chicago Junction Railways & Union Stock Yards Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President Nathaniel Thayer, under date of Feb. 11 1908, says:

*General Results.*—The business of the company and the receipts of live stock were excellent during the first three-quarters of the year, but in the later months it felt the depression and decrease of business which swept over the country as the result of the panic conditions which existed in October and November.

The combined net earnings of the Chicago Stock Yards and of the Chicago Junction Railway Co. for the calendar year show an increase compared with 1906 of $186,704.

*Sale of "Outer Belt"—Description and Disposition of $2,500,000 Bonds Received in Payment.*—Since the last annual meeting, that part of the railroad of the Chicago Junction Railway Co. known as the "Outer Belt," which is the railroad originally belonging to the old Chicago Hammond & Western RR. Co., has been sold under contract dated June 29 1907, between the Chicago Junction Railway Co. and the Indiana Harbor Belt RR. Co., the Lake Shore & Michigan Southern Ry. Co. and the Michigan Central RR. Co. The consideration received consisted of $2,500,000 bonds issued by the Indiana Harbor Belt RR. Co. These bonds bear interest at the rate of 2% per annum for the first five years, 3% per annum for the second five years and 4% per annum thereafter, and the principal is payable July 1 1957. The bonds are guaranteed as to principal and interest by the Lake Shore & Michigan Southern Ry. Co. and the Michigan Central RR. Co., jointly and severally.

The so-called "Outer Belt" was subject to a mortgage executed by the old Chicago Hammond & Western RR. Co. to secure an outstanding issue of $2,500,000 6% bonds, and connected with it were contracts with other railroad companies which involved constant expenditures for increased trackage and facilities. This mortgage and indebtedness and the performance of these contracts were assumed by the purchasers. As the property would require the immediate expenditure of large sums for necessary betterments and improvements, and increased facilities, the sale upon the terms stated was considered highly advantageous to the Chicago Junction Ry. Co. The result has been practically to relieve the railway company from liability for the payment of the $2,500,000 of existing bonds and the fixed charge of $150,000 per annum, as well as from the necessity of providing large sums for improvements and for additional trackage under existing contracts.

Nearly all the stock of the Chicago Junction Ry. Co. having been heretofore pledged with the Standard Trust Co. of New York as trustee under your company's mortgage dated April 10 1900, as part of the security for its issue of "4% 40-year mortgage and collateral trust refunding gold bonds," due April 1 1940, the trustee insisted that the bonds received on the sale of the "Outer Belt" should be pledged with it, and this was done by the terms of a supplemental instrument of pledge dated Nov. 1 1907, which provides that these bonds shall be held by the trustee as additional security for said refunding gold bonds as fully as if originally pledged.

*Real Estate Improvement Bonds—New Issue of $3,000,000, Replacing $2,000,000 Issue Authorized in 1907.*—In order to improve and develop new properties in which your company had recently become beneficially interested, as well as to discharge existing liens thereon, the stockholders at the last annual meeting authorized the issue of $2,000,000 first mortgage 5% 20-year real estate improvement bonds, to be secured by a mortgage to be executed by your company and Messrs. Spoor and Winston, as trustees, mortgaging certain lands standing in their name as trustees. A mortgage was thereupon executed to The Standard Trust Co. of New York as trustee, dated May 1 1907, and $585,000 of new bonds were from time to time issued and certified by the trust company. (The balance sheet of Dec. 31 1907 shows that of these $585,000 bonds, $387,000 are in the treasury and $198,000 are outstanding.) It has, however, been deemed advisable to increase the authorized issue of the proposed bonds from $2,000,000 to $3,000,000, so as to provide a larger fund for contemplated buildings and other purposes. To this end there will be submitted to you at this meeting for your approval a proposition to cancel the existing mortgage and deed of trust covering the authorized issue of $2,000,000 bonds, and to substitute in its place a new deed of trust to be dated as of March 1 1908, which shall authorize a similar issue of "real estate improvement bonds" to the amount of $3,000,000 in denominations of $1,000 each, payable March 1 1928, with interest payable semi-annually in March and September at the rate of 5% per annum. The present outstanding bonds of the original issue will be exchanged for the new bonds now proposed, and additional bonds will be issued to your company to represent part of the investment. The net earnings, after payment of interest and all fixed charges, and any other receipts from these properties are accumulating in the hands of the trustee and will be expended only upon improvements to the properties and in retirement of the real estate improvement bonds.

*Volume of Business.*—The following is a comparative statement of live-stock and car receipts for the past two years:

| | Cattle. | Calves. | Hogs. | Sheep | Horses. | Cars. |
|---|---|---|---|---|---|---|
| 1907 | 3,305,314 | 421,934 | 7,201,061 | 4,218,115 | 102,055 | 287,981 |

### (The) American Tobacco Company.

*(Report for Fiscal Year ending Dec. 31 1907.)*

Treasurer J. M. W. Hicks, under date March 11 1908 says:

There has been no change in the capital stock during the year.

As required by the trust indenture there was deposited with Morton Trust Company, trustee, in Jan 1907 the sum of $500,000 to be expended in the

purchase for cancellation 4% gold bonds of the company upon terms specified in said trust indenture, and bonds of the par value of $458,150 have been so purchased and canceled, the cost of same being $453,057. The difference between par value and cost of the bonds so purchased has been written off as an expense.

By order of the board of directors 4% gold bonds of the par value of $7,496,000 have been purchased at a cost of $5,034,237 and paid for out of the surplus and canceled, and the par value ($7,496,000) deducted from the amount carried among the assets of this company as good-will, patents and trademarks.

The statement below does not include the company's share of the undivided net earnings of companies in which it holds stock which they have deemed it advisable not to declare as dividends.

Total surplus Dec. 31 1907, $6,764,775; including $5,477,677 on hand Dec. 31 1906.

*Note.*—The balance for the year 1907 applicable to surplus as above was $1,287,098; previous surplus Dec. 31 1906 was $5,477,677, making a total of $6,764,775.—V. 86, p. 604.

## American Snuff Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

Treasurer E. D. Christian, March 3, writes:

This statement does not include this company's share of the undivided net earnings of companies in which it holds stock which they have deemed advisable not to declare as dividends.

The increase in the item "real estate, machinery, trade marks, &c.," is due in part to the comp etion during the year 1907 of two large factories and the transfer to this company of assets formerly owned by two companies of which this company owned the issued stock. The transfer of assets and the winding up of these companies make a corresponding reduction in the item "securities of other companies."

The net earnings of the company are shown after reducing book value of good-will and deducting all charges and expenses of management.

| | 1907. | 1906. | 1905. | 1904. |
|---|---|---|---|---|

## Havana Tobacco Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

The report of the Treasurer states:

There has been no change during the year in the capital stock and bonds.

The earnings of the company come chiefly from dividends on its holdings of stocks of Henry Clay and Bock & Co., Ltd., Havana Cigar & Tobacco Factories, Ltd., Havana Commercial Co., H. de Cabanas y Carbajal and J. S. Murias y Ca.

Notwithstanding the fact that the factories of said manufacturing companies were closed, through labor troubles, for 5½ months, the share of the company of the earnings for 1907 which has not been declared as dividends and which has not been received into the treasury of this company amounts to $338,349; from this should be deducted the deficit in the operations of the company itself, as shown bel w, $141,251; in order to show actual operations for the year 1907 there should also be deducted the dividends received by this company in 1907 from operations during previous years, amounting to $335,491, leaving a net shortage on the year's transactions of $138,393.

*RESULTS OF OPERATIONS OF CALENDAR YEAR.*

| | 1907. | 1906. |
|---|---|---|
| The net earnings of company, incl. divs. paid to it during year, and after deducting charges & expenses in management, are | $233,749 | $128,994 |
| Interest on 5% gold bonds | 375,000 | 375,000 |
| Leaving this company to secure from other sources in order to meet fixed charges | $141,251 | $246,006 |

## Pittsburgh Coal Co.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President M. H. Taylor, Pittsburgh, Pa., March 3, writes in substance:

*Production.*—The total tonnage output handled for the year 1907, including purchases and coal used in making coke, was 19,353,494 tons of run-of-mine coal, or a decrease of 237,706 tons from the preceding year, or 1.21%. Of this tonnage there were 579,833 tons coked, with an increase in coke production over 1906 of 27,857 tons, or 6.49%.

*Earnings.*—As a result of better prices for coal and coke, the gross earnings increased $434,860, or 8.21%. Net earnings were $2,958,593, an increase of $765,825, or 34.93%, and equal to a dividend of 10.93% on the preferred stock outstanding; the relatively larger increase in net earnings is due principally to a saving of interest resulting from the retirement of $2,081,000 of first mortgage bonds and to a substantial reduction in plant and equipment depreciation charges incident to revaluation of plants and equipments at Dec. 31 1906, as set forth in report for that year, and to sale of Lake Michigan dock properties.

*Working Capital.*—The net working capital Dec. 31 1907, after large payments of funded debt, is $4,298,190, being an increase of $2,692,043 over the preceding year.

*Reserve for Depletion of Coal Lands—Bond Sinking Fund.*—Royalties reserved by charge against operating expenses, being 5 cents for each ton of run-of-mine coal taken from properties owned, amount for the year to $725,937. The portion of this amount paid into bond sinking fund, together with proceeds received from the sale of this company's interests in the Milwaukee-Western Fuel Co. of Milwaukee and of the C. Reiss Coal Co. of Sheboygan, Wis.—which was authorized at [illegible] annual meeting—effected the retirement during the year of $2,081,000 first mortgage bonds, at a cost of $2,221,952. The total retirement of such bonds to date is $3,820,000, or 15.28% of the total issue.

There yet remain of coal rights 193,965 acres, and, based on the royalty payments of the past, only about 55,691 acres, or 28.71%, of the coal owned will be required for the total extinction of the first mortgage bonds.

*Balance Due on Preferred and Common Stock Purchased Dec. 31 1906.*—Excepting loans unpaid, amounting to $[illegible], which is pledged 1,433 shares of preferred stock, all of the stock [illegible] referred to in the last annual report, has been paid for, [illegible] during the year having been $731,294.

*Preferred and Common Stocks Purchased During 1907.*—In order to acquire the shares of stock loaned, settlements have been made during the year, resulting in purchases of 1,750 shares preferred stock, 1,930 shares common stock.

*Total Preferred and Common Stocks Purchased Dec 31 1907, and Cost (including the small balance unpaid which is above referred to, as of Dec. 31 1907).*

| | No. of Shares. | Total Cost. | Per Share. |
|---|---|---|---|
| Preferred stock | 38,794 | $2,858,018 | $73 67 |
| Common stock | 33,396 | 627,360 | 18 78 |
| Total | 72,190 | $3,485,379 | |

all of which cost is constituted a charge against the working capital, since there have been no other means out of which payment could be made.

*Stocks Released During 1907.*—The 7,940 shares of preferred and 5,558 shares of common stock placed in the hands of the Union Trust Co. of Pittsburgh by the syndicate managers, and held by it as trustee as security for the payment by this company of $794,000 of bonds of the Northwestern Coal Ry. Co., without any contract as to purpose or terms, have been adjudged by the courts to be returned to this company and this has been done.

*Stock Outstanding.*—The outstanding stock as of Dec. 31 1907 is therefore

| | Preferred. | Common. | Total. |
|---|---|---|---|
| Total authorized and issued | $32,000,000 | $32,000,000 | $64,000,000 |
| Less in treasury | $1,048,300 | $555,800 | $1,604,600 |
| Less purchased for the treasury | $3,879,400 | $3,339,600 | $7,219,000 |
| Balance outstanding Dec. 31 1907 | 27,071,800 | 28,104,600 | 55,176,400 |

*Reserve for Depreciation of Plants and Equipments.*—The policy of transferring from earnings to renewal fund a sum equal to 6% per annum on the value of all the plants and equipments has been continued during the year, $964,809 being so reserved. This reservation has been sufficient, within $4,219, to cover all expenditures made for new plants and equipments and for renewals of existing plants and equipments, expenditures for ordinary maintenance and repairs being charged direct to operations.

*Coke Ovens.*—There were completed 390 coke ovens, making the total number owned 1,119. The operation of all these ovens was suspended about Dec. 1, but it is expected that in the near future business conditions will so have improved as to make it possible to then operate these ovens to their full capacity on a profitable basis.

*Fire Insurance.*—All fire risks formerly carried by the Mutual Company are now provided for by an Insurance Fund system under which are set aside monthly premiums. This fund is safeguarded by carrying outside insurance on the larger risks. The average total value of all property subject to loss was $10,943,328. Twenty-four fires occurred during the year, entailing total loss of $27,872, the percentage of loss to value being 0.255%.

*Marine Insurance.*—The company during the year carried all of its marine risks on coal shipped on the Great Lakes, the net balance of premiums saved, after provision for losses, being upwards of $20,000. Insurable value of company's coal shipped from Lake Erie ports during the year 1907, $10,636,387; losses on the same, $3,683.

*RESULTS FOR YEAR ENDING DEC. 31, INCL. SUBSIDIARY CO'S.*

| *Production—Tons (2,000 lbs.)— | 1907. | 1906. | 1905. |

y Certain construction and purchase of lands and equipments authorized but not completed will require $440,020, on account of which the re-investment fund of $70,370 is available.—V. 86, p. 606, 424.

## American Radiator Co., Chicago.

*(Report for Fiscal Year ending Jan. 31 1908.)*

President Clarence M. Woolley, March 4 1908, writes in part:

*General Results.*—Unusual prosperity prevailed throughout the first nine months—the sales and profits were increased. The last three months, however, did not keep pace with the earlier months. The results for the entire year were gratifying, the net profits being the largest in our history.

The company passed through the panic of 1907 without stress or strain, and emerged therefrom with cash on hand approximately equal to its liabilities. The inventories of raw materials and manufactured products were adjusted at the end of the year on the basis of actual market values, by the utilization of funds reserved for that purpose.

The company has steadily enlarged its producing capacity, and, following conservative price policies, the business has gradually increased until the volume annually transacted exceeds its capitalization.

*Foreign Subsidiaries.*—The growth of the European companies continues at a gratifying rate. Each has transacted a larger volume of business than during the preceding year, accompanied by a corresponding increase in earnings. The profits realized by these companies have been utilized for increase in producing capacity and working capital. This has rendered it advisable not to declare dividends, and their profits, therefore, have not been included in the balance sheets of this company.

The plant in England is thoroughly organized and in successful operation. The plant in Germany produced a larger volume of product than ever before and the outlook for continued growth is favorable. The first plant constructed in France was outgrown by the increased demands placed upon it, necessitating the building of a new and larger plant, which will be in operation in the near future.

*RESULTS FOR YEARS ENDING JAN. 31.*

| | 1907. | 1906. | 1905. | 1904. |

## International Silver Co.

*(Statement for Fiscal Year ending Dec. 31 1907.)*

The company reports as follows for the years ended Dec. 31:

*EARNINGS, CHARGES, ETC.*

| | 1907. | 1906. | 1905. | 1904. |
|---|---|---|---|---|
| Earnings for year | $933,291 | $1,338,156 | $1,090,033 | $904,017 |
| Interest on bonds | $327,944 | $330,797 | $333,922 | $332,593 |
| Divs. on pref. stock | (7%)460,817 | (4%)263,324 | (4%)263,324 | (4%)263,080 |
| | $788,761 | $594,121 | $597,246 | $595,673 |
| Balance, surplus | $144,530 | $744,035 | $492,787 | $308,344 |

From these surpluses the amounts following have been written off for depreciation: In 1904, $167,458; in 1905, $206,285; in 1906, $205,316 (also $400,000 from plant investment); in 1907, none.

## Quaker Oats Company, Chicago.

*(Report for Fiscal Year ending Dec. 31 1907.)*

President H. P. Crowell, under date of Chicago, Feb. 14 1908, says;

*General Results.*—The year 1907 was filled with difficulties from the milling as well as the operating point of view, and yet our volume of business, not only as to total sales, but also as to advertised brands, was larger than that of any previous year, while the balance sheet shows that there has been earned a profit of $1,365,166. This is $81,776 more than was secured in 1906, when the earnings made, and the volume of business done, were the largest in our history up to that time. When our grain department was asked to select from the light-weight, low-grade crop, grain sufficiently choice to make Quaker Oats quality cereals, the task would have been insurmountable had it not been for the skill and vigilance of our faithful force. We are now half way through with the crop of 1907, and to this extent all problems have been solved.

*Products.*—Many people think we manufacture only Quaker Oats. As a matter of fact we are the largest manufacturers of feed for horses, cows, calves, cattle, hogs and poultry in the world. The same is true in respect to pearl barley, also oatmeals of all descriptions, independently of our Quaker Oats. We are among the largest manufacturers of rye flours, hominy, grits, cornmeals, corn flours—from both white and yellow corn—in the United States, and therefore, in the world. We make large quantities of flour, whole wheat and graham flours and farinas; also a great variety of specialty foods, such as cracked and rolled wheat, Saxon wheat food, Pettijohn, Apitezo, &c., and finally and over all our Quaker family food group—Quaker Oats, Quaker puffed rice, Quaker wheat berries, Quaker toasted corn flakes and Quaker white and yellow cornmeal. These cereal products were entered at the Jamestown Exposition and we had the satisfaction of obtaining the gold medal on each.

*Plants.*—During the year the mill we have been building at Battle Creek, Mich., was finished, and is now in perfect running order. We have also considerably increased the capacity of the Cedar Rapids plant. All of our mills are equipped with the most modern machinery and manned by a capable force. The cost of all ordinary repairs and depreciation of machinery has been taken out of our profit and loss account, and in addition we have set aside $151,411 for extraordinary repairs and depreciation.

*Dividends, &c.*—We have declared dividends on the preferred stock at the rate of 6% per annum, payable 1½% quarterly on the number of shares issued, amounting to $511,974, and on the common stock at the rate of 8% per annum, payable 2% quarterly, amounting to $357,136, or a total of $869,110.

The financial flurry and the general slowing down of business has not affected us perceptibly. When people are forced to economize and count the dollars and pennies, they naturally turn to cereals, which are always relatively the cheapest and most nutritious of foods. Our foreign trade has more than met our expectations, and is in an extremely healthy condition; our specialties in the United States and Canada are meeting with an ever-increasing popularity. Consequently we look forward with cheerfulness and hope to a generous volume of business during the coming year.

*Profit and Loss Account for Calendar Year.*

## E. I. du Pont de Nemours Powder Co. (of N. J.), Wilmington, Del.

*(Report for Fiscal Year ending Dec. 31 1907.)*

The company makes the following report:

The authorized common stock was increased to $30,000,000 from $25,000,000 in November 1906 and stockholders offered the right to subscribe at par for $952,320 new common, payable 40% Nov. 1 and 20% Dec. 15 1906, 20% March 15 and 20% June 15 1907.

In September 1907 the stockholders were offered the right to subscribe at par for $2,500,000 new common, payable 40% Nov. 1 1907, 60% Nov. 1 1908, the entire issue being underwritten by a syndicate.

Regular quarterly dividends have been paid on the preferred stock since Aug. 1 1903. Dividends on common stock have been paid as follows: ½% Dec. 15 1904 and March 15 1905; 1% June 15, Sept. 15 and Dec. 15 1905; 1½% March 15 and June 15 1906; 1¾% quarterly since.

The funded debt consists of $12,067,000 debenture gold 4½s, dated June 1 1906, due June 1 1936; interest June and Dec. 1 at Guaranty Trust Co., New York, trustee. Authorized, $16,000,000, of which $9,210,000 were used to retire part of preferred stock and $2,857,000 to retire bonds of controlled companies. Redeemable at any time at 110.

The directors (and officers) are: T. C. du Pont, President; H. M. Barksdale, Alfred I. du Pont, Victor du Pont Jr., J. A. Haskell, A. J. Moxham, Charles L. Patterson, Vice-Presidents; Alexis I. du Pont, Secretary; Pierre S. du Pont, Treasurer; F. L. Connable, Eugene E. du Pont, Francis I. du Pont, H. F. du Pont, Irenee du Pont, J. H. P. Reilly.

*x* The consolidated balance sheet, as given above, assumes that all shares of the subsidiary companies are owned by E. I. du Pont de Nemours Powder Co. and the preferred and common stock shown as "held in reserve" on the balance sheet represents the estimated value of the few remaining shares not actually owned.

*Note.*—The foregoing statements differ slightly from those previously published in several particulars, chiefly the following:

(*a*) The net earnings heretofore reported were declared after taking out extraordinary adjustments and adding an amount sufficient to pay dividends on stock reserved to take up outstanding shares of subsidiary companies. The earnings as now reported are before taking up the extraordinary adjustments, &c., and no allowance is made for paying dividends on the stock held in reserve.

(*b*) Formerly the dividend charges included an amount sufficient to pay dividends on preferred and common stock reserved to take up outstanding shares of subsidiary companies, which is not the case in this report.—V. 85, p. 923.

# GENERAL INVESTMENT NEWS.

## RAILROADS, INCLUDING STREET ROADS.

**Albany & Hudson (Electric) RR.**—*Proposition to Fund Coupons.*—By circular dated New York Feb. 10 the bondholders are requested to surrender their coupons due March 1 and Sept. 1 in 1908 and 1909 in exchange for negotiable certificates convertible into first mortgage bonds in amounts of $1,000 on the basis of 87½%, or for each $875 of coupons there will be exchanged a $1,000 bond. The circular says:

The company has outstanding $1,750,000 first mortgage 5% gold bonds out of a total authorized issue of $2,000,000; $100,000 bonds is held in the treasury, having been issued for betterments and improvements made to the property; $50,000 representing moneys borrowed and about the same sum earnings expended. The company may, with the consent of the Public Service Commission, issue the remaining $150,000.

The requirements of the company make it necessary and desirable to expend further amounts in order to increase its earning power. The directors, therefore, recommend the acceptance of the above plan. A large number of bondholders have consented to this plan and upon its acceptance by not less than two-thirds of the total amount outstanding, the plan will be declared operative and provision will be made to deposit $100,000 of the treasury bonds with the Trust Company of America for exchange.

The interests which control the company are proposing to build a 22-mile extension from Nassau to the State line, under the title of Troy Albany & Pittsfield Street Ry., as part of a through route between Albany and Pittsfield, Mass.—V. 82, p. 803.

**Bituminous Coal Roads.**—*Convention of Mine Workers.*—The National Convention of the United Mine Workers of America met in Indianapolis on March 12 to adopt a policy in view of the failure of the operators and miners of the central competitive field, consisting of Illinois, Indiana, Ohio and Western Pennsylvania, to agree upon a joint wage conference to fix a scale in place of the present one, which expires April 1. It has been customary to base the wage scales of the bituminous fields generally on the scale fixed for the central competitive field. President John Mitchell is quoted as saying:

We have stated our willingness to keep the mines in operation after April 1 for a limited time, provided a wage settlement is under negotiation on April 1, but the operators, with some exceptions, notably the Indiana operators, have refused our requests for a joint wage conference and have persisted in postponements and delays. The miners' convention is convened to adopt our policy.—V. 82, p. 1436.

**Boston & Maine RR.**—*Temporary Reduction Desired.*—President Tuttle has asked the conductors, trainmen and firemen to consent to a temporary 5% wage reduction, to continue only until July 1. This would save the company $50,000 monthly on its pay-roll during the period named.—V. 86, p. 479, 336.

**Carolina Clinchfield & Ohio RR.**—*New Name.*—See South & Western RR. below.

**Central California Traction Co.**—*Assessment on Stock.*—An assessment of $5 a share was recently called for payment "delinquent" Feb. 21.

The receiver of the California Safe Deposit & Trust Co. was authorized by the Court to pay the assessment on 3,050 shares held as collateral for notes.—V. 84, p. 867.

**Central of Georgia Ry.**—*Purchased in Interest of Illinois Central RR.*—In June last year the entire $5,000,000 capital stock of this company was purchased by Oakleigh Thorne and Marsden J. Perry from the Richmond Terminal reorganization committee. From an announcement made this week by the Georgia Railroad Commission it appears that the purchase was really made by E. H. Harriman, and that it is proposed to turn over the property to the Illinois Central RR. These facts were made known to the Commission by Mr. Harriman three months ago, but owing to the contest, settled last week, respecting the control of the Illinois Central, Mr. Harriman requested that the aforesaid fact, for the time being, be withheld from the public. The Illinois Central and the Central of Georgia connect at Birmingham, Ala., and the acquisition of the latter gives the former an outlet to the Atlantic at Savannah, Ga.—V. 86, p. 419.

**Central Railroad of New Jersey.**—*Decision Upholding New Jersey Tax on Stored Coal.*—The Court of Errors and Appeals on March 12, in a test case made in the interest of a number of coal companies, sustained the tax imposed by the assessors for local purposes on about 100,000 tons of coal stored by the Lehigh & Wilkes-Barre Coal Co. at Junction, about 20 miles from the Pennsylvania State line.

The company claimed that the coal stored was in transit and that the storage was merely an incident of inter-State transportation from the mines to tidewater and thus the coal was not taxable locally. The opinion by Judge Dill holds that the fact is clear that the purpose of the storage plant was more for the control of the output for the convenience of the coal company in the economical distribution of its product than to facilitate transportation to another State.

The local tax in addition to that paid on the Pennsylvania properties would be a serious drawback to the further maintenance of the large coal depots in New Jersey, which are important to the coal companies in controlling the situation at tidewater and also in times of strike at the mines. —V. 85, p. 785.

**Charleston & Summerville Electric Ry., South Carolina.**—*Reorganization Plan Endorsed.*—The committee consisting of James M. Seignious, Chairman; Wilson G. Harvey, James Allan Jr., R. B. Gilchrist and A. C. Kaufman, appointed at a meeting of business men held in Charleston, S. C., on Feb. 12, has unanimously approved the plan for the completion of this road. Their report shows:

Total estimated cost of the main line from Charleston to Summerville, $600,000. To provide this amount subscriptions are being secured from local and other interests for an issue of about $500,000 bonds. Existing claims, it is thought, can mostly be taken up with preferred stock at par. Total amount heretofore expended approximates $300,000, of which $264,000 in bonds of the company are pledged as collateral security. It is estimated the road will earn from $150,000 to $[illegible] annually.—V. 86, p. 2457; V. 85, p. 1645.

**Chicago & Alton RR.**—*Inter-State Commerce Committee Refuses Application.*—The Inter-State Commerce Commission

last month refused the application of John B. Manning, the owner of some stock in the Louisiana & Missouri River RR., to direct the Chicago & Alton to render a statement of the earnings and expenses of the Missouri company.

The complainant requests that the Alton Company keep a separate set of accounts. The opinion by Commissioner Knapp holds that the powers conferred on the Commission are not intended to be exercised for the purpose of ascertaining whether an individual has been wronged by such transactions as those in question in the case, and that the investigation desired is not required by considerations of public interest or the proper discharge of public duties, and should therefore be refused.—V. 86, p. 545, 167.

**Chicago City Ry.**—*Bonds Offered.*—E. H. Rollins & Sons of Boston, Chicago, Denver and San Francisco are offering at 95½ and interest $500,000 first mortgage 5% gold bonds. Total amount of bonds issued, $13,000,000, of which $1,000,000 in the treasury. Compare V. 86, p. 545, 475.

**Chicago Great Western Ry.**—*Debenture Stockholders' Committee.*—At a meeting of some of the largest debenture stockholders, which took place in London on Feb. 26, it was decided that a separate committee should be appointed to protect the interests of the debenture stock. The following committee has been selected and has consented to act provided it is requested to do so by owners of a large proportion of the stock held in England:

**Chicago & Milwaukee Electric RR.**—*Receivers' Certificates to Be Issued.*—The receivers on March 5 applied to Judge Grosscup for permission to issue not exceeding $1,000,000 of receivers' certificates on the Wisconsin division to complete the road into Milwaukee. In order to facilitate the move, Judge Grosscup has issued an order permitting the deposit of bonds on the Wisconsin division, now held as collateral, under the bondholders' agreement covering that division (see below), and holders of a majority of the bonds have authorized the committee to consent to the issue of the receiver's certificates.

*Protective Committees.*—The following committee has been formed to represent the holders of the Wisconsin division bonds.

John B. Clarke and C. B. Shedd of Chicago and Z. A. Lash, A. J. Somerville and ——— Cassels of Toronto, Canada. The Chicago Title & Trust Co. and National Trust Co. of Toronto will act as depositaries.

A committee headed by F. J. Lisman, now being formed, will represent a majority of the $4,000,000 Illinois division 5s of 1922.—V. 86, p. 336, 284.

Robert Fleming, Chairman; Stanley Boulter, Walter Cunliffe, Chairman of the London Finance Committee and a director in the Bank of England; L. B. Schlesinger, of A. Keyser & Co., and Henry A. Vernet, of the banking firm of Robert Menson & Co.—V. 85, p. 601, 335.

**Chicago St. Paul Minneapolis & Omaha Ry.**—*Bonds Offered.*—Moffat & White offer at 127 and interest the unsold portion of $1,000,000 of consolidated 6% mortgage bonds, making the total amount of consols outstanding $19,705,000, of which $3,265,000 are 3½s and the rest 6s.

The New York Stock Exchange has been requested to list $3,265,000 additional bonds of the issue, bringing the amount listed up to the total outstanding as above.—V. 85, p. 1518

**Colorado & Southern Ry.**—*Results for Calendar Year.*—In connection with the announcement of the regular semi-annual dividends of 2% on the $8,500,000 each of first and second preferred stock, the following is given out:

*Results for Year Ending Dec. 31 1907.*

| | | |
|---|---|---|
| Income of the Colo. & Southern Ry. Co. applicable to interest | | $2,735,328 |
| Interest on first mortgage bonds | $764,063 | |

V. 86, p. 420, 228.

**Concord & Montreal RR.**—*Company to Sell Stock at Auction.*—The company advertises for sale at public auction, in Boston, by R. L. Day & Co., auctioneers, at No. 4 Liberty Square, on March 18 at 11:30 o'clock, 1,600 shares of capital stock of $100 each, being additional shares authorized by votes of the stockholders.—V. 85, p. 921.

**Cumberland Corporation.**—*New Note Issue.*—This company, which in 1906 pledged its stock ownership of the South & Western Railroad, the Clinchfield Corporation, etc., to secure an issue of $15,000,000 6-year 5% notes (V. 83, p. 155), has recently issued $3,000,000 one-year 6% notes secured by pledge of the bonds of the three constituent railroads of the South & Western RR. Co. The new notes will mature in February 1909, but are subject to call on the first of any month on ten days' notice. See South & Western RR. below.—V. 83, p. 155.

**Dayton & Xenia Transit Co.**—*Receivership.*—Judge Thompson in the United States Court at Cincinnati on March 12, upon the application of the Worcester (Mass.) Trust Co., as receiver under the $300,000 second mortgage, appointed the President of the road, C. J. Ferneding, as receiver for the company. The interest due in 1906 and 1907 on the second mortgage 5s, it is stated, is in default.—V. 78, p. 820.

**Delaware & Hudson Co.**—*Further Suits to Enjoin Dividend.*—Judge Ray in the United States Circuit Court at Norwich, N. Y., on application of two non-resident debenture holders, issued an order returnable to-day temporarily restraining the payment of the dividend declared payable on Monday next.

These parties are represented by the counsel who some weeks since addressed a letter to the Public Service Commission (V. 86, p. 285) and yesterday requested the Public Service Commission to intervene in the suit. Hymans & Zoon of Amsterdam, Holland, named as one of the complainants, publicly disown connection with the suit.

An order to show cause why an injunction should not be granted obtained by other debenture holders from Judge Holt in the United States Circuit Court in this city was returnable yesterday. Judge Holt refused to grant a restraining order. See also V. 86, p. 546, 337.

*Injunction Denied by State Court.*—Justice O'Gorman in the Supreme Court in this city on Thursday denied the application of three holders of securities to prevent the payment of the dividend.

The Court says there is no necessity for an injunction and that if the plaintiffs' claim is well founded their interest can be protected by final judgment after a trial on the merits, since the company is solvent. Compare V. 86, p. 546, 337.

**Exeter Hampton & Amesbury Street Ry.**—*Sold.*—At the receivers' sale in Hampton, N. H., on March 10 the property was bid in for $250,000 by Charles H. Penny of Hartford, Conn., representing the bondholders' committee.—V. 86, p. 420.

**Fitchburg RR.**—*New Bonds.*—The shareholders will vote March 18 (1) upon rescinding the action taken at the annual meeting in 1907 authorizing $2,900,000 bonds for refunding bonds maturing May 1 1908 and for other purposes, as some of these purposes have already been provided for, wholly or in part, by the issue of one-year obligations to the amount of $500,000; and (2) on authorizing an issue of $2,400,000 bonds to provide for refunding $2,000,000 bonds maturing May 1, and also to provide for cost of construction of second track from Johnsonville to Troy, N. Y., and for other permanent additions and improvements.—V. 86, p. 228.

**Great Northern Ry.**—*Maturing Bonds—Option of Exchange.*—Holders of the $4,700,000 Eastern Railway Co. of Minnesota first mortgage 5% bonds maturing April 1 1908 are notified that the bonds will be redeemed at maturity at the office of the Great Northern Ry. Co., New York, or at the office of Lee, Higginson & Co., Boston; or, at the option of holders, may be exchanged for Northern Division first mortgage 4% bonds of the Eastern Ry. Co. of Minnesota, dated 1898 (compare V. 66, p. 471). To holders making this exchange a payment of $20 per $1,000 bond will be made. This privilege is subject to withdrawal after April 15.—V. 86, p. 602, 480.

**Illinois Central RR.**—*Acquisition in Company's Interest.*—See Central of Georgia Railway above.—V. 86, p. 602, 547.

**Illinois Tunnel Co., Chicago.**—*New Mortgage Trustee.*—Judge Walker at Chicago on March 7 appointed the Central Trust Co. of Illinois trustee under the deed of trust made in 1903 to secure a bond issue of $30,000,000.—V. 85, p. 1082.

**Indianapolis & Cincinnati Traction Co.**—*Reorganization Agreement.*—A reorganization agreement is being sent to the stockholders and bondholders for their signatures. The "Indianapolis News" of March 5 says:

The agreement provides that each subscriber thereto shall, on or before April 30, transfer to trustees their stocks and bonds, to be controlled or disposed of by the trustees in accordance with the agreement. If the owners of all the capital stock and all of the bonds outstanding transfer their stock and bonds in this manner the trustees will have the receivership closed up, the indebtedness paid and raise money for the extension of the road from Connersville to Hamilton, O. To raise money for these purposes the trustees would be empowered to sell all or part of the bonds turned in.

In the event all of the owners of the capital stock and bonds do not turn over their stock and bonds to the trustees, the trustees are authorized to take such steps as they may deem proper to close out the receivership by a sale of the property at a judicial sale and to become the purchasers on behalf of the subscribers.

The agreement was approved at a recent meeting of the stockholders and bondholders at which more than three-fourths of the capital stock and bonds were represented.

The trustees named in the agreement are Theodore F. Rose and George A. Ball of Muncie; Winfield T. Durbin of Anderson; John J. Appel of Indianapolis, and Claude Cambern of Rushville.—V. 85, p. 221.

**Interborough Rapid Transit Co.**—See "Annual Reports."

*Tunnel to Long Island City.*—See New York & Long Island RR. below and compare V. 86, p. 603.

**Kansas City Mexico & Orient Railway.**—*New Subsidy.*—The company was recently granted a subsidy of $200,000 by the State of Sinaloa, in addition to the subsidies heretofore granted by the Mexican Government and the State of Chihuahua.—V. 86, p. 480, 421.

**Lake Shore Electric Ry., Cleveland.**—*Bonds Offered.*—Chas. D. Barney & Co., New York and Philadelphia, and the Guaranty Trust Co., New York and London, E. C., are offering at 87 and accrued interest, yielding slightly over 6%, a block of general mortgage 5% gold bonds dated Feb. 1 1903 and due Feb. 1 1933. Authorized, $7,000,000; issued, $2,160,000. Compare V. 86, p. 418, 285.

**Massachusetts Electric Companies.**—*Subsidiary Companies to Authorize Preferred Stock.*—The shareholders of the Boston & Northern and the Old Colony Street Railway companies will meet on March 17 to authorize preferred stock issues of not exceeding $1,250,000 and $750,000 respectively.

This new class of stock is to have full voting power, to be entitled to 6% cumulative dividends and to be subject to call for payment at 120. It is thought that under present conditions such preferred shares should be an especially good means for obtaining funds to retire floating debt.—V. 85, p. 1646.

**Metropolitan Securities Co., New York.**—*New Suit.*—See Metropolitan Street Ry. above.—V. 86, p. 286.

**Metropolitan Street Ry.**—*Application to Issue Receivers' Certificates.*—Receivers Joline and Robinson on March 7 filed

a petition to the United States Circuit Court for permission to issue $3,500,000 receivers' certificates required to make necessary improvements to the road-beds, rolling stock and other property of the company, and to provide adequate insurance and get sufficient additional equipment to give the service which they and the Public Service Commission consider desirable. The bonds, it is suggested, are to be made superior in lien to the $16,604,000 refunding 4s and $12,500,000 general collateral trust 5% bonds. A hearing will take place on March 19.

Exclusive of the amount required to rebuild the car barns at 96th and 97th streets, which were destroyed by fire on Feb. 29 (V. 86, p. 603), and to substitute new cars for the 334 destroyed or made useless therein, estimated to cost at least $1,000,000, the receivers state that they need $2,589,487 for the following purposes:

| | |
|---|---|
| For the reconstruction of rolling stock | $900,000 |
| Rehabilitation of tracks, paving, &c | 400,000 |
| Payment for transformation of tracks on First Ave. line between 59th and 125th streets from horse road to underground trolley | 277,305 |
| Completion of car barns and repair shops at 146th St. and Lenox Ave., in excess of insurance from fire of April 1907 | 174,463 |
| New cars to replace those of Central Crosstown line destroyed by fire in excess of insurance due | 330,440 |
| Installation of sprinkler systems and fire-protective apparatus | 507,279 |

In their statement to the Court the receivers say:

Our fixed charges to the first of July proximo aggregate $1,354,625. In our judgment, it is advisable that all of these fixed charges should be paid as they accrue. So far as we can now determine, it is inadvisable to default on any of them, because the revenue derived from the operation of the various lines seems sufficient to meet such charges. In other words, the lines are fully self-supporting, and it seems advisable under these circumstances, from our standpoint, to keep the present operating system intact.

*Suit.*—The receivers on March 8 filed a complaint in a suit against the Metropolitan Securities Co. to recover $4,964,000 claimed to be the remainder due under the agreement of May 22 1907.

Under the agreement the New York City Ry. was to lend the Metropolitan Street Ry. $8,000,000 for various expenditures necessary for change in motive power and other purposes, this sum to be furnished on reasonable notice any time before Jan. 1 1909. The Metropolitan Street Ry. was to issue 3% improvement notes to the amount of $8,000,000, secured by notes of its subsidiary companies, and to turn these over to the Metropolitan Securities Co., the latter to furnish the New York City Ry. such sums as it might need to carry out its contract. The complaint says that $3,036,000 was furnished, suit being brought for the remainder with interest from Sept. 24 1907 and costs.—V. 86, p. 603, 548.

**New York Central & Hudson River RR.**—*Results from Electrification.*—The Journal of the American Society of Civil Engineers, Feb. 1908, Vol. XXXIV, No. 2, pages 68-98, contains a paper by W. J. Wilgus on "The Electrification of the Suburban Zone in the Vicinity of New York City," which is to be presented before the Society on March 18.—V. 86, p. 286.

**New York City Ry.**—*Suit—Receiver's Certificates.*—See Metropolitan Street Ry. above.—V. 86, p. 338, 286.

**New York & Long Island RR.**—*Offer to Sell to City.*—The company, following a series of conferences recently sent to the Public Service Commission (First District) a letter, published at length in the daily papers yesterday, in which it offered to sell to the city all the tunnel railroad and rights of the company and its successors at actual cost to the Interborough Rapid Transit Co. for construction, real estate necessary for rights of way, interest charges, &c., say $7,239,476.

Payment would be accepted in 4% bonds of the city taken at par. It is suggested that an operating contract be made with the New York & Queens County Ry. to operate the tunnel for 25 years, in connection with its system of surface railways in Queens, upon the following terms:

The expenses of operation to be fixed at an arbitrary sum to represent estimated cost, of which one-half to be paid by the city and one-half by the company. A single fare of 5 cents to be charged between 42d St. and 4th Ave., Manhattan, and any point on the line of the N. Y. & Queens Co. Ry.

All local fares collected at the stations in Queens County to be paid to the city until it shall have been reimbursed all amounts advanced by it for operating expenses and all interest on the city bonds issued in payment for the tunnel, and a sinking fund of 1% per annum on such bonds, including all arrears of such interest and sinking fund, after which all local fares are to be divided equally between the city and N. Y. & Queens Co. Ry. All through fares to be retained by the operating company. Compare V. 85, p. 1518, 1339, 864.

(The counsel to the Public Service Commission on March 10 rendered an opinion holding that the decision on the proposition to purchase is, in the first instance, one for the city authorities having to do with the expenditure of public money. This would make it necessary to apply to the Board of Estimate.—Ed.)—V. 85, p. 1518.

**Pennsylvania RR.**—*Purchase Authorized.*—At the annual meeting on March 10 the shareholders duly approved the proposition to purchase the property and franchises of the following subsidiary corporations: The Bald Eagle Valley RR., the Southwest Connecting Ry. and the Junction RR.—V. 86, p. 607, 598.

**St. Charles & St. Louis County Bridge Co.**—*Sold.*—At the foreclosure sale in Clayton, Mo., on Feb. 29, under decree of foreclosure entered a month ago by Judge McElhinney of Clayton, the property was bid in for $300,000 by L. S. Mitchell and Joseph E. Otis, representing the bondholders. The Commonwealth Trust Co. of St. Louis was mortgage trustee. The bonds ($400,000) were issued in 1904 but no interest was ever paid. Compare V. 78, p. 703; V. 84, p. 997.

The cost of the bridge structure was greatly in excess of the amount anticipated, necessitating a floating debt which has required the net earnings of the bridge to discharge. The cost of the bridge to the company was about $40,000 more than was expected, and besides this the contractors claimed to have lost $50,000 on the job. The plan of reorganization has as yet not been completed.—V. 84, p. 997.

**Seaboard Air Line Ry.**—*Dissolution of Voting Trust.*—Notices were sent out on March 11 announcing that, in accordance with an agreement on Dec. 31 1907 between John Skelton Williams and Byrne, Watts and Untermyer, counsel, respectively, for the New York interests and the Seaboard Air Line Railway, the voting trustees of the Seaboard will meet in New York March 25 to dissolve the trust. The voting trust holds all the $60,916,000 of capital stock, of which 248,950 shares are preferred and 370,110 are common, each share being for $100—except 210 shares.—V. 86, p. 604, 548.

**South & Western RR.**—*Change of Name—Increase of Stock.*—This company filed at Nashville, Tenn., on March 9 papers changing its name to the Carolina Clinchfield & Ohio Railway, and increasing the capital stock from $7,600,000 to $27,000,000, of which $15,000,000 is 6% pref. and $12,000,000 common.

The road will extend from Elkhorn, Ky., on the Chesapeake & Ohio Ry., southerly, traversing the extensive coal lands of the Clinchfield Corporation to Spartanburg, S. C., on the Southern Ry., and Atlantic Coast Line, a distance of about 285 miles (see map in "Official Guide"). Of this mileage there is in operation 67½ miles from Johnson City, Tenn., south to Altapass, N. C., and 8 miles from Dante to Fink, Va., Construction is completed or largely completed from Altapass to Bastic, N. C., 61 miles, and from Fink, Va., to Johnson City, Tenn., 78 miles. The road will develop the 285,000 acres of coal lands of the Clinchfield Coal Corporation, this latter being owned by the Cumberland Corporation (compare V. 83, p. 154), which controls the road also.

*New Mortgage.*—A new mortgage will be made to secure an issue of $15,000,000 bonds, of which a sufficient amount will be reserved to retire the bonds of the constitutent companies (see Cumberland Corporation above). The mortgage will be secured on the road from Dante, W. Va., to Spartanburg, 245 miles. The road has cost to date, it is stated, some $18,000,000, the construction work through the Blue Ridge mountains being very heavy. There will be 29,500 feet of tunnels and through the mountains a grade of five-tenths of one per cent. The enterprise is being financed by leading New York bankers. See Cumberland Corporation above.—V. 86, p. 230.

**Southern Railway.**—*Dividend*—The directors held a regular meeting yesterday but did not consider the question of a dividend on the preferred stock.—V. 86, p. 230, 170.

**Texas Central RR.**—*Bond Issue Approved.*—The Texas Railroad Commission on Feb. 25 sanctioned the issue of $500,000 of the $650,000 treasury bonds on the 42 miles of road completed in Feb. 1907 from Rotan to Stamford. These bonds are part of an authorized issue of $2,000,000, dated 1892, of which only $650,000 have as yet been sold.—V. 85, p. 1396.

**Texas & Pacific Ry.**—*Requirements of State Railroad Commission.*—The improvements which the Texas Railroad Commission in Dec. last ordered the company to make, and concerning which the company has until April 1 to signify its intentions, it is estimated will cost not more than $800,000, or possibly $1,000,000, as contrasted with the $2,000,000 mentioned in a recent press dispatch.

The company in its reply to the Commission is expected to call attention to the extensive improvements which have been made in recent years, largely from earnings, and to show the radical change that has taken place since the order was issued in the condition of this and other railroads, both as to traffic and finances.—V. 86, p. 422.

**United Railways Investment Co.**—*Notes.*—This company has arranged for an issue of $3,500,000 6% notes to take care of its floating debt. The notes will mature in varying amounts annually from February 1909 to August 1917 They are secured by the entire $5,000,000 first preferred stock of the United Railroads Co. of San Francisco. Practically all of the company's creditors have accepted the notes.—V. 86, p. 170.

**Washington Water Power Co., Spokane, Wash.**—*Notes Offered.*—Lee, Higginson & Co., Boston, New York and Chicago, and Moffat & White, New York, offer by advertisement on another page at 96, yielding about 7½% on the investment, $3,000,000 3-year 6% gold notes, dated July 1 1908 and due July 1 1911, but redeemable on July 1 1909 or July 1 1910 at par and interest on six months notice. Interest payable Jan. 1 and July 1 at office of the Registrar, the Bankers' Trust Co., New York City. Coupon or fully registered notes of $1,000 and $10,000 denominations. These notes are issued to retire $2,000,000 5% notes maturing July 1 1908, and to provide for improvements and extensions now under way to the extent of about $1,000,000.

*Abstract of Letter from Pres. Henry M. Richards, Spokane, Wash., Feb. 24 '08*

*Organization.*—The company was incorporated in 1888 under the laws of Washington. In 1899 the street railway and electric-lighting companies of Spokane, which it owned and operated, were merged with it; the constituent companies have since been disincorporated, all their stocks and bonds having been canceled. All property belonging to the Washington Water Power Co. now stands in the name of the company and is security for the lien of the first mortgage.

*Capitalization Jan. 1 1908.*

| | *Authorized.* | *Outstanding* |
|---|---|---|
| Capital stock | $10,000,000 | $5,001,900 |
| First mortgage 5% bonds, due July 1 1929 | 2,000,000 | 1,600,000 |
| Three-year 5% notes, due July 1 1908 (to be retired by these new notes) | 2,000,000 | 1,997,000 |

From 1900 to date the stock increases, amounting to $3,129,700, have been offered to and subscribed by stockholders, at par, without underwriting of any sort, and every dollar realzed thereby has gone into the property. In addition to this there has been charged off for depreciation during this time $785,063 and the company had on Dec. 31 1907 a surplus of $644,800.

*New Notes.*—These $3,000,000 6% notes are to be issued to retire $2,000,000 5% notes maturing July 1 1908 and to provide for improvements and extensions now under way to the amount of about $1,000,000.

Incorporated in the 6% note is formal reference to the resolution of the board of trustees of the company providing that until this note issue is paid no further mortgage may be placed upon the company's property.

*Property and Business.*—The company owns two power stations on the Spokane River, one within the city limits (on deeds of riparian rights from previous owners), with a present development of 13,000 electrical horse power, and having an ultimate capacity of 26,000 h. p.; and one at Post Falls, 20 miles east, in Idaho (on grant by Act of Congress), with a present capacity of 12,000 h. p., to which will be added 3,000 h. p. in March; also a steam relay station within the city limits, with a present development of 4,000 h. p., to which will be added 12,000 h. p. in August.

By August 1908, therefore, the company will have developed 28,000 hydraulic electric horse-power and 16,000 electric horse-power from steam. The stability of the water supply is insured by the natural reservoir of Lake Coeur d'Alene, with an area of about 40 square miles. The real estate owned is carried at cost, although it has increased largely in value.

The company owns and operates a street railway system 96 miles in length, of which 73 miles are in Spokane. The railways carry freight and express, as well as passengers. During the year 1907 the company carried 17,249,527 passengers, against 13,915,570 in 1906, an increase of 24%.

The company now sells about 5,000 h. p. to the Spokane & Inland Empire RR. Co., which operates suburban lines east and south of Spokane and a city system handling about 25% of the traction business within the city limits, the other 75% being handled by our company.

Our company furnishes all the electric current used for lighting and power in the city of Spokane, the lighting done by the local gas company being only about 15% of the total illuminating business in the city. The number of meters in use in 1907 was 10,503, an increase of 30% over 1906. Owing to its low price, electric power, instead of steam power, is generally used throughout the city and also by the numerous mills and large iron works and the car shops of the Northern Pacific and Great Northern.

The company owns 277 miles of long-distance transmission lines, by which it delivers current for lighting and power to almost all the small towns in the Coeur d'Alene mining district to the east, in the agricultural regions of the Palouse district in the south and of the Big Bend district to the west and southwest. The transmission lines of the company when the new lines to the Big Bend district are completed will reach points about 100 miles east, south and west of Spokane.

*Gross Earnings for Eight Calendar Years.*

| | | | | | | | |
|---|---|---|---|---|---|---|---|
| 1900 | $503,906 | 1902 | $638,967 | 1904 | $1,011,670 | 1906 | $1,614,689 |
| 1901 | 556,996 | 1903 | 801,253 | 1905 | 1,266,557 | 1907 | 2,094,281 |

*Income Accounts for Calendar Years 1907 and Calendar 1906.*

| | 1907. | 1906. | | 1907. | 1906. |
|---|---|---|---|---|---|
| Gross earns | $2,094,281 | $1,614,689 | Tot. net inc | $833,774 | $612,561 |
| Operating expenses | 1,262,610 | 1,002,441 | Int. charges | 126,000 | 80,000 |
| Net earns | $831,671 | $612,248 | Balance | $707,774 | $532,561 |
| Other income | 2,103 | 313 | Charged off for depreciation | 200,000 | 161,469 |
| | | | Susp. items | 34,664 | 6,199 |
| Total net income | $833,774 | $612,561 | *Div. on stk. (7%) | 321,209 | (7) 267,949 |
| Balance over dividend | | | | $151,901 | $96,944 |

*Supplied by "Chronicle," since not appearing in letter.

For January 1908 gross earnings increased 22% and net earnings over 50%, as compared with January 1907. The net earnings as estimated for the year ending Dec. 31 1908 (after operating expenses, taxes and interest on first mortgage bonds) will be over 4½ times the interest on the entire new note issue. [The gross earnings for January 1908 were $199,416, against $162,601 in 1907; net $93,826, against $59,280.—Ed.]

*Dividends.*—The company has paid dividends on its capital stock at the rate of 4% in 1900 and 1901, 5% in 1902, 6% in 1903 and 1904 and 7% in 1905, 1906 and 1907.

*Franchises.*—The company's franchises for electric lighting and power business have 36 years to run; those for the street railway lines, granted at many different times, an average of over 20 years, the earliest one expiring considerably after the maturity of these notes. Where transmission line cross private property, necessary rights of way have been secured.

*Population.*—The population of Spokane in 1890 was 19,922; in 1900 was 36,848, and in 1907 estimated at 85,000.

[The physical property of the company, it is stated, represents a cash outlay of over $9,500,000. Ed.]—V. 84, p. 627, 222.

**West Chester Kennett & Wilmington Electric Ry.**—*Merger.*—The shareholders of this 18-mile trolley line on Feb. 26 voted to merge in the company the controlled line, the Oxford West Grove & Avondale Street Ry., which is being built from Avondale to Oxford, 12½ miles, a portion already being operated.—V. 80, p. 1730.

**Westchester Traction Co., New York.**—*Receivership.*—Judge Ward, in the United States Circuit Court at New York on March 13, appointed Edward G. Benedict as receiver of the property, in a suit broguht by the Industrial Constructing Co. of Delaware to recover $32,059 advanced during the past four years, secured by 64 shares of the stock of the Traction Company. The defendant admits its inability to pay the amount named at present.—V. 76, p. 867.

**Western Maryland RR.**—*Protective Committees.*—Alvin W. Krech, Myron T. Herrick, Henry S. Redmond, Geo. P. Butler and Winslow S. Pierce announce, under date of March 6, that at the request of holders of a large number of the bonds, they have organized as a committee to protect the interests of the "general lien and convertible mortgage" bonds, deposits of which may be made with the Equitable Trust Co., 15 Nassau St., N. Y. As the interest of the bondholders "will be best conserved by preventing any default under the first mortgage, the committee will co-operate in the application for payment of interest on the first mortgage bonds on April 1 next. See advertisement on another page.

Another committee, representing a large amount both of stock and of "general lien and convertible mortgage bonds," announces that it has an agreement in course of preparation under which deposits will be invited. The Bankers' Trust Co. of New York will act as depository. This committee consists of:

William F. Harrity, Edward L. Fuller, George Cator, Fairfax S. Landstreet and Richard Sutro, with Samuel Untermyer as counsel and O. H. Smith as Secretary, No. 1 Broadway, New York. Compare V. 86, p. 604.

*Sale of Bonds at Auction.*—At auction in this city on March 11 a block of $4,000,000 of the first mortgage 4% bonds, due 1952, was bid in at 53 by Edward D. Adams, representing the Deutsche Bank, which, it is understood, took this means of closing out a loan of $3,000,000 made in 1906.

*Attachment.*—Deputy Sheriff Porges on March 11 received an attachment for $1,003,295 granted by Judge Fitzgerald of the Supreme Court in favor of the Bowling Green Trust Co. of New York, being the amount alleged to be due on 19 notes made between June 18 and Sept. 7 1907. The Sheriff was instructed to attach any stock or bonds belonging to the company held by the Mercantile Trust Co.—V. 86, p. 604.

**Windsor Essex & Lake Shore Rapid Ry.**—*Underlying Bonds.*—It appears that there is an issue of $750,000 5% 40-year bonds outstanding dated Jan. 1 1907, which, it is understood, the company intends to retire between now and Sept. 1 1908, replacing the same by bonds to be issued under the $2,500,000 mortgage dated Oct. 22 1907. Compare V. 86, p. 482.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**American Cigar Co.**—*New Director.*—A. R. Haskin of New York has been elected a director to fill a vacancy.—V. 86, p. 604.

**American Tobacco Co.**—*Report.*—See "Annual Reports."

*Directors, &c.*—Thomas B. Yuille of New York has been elected a director, succeeding the late C. E. Halliwell and Geo. D. Widener of Philadelphia in place of B. N. Duke resigned, J. T. Wilcox has been appointed Secretary.

*Favorable Decision.*—The Court of Errors and Appeals on March 2 affirmed the judgment of the Court of Chancery in the action brought by Richard T. Dana of New York in refusing to set aside the merger of the Continental Tobacco Co. with the American Tobacco Co. Compare V. 84, p. 105.

The decision is based on the ground that the plaintiff was guilty of aches in beginning the action and was debarred from whatever equitable relief he would otherwise be entitled to.—V. 85, p. 1520.

**Bell Telephone Co. of Pennsylvania.**—*Regularly Listed in Philadelphia.*—The $39,059,900 capital stock (par $100) has been admitted to dealings on the regular list of the Philadelphia Stock Exchange.—V. 86, p. 482, 231.

**Butte (Mont.) Electric & Power Co.**—*Proposed Issue of $5,000,000 Bonds Jointly with Madison River Power Co.*—The shareholders will vote March 30 on a proposition to authorize the making of an issue of bonds jointly with the Madison River Power Co. (V. 81, p. 1045; V. 84, p. 511) to an amount not exceeding $5,000,000, to mature not later than 30 years from date and to bear interest at not exceeding 6% per annum. The bonds are to be secured by a mortgage on the property of the two companies, and, if stockholders so determine, they will be convertible at par at the option of the holders in the common stock of the Butte Electric & Power Co. at par.

President C. W. Wetmore says in substance:

The company for itself and constituent companies has unfunded debt March 5 1908 of $470,066, which has accumulated during several years past from construction and the acquisition of additional properties in excess of the proceeds of the sale of first mortgage bonds and common stock and earnings applied thereto. The company desires to pay this indebtedness in full and also to provide, as may be needed, approximately $230,000 for capital expenditures necessary to meet the demands of its growing business during the present year. This provision of approximately $700,000 will not only enable the existing obligations to be paid in full and the requirements for the year to be fully met, but will release the entire net income for the establishment of reserve funds and the payment of dividends. Compare V. 86, p. 111, 423.

**Canadian General Electric Co., Toronto.**—*Dividend Reduced.*—The directors on March 7 declared a quarterly dividend of 1¾% on the $4,700,000 common stock, payable with a semi-annual 3½% on the preference stock April 1 to holders of record March 13. This reduces the annual dividend rate for the common shares to 7%, contrasting with 10% each year since and including 1899. Compare V. 85, p. 96, 162, 1340, 1464.

**Chapman Timber Co., Portland, Ore.**—*Bonds Offered.*—Peabody, Houghteling & Co., Chicago, are offering at par and interest the entire issue of $250,000 first mortgage 6% serial gold bonds, dated March 15 1908. A circular gives the following information:

These bonds are issued to refund floating debt and are secured by a closed first mortgage on all property now owned and hereafter acquired, including 13,597 acres of timber lands in Columbia County, Ore., within 20 miles of Portland, containing 587,000,000 feet of merchantable timber, mostly Douglas fir; also by deposit of the entire capital stock of the Portland & Southwestern RR., a road 8¼ miles long with 7.14 miles of branches. Total valuation of property, $1,592,951; actual investment by shareholders $600,000; by bondholders, $250,000. In year 1907 (property still incomplete) the company marketed 28,995,337 feet of logs and earned, net, applicable to interest and principal of bonds, $65,805. Bonds due $25,000 each six months, beginning Sept. 15 1908, but redeemable in reverse of numerical order on March 15 1909 or any interest date thereafter at 102½ and interest. Denomination, $1,000 and $500 (c*). Principal and interest payable at office of trustee, First Trust & Savings Bank, Chicago. Sinking fund, $1 25 per $1,000 feet of timber cut. President and General Manager, S. Chapman.

See full particulars in advertisement on another page.

**Citizens' Heat & Light Co., Elwood, Ind.**—*Receivership.*—At Anderson, Ind., on March 7 the Elwood Trust Co. was appointed receiver, on application of the American Trust & Savings Bank of Chicago, as mortgage trustee, the interest due Jan. 1 1908 on $342,000 first mortgage 5% bonds being in default. Compare V. 77, p. 2100.

**Cleveland & Sandusky Brewing Co.**—*Report.*—

| Cal. Year— | Gross Earnings. | Oper Exp., deprec. &c. | Bond Interest. | Sinking fund. | Divid'ds on stock. | Balance, surplus. |
|---|---|---|---|---|---|---|
| 1907 | $1,079,865 | $375,321 | $384,252 | $60,000 | $243,848 | $16,445 |

Dividends include 6% on preferred and 4% on common stock. Compare V. 85, p. 159.

**Consolidated Gas Co. of New York.**—*Favorable Decision in Hearst Suit.*—The Court of Appeals on Feb. 18 affirmed the decision of the lower courts dismissing the suit brought by William R. Hearst as a taxpayer to prevent the city from making payment under a settlement for past lighting bills. Compare V. 80, p. 1177.

*Rulings of Court in 80-Cent Gas Suit.*—The following rulings of Judge Hough in the course of the settlement of the record in the 80-cent gas case preparatory to appeal, now almost completed, are of interest. (Compare V. 86, p. 238; V. 85, p. 1648, 1579; V. 84, p. 1250.)

Judge Hough denied the application of the Public Service Commission that he order a rate of 84 cents a thousand or refuse the company the injunctive relief asked for (such rate being claimed to be compensatory), holding that the right to fix rates is a legislative, not a judicial, function. In denying the application to rule that a 5% return would be fair in fixing the price of gas, the Court stated he had never held that even 6% would be a reasonable return, saying:

"It has not been asserted and is not believed that 6% is a profitable, satisfactory or attractive rate for the investment of capital in the gas business. In my opinion it is the lowest rate which in the city of New York can be considered legislatively fair to those who are already engaged therein and cannot readily escape."

The valuation of the company's real estate is increased from $11,155,845 to $11,985,435 and the tangible property from $47,001,845 to $47,831,435. —V. 86, p. 483, 282.

**Consolidated Rubber Tire Co.**—*Report.*—See Annual Report in V. 86, p. 605.

*Favorable Decision.*—Judge Holt in the United States Circuit Court on Feb. 29 decided in favor of the company the suit against the Diamond Rubber Co. for an injunction to prevent infringement of patent on tires and damages therefor. Compare V. 83, p. 378.—V. 86, p. 605.

**Crane Company, Chicago.**—*New Stock.*—The company filed at Springfield, Ill., on March 9 a certificate of increase of capital stock from $10,000,000 to $13,000,000.—V. 79, p. 272.

**Crow's Nest Pass Coal Co., Ltd., Toronto.**—*Earnings.*—The report for the calendar year 1907, it is stated, shows:

| *Calendar Year*— | —*Output (tons)*— *Coal.* | *Coke.* | *Net Profits.* | *Divs. (10% per annum).* | *Bal., Surp.* | *Tot. Surp. Dec. 31.* |
|---|---|---|---|---|---|---|
| 1907 | 981,939 | 231,368 | $382,986 | $355,179 | $27,807 | $381,400 |
| 1906 | 806,901 | 213,295 | 351,791 | 350,000 | 1,791 | 353,592 |
| 1905 | 831,249 | 257,702 | 497,899 | 349,418 | 148,481 | 351,801 |

—V. 85, p. 1272.

**Duquesne Light Co., Pittsburgh, Pa.**—*New Officers.*—George R. Webb of Baltimore has been elected President to succeed Robert C. Hall, who resigned.

The other officers, it is stated, are: Vice-President, D. P. Reighard; Treasurer, Robert C. Hall; Secretary, S. P. Austin.—V. 85, p. 1211.

**Ellsworth Collieries Co.**—*Status.*—See report of Lackawanna Steel Co. in V. 86, p. 599.—V. 84, p. 510, 393.

**Greene Consolidated Copper Co.**—*Report for Seventeen Months Ending Dec. 31.*—The report for the seventeen months ending Dec. 31 1907 shows the following data:

The company produced 58,180,856 lbs. of refined copper and its gross earnings on copper, gold and silver and miscellaneous revenues (other than sale of treasury assets) aggregated $11,360,387; net earnings $319,968. From the sale of stock of the Cananea Central Copper Co. and the Sierra Madre Land & Lumber Co. a profit of $3,350,000 is reported (but see Sierra Madre Co. below). Three dividends were paid aggregating $1,200,00e. —V. 84, p. 934.

**Halcomb Steel Co., Syracuse, N. Y.**—*New Stock.*—This company, which in Jan. 1907 increased its capital stock from $1,200,000 to $1,500,000, has recently made a further increase to $1,750,000. Bonded debt, if any, not stated.

**Lake Superior Corporation.**—*Injunction Denied.*—At Jersey City yesterday Vice-Chancellor Harrison declined to grant an injunction in the suit of the Canadian Improvement Co. to restrain certain banks and bankers, chiefly in New York and Philadelphia, from voting 50,174 shares of the company's stock held by them as collateral. The decision, however, limits voting power in such case to elections of directors. Compare V. 85, p. 1465, 1521.

**Lynn (Mass.) Gas & Electric Co.**—*New Stock.*—The Massachusetts Gas & Electric Light Commission has authorized the company to issue 1,950 additional shares, these to be offered stockholders at $235 per share. The proceeds will be applied on account of outstanding obligations and additions to plant. There is outstanding $805,000 capital stock (par $100) on which dividends at the rate of 10% per annum are being paid (Q-F); no bonds.—V. 76, p. 1146.

**Madison River Power Co.**—*Proposed Joint Bond Issue.*—See Butte Electric & Power Co. above.—V. 84, p. 511.

**Mutual Telephone Co., Des Moines.**—*Bonds Offered.*—The company offered last week for public subscription $475,000 "funding and improvement" first mortgage 6% gold bonds dated Feb. 1 1908 and due Feb. 1 1918, but subject to call on any interest date after 2½ years from date of issue at 101. Iowa Loan & Trust Co., trustee. A pamphlet gives the following information:

Incorporated under laws of Iowa with an authorized capital stock of $1,600,000, $100,000 thereof being telephone "service" stock, $500,000 being non voting 7% cumulative preferred stock and $1,000,000 being common stock. The authorized bond issue is $1,000,000, of which the proceeds of the $475,000 now offered are to be used to fund indebtedness incurred for rebuilding and development work and to provide for further extensions; and the remaining $525,000 bonds are issuable at rate of $75 for each telephone put in operation in addition to the 6,000 now owned, and $150 for each circuit mile of copper toll line hereafter acquired. Denominations, $1,000 $500, $100.

The income for the year ending June 30 1907, as found by the Des Moines Clearing House Association, was $132,800. The cost of operation, maintenance and general expense was $67,263, leaving a net income of $65,537, or $37,037 more than enough to meet the annual interest on the bonds here offered. The gross income for year Jan. 1 1907 to Dec. 31 1907 was $145,189. The present value of the property is near $750,000. President, Clyde E. Brenton, Dallas Centre, Ia.; Vice-President, J. W. Hill; Secretary, J. C. Hume and Treasurer, L. M. Grimes, all of Des Moines.—V. 85, p. 225.

**Neptune Steamship Co., Cleveland, Ohio.**—*Bonds Offered.*—The Detroit Trust Co. of Detroit, the mortgage trustee, is offering at prices to net the investor 6% per annum the entire issue of $215,000 first mortgage 5% gold bonds, dated Sept. 1 1907 and payable in ten annual installments on Sept. 1 to and including 1918. Interest payable March 1 and Sept. 1 at office of trustee. A circular says:

A first mortgage on the new steel freighter "Arthur H. Hawgood," length, 569 ft.; beam, 56 ft.; depth, 31 ft.; capacity, 11,000 tons. Cost of vessel, $430,600. Total bond issue, $215,000. Arthur H. Hawgood, President; Sheldon Parks, Vice-Pres.; William A. Hawgood, Sec. and Treas.; W. A. Hawgood & Co., Managers.

**New York Air Brake Co.**—*Financial Plans.*—The New York "Times" of March 10 said:

The management, it was learned yesterday, has practically completed arrangements for placing a bond issue sufficient to take care of all existing debt and supply new capital needed. The details have not yet been made public, but it is understood the bond issue will be $3,000,000.

Meanwhile, the plan of extending the notes formulated last December by a committee of creditors consisting of President William A. Nash of the Corn Exchange Bank, President Stephen Baker of the Bank of the Manhattan Company and A. A. Fowler of Rogers, Brown & Co., is held in abeyance. Practically all the creditors have accepted the committee's plan to grant a six months' extension on the notes, with a restricted renewal privilege, in return for security in the shape of a mortgage on the $4,000,000 plant. The new notes secured by the mortgage were to be given in exchange for the notes outstanding. The valuation of $4,000,000 on the plant takes no account of patents and other valuable rights. At the time of the formation of the committee, the company had something like $2,000,000 due from railroads which it could not collect promptly. Since then funds have come in rapidly.—V. 86, p. 112.

**New York Dock Co.**—*Extra Dividend.*—The directors on March 7 declared a regular semi-annual dividend of 2% and also an extra dividend of ½ of 1% on the $10,000,000 preferred stock (5% non-cumulative) payable April 15 on shares of record April 1.

*Annual Dividend Record (Per Cent) of Preferred Shares.*

| 1902. | 1903. | 1904. | 1905. | 1906. | 1907. | 1908. |
|---|---|---|---|---|---|---|
| 1 | 2 | 2 | 2½ | 3½ | 4 (2% s.-an.) | April, 2% and ½% extra |

—V. 85, p. 862.

**Pacific Light & Power Co., Los Angeles, Cal.**—*Earnings for Calendar Year* 1907.—The report to the city authorities shows for 1907:

| | |
|---|---|
| Gross income | $1,281,058 |
| Operating and general expendes and fixed charges | 867,913 |
| Net profits | 413,143 |

The net profits here shown ($413,143) were expended for new construction. No dividends paid.—V. 86, p. 55.

**Pacific Telephone & Telegraph Co.**—*Report.*—The earnings of the company organized Dec. 31 1906 compare with those of the predecessor, Pacific States Telephone & Telegraph Co. for 1906 as follows:

| *Calendar Year* | *Gross Earnings* | *Net Earnings* | *Preferred Dividends* | *Balance Surplus* | *Sub'rs No.* |
|---|---|---|---|---|---|
| 1907 | $9,223,565 | $1,395,149 | (6 %) $1,080,000 | $315,149 | 301,469 |
| 1906 | 7,731,615 | 1,464,623 | *(4½ %) 704,566 | 760,057 | 258,416 |

* These are dividends on stock of old Pacific States Telephone & Telegraph Co.

The number of exchanges and toll offices on Dec. 31 1907 were 1,778, against 1,832 in 1906; miles of long distance circuits 31,325 against 29,617. Expended during 1907 on plant and real estate $6,174,040 against $5,523,082 in 1906.—V. 85, p. 472.

**Sheffield Coal & Iron Co.**—*Reorganization Plan.*—The reorganization committee, E. C. Converse, Chairman (see V. 86, p. 340), has prepared a plan of reorganization dated March 1 1908, which provides for the incorporation of a new company, probably under laws of New Jersey and entitled the Sheffield Iron Co. The new company will take over, as far as practicable, the direct ownership of the various properties embraced in the reorganization, including the furnaces, ore lands, &c., in Alabama and Tennessee, interests in coke ovens in Alabama, and in coke plant, coal land and royalty leases of coal lands in Virginia and railroad property of the Wise Terminal RR. in Virginia.

*Proposed Capitalization of New Company.*

| | | |
|---|---|---|
| First M. 20 year 5% gold bonds, subject to call at 105 and interest. Denomination $500 and $100 c*. Authorized issue | | $750,000 |
| Issuable as part consideration for old bonds | $334,600 | |
| Issuable with $250,000 pref. stock and $2,500,000 com. stock for $500,000 new cash from stockholders or others | 250,000 | |
| For carrying out plan or for uses of new company | 165,400 | |
| Pref. stock, 6% non-cumulative, with preference also as to principal only in case of liquidation. Par $100. Auth. issue | | $750,000 |
| Issuable as part consideration for old bonds | $334,600 | |
| Issuable for new cash (see bonds above) | 250,000 | |
| For carrying out plan or for uses of new company | 165,400 | |
| Common stock, all issuable for new cash (see bonds). Par $100. Authorized issue | | $2,500,000 |

*Basis of Exchange of Securities.*

| *Holder of Each $10,000 of*— | *Pays Assesm't.* | —*And Receives New Securities*— *Bonds.* | *Prcf. Stk.* | *Com. Stk* |
|---|---|---|---|---|
| Shef. C. & I. 6s, $400,000 x | None | $5,000 | $5,000 | |
| Shef. C. I. & Steel 1st 6s, $322,000 y | None | 4,500 | 4,500 | |
| Shef. C. & I. stock, $2,500,000 (par value of shares $100) | 2,000 z | 1,000 | 1,000 | $10,000 |

x To be provided for at amount of loans made against them with interest to April 1 1908, $378,000, approximate. The "floating debt" as of Feb. 1 1908 was about $150,000.

y Total issue $750,000 (secured principally by lien upon the furnaces at Sheffield, Ala.), but of this amount $414,000 are held as part security for the $400,000 Sheffield Coal & Iron Co. bonds and $14,000 by the receiver, leaving $322,000 outstanding.

z Payable in installments, but not exceeding $400 on May 1 1908 and $200 on the first of each month succeeding to and including Jan. 1 1909.

The directors of the new Company are to be persons approved by the committee and provision will be made by voting trust or otherwise for future election of directors.

New money is to be devoted: $125,000 to pay floating debt; $100,000 to improve furnaces and ore properties; $75,000 to improve coal and coke properties; $200,000 for working capital. Unless otherwise determined by the committee, consummation of the plan is conditioned upon subscriptions for this $500,000.

Assenting securities must be deposited with the Bankers' Trust Co., New York, on or before April 1 1908. The committee is to decide whether the assents and subscriptions to the $500,000 cash fund from shareholders or others are sufficient to warrant declaring the plan operative.—V, 86, p. 340.

**Sierra Madre Land & Lumber Co.**—*Default—Cancellation of Lumber Contract.*—This company defaulted on Dec. 1 1907 in the payment of the semi-annual interest then due upon its first mortgage bonds, authorized issue $3,000,000. (Compare V. 84, p. 164). The report of the Greene Consolidated Copper Co. issued this week discloses the fact that default has also been made by the interests which purchased a majority of the capital stock. The report gives the following information:

Referring to the 51% of the stock of the Sierra Madre Land & Lumber Co., owned by the Cananea Co. (dated, your company (the Greene Consolidated Copper Co.) had advanced large sums to the lumber company, and as to carry that company it would be necessary to still further large advances, it was deemed wise to retire from the enterprise. The 51% of the lumber company stock was sold for $2,000,000 on deferred payments, secured by deposits of 75% of the lumber company stock as collateral. Payments under this contract have been defaulted and with 75% of the stock in their possession, your officers are considering the course of action to pursue. The lumber company repaid to your company its cash advances, aggregating about $1,000,000, and has also paid off notes for

$150,000 which had been guaranteed by us. The contract calling for $1,000,000 of lumber every year for the Greene Consolidated Copper was canceled and a new contract made which obligates the lumber company to supply us the lumber we require at the market price. Compare V. 84, p. 164.

**Standard Chain Co.**—*Earnings.*—For calendar year 1907:

| | | | |
|---|---|---|---|
| Surplus after bond interest | $143,186 | 7% on preferred stock | $32,818 |
| Deduct deprec'n reserve | 15,000 | Surplus for year | 95,368 |

—V. 79, p. 790.

**Standard Oil Co.**—*Status.*—Vice-President John D. Archbold, in an article entitled "Petroleum, a Great American Industry," published in a recent issue of the "Independent" of New York says:

In 1859 the output of petroleum was 2,000 barrels. By 1906 it had become 123,000,000.

To distribute American petroleum is the mission of the Standard Oil Co. As its share in this gigantic undertaking the Standard employs 8,000 miles of trunk pipe lines with 75,000 miles of feeders from wells; storage tanks for crude oil holding 82,000,000 barrels; 10,000 tank cars in America and 2,000 abroad; 60 bulk steamers for ocean traffic and 12 for foreign coasting trade, with 150 steamers and barges at home; 3,000 tank stations in America and 5,000 elsewhere; representing an investment of over $600,000,000 and giving employment to 65,000 men.—V. 86, p. 289, 173.

**J. B. Stetson Co., Philadelphia.**—*New Stock Listed.*—The Philadelphia Stock Exchange has listed $951,800 additional common stock, making the total amount listed $2,957,300. The stock is part of the $955,000 offered to the stockholders of record Dec. 3. Compare V. 85, p. 1466. —V. 86, p. 112.

**Tennessee Coal, Iron & RR.**—*Purchase of Property.*—See United States Steel Corporation below.—V. 85, p. 1406.

**Tennessee Copper Co.**—*Report.*—For calendar years:

| Cal. Year. | Copper Prod'n. | Royalties, &c., rec'd. | Bond int. | Deprec'n disc., &c. | Deprec'n acct. | Dividends declared. | Balance, surplus. |
|---|---|---|---|---|---|---|---|
| 1907 | $839,958 | $60.716 | $20,000 | $10,039 | $70,000 | (13) $650,000 | $150,635 |
| 1906 | 867,062 | 91,766 | 21,097 | 7,500 | 106,000 | (10) 500,000 | 324,23 |
| 1905 | 482,110 | 74,714 | 22,500 | 20,175 | 62,043 | (5) 218,750 | 233,356 |

Dividends deducted above were: In 1907, 8% paid Aug. 1907 and 5% paid Feb. 15 1908; in 1906, 5% paid July 1906 and 5% in Jan. 1907; in 1905, 5% paid Jan. 1905. Compare V. 85, p. 165.

**Union Carbide Co.**—*Exchange of Bonds for Stock.—Stock Dividend.*—This company, which last fall increased its authorized issue of capital stock from $6,000,000 to $14,000,000, has retired most of its outstanding bonds through an exchange of the same for stock, and on the share capital as so increased paid on March 1 a stock dividend of 40%. This distribution brings up the total amount of capital stock outstanding to about $10,800,000.—V. 85, p. 1212.

**Union Ferry Co., Brooklyn, N. Y.**—*Dividends Suspended.*—The directors on March 10 decided to omit the regular quarterly dividend of ½ of 1% on the $3,000,000 stock.

The "Brooklyn Eagle" quotes one of the officials of the company as saying that the earnings have been so far reduced since the subway was opened to Brooklyn that the company at present is not even earning the interest on its bonds.

**United States Steel Corporation.**—*To Purchase*—At the annual meeting on April 20 the stockholders will vote on authorizing the purchase of the property belonging to the Tennessee Coal, Iron & RR. Co. —V. 86, p. 425, 340.

**Universal Caster & Foundry Co., Newark, N. J.**—*Called Bonds.*—Twenty first mortgage 6% bonds secured by mortgage dated Dec. 14 1903 will be paid at par and interest at the Fidelity Trust Co. of Newark, trustee, on April 1. —V. 84, p. 698.

**Vandalia Coal Co.**—*Report for Half-Year.*—The "Indianapolis News" recently said:

The output for the six months ending Dec. 31 showed an increase over the preceding six months of 312,000 tons. The total output for 1907 was 2,100,000 tons. The company met the semi-annual interest on its bonds amounting to $84,000 and paid the regular quarterly installment of the sinking fund of $25,000. The authorized bond issue is $3,000,000, of which $215,000 has been redeemed in the last two years.

Papers filed under the laws of Kansas state that of the $12,750,000 capital, $10,250,000 has been paid up; also that the company has real estate to the value of $9,857,407 and personal property to the value of $1,233,992.

**Western Telephone & Telegraph Co.**—*Report.*—The results for the years ending Jan. 31 were:

| Years | Net receipts. | Int., taxes, &c. | Pref. div. (5%) | Bal., sur. |
|---|---|---|---|---|
| 1907-08 | $2,124,414 | $1,316,551 | $800,000 | $7,863 |
| 1906-07 | 1,821,754 | 922,084 | 800,000 | 99,670 |
| 1905-06 | 1,464,842 | 577,416 | 800,000 | 87,426 |

—V. 85, p. 38.

**Western Union Telegraph Co.**—*Quarterly Dividend Again Payable in Stock.*—The directors on March 11, pursuing the course adopted three months ago, declared the regular quarterly dividend of 1¼% payable in stock. The distribution will be made April 15 to holders of record March 20 out of the unissued stock, $1,413,000, of the total authorized issue of $100,000,000.

*Quarterly.*—For 3 and 9 months ending March 31 (partly estimated in 1907):

| 3 Mos. end. Dec. 31— | Net Revenue. | Interest Charges. | Dividends Paid. | | Balance, Surplus. | |
|---|---|---|---|---|---|---|
| 1908 (est.) | $1,100,000 | $433,062 | *(1¼%) | $1,230,000 | def. | $563,062 |
| 1907 (actual) | 1,509,700 | 366,187 | (1¼%) | 1,217,024 | def. | 73,511 |
| *9 Mos.*— | | | | | | |
| 1907-08 | $1,592,450 | $1,299,188 | *(3¾%) | $3,664,025 | def | $3,370,763 |
| 1906-07 | 4,787,009 | 1,031,561 | (3¾%) | 3,651,072 | sur. | 104,376 |

*Dividends for Dec. 1907 and March 1908 quarters paid or payable in scrip, the latter April 15 1908.

Total surplus (estimated) March 31 1908, $13,514,018.

President Robert C. Clowry, March 11, says:

In the report for the quarter ended Dec. 31 1907 the hope was expressed that "business will soon resume and earnings become normal," but the commercial depression continues throughout the country and the revenues of the company show a large decrease over the same period last year. This decrease, however, is greatly offset by reductions of expense in all branches of the service. Notwithstanding the fact that this is the least profitable part of the year, the estimated net revenue for the present quarter, after paying fixed charges and bond interest, amounts to $666,937. This amount is being used for payment of the indebtedness resulting from the recent extraordinary expenditures, which it will practically complete.—V. 86, p. 234, 112.

**Westinghouse Electric & Manufacturing Co.**—*Extension of Time for Mr. Westinghouse.*—A press report from Pittsburgh says:

Bankers of New York, Philadelphia, Boston and elsewhere have agreed to an extension of time for George Westinghouse on his personal liabilities, amounting to almost $8,000,000. Bankers of Pittsburgh to-day said the new agreement went into effect last Saturday, though dating back to Jan. 15. In order to have the extension of three years, Mr. Westinghouse was required to put up $10,000,000 additional collateral. The agreement is that one-third of Mr. Westinghouse's liabilities will be paid off one year from Jan. 15 last, one-third in two years from the same date and the last third in three years.—V. 86, p. 550.

**Wyoming Land & Irrigation Co., Basin, Wyo.**—*Bonds Offered.*—Cutter, May & Co., the Rookery, Chicago, are offering at par and interest $450,000 first mortgage 6% gold bonds, dated July 1 1907 and due July 1 1917, but redeemable at any interest period on or after July 1 1910 on 30 days notice at 103 and interest. Interest payable Jan. 1 and July 1 at office of trustee, Chicago Title & Trust Co.

The company is a Wyoming corporation and under the provisions of the Carey Act it is establishing an irrigation system, using the water of the Paint Rock stream and its tributaries for 70,000 acres of land located in what is described as the most productive portion of Big Horn County, Wyo. Among the directors are David Vernon, Vice-President Commercial National Bank; Dr. L. L. McArthur; Calvin M. Favorite, former director of Armour & Co., all of Chicago, and Hon. Fenimore Chatterton, ex-Governor of Wyoming.

---

—The new 4% bonds of the State of New York sold by the State Comptroller this week are advertised in another column by Wm. A. Read & Co. It is pointed out that these State 4s, running to 1958, will yield about 3.60%, and will be attractive to trustees holding United States Government 4s of 1925, which at present price of 122 yield only 2.45%. These 4% highway improvement gold bonds are accepted by the United States Government to secure Federal deposits, by the State of New York as security for State deposits, by the Superintendent of Insurance to secure policy-holders, and by the Superintendent of the Banking Department in trust for banks and trust companies. The net debt of the State of New York, $11,658,264, will be reduced by this year's sinking funds to $5,983,700 on Sept. 30 next. These bonds were oversubscribed 16 times in Albany this week. Applications will be filled in order received at Wm. A. Read & Co.'s New York office, or 43 State Street, Boston, 203 E. German Street, Baltimore, and 205 La Salle Street, Chicago.

—Having sold over two-thirds of a $1,000,000 block of Chicago St. Paul Minneapolis & Omaha Railway Co. consolidated mortgage 6% bonds, Moffat & White, of this city, offer the balance to the investing public at 127 and interest, subject to previous sale. At this price, these bonds, which are legal investments for savings banks in New York and Connecticut, and due in 1930, will yield 4.15%. The C. St. P M. & O. is part of the Chicago & North Western system. The bonds are secured by first consolidated mortgage on the company's entire railroad and all other property, having a first mortgage on 627½ miles, and followed by $11,259,911 preferred stock paying 7% dividends and $18,559,086 common stock paying 7% dividends.

—Edward B. Smith & Co., bankers of Philadelphia and New York, have issued an interesting pamphlet of 20 pages on the Pennsylvania RR., entitled "A Decade of Progress—1898-1907," containing many facts not heretofore published. It is their belief that some of the statements made in the booklet will tend to correct erroneous impressions about the system and do general good in holding up as a standard what has been accomplished by it.

—Michael M. Van Beuren, Mulford Martin and Richard M. Jesup have organized the New York Stock Exchange house of Van Beuren, Martin & Jesup, to succeed Van Beuren & Bucknam, 7 Wall Street, which was dissolved by mutual consent this week. Clifford Bucknam, of the old concern of Van Beuren & Bucknam, will be associated with the new firm, which is represented on the New York Stock Exchange by Michael M. Van Beuren.

—Kountze Bros., 120 Broadway, New York City, are to-day offering to the public a portion of their award of New York State tax exempt 50-year 4% gold bonds. The State offered $5,000,000 of these bonds and received bids aggregating over $80,000,000. See the advertisement elsewhere for a statement of the State of New York's financial condition. Price on application.

—Attention is called to the advertisement of MacDonald, McCoy & Co., Chicago, offering $260,000 Tucson, Arizona, water bonds. These bonds are authorized by Act of Congress approved Feb. 21 1908 and are exempt from taxation, the same as U. S. Government bonds. Special circular will be sent on application.

—A. B. Leach & Co. of New York, at 149 Broadway, have for sale a railroad bond netting 5¼%, of a company now paying 6% dividends on $1,050,000 stock, and on which it earned 13% in 1907. They will furnish particulars on application.

—Marc Hubbert, for some years special agent of the United States Fidelity and Guaranty Co., with headquarters at Chicago, has been appointed Manager of the Puget Sound department for his company, with offices at Tacoma.

—Hayden, Miller & Co., Cleveland, have favored us with a copy of "Cleveland Securities," 1908 edition, an excellent hand-book of securities dealt in on the Cleveland Stock Exchange.

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, March* 13 1908.

With spring-like weather trade has somewhat increased, and iron and steel production has risen to higher figures than for some time past. But on the whole conservatism is still the dominant note, even though many are disposed to think that the turn in the lane has come. Prices have been pretty generally steady.

LARD on the spot has been stronger. Trade has been less active, but offerings have been light and the movement of hogs at times has been rather light. The demand has been principally from jobbers. Western 7.80c. and City 7½c. Refined lard has ruled steady with trade quiet and offerings light. Refined, Continent 8.15c., South America 8.75c. and Brazil, in kegs, 9.10c. Speculation in lard futures at the West has been moderately active. The strength of corn has imparted firmness to the market at times, and so has the moderate movement of hogs. There has been more or less commission-house buying; but of late packers have sold rather freely, causing weakness. Dulness in the cash trade has discouraged aggressive buying. Supplies at the West are increasing.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery | 7 87½ | 7 95 | 7 80 | 7 82½ | 7 72½ | 7 75 |
| July delivery | 8 07½ | 8 15 | 8 02½ | 8 05 | 7 95 | 7 97½ |
| September delivery | 8 30 | 8 35 | 8 22½ | 8 25 | 8 15 | 8 20 |

PORK on the spot has been dull but firm on light offerings. Local jobbers have been the only buyers. Mess $14 25@$14 75, clear $15@$15 75 and family $15 50@$16. Beef has been quiet and steady; mess $11@$11 50, packet $12@$12 50, flank $11 50@$12, family $13 50@$14 50 and extra India mess $21@$21 50. Cut meats have been dull here, but Western advices have reported an increased demand. Prices have ruled firm. Pickled hams 8¾@9c. and pickled bellies, 14@10 lbs., 7@7¾c. Tallow has been quiet and firm; City 5⅛@5⅜c. Stearines have been quiet with oleo steady at 7¼c. and lard stronger at 8¾@9c. Butter has been active and easier on increased offerings; creamery extras 28c. Cheese has been moderately active and firm; State, f. c., small, colored, fancy, 15¾c.; white 16c. Eggs have been active and weaker on increasing supplies; Western firsts 21c.

OIL.—Cottonseed has been steady with a larger demand, partly for export; prime summer yellow 37c. Linseed has been firm and more active; City, raw, American seed, 43@44c.; boiled 44@45c.; Calcutta, raw, 70c. Lard has been dull and easier; supplies larger; prime 65@67c. and No. 1 extra 52@54c. Cocoanut has been quiet and steady; stocks light; Cochin 8@8½c. and Ceylon 6½@7c. Olive has been quiet and steady; yellow 60@70c. Peanut has been quiet and steady; yellow 65@80c. Cod has been quiet and steady; domestic 42@43c. and Newfoundland 44@45c.

COFFEE on the spot has been quiet and easy. Rio No. 7, 6⅛@6¼c. West India growths have been quiet and easy; fair to good Cucuta 9¼@10⅜c. The speculation in future contracts has been on an exceedingly small scale and prices have shown no marked changes. There has been a certain amount of liquidation by tired holders, and Europe has sold a little at times. But local dealers and roasters have continued to give sufficient support to prevent any decline worth mentioning, though the tone of the market on the whole has been easier.

The closing prices were as follows:

| | | | | | |
|---|---|---|---|---|---|
| March | 5.80c. | July | 5.95c. | November | 6.10c. |
| April | 5.85c. | August | 6.00c. | December | 6.10c. |
| May | 5.90c. | September | 6.00c. | January | 6.15c. |
| June | 5.90c. | October | 6.05c. | February | 6.20c. |

SUGAR.—Raw of late has been more active than for some time past and prices have advanced. Centrifugal, 96-degrees test, 4.05c.; muscovado, 89-degrees test, 3.55c., and molasses, 89-degrees test, 3.30c. Refined has been moderately active and firm. Granulated 4.90c. Teas have been in moderate jobbing request and steady. Spices have been fairly active and steady. Hops have been quiet and easy. Wool has been quiet and easier.

PETROLEUM has been firm and in good demand for export and domestic account. Refined, barrels, 8.75c; bulk 5c. and cases 10.90c. Gasoline has been active and firm; 86-degrees, in 100-gallon drums, 22c.; drums $8 50 extra. Naphtha has been moderately active and firm; 73@76-degrees, in 100-gallon drums, 19c.; drums $8 50 extra. Spirits of turpentine has been quiet and firm at 53c. Rosin has been quiet and steady; common to good strained $3 70.

TOBACCO.—Trade in domestic has continued quiet, reflecting the reduced consumption. The tobacco market as yet has not responded to the better feeling in financial circles and in other parts of the country. A good deal of complaint is heard regarding the low quality of the new crop leaf, prices for which are considerably cheaper than those ruling last year at this time. Sumatra and Havana have been quiet and steady.

COPPER has been quiet and firmer; Lake 12⅝@12⅞c. and electrolytic 12½@12¾c. Lead has been quiet and firm at 3.65@3.70c. Spelter has been dull and easy at 4.60@4.70c. Tin has been quiet and easy; Straits 29¼c. Iron has been quiet; No. 1 Northern $17 75@$18 75 and No. 2 Southern $17 25@$17 75.

## COTTON.

*Friday Night, March* 13 1908

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 109,489 bales, against 97,612 bales last week and 117,984 bales the previous week, making the total receipts since the 1st of September 1907, 7,046,813 bales, against 8,515,382 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,468,569 bales.

Speculation in cotton for future delivery has still kept within very circumscribed limits and the swing of prices has also been as a rule similarly contracted, the net result for the week, however, being a decline. Reports have been current from time to time that the South was disposed to sell the actual cotton rather more freely, and though such reports have not been fully confirmed, they have not been without their influence. Furthermore, some of the Southern mills seem disposed to reduce their production to four days a week, and while Fall River mills have refused to formally agree to curtail for another three months, it is understoood that many of the mills at that center will continue to restrict their production, at least for a time. General trade, too, continues quiet, even if here and there signs of improvement are not wanting. Spinners' takings thus far this season show a decrease compared with the corresponding period last year of over 800,000 bales; spinners are still, as a rule, buying the actual cotton very sparingly, and as for speculation, as already intimated it has been a very small affair. Confined largely to prominent operators, the trading has been for the most part of a professional character and oftentimes it has been more a question of what this, that or the other operator was doing, or was likely to do, than of the fundamental facts affecting the cotton situation as a whole. Much has been said about the alleged existence of a large short interest in the May option if not in March, but, whether because of a fear that a sharp advance at this time would attract large quantities of cotton to New York or because of the failure of the market to respond to the rise in stocks or the absence of any great pressure to cover shorts account, bulls are understood to have of late reduced their holdings of both March and May cotton. Complaints have been received of rather too much rain in parts of the Atlantic States and not a little has been said about the reported reduction in the sales of mules and fertilizers thus far this season; but of late sales of fertilizers in Alabama and Georgia, for instance, appear to have greatly increased. In Texas crop preparations seem to be at least as well forward as they were a year ago and from parts of Mississippi come reports that the acreage will be the largest ever planted and that sales of mules and agricultural tools are also larger than ever before. Most reports incline to the view that crop preparations are more or less in arrears over much of the region east of the Mississippi. But not only have the sales of spot cotton at the South been on a very small scale but the spot business in Liverpool has latterly fallen off, though the tone of that market has on the whole been pretty firm. Of late there has been considerable selling of May here against purchases of July and it is worthy of note that, whereas at one time recently May was 36 points over July, the premium has latterly fallen to 13 points. The wages of 25,000 operatives at Lowell are to be reduced 10 per cent on March 30th and similar reductions at Manchester and Nashua, N. H., will effect about 20,000 more. To-day heavy liquidation caused a sharp break in prices, accompanied by rumors that prominent bulls were selling May. The weather at the South was favorable and the Liverpool market unexpectedly dull and depressed. Spot cotton has been quiet and easier. Middling uplands closed at 11.20c.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

| Mch. 6 to Mch. 13 | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| Middling upland | 11.45 | 11.55 | 11.50 | 11.40 | 11.30 | 11.20 |

## NEW YORK QUOTATIONS FOR 32 YEARS.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

| March 13— | 1908. | 1907. | 1906. | 1905. |

Continental imports for the past week have been 180,000 bales.

The above figures for 1908 show a decrease from last week of 24,306 bales, a loss of 795,657 bales from 1907, a decrease of 317,026 bales from 1906, and a gain of 428,551 bales over 1905.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to March 13 1908. | | | | Movement to March 15 1907. | | | |

The above totals show that the interior stocks have *decreased* during the week 105 bales and are to-night 16,457 bales less than at the same time last year. The receipts at all the towns has been 62,981 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| March 13— | 1907-08 Week. | 1907-08 Since Sept. 1. | 1906-07 Week. | 1906-07 Since Sept. 1. |
|---|---|---|---|---|
| *Shipped—* | | | | |
| Via St. Louis | 9,831 | 316,968 | 22,599 | 625,562 |
| Via Cairo | 6,898 | 147,070 | 5,112 | 185,431 |
| Via Rock Island | 1,338 | 25,305 | 2,931 | 60,201 |
| Via Louisville | 502 | 40,282 | 2,199 | 64,644 |
| Via Cincinnati | 3,020 | 32,738 | 1,274 | 42,929 |
| Via Virginia points | 3,038 | 70,666 | 3,039 | 99,988 |
| Via other routes, &c. | 4,822 | 188,698 | 22,935 | 235,606 |
| Total gross overland | 29,449 | 821,727 | 60,089 | 1,314,356 |
| *Deduct shipments—* | | | | |
| Overland to N. Y., Boston, &c. | 3,033 | 81,139 | 5,604 | 126,061 |
| Between interior towns | 302 | 57,536 | 2,182 | 55,221 |
| Inland, &c., from South | 450 | 45,627 | 1,931 | 40,142 |
| Total to be deducted | 3,785 | 184,302 | 9,717 | 221,424 |
| Leaving total net overland * | 25,664 | 637,425 | 50,372 | 1,092,932 |

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 25,664 bales, against 50,372 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 455,507 bales.

| In Sight and Spinners' Takings. | 1907-08 Week. | 1907-08 Since Sept. 1. | 1906-07 Week. | 1906-07 Since Sept. 1. |
|---|---|---|---|---|
| Receipts at ports to March 13 | 109,489 | 7,046,813 | 169,294 | 8,515,382 |
| Net overland to March 13 | 25,664 | 637,425 | 50,372 | 1,092,932 |
| Southern consumption to March 13 | 44,000 | 1,327,000 | 48,000 | 1,322,000 |
| Total marketed | 179,153 | 9,011,238 | 267,666 | 10,930,314 |
| Interior stocks in excess | *105 | 432,544 | *17,437 | 433,038 |
| Came into sight during week | 179,048 | | 250,229 | |
| Total in sight March 13 | | 9,443,782 | | 11,363,622 |
| North. spinners' takings to Mch. 13 | 34,468 | 1,269,573 | 83,545 | 2,084,993 |

* Decrease during week.

Movement into sight in previous years:

| Week— | Bales. | Since Sept. 1— | Bales. |
|---|---|---|---|
| 1906—Mch. 16 | 144,930 | 1905-06—Mch. 16 | 8,916,749 |
| 1905—Mch. 17 | 212,500 | 1904-05—Mch. 17 | 9,911,347 |
| 1904—Mch. 19 | 115,805 | 1903-04—Mch. 15 | 8,911,941 |

WEATHER REPORTS BY TELEGRAPH.—Telegraphic advices to us this evening from the South indicate that, in the main, the weather has been favorable during the week. While rain has fallen in most localities, the precipitation has been light as a rule, and temperatures on the whole seasonable. In Texas preparations of land for the next crop are said to be about completed, and planting has been commenced at some points. Elsewhere crop preparations are progressing well quite generally.

*Galveston, Texas.*—Preparations of soil for the next crop are about completed in Texas, the ground is well seasoned and in fine condition, and planting has been commenced in some localities, but is not general as yet. We have had a trace of rain on one day during the week. Thermometer has ranged from 52 to 74, averaging 63.

*Abilene, Texas.*—Rain has fallen on one day during the week, the rainfall being six hundredths of an inch. Average thermometer 54, highest 78, lowest 30.

*Corpus Christi, Texas.*—There has been rain on two days during the week, the precipitation being twenty-seven hundredths of an inch. The thermometer has averaged 61, the highest being 76 and the lowest 48.

*Fort Worth, Texas.*—We have had rain on three days during the week, the rainfall reaching one inch and sixty-six hundredths. The thermometer has averaged 59, ranging from 38 to 80.

*San Antonio, Texas.*—It has rained on two days of the week, the rainfall reaching thirty-eight hundredths of an inch. The thermometer has ranged from 42 to 84, averaging 63.

*Taylor, Texas.*—Rain has fallen on two days during the week, the rainfall being one inch and fifty-six hundredths. Average thermometer 61, highest 80, lowest 42.

*Palestine, Texas.*—We have had rain on three days of the week, the precipitation reaching one inch and nine hundredths. The thermometer has averaged 61, the highest being 80 and the lowest 42.

*New Orleans, Louisiana.*—Rain has fallen on one day during the week, the rainfall being two hundredths of an inch. Average thermometer 66.

*Leland, Mississippi.*—We have had rain during the week, the rainfall reaching thirty hundredths of an inch. The thermometer has averaged 60.4, ranging from 37 to 79.

*Vicksburg, Mississippi.*—We have had rain on four days during the week, the rainfall reaching seventy-eight hundredths of an inch. Thermometer has ranged from 41 to 82, averaging 58.

*Helena, Arkansas.*—Rain has interfered somewhat with farm operations. We have had rain on two days of the week, the precipitation reaching forty-five hundredths of an inch. The thermometer has averaged 53.8, the highest being 75 and the lowest 40.

*Little Rock, Arkansas.*—The weather has been favorable for farm work, but preparations for planting are not very far

advanced. There has been rain on three days during the week, to the extent of ninety-one hundredths of an inch. The thermometer has averaged 57, ranging from 38 to 76.

*Memphis, Tennessee.*—The weather is clear and spring-like and preparations for the next crop are active. It has rained on two days of the week, the rainfall reaching one inch and eighteen hundredths. The thermometer has ranged from 37.8 to 73.2, averaging 55.

*Mobile, Alabama.*—Fine weather has prevailed in the interior and farm work is making good progress. We have had rain on one day of the week, the precipitation reaching one hundrdeth of an inch. The thermometer has averaged 65, the highest being 79 and the lowest 53.

*Montgomery, Alabama.*—With fine weather farmers are catching up nicely with their work. There has been rain on three days during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 64, ranging from 52 to 80.

*Selma, Alabama.*—It has rained on three days of the week, the rainfall reaching thirty-five hundredths of an inch. The thermometer has ranged from 40 to 83, averaging 62.5.

*Madison, Florida.*—Dry all the week. Average thermometer 64, highest 81, lowest 51.

*Augusta, Georgia.*—We have had rain on two days of the week, the precipitation reaching thirty-one hundredths of an inch. The thermometer has averaged 62, the highest being 84 and the lowest 44.

*Savannah, Georgia.*—Dry all the week. The thermometer has averaged 65, ranging from 48 to 83.

*Charleston, South Carolina.*—It has rained on three days of the week, the rainfall reaching ten hundredths of an inch. The thermometer has ranged from 46 to 81, averaging 66.

*Greenwood, South Carolina.*—Rain has fallen on two days of the week, the rainfall being thirty hundredths of an inch. Average thermometer 56, highest 67, lowest 46.

*Statesburg, South Carolina.*—Preparations for planting have been delayed by bad weather which still hangs on. We have had rain on three days of the week, the rainfall being seventy-five hundredths of an inch. The thermometer has averaged 61, ranging from 41 to 85.

*Charlotte, North Carolina.*—There has been rain the past week, the precipitation reaching one inch and sixty hundredths. The thermometer has averaged 57, ranging from 37 to 79.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

| | | *Mch. 13 1908.* | *Mch. 15 1907.* |
|---|---|---|---|
| | | *Feet.* | *Feet.* |
| New Orleans | Above zero of gauge | 16.5 | 15.6 |
| Memphis | Above zero of gauge | 32.8 | 28.7 |
| Nashville | Above zero of gauge | 22.7 | 29.6 |
| Shreveport | Above zero of gauge | 7.2 | 16.5 |
| Vicksburg | Above zero of gauge | 45.1 | 39.2 |

EUROPEAN COTTON CONSUMPTION TO MARCH 1.—By cable to-day we have Mr. Ellison's cotton figures brought down to March 1. We give also revised totals for last year that comparison may be made. The spinners' takings in *actual* bales and pounds have been as follows:

| *October 1 to March 1.* | | *Great Britain.* | *Continent.* | *Total.* |
|---|---|---|---|---|
| **For 1907-08.** | | | | |
| Takings by spinners | bales. | 1,909,000 | 2,679,000 | 4,588,000 |
| Average weight of bales | lbs. | 508 | 485 | 494.1 |
| Takings in pounds | | 967,772,000 | 1,299,215,000 | 2,266,987,000 |
| **For 1906-07.** | | | | |
| Takings by spinners | bales. | 1,960,000 | 2,826,000 | 4,786,000 |
| Average weight of bales | lbs. | 506 | 486 | 494.2 |
| Takings in pounds | | 991,760,000 | 1,373,436,000 | 2,365,196,000 |

According to the above, the average weight of the deliveries in Great Britain is 508 pounds per bale this season, against 506 pounds during the same time last season. The Continental deliveries average 485 pounds, against 486 pounds last year, and for the whole of Europe the deliveries average 494.1 pounds per bale, against 494.2 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

| *October 1 to March 1. Bales of 500 lbs. each. 000s omitted.* | 1907-08. | | | 1906-07. | | |
|---|---|---|---|---|---|---|
| | *Great Brit'n.* | *Continent.* | *Total.* | *Great Brit'n.* | *Continent.* | *Total.* |
| Spinners' stock Oct. 1 | 367 | 1,089 | 1,456 | 253 | 556 | 809 |
| Takings to March 1 | 1,936 | 2,598 | 4,534 | 1,984 | 2,747 | 4,731 |
| Supply | 2,303 | 3,687 | 5,990 | 2,237 | 3,303 | 5,540 |
| Consumption, 21 weeks | 1,638 | 2,226 | 3,864 | 1,571 | 2,205 | 3,776 |
| Spinners' stock March 1 | 665 | 1,461 | 2,126 | 666 | 1,098 | 1,764 |
| *Weekly Consumption, 000s omitted.* | | | | | | |
| In October | 78 | 106 | 184 | 74 | 105 | 179 |
| In November | 78 | 106 | 184 | 74 | 105 | 179 |
| In December | 78 | 106 | 184 | 75 | 105 | 180 |
| In January | 78 | 108 | 184 | 75 | 105 | 180 |
| In February | 78 | 106 | 184 | 76 | 105 | 181 |

The foregoing shows that the weekly consumption is now 184,000 bales of 500 pounds each, against 181,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 215,000 bales during the month and are now 362,000 bales more than at the same time last season.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

| Cotton Takings. Week and Season. | 1907-08. | | 1906-07. | |
|---|---|---|---|---|
| | *Week.* | *Season.* | *Week.* | *Season.* |
| Visible supply March 6 | 4,681,947 | | 5,473,987 | |
| Visible supply Sept. 1 | | 2,291,844 | | 1,784,156 |
| American in sight to March 13 | 179,048 | 9,443,782 | 250,229 | 11,363,622 |
| Bombay receipts to March 12 | 64,000 | 1,326,000 | 103,000 | 1,648,000 |
| Other India ship'ts to March 12 | 2,000 | 130,000 | 9,000 | 148,000 |
| Alexandria receipts to Mch. 11 | 14,000 | 856,000 | 11,000 | 882,000 |
| Other supply to March 11 * | 1,000 | 190,000 | 3,000 | 215,000 |
| Total supply | 4,941,995 | 14,237,626 | 5,850,216 | 16,040,778 |
| *Doduct—* | | | | |
| Visible supply March 13 | 4,657,641 | 4,657,641 | 5,453,298 | 5,453,298 |
| Toatl takings to March 13 | 284,354 | 9,579,985 | 396,918 | 10,587,480 |
| Of which American | 234,354 | 7,379,985 | 303,918 | 8,170,480 |
| Of which other | 50,000 | 2,200,000 | 93,000 | 2,417,000 |

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

| *Alexandria, Egypt, March 11.* | 1907-08. | 1906-07. | 1905-06. |
|---|---|---|---|
| *Receipts* (cantars)— | | | |

| Since Sept. 1 | 6,417,277 | 6,613,515 | 5,622,802 |

| *Exports* (bales)— | *This week.* | *Since Sept. 1.* | *This week.* | *Since Sept. 1.* | *This week.* | *Since Sept. 1.* |
|---|---|---|---|---|---|---|
| To Liverpool | 3,500 | 175,459 | | 169,496 | 3,750 | 173,585 |
| To Manchester | | 152,529 | | 159,604 | 4,000 | 137,358 |
| To Continent | 14,000 | 248,764 | 5,500 | 259,180 | 7,000 | 231,899 |
| To America | 800 | 48,466 | 2,250 | 89,912 | 1,500 | 60,582 |
| Total exports | 18,300 | 625,218 | 7,750 | 678,192 | 16,250 | 603,424 |

*Note.*—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.

This statement shows that the receipts for the week were 100,000 cantars and the foreign shipments 18,300 bales.

JUTE BUTTS, BAGGING, &c.—There has been practically nothing doing in the market for jute bagging during the week under review, and prices are nominally unchanged at 7¼ cents per yard for 2-lb. domestic bagging and 6½ cents per yard for re-woven and inferior foreign. Jute butts continue dull at 2@3 cents per lb. for bagging quality.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

| 1906-07 | 2,000 | 27,000 | 29,000 | 40,000 | 709,000 | 749,000 |
| 1905-06 | 3,000 | 52,000 | 55,000 | 49,000 | 626,000 | 675,000 |

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 39,000 bales. Exports from all India ports record a loss of 18,000 bales during the week and since Sept. 1 show a *decrease* of 262,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is quiet for yarns and steady for shirtings. The demand for India is poor but for China is good. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

## BREADSTUFFS.

*Friday, March 13 1908.*

Prices for wheat flour have shown no marked changes during the week, but on the whole the tone has been easier, owing to the fall in wheat, and some grades are lower than they were a week ago. But trade has been extremely dull and quotations are largely nominal. Export business has been at a standstill. Trade reports from the large milling centres of the Northwest, the Southwest and the West have been unfavorable, trade continuing dull at most points, with no prospects of greater activity in the near future. Favorable reports in regard to the new winter-wheat crop of this country have had a tendency to restrict purchases. Rye flour and corn meal have been quiet and steady.

Wheat has declined about four cents per bushel during the week, owing partly to unexpectedly large holdings by farmers as revealed by the Government report which appeared on March 9th, partly to warmer weather at the West, and partly to depression at times in the European markets, where the offerings of Argentina wheat have still been large. The effect of the Government report was attributable mainly to the fact that the figures were larger than had been expected, rather than to anything necessarily of a discouraging character in the report itself, aside from this fact. In other words, the reserves, as stated in the official report, are 148,721,000 bushels, against 206,644,000 a year ago, 158,403,000 in 1906, 111,000,000 in 1905 and 132,600,000 in 1904. That is to say, the farm stocks are really only 23.5% of the crop, as against 28.1% a year ago and a ten-year average for this time of the year of 24.5%. The report, indeed, might have had a stimulating effect but for the rumors previously circulated that the reserves were really some 25,000,000 to 30,000,000 bushels smaller than the Government figures proved to be. Reports had been extensively circulated of an almost absolute exhaustion of farm reserves at the Northwest and the Southwest. Speculators for a rise had so seriously misunderstood the facts that the Government figures came as a disagreeable revelation to very many, who promptly sold their holdings. Moreover, the receipts have increased and the cash demand at one time fell off sharply. The world's shipments have been anything but small, even though they show some decrease. More favorable crop reports received not only from the West but also from most parts of Russia, and from various other countries of Europe, have been so favorable that they have contributed noticeably to the depression in prices. The decline in the European markets has also counted for not a little. Argentina's crop seems to be turning out larger than was expected. Yet of late the cash demand has increased, and this, with a rising stock market, has had a more or less steadying effect, while complaints have also been received from India that rain is needed. A rally in English and continental markets also contributed to some advance here on Thursday. On the whole, however, the cash demand has been light. To-day prices were lower at first on large Argentine shipments, weak cables and liquidation, but a rally occurred later on bull support, reports of a better cash demand, partly for export, and covering of shorts.

DAILY CLOSING PRICES OF WHEAT FUTURES IN NEW YORK.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| No 2 red winter | 105½ | 101⅞ | 101⅞ | 100⅝ | 100½ | 101 |

| July delivery in elevator | 99¼ | 97¾ | 96⅛ | 95⅝ | 96¼ | 97⅛ |

DAILY CLOSING PRICES OF WHEAT FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery in elevator | 93⅛ | 95⅞ | 93⅝ | 93⅞ | 94⅛ | 95 |
| July delivery in elevator | 90⅞ | 90½ | 89¼ | 89¼ | 89 | 89⅞ |
| September delivery in elevator | 88 | 87⅛ | 86¼ | 86¼ | 86 | 86⅞ |

Indian corn futures have been strong during much of the week, owing to the poor grading, support from leading Chicago operators who are arrayed on the bull side and covering by nervous shorts. The buying for short account has been active at times, but there is said to be a considerable May short interest still outstanding. The arrivals at Chicago have not only been light, but they have included practically no corn of contract grade. The cash demand has been fairly active and Liverpool has shown strength at times. The Government report on reserves was bullish, stating the amount in the hands of farmers at 962,429,000 bushels, against 1,298,000,000 last year. Of late, however, bulls have liquidated to some extent and prices have shown a reactionary tendency. To-day prices were easier at first on liquidation and favorable weather, but later they rallied on small receipts, firmness of wheat and covering.

DAILY CLOSING PRICES OF NO 2 MIXED CORN IN NEW YORK.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| Cash corn | 65 | 65 | 66 | 66¼ | 67 | 67 |
| May delivery in elevator | 73 | 73⅝ | 73¼ | 73⅞ | 73⅞ | 74⅛ |
| July delivery in elevator | 70⅛ | 71⅛ | 71½ | 71¾ | 70⅞ | 71⅝ |

DAILY CLOSING PRICES OF CORN FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery in elevator | 63⅛ | 64¼ | 65 | 65 | 64⅜ | 65¼ |
| July delivery in elevator | 61⅛ | 62 | 62⅛ | 62⅛ | 61⅝ | 62⅛ |
| September delivery in elevator | 60¼ | 61 | 61¼ | 61¼ | 60⅝ | 61¼ |

Oats for future delivery in the Western market have moved within a comparatively narrow range. In the main, however, prices have been firmer, owing to the strength of corn buying by prominent Chicago interests, commission-house buying and covering of shorts. On the other hand the receipts have been liberal, and this fact, with dulness of the cash trade, has militated against any marked rise in prices. At times, too, leading Chicago bulls have liquidated and cash interests have sold to some extent. The Government stated farm reserves at 267,476,000 bushels, against 384,461,000 a year ago. This report had little effect, however, owing to the break in wheat. To-day prices were firmer on the strength of wheat, bull support and covering.

DAILY CLOSING PRICES OF OATS IN NEW YORK.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| Mixed, 26 to 32 lbs. | 57½ | 57½ | 57½ | 57½ | 57½ | 57 |

## THE DRY GOODS TRADE.

*New York, Friday Night, March* 13 1908.

Prices on certain lines of cotton goods have again shown irregularity during the past week, but on the whole sentiment is improving and the future is being looked forward to with more confidence. In the primary market orders have only been for small quantities of goods, but they have been coming forward steadily, and from their character indicate that stocks throughout the country are running low. Jobbers have of late done a very much larger business proportionately than agents, and it is felt that this is a condition which cannot continue much longer. During the week it has developed that, particularly in the West, they have been buying from one another to maintain their stocks without entering the primary market and at prices which agents at present would not in any way consider. Announcement has been made that on March 30 there will be a reduction in wages averaging 10% in all mills in Lowell, and it is expected that other manufacturing centres will shortly follow this example. Fall River will be unaffected, owing to the six months sliding scale agreement which went into operation on Nov. 25 last. There is little likelihood of wage reductions resulting in lower prices for goods, however, as the revisions have already been material and there has been no equivalent decline in the price of cotton; in fact the latter has been steadily maintained at the highest level for many years, with the one exception of the Sully boom year. In the meantime, curtailment is becoming even more drastic both North and South, and while no actual agreement has been reached among New England mills, there are indications that it will continue at over 25% for at least three months more. There has been little doing in men's wear woolen and worsted heavy-weight goods, but dress goods have been moderately active.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 7 were 3,703 packages, valued at $215,205, their destination being to the points specified in the tables below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| *New York to March 7.* | *Week.* | *Since Jan. 1.* | *Week.* | *Since Jan. 1.* |
| Great Britain | 8 | 93 | 38 | 569 |
| Other European | 4 | 115 | 10 | 131 |
| China | 1,664 | 5,402 | -- | 4,141 |
| India | 2 | 3,122 | 54 | 2,881 |
| Arabia | -- | 3,906 | 100 | 12,371 |
| Africa | 41 | 974 | -- | 2,201 |
| West Indies | 587 | 4,116 | 456 | 4,965 |
| Mexico | 19 | 387 | 20 | 394 |
| Central America | 228 | 2,515 | 366 | 3,619 |
| South America | 652 | 8,783 | 505 | 10,036 |
| Other Countries | 498 | 3,343 | 816 | 9,800 |
| Total | 3,703 | 32,756 | 2,365 | 51,108 |

The value of these New York exports since Jan. 1 has been $2,142,223 in 1908, against $3,164,768 in 1907.

Heavy brown drills and sheetings have again shown an easier tendency during the week and the demand has only been of moderate proportions. Medium and light-weight sheetings are also slightly lower, but purchases have been somewhat heavier at the decline. Moderate sales have been made to China, mostly for March-April shipment, and inquiries from this source have continued on quite a heavy scale. A transaction that created a good deal of interest in dry goods circles was the sale of a small lot of sheetings to Madagascar, this being the first in twelve years, or since the French Government imposed an import duty of 55% on foreign cottons entering the island. At first hands bleached goods have been moving slowly, but jobbers announce that they are quite satisfied with the business they have been doing. Kid-finished cambrics have sold moderately well at the lower level recently established, and napped goods contiue among the most active of lines. Coarse, colored cotton goods have been quiet as far as the domestic trade is concerned, but there have been some sales of denims, plaids, &c., to Pacific ports. Jobbers have received some good orders for ginghams for early shipment, and prints have also been in demand for immediate delivery. Print cloths have been irregular with gray goods again from ⅛c. to ¼c. lower; buyers are only covering their urgent requirements.

WOOLEN GOODS.—Revisions in the men's wear heavy-weight woolen and worsted goods market are now practically over and a quiet time is inevitable for the next few weeks. While a feeling of optimism is still apparent in some quarters, there is no doubt that many looms will be idle and that manufacturing will be on a much lighter scale than for several years past. A great deal will, of course, depend upon the duplicate ordering and this will partly be affected by the volume of spring business. The worst sufferers have been the cheaper qualities of goods and the best business has been done in fine worsteds. In practically all lines above $1 50 a yard the initial sales have been satisfactory, although probably in no instance have they been as large as last year. Buyers at the present time are anxious to get their sample pieces as early as possible to enable them to test their market. In dress goods there has been a good spot demand for certain classes of fabrics, notably striped serges, and where these have been obtainable they have readily commanded a premium. In heavy-weight goods the best buying has been in worsteds, which have fared comparatively well, but there is little in the situation to encourage manufacturers of woolens. Broadcloths are still popular and it is expected that they will continue so during the fall season.

FOREIGN DRY GOODS.—Imported woolen and worsted dress goods are quiet, and in some instances prices are lower. Silks and ribbons have been moving rather more freely. There has been a fair demand for spot linens. Burlaps have advanced sharply, following the Calcutta and Dundee markets.

**Importations and Warehouse Withdrawals of Dry Goods.**

The importations and warehouse withdrawals of dry goods at this port for the week ending Mch. 7 1908 and since Jan. 1 1908, and for the corresponding periods of last year, are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JAN. 1 1908 AND 1907.

# STATE AND CITY DEPARTMENT.

## *MUNICIPAL BOND SALES IN FEBRUARY.*

We present herewith our detailed list of the municipal bond issues put out during the month of February, which the crowded condition of our columns prevented our publishing at the usual time.

The review of the month's sales was given on page 618 of the "Chronicle of March 7. Since then several belated February returns have been received, changing the total for the month to $60,613,665. The number of municipalities issuing bonds was 186 and the number of separate issues 296. In the case of each loan reference is made to the page of the "Chronicle where an account of the sale is given.

### REVISED TOTALS FOR PREVIOUS MONTHS.

The following items, included in our totals for previous months, should be eliminated from the same, as the sales have not been carried to completion. We give the page number of the issue of our paper in which the reason for the failure to consummate the sale may be found.

| Page. | Name of Municipality. | Amount. |
|---|---|---|
| 558 | Bayonne, N. J. (3 issues) (January list) | $434,000 |
| 620 | Hamilton, Ohio (January list) | 15,168 |
| 621 | Memphis, Tenn. (May list) | 551,000 |
| 684 | Mingo Junction, Ohio (January list) | 13,500 |

We have also learned of the following *additional* sales for previous months:

| Page. | Name. | Rate. | Maturity. | Amount. | Price. |
|---|---|---|---|---|---|
| 564 | Winthrop, Mass | 4 | 1909-1928 | $139,000 | 100.02 |
| 620 | Louisville, Ky | 4 | 1947 | 98,000 | |

All the above sales (except as indicated) are for January. These additional January issues will make the total sales (not including temporary loans) for that month $10,907,968.

## News Items.

**Alabama.**—*Amendments to State Constitution.*—During the regular session of the Legislature of this State, which adjourned Aug. 7 1907, provision was made for three amendments to the Constitution to be voted on at the next general election in November. One of these amendments pertains to the formation and the establishing of new counties out of portions of one, two or more counties as may be desired. Another provides that the State may, under appropriate laws, cause the net proceeds from the State convict fund to be applied to the construction and maintenance of public roads for the State. The third proposal, which is to amend Sections 46 and 48 of Article IV, prescribes the manner in which Senators and Representatives shall be elected and the length of terms of office. The amendment further provides

for biennial sessions of the Legislature instead of quadrennial, as is now the requirement. Below we give in full Section 46 of Article IV as it will read when adopted by the people.

Section 46. Senators and Representatives shall be elected by the qualified electors on the first Tuesday after the first Monday in November unless the Legislature shall change the time of holding elections. The terms of office of Representatives shall be two years, and the terms of office of Senators four years, commencing on the day after the general election, except as otherwise provided in this Constitution. At the general election in 1910 all the Senators and Representatives shall be elected. The terms of Senators elected at said election to represent the even numbered districts to be for two years; and the terms of Senators elected to represent the odd numbered districts to be for four years. Thereafter the terms of all the Senators shall be for four years. Whenever a vacancy shall occur in either House, the Governor shall issue a writ of election to fill such vacancy for the remainder of the term

Following is the law as it now appears:

Section 46. Senators and Representatives shall be elected by the qualified electors on the first Tuesday after the first Monday in November, unless the Legislature shall change the time of holding elections, and in every fourth year thereafter. The terms of office of the Senators and Representatives shall commence on the day after the general election at which they are elected, and expire on the day after the general election held in the fourth year after their election, except as otherwise provided in this Constitution. At the general election in the year 1902 all the Representatives, together with the Senators for the even numbered districts and for the 35th district, shall be elected. The terms of those Senators who represent the odd numbered districts under the law in force prior to the ratification of this Constitution, are hereby extended until the day after the general election in the year 1906; and until the expiration of his term as hereinbefore extended, each such Senator shall represent the district established by this Constitution bearing the number corresponding with that for which he was elected. In the year 1906, and in every fourth year thereafter, all the Senators and Representatives shall be elected. Whenever a vacancy shall occur in either House, the Governor shall issue a writ of election to fill such vacancy for the remainder of the term.

If approved by the electors, Section 48 of Article IV will stand as follows. We indicate by means of brackets such portions of the old law as have been omitted and italicize the new portions.

Section 48. The Legislature shall meet [quadrennially] *biennially* at the Capitol, in the Senate Chamber, and in the hall of the House of Representatives, on the second Tuesday in January next succeeding their election, or on such other day as may be prescribed by law; and shall not remain in session longer than [60 days at the first session held under the Constitution, nor longer than] 50 days [at any subsequent session]. If at any time it should from any cause become impossible or dangerous for the Legislature to meet or remain at the Capitol, or for the Senate to meet or remain in the Senate Chamber, or for the Representatives to meet or remain in the hall of the House of Representatives, the Governor may convene the Legislature or remove it, after it has convened, to some other place [,] or may designate some other place for the sitting of the respective houses, or either of them, as necessity may require.

**Cincinnati, Ohio.**—*Validity of Bonds Upheld by Common Pleas Court.*—The decision of Judge Bromwell of the Common Pleas Court rendered on Feb. 10 overruled the demurrer of the City Solicitor to the answer filed by the Board of Water Commissioners in the suit instituted by the Solicitor to test the validity of the $250,000 water bonds recently authorized by resolution of the City Council. The suit charged that as the Water Works Commission was created under a special Act of the Legislature, which also authorized an aggregate issue of $10,000,000 in bonds, it was necessary to secure authority from that body for a further issue of bonds. The Water Works Commissioners on its part claimed that the $10,000,000 allowed by the Legislature was found to be insufficient to complete the work. They also stated that the face of the contracts now due, or that would become due at the completion of the work, exceeded the amount now in the hands of the Commission by about $304,000. Of this amount it was claimed $250,000 would be needed in the immediate future. The Court held that as the Longworth Act was passed subsequent to the Water Works Act, the Council would be lawfully authorized to pass the ordinances and order the proceeds of the sale of the bonds placed at the disposal of the Water-Works Commissioners for the completion of the work yet to be done and the payment of obligations under contract.

**Connecticut.**—*Atlantic Coast Line Railroad Bonds as Investments for Savings Banks.*—According to the Hartford "Courant" of March 3, Attorney-General Marcus H. Holcomb has rendered an opinion in which he states that the bonds of the Atlantic Coast Line RR. do not meet the requirements of the Savings Bank Law and therefore are not legal investments for Connecticut savings banks. The last dividend of this company was paid in January with 4% certificates of indebtedness instead of in cash, and the Attorney-General holds that "the test made by the State law is not met by paying in promises to pay, which simply add the amount of the dividend to the outstanding obligations of the company." The opinion of Attorney-General Holcomb of Connecticut is based on the same facts as that of Attorney-General Jackson of New York State, who recently declared that Missouri Pacific bonds were not legal investments for savings banks, owing to the failure of that company to pay its last dividend in cash. See V. 86, p. 494.

**New York State.**—*Bond Sale.*—The award of the $5,000,000 4% 50-year gold coupon or registered highway-improvement bonds offered on March 11 shows that there were twelve successful bidders at prices ranging from 106.456 to 109—an average price of about 106.9558—a basis of about 3.694%. The issue was oversubscribed sixteen times, the aggregate of bids submitted by 244 bidders being more than $80,000,000. The largest allotment was made to the Hanover National Bank of New York City, which institution purchased $2,250,000 of the issue. The bonds have been admitted to the unlisted department of the Stock Exchange and sales reported (w. i.) at 107.50 and 108. The following are the successful bidders:

| | | |
|---|---|---|
| M. & H. Clarkson, New York | $5,000 | 109.00 |
| | 5,000 | 108.50 |

**South Dakota.**—*Amendments to State Constitution.*—The Legislature at its recent session made provision for the submission to the voters in November of two amendments to the State Constitution. One of these relates to the increasing of the salary of the Attorney-General. The other, which amends Article XI. of the Constitution, provides for various changes in the Constitutional provisions regarding taxation; among other things, the Legislature is required to classify incomes and arrange for a graduated or progressive tax thereon. If adopted by the people, Article XI. of the State Constitution will read as follows:

SECTION 1. The Legislature shall provide for raising sufficient revenue to defray the ordinary expenses of the State by an annual tax, as nearly uniform from year to year as practicable. And for the purpose of paying the public debt, the Legislature shall provide for levying a tax annually, sufficient to pay the annual interest and the principal of such debt within ten years from the final passage of the law creating the debt.

SECTION 2. All taxes shall be uniform on the same class of subjects and shall be levied and collected for public purposes.

SECTION 3. The power to tax corporations and corporate property shall not be surrendered or suspended by any contract or grant to which the State shall be a party.

SECTION 4. The Legislature shall classify inheritances, devises, legacies and bequests in respect to the recipients thereof, and provide for a graduated or progressive tax thereon, with such exemptions to the surviving husband or wife, children and other relatives as it may prescribe.

SECTION 5. The Legislature shall classify incomes in respect to the recipients thereof, and provide for a graduated or progressive tax thereon with such exemptions as it may prescribe.

SECTION 6. The property of the United States and of the State, county and municipal corporations, both real and personal, shall be exempt from taxation.

SECTION 7. The Legislature shall by general law exempt from taxation property used exclusively for agricultural and horticultural societies, for school, religious (including parsonage, and president's house of sectarian colleges), cemetery and charitable purposes, and personal property to any amount not exceeding in value two hundred dollars for each individual liable to taxation.

SECTION 8. All laws exempting property from taxation except as provided for in this article shall be void.

SECTION 9. No tax shall be levied except in pursuance of a law, which shall distinctly state the object of the same, to which the tax only shall be applied.

SECTION 10. All taxes levied and collected for State purposes shall be paid into the State treasury. No indebtedness shall be incurred or money expended by the State and no warrant shall be drawn upon the State Treasurer, except in pursuance of an appropriation for the specific purpose first made. The Legislature shall provide by suitable enactment for carrying this section into effect.

SECTION 11. The Legislature may vest the corporate authorities of cities, towns and villages with power to make local improvements by special taxation of contiguous property or otherwise. For all corporate purposes all municipal corporations may be vested with authority to assess and collect taxes; but such tax shall be uniform on the same class of subjects.

SECTION 12. The making of profit, directly or indirectly, out of State, county, city, town or school district money, or using the same for any purpose not authorized by law, shall be deemed a felony, and shall be punished as provided by law.

SECTION 13. An accurate statement of the receipts and expenditures of the public moneys shall be published annually in such manner as the Legislature may provide.

Below we give this Article as it now stands:

SECTION 1. The Legislature shall provide for an annual tax sufficient to defray the estimated ordinary expenses of the State for each year, not to exceed in any one year two mills on each dollar of the assessed valuation of all taxable property in the State, to be ascertained by the last assessment made for State and county purposes.

And whenever it shall appear that such ordinary expenses shall exceed the income of the State for such year, the Legislature shall provide for levying a tax for the ensuing year sufficient, with other sources of income, to pay the deficiency of the preceding year, together with the estimated expenses of such ensuing year. And for the purpose of paying the public debt, the Legislature shall provide for levying a tax annually, sufficient to pay the annual interest and the principal of such debt within ten years from the final passage of the law creating the debt, provided that the annual tax for the payment of the interest and principal of the public debt shall not exceed in any one year two mills on each dollar of assessed valuation of all taxable property in the State as ascertained by the last assessment made for State and county purposes.

SECTION 2. All taxes to be raised in this State shall be uniform on all real and personal property, according to its value in money, to be ascertained by such rules of appraisement and assessment as may be prescribed by the Legislature by general law, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property. And the Legislature shall provide by general law for the assessing and levying of taxes on all corporation property as near as may be by the same methods as are provided for the assessing and levying of taxes on individual property.

SECTION 3. The power to tax corporations and corporate property shall not be surrendered or suspended by any contract or grant to which the State shall be a party.

SECTION 4. The Legislature shall provide for the taxing of all moneys, credits, investments in bonds, stocks, joint stock companies, or otherwise and also for taxing the notes and bills discounted or purchased, moneys loaned and all other property, effects or dues of every description, of all banks and of all bankers, so that all property employed in banking shall always be subject to a taxation equal to that imposed on the property of individuals.

SECTION 5. The property of the United States and of the State, county and municipal corporations, both real and personal, shall be exempt from taxation.

SECTION 6. The Legislature shall, by general law, exempt from taxation, property used exclusively for agricultural and horticultural societies, for school, religious, cemetery and charitable purposes, and personal property to any amount not exceeding in value two hundred dollars for each individual liable to taxation.

SECTION 7. All laws exempting property from taxation, other than that enumerated in Sections 5 and 6 of this Article, shall be void.

SECTION 8. No tax shall be levied except in pursuance of a law, which shall distinctly state the object of the same, to which the tax only shall be applied.

SECTION 9. All taxes levied and collected for State purposes shall be paid into the State treasury. No indebtedness shall be incurred or money expended by the State, and no warrant shall be drawn upon the State Treasurer except in pursuance of an appropriation for the specific purpose first made. The Legislature shall provide by suitable enactment for carrying this section into effect.

SECTION 10. The Legislature may vest the corporate authority of cities, towns and villages, with power to make local improvements by special taxation of contiguous property or otherwise. For all corporate purposes, all municipal corporations may be vested with authority to assess and collect taxes; but such tax shall be uniform in respect to persons and property within the jurisdiction of the body levying the same.

SECTION 11. The making of profit, directly or indirectly, out of State, county, city, town or school district money, or using the same for any purpose not authorized by law, shall be deemed a felony and shall be punished as provided by law.

SECTION 12. An accurate statement of the receipts and expenditures of the public moneys shall be published annually, in such manner as the Legislature may provide.

**United States.**—*Motion to Compel Allotment of Panama Bonds Dismissed.*—The appeal to the Supreme Court of the District of Columbia by George W. Austin to compel Secretary Cortelyou to award him $3,000,000 of the recent issue of Panama Canal bonds has been dismissed. The Court holds that the Secretary had the right, according to the terms of the official circular soliciting proposals, to reject any or all bids and to consider the financial conditions of the country. A similar decision was rendered by this Court on Jan. 20 (V. 86, p. 240) regarding the application made by the same person for a restraining order against the Secretary of the Treasury to prevent the allotment of $21,500,000 of these bonds.

**Washington.**—*Bonds Declared Valid.*—The following letter has been received from the Secretary of State regarding the friendly suit brought to test the validity of the $35,000 bonds for the erection of a mansion for the Governor:

[illegible] 1908.

William B. Dana Company,
New York, N. Y.

Gentlemen—

The friendly suit brought by the Attorney General against the State Auditor to restrain the issuance of $35,000 bonds, for the erection of a mansion for the Governor, was decided in favor of the State. Since then, the matter has been referred to Attorney General Longmire of the United States Government, relative to the regularity of the matter, and he has ruled that the State can go ahead and sell its securities. I would respectfully refer you to the Board, which is composed [illegible] G. Mills, State Treasurer, Chairman, Olympia, Washington.

Yours very truly,
[illegible]
Secretary of State.

As stated in V. 86, p. 240, the bonds were authorized by the last Legislature to be drawn against the Capitol land grant fund, and prospective purchasers desired a test suit because their attorneys advised that the Federal authorities might set the warrants aside as not being under Congress's grant of the Capitol lands.

**West Virginia.**—*Special Session of Legislature Adjourns.*—The Legislature of this State which convened in special session on Jan. 28 (V. 86, p. 240) adjourned March 3.

## Bond Proposals and Negotiations this week have been as follows:

**Adams County (P. O. Natchez), Miss.**—*Bond Sale.*—In local papers it is reported that the First National Bank of Natchez on March 4 purchased the $18,500 6% gold coupon road and bridge-construction bonds described in V. 86, p. 557, at 103. Maturity $2,500 yearly on March 2 from 1916 to 1922 inclusive and $1,000 on March 2 1923.

**Alba, Jasper County, Mo.**—*Bond Offering.*—Proposals will be received until 8 p. m. March 20 by W. F. Robbins, City Treasurer, for the following bonds:

$12,000 6% coupon water-works bonds. [illegible] years, subject to call at the end of each five [illegible] certified check for $100 required. Denomination $500.

1,000 6% coupon city-hall bonds. [illegible] subject to call at the end of each three [illegible] check for $10 required. Denomination $[illegible].

Authority Section 6351 of the Laws of 1899. Date Jan. 17 1908. Interest Jan. 1 and July 1 at the Bank of Alba. Certified checks in the above amounts must be made payable to the City Treasurer. Accrued interest to be paid by purchaser.

**Albany, Dougherty County, Ga.**—*Bond Sale.*—On March 10 the five issues of 5% bonds aggregating $75,000, described in V. 86, p. 557, were awarded to the First National Bank and the Exchange Bank, both of Albany, at their joint bid of 101 and accrued interest. The bids received were as follows:

| | | | |
|---|---|---|---|
| First National Bank, Exchange Bank | Albany | 101.00 | N.W. Harris & Co., N. Y. |
| | | | 100.584 |
| | | | Cent. Bk. & Tr. Corp. Atlanta |
| | | | 100.033 |

All bidders offered accrued interest in addition to their bids. Maturity $5,000 every two years from date of issue.

**Albuquerque, Bernalillo County, N. Mex.**—*Bond Election.*—The Mayor of this city on March 5 issued a proclamation calling an election for April 7 for the purpose of voting on the question of issuing $400,000 5% sewer-construction bonds in denominations of $1,000 each.

**Alexandria, Rapides Parish, La.**—*Bond Election.*—An election will be held April 7, according to reports, to determine whether or not this city shall issue $32,000 40-year city-hall bonds.

**Ambridge, Beaver County, Pa.**—*Bond Offering.*—Proposals will be received until 9 p. m. April 6 by B. R. Hough, Secretary of the Borough Council, for $25,000 5% (second issue) bonds. Denomination $1,000. Maturity $5,000 on Jan. 2 in each of the years 1913, 1918, 1923, 1928 and 1933. Certified check for $300 is required. Assessed valuation $3,360,715.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Ashtabula Township School District (P. O. Ashtabula), Ashtabula County, Ohio.**—*Bond Election.*—The question of issuing $5,000 school-building improvement bonds will be voted upon, it is stated, at an election to be held March 17.

**Athens, Clarke County, Ga.**—*Bond Election.*—An election will be held, it is stated, on April 15 to vote on the question of issuing $40,000 water-works-system-extension bonds.

**Beattie Independent School District (P. O. Beattie), Comanche County, Tex.**—*Bonds Registered.*—On Feb. 8 an issue of $1,000 6% school-house bonds was registered by the State Comptroller. Securities mature Jan. 1 1928 but are subject to call after five years.

**Beaver, Beaver County, Pa.**—*Bond Offering.*—Proposals will be received until 7 p. m. March 24 by Harry J. Boyde, Borough Secretary, for the $50,000 5% coupon sewer bolnd voted on Feb. 19. Denomination $1,000. Date Apri 1s 1908. Interest semi-annually at the Borough Treasurer's office. Maturity on Oct. 1 as follows: $6,000 in 1913, $6,000 in 1918, $7,000 in 1923, $10,000 in 1928, $12,000 in 1933 and $9,000 in 1936. Certified check for 2% of the bonds bid for is required. Official circular states that default has never been made in the payment of any of the borough's obligations, nor is there any controversy or litigation pending or threatened concerning the validity of these bonds.

**Beloit, Rock County, Wis.**—*Bond Sale.*—This city on March 7 awarded the $15,000 1-15-year (serial) coupon public-ground bonds, described in V. 86, p. 618, to Thomas J. Bolger Co. at 98.51 for 4½s—a basis of about 4.726%. The following bids were received for 5% bonds as advertised:

| | | | |
|---|---|---|---|
| Mason, Lewis & Co., Chic. | $15,240 00 | Beloit State Bank, Beloit | $15,196 50 |
| S. A. Kean, Chicago | 15,240 00 | W. J. Hayes, Cleveland | par |
| McDonald, Mc[illegible] & Co. | 15,211 00 | John Thompson | par |
| Seasongood & Mayer, Cin. | 15,201 00 | | |

**Berea, Cuyahoga County, Ohio.**—*Bond Sale.*—On March 9 four issues of 5% coupon bonds, aggregating $21,560, described in V. 86, p. 558, were awarded to Seasongood & Mayer of Cincinnati for $22,276 (103.32) and accrued interest.

**Birmingham, Jefferson County, Ala.**—*Bonds Authorized.*—On Feb. 19 the City Council passed ordinances providing for the issuance of the following bonds:

$2,500 6% gold coupon street-improvement bonds.
5,000 6% gold coupon street-improvement bonds.
6,000 6% gold coupon street-improvement bonds.

Denomination $500. Interest annually at the Hanover National Bank in New York City. Maturity ten years.

*Bond Election.*—Ordinance No. 125, recently passed by this city, provides for an election to be held May 4 for the purpose of voting on the question of issuing $400,000 5% 30-year sewer-construction bonds. Denomination $1,000. Interest semi-annual.

**Bode, Iowa.**—*Bond Offering.*—Proposals will be received until March 20 by F. M. Higby, Town Clerk, for $6,000 6% water-works bonds. Denomination $500. Interest payable at the State Bank in Bode. Maturity twenty years, subject to call after ten years. Bonds are free from all taxes. Certified check for $250, payable to the "Town of Bode," is required. Total debt at present, $2,000. Assessed valuation for 1907, $290,000.

**Bolwie, Montague County, Tex.**—*Bond Offering.*—Proposals will be received at any time by Wm. A. Ayres, City Treasurer, for $15,000 street-improvement and $2,000 water-works-extension 5% gold registered bonds. Denomination $1,000. Date Jan. 1 1908. Interest semi-annually in New York City or Austin. Maturity Jan. 1 1948, subject to call after Jan. 1 1913.

**Brantford, Ont.**—*Description of Debentures.*—The official circular describing the debentures authorized by By-Law No. 940 which was adopted at the election Jan. 6 (see item reported under head of "Ontario" on page 121, Vol. 86,) states that they amount to $55,000. These debentures, as already stated, were voted for the purpose of providing money to pay the cost of obtaining the necessary appliances for the distribution of electrical power to be supplied to this city by the Hydro-Electric Power Commission from Niagara Falls. They may be issued in denominations of not less than $100 or £20 sterling each. Debentures are dated Dec. 31 1908 and carry 5% interest, payable annually. Maturity part yearly on Dec. 31 from 1909 to 1938 inclusive.

**Brown County (P. O. Ainsworth), Neb.**—*Bond Election Proposed.*—Papers report that this county purposes to call an election to vote on a proposition to issue from $15,000 to $20,000 5% high-school-building bonds.

**Canton, Haywood County, N. C.**—*Bond Offering.*—Further details are at hand relative to the offering on April 1 of the $65,000 5% coupon sewerage water-supply, electric-lioht, school and street-improvement bonds mentioned in V. 86, p. 619. Proposals for these bonds will be received until 2 p. m. on that day by J. W. Scott, Town Clerk. Denomination $1,000. Date Jan. 1 1908. Interest semi-annually at the Chase National Bank in New York City. Maturity Jan. 1 1938. Certified check for $100, payable to the Town Clerk, is required.

**Carberry, Man.**—*Price Paid for Debentures.*—We are advised that the price paid by G. A. Stimson & Co. of Toronto for the $8,000 fire-debentures dated July 2 1907, the $2,000 town-hall debentures dated July 2 1907 and the $1,367 85 local-improvement debentures dated March 1 1908, awarded them on Feb. 24 (V. 86, p. 619) was 94. These debentures carry 5% interest, which is payable annually, and they mature part yearly for twenty years. Total debenture debt, including these issues, $41,851 50.

**Carbon County (P. O. Red Lodge), Mont.**—*Bond Offering.*—Further details are at hand relative to the offering on March 23 of the $20,000 coupon road refunding bonds at not exceeding 5% interest, mentioned in V. 86, p. 495. Proposals for these bonds will be received until 3 p. m. on that day (bonds to be sold April 1) by G. S. Finley, County Clerk. Denomination $1,000. Date April 1 1908. Interest Jan. 1 and July 1 at Red Lodge. Maturity April 1 1928. Bonds are exempt from taxation. Certified check or a cash deposit to the amount of $250, payable to the County Clerk, is required.

**Cashton, Monroe County, Wis.**—*No Bond Election.*—It has been discovered that the village could not legally hold an election to vote on the question of issuing the $15,500 bonds for the erection of a building to contain an electric-light plant, a pumping station and a meeting place for the Council. See V. 86, p. 122.

**Chillicothe, Ohio.**—*Bond Sale.*—The following bonds were sold on March 11 by the Sinking Fund Trustees:

$4,700 4½% Main Street improvement No. 5 bonds dated Aug. 15 1906 and maturing Aug. 15 1916, awarded to the Savings Bank of Chillicothe for $4,968 80, the price thus being 105.719.
4,800 4½% street intersection bonds dated March 1 1908 and maturing March 1 1922, awarded to Samuel Dearth of Chillicothe for $4,940, the price thus being 102.916.
12,700 4½% High Street paving bonds dated Aug. 15 1906 and maturing Aug. 15 1916, awarded to the Central National Bank for $12,865, the price thus being 101.299.

These are not new issues but securities held by the Sinking Fund as investments.

**Cincinnati School District (P. O. Cincinnati), Hamilton County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. April 13 by William Grautman, Clerk Board of Education, for $250,000 4% coupon improvement bonds. Denomination $500. Date, day of sale. Interest semi-annually at the American Exchange National Bank in New York City. Maturity forty years. Certified check for 5% of the amount of bonds bid for, payable to the Board of Education, is required. Accrued interest to be paid by purchaser.

**Clarendon County (P. O. Manning), S. C.**—*Bond Offering.*—Proposals will be received until 12 m. April 15 by Charlton Du Rant, Secretary, Court House Commission, for the $60,000 5% Court House bonds mentioned in V. 85, p. 1600. Denomination $500 and $1,000. Interest April 1 and Oct. 1. Maturity forty years. Cost of lithographing to be paid by purchaser.

*Bond Offering.*—On the same day proposals will be received by R. E. McFadden, County Supervisor, for the purchase of $10,000 6% 10-year bonds.

**Clarksville, Clinton County, Ohio.**—*Bond Sale.*—The $1,000 6% coupon refunding bonds described in V. 86, p. 558, were awarded on March 10 to the Farmers' National Bank of Clarksville at 106 and accrued interest. The following bids were received:

| | | | |
|---|---|---|---|
| Farmers' National Bank, Clarksville | $1,060 00 | Hayden, Miller & Co., Clev. | $1,017 00 |
| I. N. Falk, Wilmington | 1,051 00 | Security Savings Bank & Trust Co., Toledo | 1,012 50 |
| Centreville Bank, Thurman | 1,025 50 | A. W. Thomas, Clarksville | 1,010 30 |
| S. M. Smith, Wilmington | 1,020 00 | Albert Kleybolte & Co, Cinc. | 1,010 00 |

Bonds are dated Feb. 3 1908 and mature $200 yearly on March 10 from 1911 to 1915 inclusive.

**Collinwood School District (P. O. Collinwood), Cuyahoga County, Ohio.**—*Bond Sale.*—On March 6 the $35,000 4% coupon school-building bonds, described in V. 86, p. 558, were awarded to Borton & Borton of Cleveland for $35,037 50—the price thus being 100.107. Bids were also received from Seasongood & Mayer of Cincinnati and Otis & Hough of Cleveland.

**Columbus, Ohio.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 18 by Martin A. Gemunder, Secretary of the Sinking Fund Trustees, for the following bonds:

$50,000 4% coupon (with privilege of registration) public improvements No 11 (city's portion) bonds. Date Dec. 1 1906. Maturity Sept. 1 1917.

350,000 4% coupon (with privilege of registration) bonds for constructing works for purifying and softening water. Date Dec. 30 1904. Maturity March 1 1945, subject to call after March 1 1920.

Denomination $1,000. Interest March 1 and Sept. 1 at the agency of the City of Columbus in New York City. Bonds are tax-exempt. Bid must be made on a printed form furnished by the Sinking Fund Trustees and accompanied by a certified check for 2% of bonds bid for, drawn on some local bank and made payable to the Sinking Fund Trustees. Delivery of bonds March 25 1908. Purchaser to pay accrued interest. Official circular states there has never been any default in the payment of principal or interest. These securities are not new issues, but bonds held by the Sinking Fund as an investment.

**Conecuh County (P. O. Evergreen), Ala.**—*Bond Sale.*—On March 2 Otto Marx & Co. of Birmingham purchased the $50,000 5% 30-year coupon road-improvement bonds described in V. 86, p. 496.

**Crafton School District (P. O. Crafton), Allegheny County, Pa.**—*Bond Offering.*—Proposals will be received until 7:30 p. m. March 21 by J. T. Montgomery, Secretary, for $10,000 4% coupon bonds. Denomination $500. Date April 1 1908. Interest semi-annually at the First National Bank in Crafton. Maturity $500 yearly on April 1 from 1915 to 1934 inclusive. Bonds are exempt from taxation.

**Menominee County (P. O. Menominee), Mich.**—*Bond Sale.*—On March 4 the $13,000 4½% gold coupon agricultural school-building bonds mentioned in V. 86, p. 560, were awarded, we are informed, to A. B. Leach & Co., Chicago, at 101.925. Denomination $500. Date Oct. 1 1907. Interest annually on April 1. Maturity April 1 1922.

**Metamora, Fulton County, Ohio.**—*Bond Sale.*—An issue of $9,000 5% street bonds has been awarded, it is stated, to Otis & Hough of Cleveland.

**Mingo Junction, Jefferson County, Ohio.**—*Bond Sale.*—On Feb. 10 $13,500 4.90% 20-year refunding bonds were sold to Hoehler & Cummings of Toledo for $13,989 50—the price thus being 103.625. Denomination $500. Date Feb. 15 1908. Interest semi-annual. We are advised that these securities take the place of the $13,500 5% 10-15-year (optional) coupon refunding bonds awarded on Jan. 20 to the same party (V. 86, p. 302), which sale was never consummated as "the ordinance providing for the original issue of bonds was passed at a meeting of the Village Council under the suspension of rules, with only four members present, while the law requires five.

**Morgan County (P. O. Martinsville), Ind.**—*Bond Offering.*—Proposals will be received until 2 p. m. March 16 by C. O. Abbott, County Treasurer, for the following bonds:

$16,400 4½% Washington Township gravel road bonds. Denomination $820. Interest semi-annually at the First National Bank of Martinsville. Maturity $820 due each six months beginning May 15 1909. Certified check for $250 is required.
6,200 4½% Jackson Township gravel road bonds. Denomination $310. Interest semi-annually at the Citizens' National Bank in Martinsville. Maturity $310 each six months beginning May 15 1909. Certified check for $100 is required.

**Nelson, B. C.**—*Debentures Not Sold.*—No sale was made on March 2 of the $60,000 5% 20-year coupon school-building debentures dated July 1 1907 and described in V. 86, p. 561.

**Newark, Licking County, Ohio.**—*Bond Sale.*—It is stated that the First National Bank of Newark, Ohio, has purchased $1,800 4% Pine and Riley street sewer bonds, $1,575 5% Union Street sewer bonds and $1,210 5% Eleventh Street sewer bonds of this city.

**Newport News, Warwick County, Va.**—*Bond Offering.*—Local papers state that proposals will be received until 12 m. March 19 by Floyd A. Hudgins, City Clerk, for the $100,000 4½% 40-year street-improvement bonds offered without success (V. 86, p. 561) on Sept. 30 1907.

**New York State.**—*Bond Sale.*—See page 680 for the list of successful bidders and other details concerning the sale on March 11 of the $5,000,000 4% highway bonds described in the "Chronicle" of Feb. 22.

**North Dakota.**—*Purchases by the State for January and February.*—We are advised that the following-described bonds, aggregating $63,400, were purchased by the State of North Dakota with endowment funds of educational institutions, during the months of January and February. "All such purchases having been made direct from municipalities and school districts issuing same, all bearing 4% interest and all bought at par." "No purchase subject to call."

Alder School District No. 5, Hettinger County—$4,000 bonds dated Jan. 2 1908 and maturing Jan. 2 1928.

*a* Successful bidders *b* Said to have made an "error in bid."

Purchasers to pay accrued interest.

**Pelham, Westchester County, N. Y.**—*Bond Sale.*—On March 6 the $8,000 5-20-year (serial) registered street-improvement bonds described in last week's issue, were awarded to Edmund Seymour & Co. of New York City at par for 5s.

**Port Huron, Saint Clair County, Mich.**—*Bond Offering.*—Proposals will be received until 12 m. March 18 by E. A.

Cady, City Comptroller, for $45,000 5% high-school-building bonds. Authority Section 6, Chapter 15, City Charter. Denomination $1,000. Date Jan. 1 1908. Interest semi-annually at the Hanover National Bank of New York City. Maturity Jan. 1 1918. An unconditional certified check for $2,250, payable to the "City of Port Huron," is required. Purchaser to pay accrued interest.

**Rochester, N. Y.**—*Note Sale.*—On March 9 the $90,000 five-months notes mentioned in V. 86, p. 501, were awarded as follows: $40,000 to the Security Trust Co. of Rochester at 4.95% interest; $25,000 to the Union Trust Co. of Rochester at 5% interest; $15,000 to the Merchants' Bank of Rochester at 5% interest, and $10,000 to the National Bank of Commerce in Rochester at 5% interest.

**Rochester, Beaver County, Pa.**—*Bond Sale.*—We are informed that the $50,000 4½% bonds offered on Feb. 3 (V. 86, p. 438) were awarded on March 3 to Newburger, Henderson & Loeb of Philadelphia at par.

**Rockport (P. O. West Park), Cuyahoga County, Ohio.**—*Bond Bid.*—In addition to the bid of Seasongood & Mayer of 100.192 for the $13,000 4% 30-year water-main-extension bonds awarded to them on March 2 (V. 86, p. 622), a bid was also received from Otis & Hough at par, less $100 for attorney's fees.

**St. Bernard (P. O. Cincinnati), Ohio.**—*Bond Sale.*—On March 5 the $4,968 50 5% 1-10-year (serial) Sullivan Avenue improvement assessment bonds, described in V. 86, p. 501, were awarded to Charles C. Murray & Co. of Cincinnati at 103.995 and accrued interest—a basis of about 4.179%. Following is a list of the bids received:

| | | | |
|---|---|---|---|
| Chas. C. Murray & Co., Cin. | $5,167 00 | Well, Roth & Co., Cincinnati | $5,094 50 |
| Prov. Sav. Bk. & Tr. Co., Cin | 5,117 56 | German National Bank, Cincinnati | 5,085 50 |
| Seasongood & Mayer, Cin. | 5,107 50 | | |

**Saint Clair County (P. O. Ashville), Ala.**—*Bond Sale.*—We are informed that an issue of $85,000 5% 30-year road-improvement bonds has been awarded to Otto Marx & Co. of Birmingham.

**St. Louis, Mo.**—*Bond Offering.*—Proposals will be received until 12 m., March 16, by Rolla Wells, Mayor, and James Y. Player, City Comptroller, for $1,000,000 4% gold coupon bonds to be issued for the construction, reconstruction and extension of, and additions to, the insane asylum, and for the purchase of sites for the same.

Denomination $1,000. Date April 1 1908. Interest semi-annually in United States gold coin at the National Bank of Commerce in New York City, or in pounds sterling at the National Bank of Scotland, Ltd., London, England, at the rate of $4.8665 per pound sterling. The bonds may be exchanged for registered bonds at any time. Maturity twenty years. Each bid must be accompanied by a deposit of cash or certified check for 5% of the bonds bid for, payable to the City Comptroller. Opinion of Dillon & Hubbard of New York City as to the validity of the bonds will be furnished to the successful bidder. Blank forms for bids will be furnished by the city.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

*Bond Sale.*—Up to March 6 $917,000 of the $2,000,000 3.65% 20-year gold coupon renewal bonds mentioned in V. 86, p. 125, had been disposed of. This makes a total of $67,000 sold since Jan. 11, the date of our last report.

**Salem, Columbiana County, Ohio.**—*Bond Sale.*—Proposals will be received until 7 p. m. to-day (March 14) by the Board of Sinking Fund Trustees for $16,000 4½% coupon refunding bonds. INSANE ASYLUM GOLD BONDS

Dated April 1, 1908 Due April 1, 1928

SEALED PROPOSALS will be received for the whole or any part of this issue by the undersigned until **12 o'clock noon** of the **16th day of March, 1908** for **$1,000,000 00** of 4 per cent twenty-year gold bonds, **dated April 1st, 1908** and issued for the construction, re-construction and extension of, and additions to, the **INSANE ASYLUM**, and for the purchase of sites for the same.

Proposals must be accompanied by a **cashier's** or **certified check**, payable to the order of the Comptroller (and subject to his approval), equal to **five per cent** (5%) of the nominal amount of the bonds bid for.

The bonds will be delivered against payment therefor in current funds at the Office of the Comptroller in the City of Saint Louis, on the 1st day of April, 1908, or, if the bidder so elects in his proposal, at the National Bank of Commerce, New York City, on the 1st day of April, 1908.

The opinion of Messrs. Dillon & Hubbard, Attorneys and Counsellors at Law, New York City, as to the validity of the bonds, will be furnished to the successful bidders by the City.

No bids will be accepted for less than the par value of the bonds.

The right to reject any or all bids is reserved.

Further information can be obtained at the Office of the Comptroller.

San Rafael at 105.245. Denomination $1,000. Date Sept. 16 1907. Interest annually at the County Treasurer's office in Marin. Maturity $1,000 yearly on Sept. 16 from 1908 to 1912 inclusive.

**Scranton, Jackson County, Miss.**—*Bond Sale.*—On Feb. 28 an issue of $20,000 6% street and sewer bonds was purchased by John Nuveen & Co. of Chicago at 102.50. Denomination $1,000. Date Jan. 1 1908. Interest annual. Maturity $1,000 yearly on Jan. 1 from 1909 to 1928 inclusive.

**Seattle, Wash.**—*Bonds Voted.*—At the municipal election held March 3, it is reported that a proposition to issue $2,250,000 water-system-extension bonds carried by a vote of 15,709 to 2,292. These securities take the place of the $2,250,000 5% Cedar River water-system-extension bonds awarded last August to local banks at par, but subsequently declared invalid by the State Supreme Court on Dec. 10 1907. See V. 85, p. 1599. It is further stated that the issuance of $65,000 bonds to reimburse the general fund of this city in paying off the indebtedness of the former City of Ballard, which was assumed by Seattle when the northern suburb was annexed, was also authorized at the election held March 3. The vote was 11,592 "for" to 3,846 "against." Twenty-one amendments to the City Charter were likewise voted upon favorably.

**Sheridan, Sheridan County, Wyo.**—*Bond Offering.*—Proposals will be received until April 20 for the $250,000 5% 10-30-year water-system-extension bonds voted last November. Denomination $500. Date June 1 1908. Interest annually on Jan. 1 at the Chemical National Bank in New York City. Certified check for 5% of the bonds bid for, payable to the City Treasurer, is required. C. W. Sheldon is City Clerk.

**Statesville, Iredell County, N. C.**—*Bond Sale.*—On March 6 the $25,000 5% 30-year coupon funding bonds described in V. 86, p. 624, were awarded to S. A. Kean of Chicago at 100.05 and accrued interest. Following are the bids:

| | | | |
|---|---|---|---|
| S. A. Kean, Chicago | $25,012 50 | A. J. Hood & Company, | |
| Seasongood & Mayer, Cin. | 25,000 00 | Detroit | a25,245 00 |

*a* Less $250 for legal expenses.

**Syracuse, Onondaga County, N. Y.**—*Bond Offering.*—On March 16 at 11 a. m. City Comptroller R. J. Shanahan will offer at public auction $16,000 4% registered local-improvement bonds of the denomination of $100 each. Date Feb. 1 1908. Interest semi-annually at the City Treasurer's office. Maturity $3,200 yearly on Feb. 1 from 1909 to 1913 inclusive. Certified check or cash for 10%, payable to the City Comptroller, is required.

**Tecumseh, Lenawee County, Mich.**—*Bond Offering.*—Proposals will be received until 2 p. m. April 8 by W. S. Jones, Village Clerk, for the $29,000 5% coupon sewer bonds mentioned in V. 85, p. 1418. Authority, election held Sept. 23 1907. Denomination $1,000. Date, day of sale. Interest January and July at the Chase National Bank in New York City. Maturity $1,000 yearly from 1918 to 1927 inclusive, $2,000 yearly from 1928 to 1936 inclusive and $1,000 in 1937. Certified check for $1,000, payable to the "Village of Tecumseh," is required. Bonded debt, including this issue, $51,000. Assessed valuation 1907, $1,458,250.

**Thief River Falls, Red Lake County, Minn.**—*Bond Offering.*—Proposals will be received until March 20 by L. Backe, City Clerk, for the $12,000 5% coupon water-works-improvement bonds voted on Nov. 5 1907. Denomination $500. Date April 15 1908. Interest semi-annual. Maturity April 15 1928.

**Trenton, N. J.**—*Bond Sale.*—On March 13 $50,000 4½% 30-year coupon or registered water-works bonds were awarded to Ferris & White of New York City at 104.444 and accrued interest—a basis of about 4.238%. The bids were as follows:

| N. W. Harris & Co., N. Y. | 103.087 | | |

Denomination $100 or multiples thereof. Date March 1 1908. Interest semi-annually at the City Treasurer's office.

**Troy, Reneselaer County, N. Y.**—*Bond Offering.*—Proposals will be received until 11 a. m. March 20 by Charles F. McLindon, Deputy Comptroller, for $30,000 4½% registered

## NEW LOANS.

**$35,000**

**Wilmington, Delaware,**

**4% BONDS.**

Sealed bids will be received by the Finance Committee of the Council and the Commissioners of the Sinking Fund of the City of Wilmington until 12:00 O'CLOCK NOON ON MARCH TWENTIETH, 1908, for the purchase of all or any part of Thirty-five Thousand Dollars Bonds, issued as follows:

Twenty Thousand Dollars under the provisions of Section 14 of Chapter 177, Volume 24, Laws of Delaware, and an Ordinance entitled "An Ordinance to borrow Twenty Thousand Dollars Fifteen Thousand Dollars of which shall be used for the purpose of purchasing land for park purposes, and Five Thousand Dollars of which shall be used for the erection of a bath-house in or near Kirkwood Park," passed by Council January 30th, 1908;

Ten Thousand Dollars under the provisions of Chapter 171, Volume 22, Laws of Delaware, and an Ordinance entitled "An Ordinance to authorize the Mayor and Council of Wilmington to borrow Ten Thousand Dollars to be applied and expended under the charge of the Board of Park Commissioners of the said City for the purpose of improving the public parks," passed by Council July 25th, 1907;

Five Thousand Dollars under the provisions of Chapter 163, Volume 23, Laws of Delaware, and an Ordinance entitled "An Ordinance to authorize the Mayor and Council of Wilmington to borrow Five Thousand Dollars to be applied and expended under the charge of the Board of Park Commissioners of the said City for the purpose of improving the public parks," passed by Council July 25th, 1907.

All of the said bonds will bear date of April 1st, 1908; will bear interest at the rate of four per centum per annum, payable semi-annually on April 1 and October 1 of each year, fall due on the first day of October, 1930, and are in denominations of Fifty Dollars or multiples thereof.

All bids must be in sealed envelopes and endorsed: "Bids for the purchase of Wilmington City Bonds," and delivered to the undersigned in the City Treasurer's office at Wilmington, on or before 12:00 o'clock noon on March twentieth 1908.

The right is reserved to reject any and all bids. Each bid must be accompanied by a certified check, payable to City Treasurer of Wilmington on a Bank or Trust Company of Wilmington for 3% of the amount of the par value of the bonds bid for, which amount will be accepted as a part of the purchase price if the bidder is successful, or will be returned if not.

The successful bidder must pay for the bonds on April 1st, 1908, at 12:00 o'clock noon in the City Treasurer's office at Wilmington, Delaware, at which time said bonds will be ready for delivery.

WM. B. WHITE,
Chairman, Finance Committee.
ALFRED B. MOORE,
WM. T. LYNAM,
FRANK D. MACKEY,
Commissioners of the Sinking Fund.

## NEW LOANS.

**$35,000**

**City of Mount Vernon,**
**Westchester County, N. Y**

**SCHOOL TAX RELIEF BONDS.**

The Common Council of the City of Mount Vernon, N. Y., will at its Chambers in the Lucas Building, Depot Place, in said City of Mount Vernon, N. Y., on the 17TH DAY OF MARCH 1908, at 8 o'clock p. m., receive sealed proposals for the purchase of thirty-five (35) School Tax Relief Bonds of said city, numbered consecutively as issued from 430 to 464, both inclusive, and that the said thirty-five (35) bonds will be sold to the highest bidder at a public sale to be held at said time and place.

These are a series of bonds which are authorized to be issued under and pursuant to Section 229 of Chapter 182 of the Laws of 1892 as amended in 1895. Each bond will be for the principal sum of One Thousand ($1,000) Dollars and will bear interest at the rate of 5 per centum per annum, payable semi-annually at the office of the City Treasurer of the City of Mount Vernon. They will be dated March 1, 1908, and will be payable on the 1st day of March, 1911. The bonds will be delivered to the purchaser on or before the 24th day of March, 1908. Each bid for the said bonds must be accompanied by a certified check for One Thousand ($1,000) Dollars, as security for the performance of the bid if accepted.

That said Common Council will at said time open such proposals as may be received and accept the highest thereof if it deem it for the best interests of the City so to do, but reserves the right to reject any or all bids or proposals should it deem it advisable.

Bonds will be engraved under the supervision of and certified as to their genuineness by the United States Mortgage & Trust Company, and their legality approved by J. H. Caldwell, Esq., of New York City, whose opinion as to legality will be furnished to the purchaser.

By statute the bonds cannot be sold for less than par and accrued interest.

By order of the Common Council of the City of Mount Vernon, N. Y.

Dated Mount Vernon, N. Y., Feb. 20th, 1908.

A. W. REYNOLDS, City Clerk. BENJAMIN HOWE, Mayor.

**City of Mount Vernon,**
**Westchester County, N. Y.**

**TAX RELIEF BONDS.**

The Common Council of the City of Mount Vernon, N. Y., will at the Common Council Chambers in the Lucas Building, Depot Place in said city, on the 17TH DAY OF MARCH, 1908, at 8 o'clock p. m., receive sealed proposals for the purchase of sixty (60) Tax Relief Bonds of said city, numbered consecutively as issued from 1,126 to 1,185, both inclusive, and that the said sixty (60) bonds will be sold to the highest bidder at a public sale to be held at said time and place at not less than the par value thereof with accrued interest.

These are a series of bonds which are authorized to be issued under and pursuant to Section 142 of Chapter 182 of the Laws of 1892. Each bond will be for the principal sum of One Thousand ($1,000) Dollars and will bear interest at the rate of 5 per centum per annum, payable semi-annually at the office of the City Treasurer in the City of Mount Vernon, N. Y. They will be dated March 1, 1908, and payable on the first day of March 1911.

The bonds will be delivered to the purchaser on or before the 24th day of March, 1908.

Each bid for said bonds must be accompanied by a certified check for One Thousand ($1,000) Dollars, payable to the City of Mount Vernon, as security for the performance of bid if accepted.

The said Common Council will at said time and place open such proposals as may be received and accept the highest thereof if it deem it for the best interests of the city so to do, but it reserves the right to reject any or all proposals should it deem it advisable.

Bonds will be engraved under the supervision of and certified as to their genuineness by the United States Mortgage & Trust Company, and their legality approved by J. H. Caldwell, Esq., of New York City, whose opinion as to legality will be furnished to the purchaser.

By statute the bonds cannot be sold for less than par and accrued interest.

By order of the Common Council of the City of Mount Vernon, N. Y.

Dated Mount Vernon, N. Y., Feb. 20th, 1908.

A. W. REYNOLDS, City Clerk. BENJAMIN HOWE, Mayor.

**Telephone Connections**

Prospect Park bonds. Denomination $1,500. Date March 20 1908. Interest semi-annually at the City Treasurer's office. Maturity part yearly on March 20 from 1909 to 1928 inclusive. Certified check for 1% of the amount of the bid, payable to the "City of Troy," is required.

**Waltham, Mass.**—*Temporary Loan.*—This city recently negotiated a loan of $25,000 with Loring, Tolman & Tupper of Boston at 4.44% discount. Loan is dated March 11 1908 and matures Dec. 4 1908.

**Warren County (P. O. Vicksburg), Miss.**—*Bond Sale.*—Local reports state that on March 3 the $11,000 5% bridge-construction bonds mentioned in V. 86, p. 502, were sold to the Vicksburg Savings Bank of Vicksburg for $11,467 20—the price thus being 104.247.

**Wellsville, Allegany County, N. Y.**—*Bond Sale.*—On March 9 an issue of $25,953 63 street-improvement bonds was awarded to Rudolph Kleybolte & Co. of Cincinnati for 100.024 for 4.85s. Following are the bids:

| | | |
|---|---|---|
| Rudolph Kleybolte & Co., Cincinnati | $25,960 00 | for 4.85s |
| Edward Seymour & Co. | 25,966 63 | for 4.75s |
| W. H. Colet & Co. | 25,972 00 | for 4.95s |
| W. J. Hayes & Son | 25,967 00 | for 5s |

Denomination $500, except one bond of $453 63. Date March 1 1908. Interest semi-annually at the First National Bank in Wellsville. Maturity $953 63 on Sept. 1 1911 and $1,000 yearly on Sept. 1 from 1912 to 1936 inclusive.

**Westerville School District (P. O. Westerville), Franklin County, Ohio.**—*Bond Sale.*—No bids were received on March 4 for the $16,000 4% coupon public-school-improvement bonds described in V. 86, p. 502. Reports state, however, that the rate of interest was subsequently raised to 4½% and that the bonds were then awarded to the New First National Bank of Columbus at 103. Maturity $500 yearly on Sept. 4 from 1912 to 1931 inclusive and $1,000 yearly on Sept. 4 from 1932 to 1937 inclusive.

**Wilkes-Barre, Luzerne County, Pa.**—*Certificate Sale.*—Under date of March 9 we are informed that an issue of $27,500 5% 1-4-year certificates dated March 4 1908 has been awarded to local bidders.

**Windsor School District, Sonoma County, Cal.**—*Bond Sale.*—On March 4 the $9,000 5% school-building bonds offered without success on Nov. 6 1907 (V. 85, p. 1419), were disposed of at par and accrued interest to the Los Angeles Trust Co. of Los Angeles. Denomination $900. Interest annual. Maturity $900 yearly.

**Woodlawn (P. O. Station, Birmingham), Ala.**—*Bond Election.*—The City Council has ordered an election to be held April 6 to vote on the question of issuing $15,000 fire-engine-house-construction bonds.

**Worcester, Worcester County, Mass.**—*Bond Sale.*—An issue of $75,000 10-year 4% bonds has been awarded, it is stated, to the State Mutual Life Insurance Co. at 102.

**York, York County, Neb.**—*Bond Sale.*—We are advised that the following bonds have been recently disposed of:

$17,000 5% 10-20-year (optional) funding railroad bonds offered but not sold on Nov. 7 1907 (see V. 85, p. 1295); awarded to the Harris Trust & Savings Bank of Chicago. Interest semi-annual.

34,000 6% 10 year paving bonds awarded to M. Ford of Cedar Rapids. Denomination $1,000. Interest semi-annual. Date Feb. 1 1908.

**Young County (P. O. Graham), Texas.**—*Bond Sale.*—The $40,000 4% coupon Brazos River bridge-construction bonds, mention of which was made in V. 86, p. 564, were recently disposed of to the State School Fund at par and interest. These securities mature on Aug. 14 1927 with privilege of redemption at the expiration of five years.

**Youngstown, Mahoning County, Ohio.**—*Bond Sale.*—The following bids were received on March 9 for the four issues of 5% street and sewer bonds, described in V. 86, p. 503:

| | $16,000 Boardman St. Bonds | $1,913 Mahoning Trust Co. St. Bonds | $1,295 St. Bonds | $1,425 Sullivan St. Bonds |

### *CLEARING HOUSE RETURNS.*

The following table, made up by telegraph, &c., indicates that the total bank clearings of all clearing houses of the U. S. for week end. to-day have been $2,375,437,663, against $2,231,852,310 last week and $3,263,849,968 the week last year.

| *Clearings—Returns by Telegraph Mch.* 21 | 1908. | 1907. | % |
|---|---|---|---|
| New York | $1,184,164,356 | $1,781,344,347 | —33.5 |
| Boston | 104,834,485 | 145,766,377 | —28.1 |
| Philadelphia | 94,742,659 | 130,615,155 | —27.5 |
| Baltimore | 16,709,438 | 24,653,964 | —32.2 |
| Chicago | 193,675,676 | 202,076,593 | —4.2 |
| St. Louis | 50,226,328 | 57,374,058 | —12.5 |
| New Orleans | 13,925,655 | 16,891,421 | —17.6 |
| Seven cities, 5 days | $1,658,278,597 | $2,358,721,915 | —29.7 |
| Other cities, 5 days | 355,269,418 | 412,416,268 | —13.6 |
| Total all cities, 5 days | $2,013,548,015 | $2,771,138,183 | —27.3 |
| All cities, 1 day | 361,889,648 | 492,711,785 | —26.6 |
| Total all cities for week | $2,375,437,663 | $3,263,849,968 | —27.2 |

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below detailed figures for the week ending with Saturday noon, March 14, for four years.

## *THE FINANCIAL SITUATION.*

Affairs during the week seem to have been of a mixed character, more especially towards the close. At the opening the situation was mainly along the same lines prominent previously. The incongruities in the forces working took the character of an effort to harmonize differences. We do not need to say that such ideas as Congress, Roosevelt and Wall Street represent do not fuse readily; some one must yield. They had been working along incongruous ways, getting constantly wider and wider apart. Suddenly it became a general opinion of the party in power that this separation could not with safety progress further. So, in a surprisingly short time, the two bodies faced about and have since been sparring for position. It seems that the railroads were being driven extremely near insolvency—which meant railroad receiverships and terrific cuts in wages. This end of the persecution had not been anticipated, and least of all, provided for. So long as the Grand Old Party was only hurting railroads and capital, the people manifested their approbation by loud huzzahs—three times three. But when it became manifest that the biter could bite back, and would, under the irresistible law of necessity—the natural fruitage of the persecution of capital and railroads—things began to wear a different color. Insolvency meant, as we have said, receiverships; receiverships meant extremely low wages; which also meant the walks of life becoming filled with idle men asking for bread and being presented with a stone. We need hardly say this was much too much to find a place on a party platform.

In this condition it was adjudged by a growing body of the Administration party that the outcome of the policies of the present leaders was glaringly faulty, ending inevitably in insolvency and presaging other disasters. A Washington despatch stated that the President had arrested the worst of the threatened troubles; the relief proposal was said to include a 10% increase in the rates of freight on all our railroads. This was taking the bull by the horns. As lower rates had shortened income below the point of safety, an increase of rates would restore stability and produce a state of just poise. The expected change leaked out. Wall Street speculators accepted the suggestion as if an actuality, and hence in good part caused the bulge in stocks that has been such a feature for weeks. The anticipated advance of 10% in the rate having been this week ignored, or quietly allowed a rest—temporarily, at least—had had its day as a hope, like many another brilliant thought without other realization.

In the meantime the railroads and corporations were apparently turned over to their old regime, the earnings for another month having been published, showing renewed and still larger losses, both in gross and net, than in any other previous month, accompanied by innumerable cuts in dividends. A typical case of collapse in revenues was the Baltimore & Ohio for February, the loss by that trunk line in that month being $1,256,945 in gross and $888,986 in net, the loss for the last three months in gross being $3,510,732 and in net $3,107,314. As it is easy for bears to imagine that rate in decline applied to other roads similarly situated, and thus disclose a situation of ruin six months hence, no one could be surprised that on Wednesday of the current week our bull market came to an inglorious end, especially as nothing more was heard from the Administration of the 10% advance in freight rates.

---

Fortunately for our securities market, the reduction by the Bank of England of its rate of discount to 3% has come at an opportune moment. Cheaper money in London would probably not stimulate British investments, but British capital will seek employment here, where there has apparently been such liquidation in securities as to place many upon a substantial basis of intrinsic value; such properties are even now among the favorites in the London markets, in preference to those of a domestic character, and it has been recently shown that our new capital creations, and especially municipal bonds, are in good request on almost all the European bourses. There would seem, also, to be opportunity for the employment here of foreign capital through the negotiation of finance bills, were it not that time-money rates in New York are not likely to be relatively higher than are those for discounts for corresponding periods abroad. There will, however, be no such discrimination against those forms of finance bills which are represented by sterling and franc loans as was the case early last year, when these bills were regarded as promotive of speculation of a dangerous character because they contributed to imports hither of gold; such negotiations now would enable foreign bankers profitably to employ capital which cannot be remuneratively employed at home. It may likewise be observed that borrowers on high-class collateral for long terms usually prefer to effect sterling or franc loans when the opportunity is offered therefor than to negotiate domestic loans, even at a fractionally higher rate. This is so because such borrowers can get longer time if desired and have the advantage,through these foreign loans,of placing their collateral where it is well known and recognized of high grade; moreover, the borrowers in this way may be able to effect valuable business connections abroad.

---

The immigration statement for the month of February 1908, considered in conjunction with the monthly returns of departing passengers compiled by the Trans-Atlantic Conference of steamship companies, discloses a situation differing in no essential particulars from that revealed in December or January—an emigration from the United States much greater than the immigration into it. This situation, as we have before remarked, is certainly an anomalous one, but most significantly illustrates the changed condition of affairs in the country. Ordinarily the departure from the United States, month by month, of any appreciable number of the laboring class would be looked upon as a decidedly adverse development, even though the movement in this direction was of volume large enough to leave an appreciable net balance of immigrants. But under conditions as they now exist, the fact that emigration largely exceeds immigration causes no concern. On the contrary, it is considered a favorable factor in the situation, one calculated to work to our advantage rather than otherwise.

With building operations in the United States comparatively inactive, with railroad construction and betterment almost at a standstill, and with public improvement work carried on with the utmost conserva-

tism, the need for laborers has been greatly curtailed. Consequently, with a great number temporarily thrown out of employment, it is a fortunate circumstance that so many are able to return to the fatherland, where living is much cheaper than here, and await the time when a revival of our industries will warrant a return. As it is, the army of the unemployed here is large and steadily increasing; how much worse would be the situation but for this safety-valve of emigration? Although from time to time since the new year opened reference has been publicly made to improving conditions, we fail to find any distinct evidence of them; they are not reflected in bank clearings, in building operations, in failures statement or in the activities of our manufacturing concerns.

As we indicated a month ago, in reviewing the results for January, the influx of aliens in February was less than in the preceding month, the arrivals at all ports having been but 23,381. This is a decidedly meagre total when contrasted with the 65,541 who came in during February 1907 and the immigration of 68,696 in the month of 1906. As regards the nationality of the February 1908 arrivals, the greatest falling off from the previous month is shown in those coming from Russia (mainly Hebrews), but, compared with the corresponding period of either of the two preceding years, important decreases are exhibited in the movement from almost every country. For the two months of the calendar year 1908 the arrivals of aliens reached the comparatively insignificant aggregate of 50,601, as against 119,958 in the like interval of 1907 and 119,823 in 1906. And for the eight months of the fiscal year 1907-08 arrivals totaled only 640,815 against 661,355 in 1906-07.

Concurrent with this small alien immigration the outward flow has continued heavy, the departures during February having been 54,378; this affords a sharp contrast with the efflux in February 1907, which was only 15,446. And for the two months of 1908 the emigration of aliens aggregated 114,078, against only 32,606 for the similar period of 1907. It is therefore easy to discern that, whereas for the two months this year there was a net loss in population of 63,477 through the large emigration, last year we gained net 87,352. Furthermore, the indications, based upon the arrivals and departures thus far in March point to a rather similar showing for the full month. In fact the immigration bids fair to be even less than in February, as the arrivals at New York to date are barely 9,000. In March 1907 the number of aliens admitted was 139,118. On the other hand, emigration continues very heavy, over 6,000 having departed on one day—March 7. Recent advices from abroad are to the effect that the return to their home places of so many of the unemployed has to some extent shifted the zone of distress. This is particularly so in some of the provinces of Italy, from which there are reports this week that, on account of the crowds returning from America, the number of unemployed is constantly increasing, and many of the half-starved people, unable to get work, have invaded the fields and insisted upon working until expelled by the police.

How the provisions of the immigrant law applicable to criminal or other undesirable aliens works out was indicated by Secretary Straus this week. He stated that more than 65,000 applications for passage to the United States were rejected by the steamship agencies in the last fiscal year for fear that the companies would be compelled to return them to the ports from which they had sailed.

---

The official statement of our foreign trade for February, issued this week, exhibits, as did the statements for the three preceding months, an enlargement of the export movement of goods as compared with the corresponding period of the previous year, each in turn, therefore, marking a record for the particular month covered. Furthermore, the marked contraction in the inflow of commodities that has been the special feature of these statements since our changed business conditions became a factor, is still to be noted. At $167,867,762, the value of the merchandise shipments for the month show an excess over February of 1907 of 8 1-3 millions of dollars. Of that total 94 1-3 millions of dollars, as pointed out last week, was contributed by exports of leading articles, such as breadstuffs, provisions, cotton, oil, &c., leaving 73½ millions to represent other articles of commerce. This latter total compares with about 72 millions in 1907, and consequently shows a small increase. For the two months of the calendar year 1908 the aggregate merchandise exports reached $374,036,516, or a gain of 25¼ millions over 1907, and for the eight months of the fiscal year 1907-08 the total at $1,357,012,349 exceeds the period of 1906-07 by nearly 68 millions.

In sharp contrast with the heaviest February export movement on record we have an import total smaller than in any month since July 1904 and below the aggregate for February in any year since 1902. The inflow of all classes of goods covered a value of only $79,124,401, which is a remarkable shrinkage from the 123 millions of dollars in February 1907, and compares very unfavorably with the 104 millions and 103 millions respectively in 1906 and 1905. As we stated last week, the greatest contraction in the volume of imports this year occurred in articles classing as luxuries, but in a lesser degree decreases are to be found quite through the list of commodities imported. For the two months of the calendar year 1908 the merchandise imports aggregated $164,121,915, or a loss of 85½ millions from the full movement of the period in 1907, and for the eight months of the fiscal year 1907-08 the total reached $836,122,625, comparing with $932,734,859 in 1906-07.

The net result of our February foreign trade is the large balance of merchandise exports of $88,743,361, which compares with a similar balance of $36,511,538 in 1907 and $37,533,679 in 1906. As a matter of fact, never has the February export balance exceeded 50 millions, except on one occasion, and then but slightly. For the two months of the calendar year the favorable balance at $209,914,601 is greatly in excess of the period in any earlier year, and more than double that of the two months of any year except 1901. The eight months' balance is not only the heaviest on record for the period covered, but materially exceeds the balances for all but a few complete fiscal years.

---

No revival of activity in the building trade is indicated by reports from the leading cities of the United States covering operations during February 1908. It is, of course, true that in some localities, generally at the West, the contracts entered into call for a greater expenditure for construction than in the month last

year, but for the country as a whole the outlay arranged for shows a slightly larger decrease from 1907 than was the case in January. It happens, furthermore, that the average cost per structure this year in February was much below the figure of a year ago, the comparison being between about $2,750 and $4,050. These conclusions are drawn from a compilation prepared by the "American Contractor," which covers fifty of the leading cities of the United States—cities that can be safely taken as comprehensively representing conditions in the various sections of the country. The compilation denotes that at the fifty cities permits issued in February this year for the erection of buildings called for an aggregate outlay estimated at $25,118,508. This is a better showing than was made in January, but quite unsatisfactory when compared with the buildings costing approximately $39,026,510, for which permits were taken out in the same localities in February 1907.

All the cities included in the statement do not, of course, exhibit a decline in building operations. In fact, at one or two of the larger ones and at a number of those of lesser importance, considerable activity is indicated. This is true of Chicago, where this year's February permits call for the expenditure of $3,634,600, or 9% more than in 1907; Philadelphia, where the outlay is expected to exceed last year's by 27%, and St. Louis, with estimated cost 9% greater than a year ago. Other cities reporting an increase in operations include Denver, Cincinnati, Cambridge, Minneapolis, Milwaukee, Omaha, Bridgeport, Paterson, Spokane, South Bend, Syracuse, Salt Lake City and Tacoma.

On the other hand, inactivity, amounting almost to a cessation of operations, is to be noted in a few localities. For example, at Worcester, the permits issued this year in February called for an outlay of only $29,435, or 87% less than last year; at Wilkes-Barre a decrease in estimated cost of 86% is reported, and at New Orleans the decline is 74%. Greater New York in the matter of new construction makes a poorer exhibit than in January, when the falling off in operations for the combined boroughs was 50%. In the later month (February) the erection of buildings to cost only $3,385,255 were contracted for in Manhattan and the Bronx, against a cost of $7,300,602 for structures in 1907, or a decrease of 53.6%, and in Brooklyn a decline of 68.1% is shown, this year's intended outlay being but $1,423,372, against $4,456,495 in February 1907. It does not seem that any further reference to details should be necessary to illustrate the present unsatisfactory situation in the building trade.

The effect of the past and current inactivity is clearly indicated in the statements of failures issued from month to month. All branches of trade intimately connected with building construction have suffered more or less since the turn of the tide early in 1907, but none so severely as that classed as "Lumber, Carpenters, &c." From a total of 291 failures with liabilities of $5,411,163 in the year 1906, there was a jump to 409 in number and $23,623,376 in amount in 1907, and for the elapsed two months of 1908 the defaults reported have been for $4,519,501, against only $1,509,085 for the like period of 1907. That, of course, represents the straits to which employers have been reduced. How the workmen are faring it is not difficult to conjecture.

---

The most notable event of the week was the reduction by the Bank of England of its rate of discount from 3½% to 3%. Since the first week in March, when the English Bank rate was reduced to 3½% and that of the Imperial Bank of Germany to 5½%, there have been expectations at each recurring period when action upon discount rates of these banks is usually taken of a further reduction by one or the other, or indeed by both of these institutions, of their official rates. The incident a fortnight ago, when, unexpectedly, the Reischbank reduced its rate on a Saturday, following similar action by the Bank of England on the previous Thursday, the day usually selected by it for change in rate, seemed to indicate that the managers of each of these respective banks were closely observing the other with the object of securing for their institutions whatever advantage might be obtained through anticipation of the intended change; on that occasion the Reichsbank's maintenance of its higher rate seemed unnecessary after the English Bank had lowered its rate; accordingly it was also reduced. Therefore it will cause no surprise if the managers of the German Bank shall, now that the Bank of England has reduced its rate, take a similar course. As a further reason for expecting such reduction it may be noted that there was an important increase this week in the Reischsbank's cash and an equally important contraction in its circulation; moreover, it seems probable that such changes in cash and in notes may occur during the remainder of the quarter of the year.

There were some important differences between the items in the statements of actual and of average conditions of the New York Associated Banks last week. The actual surplus was $33,349,375; the average reported was $30,665,075. Loans increased $2,066,700, according to the actual, while they decreased $3,629,700 as shown by the average conditions. The actual cash gain was $2,214,300; the averages indicated a loss of $438,700. Deposits increased $4,586,400, according to actual conditions; the averages showed a decrease of $3,871,200. Public deposits were actually $48,328,100; according to the average statement they were $49,260,500.

---

While the call-loan branch of the money market was without change, either in tone or in rates, this week, there was an easier feeling in time loans, owing to the fact that both local and out-of-town capital was more liberally offered, and this, too, notwithstanding prospective new issues of railroad securities, the largest of which will be about 28½ millions of Illinois Central stock and convertible bonds; this was regarded as an indication that the market for corporation securities was improving and that stable properties were likely to be more attractive to capitalists in the future. While the inquiry for short-time collateral loans was light, chiefly for the reason that borrowers for such periods are relying upon call loans for accommodation, contracts for four to six months were in good demand and some important transactions were reported at concessions from recent quotations where the collateral offered is of high grade. The time loans which are now maturing, and that were effected last September, are being renewed for six months, and some of them for longer periods,

which will account for the inquiry for such loans now observable. The contracts are being placed largely with local trust companies, though in many cases institutions in near-by cities are more or less actively competing for the business.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 2% and at 1¾%, averaging 2%; banks loaned at 1¾% and trust companies at 2% as the minimum. Time loans on good mixed Stock Exchange collateral were quoted at 3¼% for thirty, 3¼@3½% for sixty and 3½@4% for ninety days, 3¾@4% for four to five, 4¼@4½% for six and 5@5¼% for nine months. Commercial paper remains unchanged at 5½@6% for sixty to ninety day endorsed bills receivable and for four to six months' choice single names.

---

The Bank of England rate of discount was reduced this week from 3½%, at which it had stood since March 5, to 3%. The cable reports discounts of sixty to ninety day bank bills in London 2¾%. The open market rate at Paris is 2⅝% and at Berlin and Frankfort it is 4⅞%. According to our special cable from London, the Bank of England gained £615,273 bullion during the week and held £40,613,156 at the close of the week. Our correspondent further advises us that the gain was due in greatest measure to purchases of bar gold in the open market. The details of the movement into and out of the Bank were as follows: imports, £478,000 (of which £130,000 from Egypt, £10,000 from Constantinople, £11,000 from Australia and £327,000 bar gold bought); exports £150,000 (wholly to South America), and receipts of £287,000 *net* from the interior of Great Britain.

---

The movements in the foreign exchange market were quite as erratic as they were last week, and partly for the same reasons; the derangement of mail service contributed to encourage speculative operations after the demand for remittance by Tuesday's German steamer had been satisfied. Speculators for a decline did not, however, seem to realize their expectations of a profit, for on Wednesday there was a sharp recovery due to re-buying; then London cables quite positively indicated that there would be a reduction in the English Bank rate on the following day, and it was intimated that, should this be the case, the German Reichsbank would most likely reduce its official rate. The market was so sensitive to influences affecting changes therein, by reason of its temporarily oversold condition, and also because of the scarcity of bankers' bills, that the prospects of easier official discounts in London and Berlin caused general buying, not only to cover short contracts, but also to secure bills for remittance by the Lusitania on Saturday (to-day), this steamer being expected to deliver its mail as soon as would the French vessel which sailed on Thursday. The late cables on Wednesday noted a firmer tone for discounts in London and a good demand for money, as the result of calls for a one million sterling installment on the Indian loan, and as this condition of the British market seemed to make uncertain the expected reduction in the Bank of England rate, exchange fell fractionally by the close. On Thursday, when the reduction in the English Bank rate was announced, there was a firmer tone for long, while short was slightly easier, but there appeared to be an unsatisfied demand for cover for oversold sight bills and the market became firm for all classes of exchange, so continuing on Friday. Commercial bills were scarce, cotton exports being small and those of wheat not in sufficient volume to create drafts in large amounts.

On Saturday of last week the market was irregular, and, compared with the previous day, long was 10 points lower at 4 8315@4 8320, short 10 points higher at 4 8590@4 8595 and cables 10 points at 4 8615@4 8620. On Monday long rose 5 points to 4 8320@4 8325, short 5 points to 4 8595@4 86 and cables 10 points to 4 8625@4 8630. On Tuesday the market was weak at a decline of 15 points for long to 4 8305@4 8310, of 10 points for short to 4 8580@4 8585 and of 20 points for cables to 4 8605@4 8610. On Wednesday there was a recovery of 25 points all around—in long to 4 8330@4 8335, in short to 4 8605@4 8610 and in cables to 4 8630@4 8635. On Thursday long fell 10 points to 4 8315@4 8325, short 10 points to 4 8595@4 86 and cables 5 points to 4 8625@4 8630. On Friday long was 25 points higher and short and cables 5 points lower.

The following gives the week's movement of money to and from the interior by the New York banks.

| *Week ending March 20 1908.* | *Received by N. Y. Banks.* | *Shipped by N. Y. Banks.* | *Net Interior Movement.* |
|---|---|---|---|
| Currency | $8,971,000 | $5,202,000 | Gain $3,772,000 |
| Gold | 1,567,000 | 694,000 | Gain 873,000 |
| Total gold and legal tenders | $10,541,000 | $5,896,000 | Gain $4,645,000 |

With the Sub-Treasury operations the result is as follows.

| *Week ending March 20 1908.* | *Into Banks.* | *Out of Banks.* | *Net Change in Bank Holdings.* |
|---|---|---|---|
| Banks' interior movement, as above | $10,541,000 | $5,896,000 | Gain $4,645,000 |
| Sub-Treasury operations | 30,850,000 | 27,850,000 | Gain 3,000,000 |
| Total gold and legal tenders | $41,391,000 | $33,746,000 | Gain $7,645,000 |

The following table indicates the amount of bullion in the principal European banks.

*HOW TO OBTAIN ADDITIONAL SUBWAYS.*

The situation regarding the building of additional subways in the different boroughs of the Greater New York is rapidly approaching an acute stage. Public sentiment concerning the matter is aroused as it has not been before in years. The residents of the Borough of Brooklyn are holding mass meetings because no progress is being made in undertaking the construction of the Fourth Avenue subway to Coney Island; in the Borough of the Bronx the demand is also for additional subways; and in Manhattan, East Side residents are clamoring because their needs are not being met. In Queens Borough 48 associations were represented at a mass meeting held Friday night last week under the auspices of the United Civic Associations of that borough, and a unanimous demand was made that the city purchase the Belmont tunnel between 42d Street, Manhattan, and Long Island City. According to the accounts of this meeting in the daily papers, Magistrate Rasquin suggested that when the proper time came, "the entire Borough of Queens should march on the City Hall in a body and either get their demands or pull down the building."

This last is an indication of the public temper at the present time. And yet, with all their determination, the people are groping around in an aimless kind of way accomplishing practically nothing. They are still listening to the cheap talk and mouthy vociferations of those who have persistently led them astray for so many years. The situation in this respect in our municipality is a miniature of that larger movement which has overspread the whole country from one end to the other. The demagogues and the sensational press have been working up a frenzy against corporations and against capital and the people are paying the penalty in being obliged to do without many of the benefits that would inevitably flow if capital were free to find remunerative employment instead of being put under the ban, antagonized, and driven away.

The situation regarding the Belmont or Steinway Tunnel is very simple. This is not a case where construction is still to be done. The tunnel is already in existence and very little additional work and time would be required to put it in complete order. Under the circumstances no one can blame the residents of Queens Borough for getting impatient at not being allowed to enjoy its benefits. The thing that prevents its opening is the contention that has been set up that the company's franchise had lapsed and therefore the promoters could not avail of the fruits of their enterprise and skill unless the authorities grant a new franchise. The city authorities might be willing enough to come to terms and deal fairly by the new undertaking, but those who are constantly fanning excitement against corporate undertakings cannot let the opportunity slip by for getting in some more effective work along the old lines. If the promoters were allowed to open the tunnel and run cars through it, they might make some profit out of the operation, and that must be prevented at all hazards. We are being taught day after day that it is wrong for those engaged in public utility service of this kind to expect any large return on their outlay.

Accordingly, the city is being urged to buy the tunnel. It would never do, we are told, to leave such a valuable adjunct in connection with transit facilities in the hands of private owners. But to get possession the city must pay for the tunnel, and unfortunately has no money to invest in that way. It is close to the debt limit and money is needed for a dozen other purposes equally imperative. In these circumstances a very reprehensible policy is being advocated—one which no enlightened community would undertake to defend except in times like these when property rights everywhere are being invaded. It is argued that, the franchises having lapsed or being assumed to have lapsed, the city holds the whip hand and can compel the acceptance of any terms, however onerous or harsh. The Belmont interests recently made a tender of the property to the Public Service Commission at $7,239,476. Last week a bill was introduced in the Legislature authorizing the city to buy the tunnel but not to pay more than $5,000,000 for it. This week another bill has been introduced authorizing the purchase at not in excess of $3,000,000. Thus in effect confiscation is attempted. In the meantime the tunnel remains closed and Queens Borough residents are being deprived of its use. The chances are, if the false guides who have been advising the public to its harm are not sent to the rear, the tunnel will remain closed indefinitely.

The remedy would seem simple and obvious. Let the residents, instead of pulling down the City Hall, march to Albany and compel the passage of a bill directing the granting of the necessary franchise on the best terms possible so as to protect the capital invested and allow decent and adequate profits from the operation of the same. It would not take very long to enact legislation of this kind and the benefits would follow immediately. The public should not allow itself to be frightened any longer by the old bogy that private capital if allowed to remain in possession might make large profits out of the venture. It is entitled to large profits, and if large profits should result, capital would come in and more tunnels be built.

The matter of subway construction is a little different, and yet the remedy is much the same and equally simple. Here the work is still to be done and the capital still to be obtained. But all that is necessary is to offer terms liberal enough and there will be not the slightest difficulty in securing all the money needed for the purpose. Numerous subway routes, both in the Borough of Brooklyn and in Manhattan, have already been laid out with great care and detail and the only question is how they are to be built. Two difficulties stand in the way. In the first place, the city, as stated further above, is running very close to the debt limit, and as it will take enormous sums to build these subways, a long period of time must elapse before the municipality will be in position to provide the necessary money. The Fourth Avenue subway to Coney Island furnishes an excellent illustration of the predicament in which the city finds itself. The Board of Estimate and Apportionment officially approved the project eight or nine months ago and it was supposed that the estimated cost, $23,000,000, had been definitely provided for. But the Public Service Commission has been engaged for nearly nine months revising and elaborating certain engineering features connected with the route, and now that plans are fully completed and the Commission is ready to

advertise for bids, Comptroller Metz announces that the bonds that might have been available six months ago are no longer available, having been devoted to other purposes. The Brooklyn public is indignant, and yet there appears to be no help for the matter, especially as additional subway routes have been laid out in Manhattan and the Bronx, and the residents of these boroughs contend that their claims to relief from intolerable transit conditions are just as urgent as those of the Brooklyn public.

But it should always be remembered that the debt limit is not the only obstacle in the way of obtaining the necessary subways and tunnels. It is a question whether even if the city were empowered to issue the necessary amount of bonds, bidders could be found to construct and operate the same. Sufficient inducements must be offered to capital or it will not venture in, while the fact is that under existing laws, designedly made harsh and oppressive, the inducements are completely lacking. Last year the city invited bids for a series of subway routes on Manhattan Island and did not succeed in obtaining a single proposal, even under the offer of city aid—we mean the issue of city bonds.

The present subways, with the tunnel to Brooklyn, were obtained because at the time the contract for the same was made the conditions were very much more favorable than at present. A franchise for 50 years was granted with renewal for another 25 years. Even then no financial interest was prepared to engage in building and operating the road until at the very last moment Mr. August Belmont came to the rescue. It was generally felt that, even with the city furnishing the money for the original cost of construction (not the equipment), the risks involved were too great and the chances of profits too remote to make it an object for any syndicate of capitalists to assume responsibility for the project. Mr. Belmont had faith and in the end secured the rewards to which he was so justly entitled.

But immediately the cry went up that the city had been too liberal—that it was a mistake to allow private capitalists to reap such profits, that the city ought to keep such good things all for itself. The sensational press urged that there must be no repetition of this kind of thing—that it was city money that had built the subway and the promoters were entitled to no credit or consideration. One of the outcomes of this agitation was the passage of the so-called Elsberg Act, fixing the period of a franchise at only twenty years with a right of renewal for only fifteen more. Other provisions and restrictions have been imposed and added in one way or another, with the result, as already stated, that last year the city could obtain no bids for any of its subway proposals covering Manhattan Borough.

Two courses are now being suggested with a view to securing the additional subways. In the first place we are told that the Constitution ought to be amended so as to allow the city to incur debt beyond the 10 per cent limit. There are numerous objections to this. The city is now putting out new bond issues at the rate of $100,000,000 or more a year, and obviously it would be risky to carry the process too far. It should not be forgotten, either, that the city has been engaged for a long while in stretching its borrowing capacity and it is time a halt were called. It is only five years since the city officials revised the method of assessing property so as to bring assessments nearer the full value and thereby added $1,421,000,000 to the total of the real estate values in a single year. This step enlarged the borrowing capacity by $142,000,000 and yet before a great while the city found itself in the same plight as before. In the interval since then the State Constitution has also been amended so as further to extend the city's borrowing power.

At this juncture a second course for securing the additional subways is being urged. This suggestion comes from the very papers that have been so successful in driving capital away from subway undertakings. It is suggested that these subways be built piece-meal, a section this year, a section next year, and a little in each Borough, as the city gets power to issue additional debt from year to year by adding to the aggregate of assessed values. A qualified opinion has been obtained from Corporation Counsel Pendleton and ex-Judge John F. Dillon to the effect that in certain contingencies and under certain conditions it might be entirely legal to build subways on this piecemeal plan. It does not seem to have dawned upon those who have conceived this brilliant idea that in this way the completion of these new subways would be indefinitely delayed and that in the meantime the public would have to do without the additional transit facilities just as at present.

Is it not time to stop all this humbug and tomfoolery? Let the public return to its senses. The money needed for the additional subways, whether it be $200,000,000 or $500,000,000, can be obtained in abundance and without the least difficulty. There is no need at all why the city should have to extend aid in any way. Change the laws; make it an inducement for private capital to come in by allowing reasonable profits, and New York City in all its boroughs will soon have all the transit facilities it needs, while the pressure on the city's debt limit will at once be relieved. The situation is urgent in the extreme—and from many different standpoints. One of the McAdoo tunnels to Jersey is already in operation and the other soon will be. It will not be long, either, before the series of tunnels under the Hudson River which the Pennsylvania Railroad is building will be finished. Unless, therefore, New York City bestirs itself and supplies to its population equally good transit facilities, the result will be that real estate values in New Jersey will be built up at the expense of those in New York. At the present time, when, owing to the business depression, so many mechanics and laboring men generally are out of work, it would be conferring huge benefits to start subway construction at once, thereby giving employment to a portion at least of the idle men. Let the public of this city, therefore, cut loose from the demagogues by whom it has so persistently been misled. Let it refuse to be befuddled any longer by talk of "franchise grabbers." Let it insist that it has no prejudice against the employment of private capital under reasonable restrictions and conditions. Above everything else, make it known that it will not tolerate further delay and further dallying in a matter of such vital importance to the city and all its interests.

## *THE REPORT OF THE UNITED STATES STEEL CORPORATION.*

As has been the case with all previous reports of the United States Steel Corporation, the impression left upon the mind after study of the present report is that of the size, the magnitude and the strength of the company, which undeniably ranks as the largest industrial combination of the age. Nowhere else can figures of the same huge extent be met in an annual document dealing with the affairs of a single corporation, nor can an equal display of strength and earning capacity be found in any other undertaking of the kind. These reflections were suggested when the first annual report of the company made its appearance and the story is becoming a more impressive one with each succeeding year.

The exhibit of earning capacity, especially when considered in relation to the requirements for charges and dividends, is simply marvelous. The year under review was not throughout favorable to large profits, since, succeeding the panic in October, a marked recession in general trade and a complete collapse in the iron and steel industry occurred. In other words, in two of the twelve months business was exceedingly poor. Yet, after providing for all fixed charges and contributing $27,719,744 to the various sinking, depreciation and replacement funds, the company had a balance of net income in the large sum of $104,565,564 on the operations of the twelve months, whereas the requirement for the dividends being paid (namely 7% on the preferred shares and 2% on the common shares) was only $35,383,727. Roughly, then, available net income was three times the sum needed to pay dividends. After allowing for the dividends, a surplus remained on the operations of the twelve months in amount of no less than $69,179,836. Out of this a round $54,000,000 was set aside for extensions, additions and the acquisition of new property—$35,500,000 being applied on account of expenditures made, and to be made, on authorized appropriations for additional property, new plants and construction, and for discharge of capital obligations, and $18,500,000 being specifically set aside for authorized appropriations and expenditures on account of construction of the enormous plant being erected at Gary, Ind.

This $54,000,000 thus applied is entirely apart from the $32,857,241 already deducted and representing appropriations for the benefit of the various funds which we have enumerated. The situation therefore is that for capital appropriations and for capital extinguishment the aggregate amount taken from earnings for the twelve months has reached the enormous sum of $86,857,241 and even then an undistributed surplus remains on the operations of the year, after the payment of dividends, in the sum of $15,179,836. Consequently if the Steel Corporation is now to face a period of trade depression it has a very large margin of earnings to encroach upon before dividends can be endangered, though of course it is well established that the iron and steel industry is subject to wide fluctuations and extremes, even under the beneficent policy pursued by the Steel Corporation, and it is literally correct to say that with the steel producers it is either king or pauper all the time.

The aggregate net earnings for the twelve months of 1907 were $160,964,673. At this figure comparison is with $156,624,273 for the calendar year 1906, $119,787,658 in 1905 and but $73,176,521 in 1904. This last was a poor year and the change from the earnings of that period to the $160,964,673 net earnings of 1907 indicates what sharp extremes can be reached in a very short period of time. It is rather noteworthy that, owing to the relapse which occurred in the closing two months of 1907, the company's production of most items for 1907 fell below the output for 1906. The aggregate of iron ore mined reached 22,403,801 tons in 1907, against 20,645,148 tons in 1906; but the coke product was only 12,373,938 tons, against 13,295,075 tons in 1906. Of blast furnace products the output was 10,819,968 tons, against 11,267,377 tons; of steel ingots 13,099,548 tons, against 13,511,149 tons, and of rolled and other finished products for sale 10,376,742 tons, against 10,578,433 tons. None of these figures include the operations of the Tennessee Coal, Iron & RR. Co., though reports of earnings do include that company for the last two months of the year. The report says that during the first ten months of 1907 the several departments of the subsidiary companies were operated at substantially their maximum capacity. The production of finished products for sale for the period to Nov. 1 showed an increase of 5% over the corresponding period in 1906. But during the last two months of the year a decrease in the production of finished products occurred which exceeded the whole of the gain during the first ten months. The production of finished steel, we have already seen, fell off 201,691 tons, or 2%. The decrease in actual shipments to customers showed a somewhat larger falling off, 10,451,488 tons of all kinds of manufactured materials (including furnace products and scrap) having been shipped in 1907, against 10,862,425 tons in the preceding year. It is pointed out that prices of steel commodities for domestic sale were not generally advanced during the year, notwithstanding there were marked increases in the cost of raw materials and supplies used in manufacturing, in railroad freight charges, in wages and in taxes.

Reference is again made to the company's export business and it is noted that the results from that business have been very satisfactory. During the year there was shipped for export 1,014,082 tons of steel commodities of various kinds, a decrease of 6% as compared with the shipments in the previous year. It is stated, however, that the gross receipts from the 1907 shipments exceeded those for 1906 by 16%. The average mill price realized per ton for all exported materials, it appears, was only 7½% less than the average price realized for all domestic shipments. Emphasis is laid on the advantages to the employee, the domestic consumer and the manufacturer of a fair volume of foreign trade during periods of business depression in the United States. It is argued that in order to obtain the maximum benefit from such trade during times of lesser activity in business in the domestic market, it is wise to sell continuously in the neutral markets of the world and even at times when foreign trade conditions do not result in prices so near the domestic prices as were realized during 1907.

We get perhaps the best idea of the magnitude of the company's operations and business when we turn

to another part of the report and note the figures showing the so-called "Volume of Business." It appears that the business done by all companies controlled during the year, as represented by their combined gross sales and earnings, equaled over three-quarters of a thousand million dollars—in exact figures $757,014,767. This includes sales between the different subsidiary companies as well as sales to the public, and also the earnings of the transportation lines owned, and therefore involves more or less duplication; but is nevertheless a fair indication of the volume of business done. In 1906 the gross sales or earnings were only $696,750,926, in 1905 they were no more than $585,331,736 and in 1904 but $444,405,430. The average number of employees in the service of all companies during 1907 was 210,180, as against 202,457 in 1906, 180,158 in 1905 and 147,343 in 1904. The total amount paid in salaries and wages was $160,825,822, as against $147,765,540 in 1906, $128,052,955 in 1905 and $99,778,276 in 1904. The report states that on Jan. 1 1907 and March 1 1907 advances were made in the wages and salaries of approximately 65% of the total employees. These advances increased the wages and salaries of the employees affected about 6.6%. It is figured that the average rate of wages and salaries paid all employees during 1907 was more than 5% higher than the similar average rate in 1906.

As indicating what is being done to improve the physical condition of the property, there is a statement in the report showing that the expenditures made by all companies during 1907 for maintenance and renewals, including the re-lining of blast furnaces and for extraordinary replacements, equaled the sum of $55,828,253, the largest of any year in the history of the corporation. It appears, furthermore, that during the last six years the aggregate of the expenditures in this way reached $231,833,686. The entire amount, we are told, was charged to current operating expenses and to replacement funds reserved from earnings.

The expenditures on *capital* account during the year for the acquisition of additional property and construction (entirely exclusive of the amount paid by the Steel Corporation for the acquisition of the Tennessee Coal, Iron & RR. Co.) reached no less than $66,981,252. All of these expenditures comprehended only actual additions and extensions to the plants and properties. In face of these large outlays the funded debt during the twelve months was actually reduced, if allowance be made for the obligations incurred and assumed in connection with the Tennessee purchase. The total bonded, mortgage and debenture debt of the U. S. Steel Corporation and its subsidiary companies on Dec. 31 1907 was $602,320,511. This compares with $564,670,875 on Jan. 1 1907, showing an apparent increase of $37,649,636; but 30 million dollars of Steel Corporation sinking fund bonds were issued in the purchase of the stock of the Tennessee company and $14,666,000 of debt of that company and another very small company has been entered on the books. It follows that the ordinary debt was decreased $7,016,364. Notwithstanding the money paid out in connection with the Tennessee purchase (for the 30 million dollars bonds issued did not provide all the means needed for that purpose), and notwithstanding the large capital expenditures, the financial condition of the company remains phenomenally strong. Cash on hand is not quite as large as it was twelve months before, but nevertheless aggregates $53,963,848, and total current assets, including this cash, and including also $136,188,874 as the inventory valuation of goods and materials on hand, aggregated on Dec. 31 $274,411,308, while current liabilities at the same date were only $45,063,824. The assets given do not include $10,222,000 of various bonds of subsidiary companies held in the treasury subject to sale.

The company has been brought to this position of great strength through the large appropriations of earnings that have been made from year to year in payment of capital outlays or in extinguishment of capital obligations. We have seen that in 1907 the appropriations in that way were $86,857,241. But these appropriations have been going on ever since the organization of the company on April 1 1901. There is no single statement in the report that indicates the whole amount of the income which has been devoted to the purposes named. But with the help of the several annual reports it is possible to make computations indicating the magnitude of these appropriations. As we pointed out a year ago, practically all surplus earnings, whether specifically earmarked or not, may be considered as having gone into the properties, either to improve their physical or their financial condition. With that fact in mind, note that the balance sheet shows undivided surplus on December 31 1907 for the Steel Corporation and its subsidiary companies in amount of $122,645,243, of which only $25,000,000 was provided at organization, the other $97,645,243 having been accumulated out of earnings. Moreover, this is entirely independent of the amount standing to the credit of the sinking and reserve funds, which reaches $83,975,347 and the amount standing to the credit of the bond sinking funds, which is given as $31,503,976. Altogether, therefore, the three items represent a total of over $238,000,000 of income.

Imposing though these figures are, they do not show the full extent of the income used in that way. Large sums applied out of earnings no longer appear in the accounts, having been marked off the books from among the assets, with corresponding reductions on the liability side. There is a statement in the report which gives the accumulated surplus for the period from April 1 1901 to Dec. 31 1907 after the deduction of charges and the payments of dividends. This surplus thus given amounts to $232,563,855. It should be distinctly understood, however, that this is the surplus *after* the large yearly sinking fund contributions, and also the appropriations for the depreciation and extinguishment funds and the extraordinary and special replacement funds. These appropriations, as already pointed out, have been of very large extent. Following the plan pursued by us last year, we have undertaken to figure out what these appropriations and contributions aggregate for the whole of the period since the inception of the enterprise. The result is shown in the following table. We start with the recorded surplus of $232,563,855, and then add the amounts which were deducted each year before arriving at the surplus.

EARNINGS APPLIED IN IMPROVEMENTS AND EXTENSIONS.

| | | |
|---|---|---|
| Aggregate net income (above charges and above contributions to various funds) from date of organization (April 1 1901) to Dec. 31 1907 | | $494,918,435 |
| Dividends paid— | | |
| On preferred stock (47¼%) | $193,755,598 | |
| On common stock (13½%) | 68,598,982 | 262,354,580 |
| Surplus | | $232,563,855 |
| Add contributions to sinking funds, to depreciation and extinguishment funds and to extraordinary and special replacement and improvement funds— | | |
| Calendar year 1907 | $32,857,241 | |
| do do 1906 | 34,707,355 | |
| do do 1905 | 27,405,062 | |
| do do 1904 | 18,207,328 | |
| do do 1903 | 29,292,866 | |
| do do 1902 | 27,814,389 | 170,284,241 |
| Aggregate amount of net earnings put into property | | $402,848,076 |

The life of the Steel Corporation extends back hardly seven years, and yet in this brief period of time over 402 millions of dollars of earnings ($402,848,076), it appears, have been put into the property and applied to its improvement, enlargement and extension. The aggregate amount of the common shares outstanding is $508,302,500 and if these did not represent actual cash investment at the time of their issue, the shares are being rapidly paid for by the application of earnings—$402,848,076 having already been thus applied as just seen. Truly the achievement is a marvelous one, and if any corporation in the land can lay claim to being fortified against a period of trade adversity, the Steel Company can.

Of course for 1908 the company cannot count upon such favorable results as attended operations in 1907. Present indications are that the year will be one of depression. It is gratifying to note, however, that even here the report has pleasing news to convey. For after noting that, in common with the experience in other lines of industry, a material reduction in sales occurred during the latter part of 1907, the report makes the announcement that the bookings for January were 25% better than for December, and those for February 25% better than for January. To this is added the further statement that as the report is going to press the bookings per day are "at least 25% larger than those for February." All of which is very encouraging.

## *THE FOWLER CURRENCY BILL.*

The following from the "Journal of Commerce and Commercial Bulletin" of this city, bearing upon our article of last week discussing the provisions of the Fowler Currency Bill, merits a few words of reply.

BANK NOTES NOT LEGAL TENDER.

The "Financial Chronicle," while approving of the principle and purpose of the Fowler Currency Bill, criticizes some of its most important provisions, but in doing so it falls into one serious error. It says: "Mr. Fowler proposes to make his series of bank notes full legal tender for everything except the payment of interest on the public debt. Thus, everyone would be obliged to accept the notes." Again in the course of its argument it says: "But the notes are sent out clothed with full legal tender attributes in everyday business affairs, and under such circumstances a tax of no more than 2% per annum would be manifestly insufficient to drive the notes home when they were no longer needed to move the crops or for other mercantile purposes." This is an entire misconception of the provisions of the bill.

The notes are not made a legal tender for private debts, and nobody would be obliged to take them except for payments from the Government for other purposes than interest on the public debt. It is declared that the notes shall be "received at par in all parts of the United States in payment of taxes, excises, public lands and all other dues to the United States, including duties on imports, and also for all salaries and other debts and demands owing by the United States to individuals, corporations and associations within the United States except interest on the public debt and in redemption of the national currency."

This is quite different from making the notes a general legal tender, and the provision is copied exactly from the law relating to the present bank circulation with the exception of including duties on imports specifically as payable in these notes, while the present law specifically excepts them. There was a reason for excepting them when the original law was passed, for specie payments were suspended and Government notes and bank notes were alike depreciated, and it was necessary to collect part of the revenue in gold in order to have the coin for payments on the public debt. It was also necessary in order to have the duties on imports serve their intended purpose in yielding revenue and incidentally restricting foreign trade. That necessity no longer exists, and it is proposed to make the bank notes receivable for dues to and from the Government in order that there may be no discrimination against them in public dealings, but in "everyday business affairs" they will simply be bank notes payable on demand and not actual money, and therefore not a legal tender for private payments. Nobody would be obliged to accept them except for payments by the Government.

We agree entirely with our contemporary in its statement that under the language of the Fowler Bill,, the notes proposed are not a legal tender for *private* debts, and we should have expressed ourselves more guardedly so as to avoid the drawing of any such inference. In certain contingencies the distinction referred to might be important. It remains true, however, that in everyday business affairs the notes would virtually possess legal tender attributes. For, in addition to the sentences quoted by our contemporary, defining the character of the notes, there is another, which reads as follows: "Said notes shall be received upon deposit and for all purposes of debt and liability by every national banking association at par and without charge of whatsoever kind." This answers all purposes, as far as the merchant or business man is concerned, for he carries on his business by means of checks, and, under the law, his bank, if a national institution, will be obliged to accept the notes from him at their face value. If there were also a requirement compelling the bank so receiving the notes to present them for redemption, the case would be different. But there is no such requirement. We mention these matters merely because we cannot get rid of the feeling that, given authority to issue notes to a maximum of $1,803,000,000, as against a present outstanding total of but $632,458,712, and with a tax of only 2% per annum, stringent safeguards will be necessary to prevent inflation and speculation.

We have also received a letter concerning our article from Mr. Fowler himself. This we print in full below.

COMMITTEE ON BANKING AND CURRENCY.

*House of Representatives,*
*Washington, D. C., March* 17 1908.

*My Dear Mr. Dana:*

I have just read the review in your valuable paper of the Fowler Currency Bill, and note that you have made one very unfortunate mistake in assuming that the bank notes are legal tender under any circumstances except between the banks and to and from the Government. In other words, the legal tender qualities of these notes is precisely what the statutes give to the old bank notes except that they are receivable for duties on imports, which, I am sure, from your knowledge on the subject, you will approve.

Now, a word with regard to the guaranty of deposits.

First, is it not true that the assumption on the part of both the States and the Government of the supervision of our banking institutions is based upon the fact that they are quasi public institutions, for which the State and Federal governments deem themselves more or less responsible?

If there is any force whatever in the argument that the selection of a bank should be a matter of education to the depositor, and that he should be constantly left to investigate and decide which bank he should use, then the Government should not intervene to supervise in the slightest degree. There are a very great many people in the United States who ignorantly suppose that the national banks are safe beyond the possibility of loss, simply because they are national banks.

I assert, therefore, that Government supervision, State or national, should be withdrawn, and the people be left to this terrific school of experience, or that the Government should completely perform its work and impose such obligations upon the banks as will truly justify the confidence the people have in these quasi public institutions.

Second, what is the fact with regard to the actual conduct of the banks of the country with regard to guaranteeing deposits, substantially as is proposed by my measure?

When the Chicago banks were confronted with a loss of several millions through the collapse of Walsh's bank, the Chicago National, they immediately took over this institution, knowing that there was to be a loss of several millions of dollars, possibly from 5 to 7 millions. What was this but a guaranty of deposits, even though they had had no supervision over this institution? You say that the present clearing-house committees have the same authority now that the Board of Managers provided for in my bill would have. But this is not true. The clearing-house committees never assume to examine any of the banks, with two or three exceptions, unless the banks appeal to them for help in distress; while the Board of Managers are made responsible for examination and supervision; the bill giving them unlimited power to employ and direct the examiners, so that no such contingencies could arise as that of Walsh's bank and the Heinze and Thomas episodes in New York. Upon a moment's reflection, you must realize that, in your presentation of the case in your review in respect to this particular feature, you were utterly wrong.

Now there are at least three exceptions to the usual authority and activity of clearing-house committees throughout the United States.

The first exception arose out of the Walsh failure. For the Chicago banks, having learned a sad lesson through it, immediately formed themselves into an association of self-protection, and declared that no bank should thereafter clear through the association, nor should any bank clear through any bank belonging to the association which did not subject itself to such examinations as the clearing-house committee, through its own examiners, should thereafter make from time to time in regular order. This they have done with a very high degree of satisfaction to themselves, and so well has the plan worked that St. Louis and Kansas City have already followed in their footsteps. I am informed that San Francisco is about to adopt the same method of protection. The leading banker of Baltimore told me the other day that he had been trying for years to have the Clearing-House Committee adopt the same plan there.

Will you or any one say that any clearing-house committee, having once assumed the supervision of all the banks clearing through their association, directly or indirectly, has not assumed the moral obligation to the public that no one of the institutions so examined shall fail?

I should like to call your attention to page 5 of the "Journal of Commerce" of Thursday, March 12 1908, where you will find a letter from Horace White and one from Lyman J. Gage, who are undoubtedly the two leading authorities on banking economics in the United States.

Upon a more thorough study of the bill and a more complete understanding of the measure, I have not the least doubt that your ultimate view will coincide with theirs; for I do not know of a man of high authority nor the representative of any association, who has earnestly and honestly approached the study of this subject, without coming to the same conclusion.

Of course I do not mean to say that any intelligent person in reading over so comprehensive a measure would not find something to suggest, and in many instances suggestions that would be helpful; but in dealing with so great a question we must handle it in a large minded way and differentials must be forgotten in order that the larger end may be attained.

Under another cover, I am sending you two or three of the revised reports, and desire to call your attention to the Comptroller's report on the losses of depositors in failed banks, where you will find that a mere pittance of .037 of all deposits would have been sufficient to pay all losses.

Very truly yours,

CHARLES N. FOWLER.

P. S. I would like also to call your attention to the fact that the banks of Duluth and Omaha, during the recent panic, signed an agreement to protect the banks of their respective cities; and that the preservation of the trust companies of New York was also due to this same guaranty of deposits.

The first point made by Mr. Fowler, with reference to the legal-tender character of the notes, we have already discussed above. As to Mr. Fowler's argument in favor of the provision guaranteeing the deposits of the banks, what we said in our discussion of the subject was written with a knowledge of his views, and we do not therefore feel called upon to reiterate the objections against this portion of the bill as enumerated by us last week. Mr. Fowler points to the numerous occasions in the past when clearing-house associations have come to the rescue of embarrassed institutions. But to our mind there is no analogy between action of that kind and that proposed by Mr. Fowler. It is one thing to extend *voluntary* aid to a deserving institution in time of stress and quite another thing to be compelled to assume the burdens of all institutions that may get into trouble, irrespective of the character of the management or the nature of the assets. In the case of clearing-house associations, the general rule of action is to intervene only for the protection of solvent institutions, and often it is considered unwise to go even as far as this, for fear of imperiling the safety of the other members of the association. On the other hand, Mr. Fowler's plan contemplates a wholesale guaranty of the liabilities of all the banks, both sound and unsound—a dangerous and an objectionable proceeding, we insist.

## *RAILROAD GROSS EARNINGS FOR FEBRUARY.*

Current returns of railroad earnings all reflect the prevailing period of trade depression. Our compilations to-day cover the roads which have furnished early preliminary statements for the month of February. These show a loss as compared with the corresponding period of 1907 of $5,706,584, or 10.71%. The extent of road covered is 84,405 miles. As this, however, is only about 40% of the railroad mileage of the country, it is easy to see that the aggregate loss is going to prove very heavy when the full statement is made up some weeks hence. Few roads form exceptions to the rule of decrease. Out of the whole 59 roads included in our present statement, only eleven are distinguished in that way.

The showing is really less favorable than would appear from the face of the figures. In the first place, 1908 being leap year, February had an extra day, adding correspondingly to the earnings of the roads. In the second place, comparison is with a period of relatively light earnings in 1907. Weather conditions in February last year were quite adverse, particularly in the territory extending from the Upper Lakes to the North Pacific coast, where conditions were of exceptional severity. Such roads as the Great Northern, the Northern Pacific and the "Soo" sustained heavy losses in earnings as a consequence. The three roads mentioned having thus had their earnings cut down a year ago by a state of things which was not repeated the present year, are now able to show gains in earnings, offsetting to that extent the losses on other roads. But it is noteworthy that in none of these instances is the present years' increase equal to last year's loss. It is thus obvious that, except for the circumstances named, our summary of earnings for the month would have been even less satisfactory than it is. In the following we carry the totals back for a series of years.

| February. | | Mileage. | | | Gross Earnings. | | Increase (+) or Decrease (—). | |
|---|---|---|---|---|---|---|---|---|

| 1908 | 59 | 84,405 | 83,328 | 1.29 | 99,975,81 | 110,477.618 | 10 501.80 | 9.51 |

*Note.*—We do not include the Mexican roads in any of the years.

The falling off in earnings in the case of some of the separate roads reaches large proportions, the lines in the South being particularly distinguished in that way. In the table we now give we have brought together all changes for amounts in excess of $30,000, whether gains or losses The gains, as already indicated, are very limited, being supplied mainly by the roads which had special adverse conditions to contend against in 1907.

PRINCIPAL CHANGES IN GROSS EARNINGS IN FEBRUARY.

| | Increases. | | Decreases. |
|---|---|---|---|
| Northern Pacific | $434,281 | St. Louis Southwestern | $157,999 |
| Gt. North. Syst. (2) | 184,065 | Cin. New Orl. & Texas Pac | 144,324 |

| Mobile & Ohio | 241,546 | Mobile Jackson & K. C. | 36,108 |
| Wabash | 236,772 | Texas Central | 30,746 |
| Denver & Rio Grande | 230,400 | Western Maryland | 30,536 |
| Canadian Pacific | 203,000 | | |
| Internat. & Gt. North | 188,000 | Representing 35 roads in our compilation | $6,448,113 |

*Note.*—Figures in parenthesis after name of road indicate the number of lines or companies for which separate returns are given in our compilations.

In interpreting the significance of the present year's loss it is important to bear in mind that, aside from the depression existing in general trade, there was also a diminution in the movement of the leading staples. In the South and Southwest there was a falling off in the cotton movement, not so much because the movement was small in itself for the season of year as because comparison was with a large total last year. In the West there was a shrinkage in the grain movement. As far as the cotton movement is concerned, the shipments overland this year were 160,836 bales as against 195,018 bales in February last year, but as against 138,742 bales in February 1906. The receipts at the Southern outports were 662,239 bales, comparing with 896,548 bales in 1907 and 495,931 bales in 1906, as may be seen from the following:

RECEIPTS OF COTTON AT SOUTHERN PORTS IN FEBRUARY, AND FROM JANUARY 1 TO MARCH 1 1908, 1907 AND 1906.

| Ports. | February. | | | Since January 1. | | |

In the Western grain movement there was a sharp contraction in the receipts of corn and wheat and also a loss in the case of some of the minor cereals. Altogether, the receipts at the Western primary markets for the four weeks ending Feb. 29 aggregated 38,092,372 bushels the present year, as against 52,591,050 bushels in the corresponding period last year. The details of the grain movement in our usual form appear in the table we now present.

| 1907 | 2,687,276 | 29,745,324 | 48,400,961 | 27,580,187 | 10,694,176 | 1,249,438 |

In the Western live-stock movement there was also a shrinkage in some of the items. The receipts of cattle, for instance, at the six principal markets comprised only 595,576 head in 1908, against 628,766 head in 1907, and the receipts of sheep were 654,033 head against 744,361 head. As an offset, however, to the loss here the deliveries of hogs ran far ahead of last year, reaching 2,043,616 head in February 1908, against only 1,688,951 head in February 1907.

To complete our analysis we furnish the following six year comparison of the earnings of leading roads arranged in groups.

EARNINGS OF NORTHWESTERN AND NORTH PACIFIC GROUP.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S

—The public sales of bank stocks this week aggregate 170 shares, of which 165 shares were sold at auction and 5 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 130 shares. A lot of 40 shares of stock of the Merchants' Exchange National Bank was sold at 165, an advance of 14 points over the price paid in December of last year, when the last previous sale was made.

* Sold at the Stock Exchange. *a* In process of liquidation.

—A New York Stock Exchange membership was reported transferred this week for $60,000, an advance of $8,000 over the last previous sale.

—The New York State Senate by a vote of 20 to 10 defeated Senator Owens's bill which would have permitted savings banks to pension employees who had been in their service for twenty-five years.

—William J. Morris, who retired as Chairman of the Philadelphia Stock Exchange on the 14th inst, after serving twelve years in that capacity, was presented with a silver loving cup by the members of the Exchange, in recognition of his services. George Palmer succeeds Mr. Morris as Chairman.

—An important change was made in the Aldrich Currency Bill on Tuesday, in the adoption of an amendment by the Senate Committee on Finance, eliminating the provision of the bill which would have made railroad bonds a permissible basis for the proposed issue of emergency notes. Two other amendments were also adopted—one providing that in no case shall currency be issued in excess of the par value of the bonds deposited, no matter what the price of the bonds, and the other restoring the clause in the existing law limiting the amount of lawful money that may be deposited in any one month for the retirement of national bank notes to $9,000,000.

—A resolution introduced by Senator Tillman in the U. S. Congress on the 12th inst. directing the Committee on Finance to inquire into and report on the conduct of national banks in New York City and elsewhere, with regard to matters pertaining, among other things, to loan transactions, was adopted by the U. S. Senate on the 16th inst. The resolution is as follows:

*Resolved.* That the Committee on Finance is hereby instructed to inquire and report:

First—Whether the national banks in the city of New York and elsewhere are in the habit, under the guise of commercial loans, of furnishing permanent capital for speculative or other enterprises; and if so, what legislation is necessary to prevent a continuance of such practice.

Second—Whether the Treasury Department had knowledge of the loans made by the National Bank of North America of New York City which are the subject of a suit by the receiver of said bank against Charles W. Morse, and of other similar transactions by other national banks.

Third—Whether national banks are now controlled by themselves, or through other organizations, in attempting to control or dictate the legislation of Congress upon currency matters.

Fourth—The Committee is further instructed to ascertain what, if any, legislation is necessary to discourage or prevent the habit of persons

holding the office of Comptroller of the Currency or other Treasury officials from making their offices a stepping stone to employment by national banks.

Fifth—Whether national banks are using trust companies or other financial associations as agencies through which to transact business forbidden by the law governing national banks, and what legislation is necessary to prevent such an evasion of the statutes.

Sixth—Whether the national banks in New York City lent their credit to the stockholders by the certification or acceptance of checks during the years 1906 and 1907, and report whether or not such transactions involved any violation of the provisions of Section numbered 5200 of the Revised Statutes as to making excess loans.

—R. G. Rhett, President of the Peoples' National Bank of Charleston, S. C., and Mayor of that city, who has long made a study of the currency problem, has drawn up a bill providing for a new currency system and particularly a scheme of bank note issues intended to be automatic in its action. The full text of the bill is published in the Charleston "Evening Post" of March 10.

—The case of the American Bankers' Association against the American Express Co., brought under the Inter-State Commerce law, which had been assigned for hearing March 19, was again postponed, at the request of the parties interested, to a date to be hereafter fixed.

—The San Francisco Clearing-House Association has elected Archibald C. Kains to the newly created post of Clearing-House Examiner. The appointment of the new official is the outgrowth of the recent adoption by the Association of a resolution providing for a Clearing-House Examiner, who will be called upon to inspect all the members of the Association, or those clearing through members. The Examiner is to have the same power over the banks under his supervision that the State Bank Commissioner has over the banking institutions of the State, and it is said that the Clearing-House Committee has decided to uphold Mr. Kains in all his suggestions to the banks. He is to have authority to reduce the amount of loans made by a bank to any one firm, and to insist upon the discharge of questionable securities. Mr. Kains is at present manager of the San Francisco office of the Canadian Bank of Commerce; he will take up his new duties as soon as his successor in the bank is chosen.

—The American Academy of Political and Social Science of Philadelphia will issue to-day (the 21st inst.) a special volume entitled "The Lessons of the Financial Crisis." Some of the articles contained therein and their contributors are:

"The Causes and Lessons of the Present Crisis," by Myron T. Herrick, President of the Society for Savings, Cleveland; "Clearing-House Certificates and the Need for a Central Bank," by William A. Nash, President of the Corn Exchange Bank, New York; "The Panic as a World Phenomenon," by Frank A. Vanderlip, Vice President of the National City Bank, New York; "A Central Bank as a Menance to Liberty," by George H. Earle Jr., President of the Real Estate Trust Co. of Philadelphia; "Relation of a Central Bank to the Elasticity of the Currency," by Jacob H. Schiff, of Kuhn, Loeb & Co., New York; "Diagnosis of the World's Elastic Currency Problem," by Andrew J. Frame, President of the Waukesha National Bank of Waukesha, Wis.; "An Elastic Credit Currency as a Preventive of Panics," by William Barret Ridgely, Comptroller of the Currency; "The Need of a Central Bank," by George E. Roberts, President of the Commercial National Bank of Chicago, &c., &c.

—The announcement is made that the National Bank of North America of this city has reduced its indebtedness to the Clearing-House to $500,000. The bank's holdings of Clearing-House certificates at the time of its closing in January amounted to $2,200,000.

—A decision was handed down on Tuesday by the Appellate Division (First Department) of the Supreme Court affirming the order of Justice O'Gorman dismissing the temporary receivers of the Oriental Bank of this city. The decision was given in the appeal of Attorney-General Jackson from Justice O'Gorman's order setting aside the appointment of the receivers. The Attorney-General contended that the order of Justice O'Gorman was without warrant, and if allowed to stand would establish the precedent of permitting insolvent corporations to select their own receivers and administer their own affairs regardless of the provisions of the law requiring their dissolution. The opinion of the Appellate Division, written by Justice Houghton and concurred in by all the justices, sustains the claim that the Oriental Bank is solvent, thereby putting it in position to carry into effect the arrangement with the Metropolitan Trust Co. In part the opinion said:

Examiners Cann and reported that, exclusive of the liability of its capital stock of $750,000, the bank had $1,253,635 31 in surplus. Certified public accountants were also employed and they found the surplus to be, after making such deductions as they considered proper, $1,528,422 17. Since these reports were made, it appears the liability of or for current loans Clearing-House certificates has been reduced by nearly $600,000.

The complaint alleges that from reports made by the Superintendent of Banks to the Attorney General, he believes the defendant will be unable to pay its depositors and other creditors. The only report disclosed by the record is one which shows the large surplus referred to. The Attorney-General has received no report of the Superintendent of Banks that the defendant is actually insolvent, so far as appears, but only that it was at the time of making it unsafe and inexpedient for the defendant to continue business. If the Attorney-General has any report from the Superintendent of Banks as to defendant's insolvency, which is quite improbable, he should have presented it by affidavit or alleged its substance in the complaint. There is a further broad allegation in the complaint that the defendant is insolvent. The Attorney-General does not allege that he himself examined as to the assets and liabilities of the defendant so that he acquired personal knowledge of its financial condition. The whole tenor of its complaint is that his conclusion, which he alleges as a positive fact, is based on information furnished by others. The complaint, therefore, standing alone, stated no facts upon which a judgment of insolvency could be based.

The following also appeared in the opinion:

The Attorney General is not the guardian of investors against their will. Paternal government in this State has not yet gone to the extent of regulating in what its citizens shall invest their money. It is primarily the creditors of an insolvent corporation with which the State is concerned. It is hardly probable that the assets of the defendant, cut down as they have been, will further shrink sufficiently to wipe out the large surplus shown so that the creditors of the defendant will not obtain their money in full.

On Wednesday the Attorney-General obtained an order to show cause why he should not be allowed to carry the case to the Court of Appeals. He was, however, denied an order authorizing the retention of the books and assets of the bank by the temporary receivers. The directors of the bank at a meeting on Wednesday approved the contract under which the Metropolitan Trust Co. is to pay off the depositors of the Oriental.

—The certificate indicating the increase in the capital of the Knickerbocker Trust Co. of this city from $1,200,000 to $2,000,000 was filed at Albany on the 17th inst. The increase in the capital was ratified by the shareholders last December. At the request of the voting trustees, the directors of the institution on Monday elected as members of the board Hinsdill Parsons, H. L. Satterlee and J. Horace Harding. Mr. Parsons was chairman of the committee representing the depositors of the company and Mr. Satterlee was counsel of that committee. Mr. Harding is a member of the Stock Exchange house of C. D. Barney & Co.

—Samuel Verplanck Hoffman has been elected a director of the Lincoln Trust Co. of this city to fill a vacancy.

—J. H. Edwards retired on Tuesday as Assistant Secretary of the U. S. Treasury to become permanent receiver of the New Amsterdam National Bank of this city, which closed its doors on Jan. 29. L. A. Coolidge is Mr. Edwards's successor as Assistant Secretary.

—Alexander S. Webb Jr. has been elected Second Vice-President of the New York Trust Co. of this city, to succeed Willard V. King, who assumes the presidency of the Columbia Trust Co. next week. Mortimer N. Buckner has been chosen as Third Vice-President of the New York Trust Co., succeeding Mr. Webb, while Walter E. Drummond replaces Mr. Buckner as Treasurer of the company.

—George Griswold Haven, for many years head of the New York Stock Exchange house of George G. Haven & Co. (which was succeeded by the firm of Hollister & Babcock), died on the 18th inst. Mr. Haven was born in Portsmouth, N. H., in 1837. He was President of the Metropolitan Opera & Real Estate Co., President of the Worcester Nashua & Rochester RR., a director of the Pittsburgh Fort Wayne & Chicago Ry. Co., the Atchison Topeka & Santa Fe Ry., the National Bank of Commerce, the Bank of America, the Guaranty Trust Co., the Morton Trust Co., the Fifth Avenue Trust Co., &c. At a meeting yesterday the directors of the Bank of America adopted resolutions with respect to Mr. Haven's death. He had been a member of the bank's board for nineteen years.

—A change in the payment of dividends has been made by the Fourth National Bank of this city, a quarterly dividend of 2% having been declared payable April 1. Payments previously were semi-annually, in January and July.

—The Columbia Trust Co. of this city will remove on May 1 from its present location, corner Nassau and Cedar St., to 135 Broadway, the quarters formerly occupied by the Trust Company of America.

—Justice Cochrane of the Appellate Division (Third Department) of the Supreme Court on Thursday handed down a decision reversing the order of Justice Betts approving the appointment of former Deputy Attorney-General Charles A. Dolson as counsel to the receivers of the Brooklyn Bank of Brooklyn Borough. The opinion, written by Justice Cochrane, says in part:

The statement is made and not denied that at the time of the appointment of the temporary receiver, Mr. Hasbrouck, this counsel was a Deputy Attorney-General, and it is also claimed that he resigned as such for the purpose of becoming counsel for said receiver herein. We think an employment under such circumstances is against public policy. The Attorney-General is charged with important and responsible duties in reference to

corporation receiverships. The receiver may be appointed on his application; and such application in some cases may be ex parte. The Attorney-General is therefore vested with certain discretion in regard to such applications. He has general oversight and is intimately connected with the administration of the estates of insolvent corporations.

By the provisions of the statute above quoted, no employment of counsel can be approved by the Court or payment made to counsel without notice to the Attorney General, clearly indicating that the latter has an affirmative duty to perform in protecting insolvent corporations against excessive or improvident charges for legal expenses. The great office of the Attorney-General should not be subjected to the criticism that it is influenced by sinister or unworthy considerations. The mere possibility that the duties and responsibilities of the office may be sacrificed constrains us to withhold our approval of an employment by receiver of counsel intimately connected with that office. We think such an employment is clearly inconsistent with the relations which the law creates between the Attorney-General's office and insolvent corporations. The contract the Court is asked to approve is contrary to the spirit and policy of the law, and cannot, therefore, be sanctioned.

It is expected that a dividend will be paid to the depositors of the Brooklyn Bank in May. The amount of the distribution has not as yet been determined, but it is hoped to make the payment 90%. A report of the appraisers appointed by Clark Williams, State Superintendent of Banks, to ascertain the condition of the assets of the bank, was filed at Kingston on Thursday. The book value of the assets is given as $2,323,986 and the market value as $1,990,038. The shrinkage of $333,947 is made up as follows: temporary loans, $260,996; real estate, $27,000; furniture, fixtures, &c., $17,603, and amount due from other banks $28,438.

—David H. Lanman, Treasurer of the Brooklyn Trust Co. of Brooklyn Borough, has been elected a member of the board of trustees to fill a vacancy. The institution has declared its regular quarterly dividend of 5%, payable April 1 to stockholders of record March 23.

—John R. Redfield, President of the National Exchange Bank of Hartford, Conn., and President of the Hartford Clearing House Association, died on the 15th inst. Mr. Redfield was born in 1838; in 1859, when but twenty-one years of age, he became Cashier of the institution, succeeding to the presidency in 1886. Mr. Redfield was a member of the executive committee of the Connecticut Fire Insurance Co., a director of the Massachusetts Mutual Life Insurance Co. of Springfield, Mass., the Empire & Bay State Telegraph Co., Swift & Co. of Chicago, &c.

—At the hearing last Saturday on the question of the continuance of the receivership of the Union Trust Co. of Providence, presiding Justice Sweetland declared the institution solvent, and, in response to a formal motion of the temporary receivers for an order permitting the company to resume, announced that a date for the reopening would be fixed on the 28th inst. In the petition presented to the Court, it was stated that all the stockholders of the institution had surrendered their stock, as required under the reorganization plan; that creditors to the amount of $18,431,085, or 96.43% of the total, had become parties to the agreement by releasing their claims; that subscriptions in excess of the 10,000 shares of the proposed capital of the reorganized institution had been received, and that the receivers had available over $6,000,000 for meeting the expenses of resumption. The institution closed its doors on Oct. 25 last year. The details of the plan of resumption were given in these columns Jan. 18. It provides for the payment with reopening of all deposits of $100 or less, and 50% of the trust accounts; for the remaining 50% of the trust accounts negotiable certificates of deposit are to be issued. The claims of the other creditors and depositors are to become payable as follows: 10% with resumption, 70% in negotiable certificates of deposit bearing 3% interest, payable in 7 installments of 10% each in from 6 months to 3½ years, and 20% in [illegible] certificates. These latter are also to bear 3% and are to be paid in installments at the discretion of the directors. It is further provided that the present capital of $500,000 is to be surrendered and new capital to the extent of $1,000,000 issued and sold at $150 per $100 share. This stock is to be subscribed by the depositors, and is to be payable out of the 70% for which they would otherwise be entitled to negotiable certificates of deposit. The holders of existing stock are to surrender such stock and receive in exchange deferred certificates, which will bear 2% interest (cumulative), payable out of earnings after the payment in full of interest upon the negotiable and contingent certificates and dividends on the capital. Under a voting trust agreement all the stock is to be transferred to Arthur L. Brown, Rathbone Gardner, Arthur L. Kelley, Henry D. Sharpe and Herbert J. Wells, as voting trustees. The plan was declared operative on the 12th inst. at a meeting of members of the receiver's advisory committee, the depositors' committee and the present shareholders.

—Alexander Cochrane has been elected to succeed the late Charles H. Dalton as Vice-President of the New England Trust Co. of Boston, Mass. Ernest Lovering and Timothy E. Byrnes have been elected directors of the institution.

—Joseph G. Darlington, a director of the Franklin National Bank of Philadelphia and a trustee of the Penn Mutual Life Insurance Co., died at his home in Haverford, Pa., on the 18th inst. Mr. Darlington was sixty-five years old. He was identified with many organizations, including the New York Chamber of Commerce, and was an ex-President of the Union League Club of Philadelphia.

—The real estate syndicate to be formed for the purpose of taking over at $400,000 certain real estate belonging to the National Bank of Commerce of Kansas City, was incorporated this week under the name of the Terrace City Realty Co. Hugh C. Ward has been chosen President and W. T. Kemper is Secretary of the company. In a circular issued last month to the shareholders of the bank by D. R. Francis, chairman of the organization committee, it was stated that every stockholder in the bank would be expected to subscribe pro rata to the $400,000 capital of the Realty Company, in order to raise the necessary amount to take over the properties in question. All of this real estate is located in Kansas City with the exception of 2,700 acres in Shawnee County, Kansas. The property is carried on the books at a valuation of $522,142. The circular also stated that it would be necessary for this company to purchase from the receiver, at a cost of $50,000, amounts classed by him as bad aggregating $442,412. A bid for $30,000 had been received for a 3-5 interest in these accounts, and the $20,000 to be provided for was to be borrowed on some of the company's real estate. The bank will also dispose of real estate holdings in Mexico carried at a valuation of $890,000, and for which a bid of $600,000 has been received. As noted a week ago, the stockholders are to meet on Monday next to act on the proposition to increase the capital from $1,000,000 to $2,000,000. We are advised that it is expected that payments will all be made by the 25th, and that the institution will reopen on the 30th inst. In addition to a capital of $2,000,000, the reorganized bank will have a surplus of $200,000. The receiver has been diligently realizing on the bank's assets, has paid its indebtedness to the Kansas City Clearing House (amounting to $4,000,000 at the time of suspension), and substantially liquidated its re-discounts and other like obligations.

**Imports and Exports for the Week.**—The following are the imports at New York for the week ending March 14; also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

| *For the week.* | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| Dry Goods | $2,453,178 | $4,096,703 | $3,476,554 | $2,905,903 |
| General Merchandise | 7,805,139 | 12,105,067 | 10,495,197 | 13,252,503 |
| Total | $10,258,317 | $16,201,830 | $13,971,751 | $16,158,406 |
| *Since January 1.* | | | | |
| Dry Goods | $33,473,832 | $45,418,292 | $40,076,970 | $35,010,640 |
| General Merchandise | 93,039,287 | 146,822,420 | 123,911,397 | 130,887,878 |
| Total 11 weeks | $126,513,119 | $192,240,712 | $163,988,367 | $165,898,518 |

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending March 14 and from Jan. 1 to date:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1908. | 1907. | 1906. | 1905. |
|---|---|---|---|---|
| For the week | $17,824,406 | $13,837,522 | $11,918,224 | $11,913,848 |
| Previously reported | 160,652,382 | 123,809,695 | 126,312,347 | 100,823,262 |
| Total 11 weeks | $178,476,788 | $137,647,217 | $138,230,571 | $112,737,110 |

The following table shows the exports and imports of specie at the port of New York for the week ending March 14 and since Jan. 1 1908, and for the corresponding periods in 1907 and 1906.

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

| Gold. | Exports. Week. | Exports. Since Jan. 1 | Imports. Week. | Imports. Since Jan. 1 |
|---|---|---|---|---|
| Great Britain | ----- | ------- | -- | $3,413,212 |
| France | - - | --- | -- | 198,815 |
| Germany | - - | - - | - - | 7,350 |
| West Indies | $600 | $248,235 | $66,040 | 1,829,422 |
| Mexico | - | - | - | 102,416 |
| South America | 7,000 | 536,475 | 19,101 | 722,200 |
| All other countries | - - | 9,735 | 126,737 | 877,103 |
| Total 1908 | $7,600 | $794,445 | $211,878 | $7,270,518 |
| Total 1907 | - | 1,702,228 | 67,973 | 1,027,518 |
| Total 1906 | - - | 3,652,375 | 23,028 | 501,467 |
| Silver. | | | | |
| Great Britain | $778,015 | $7,606,947 | | $37,316 |
| France | - - | 315,000 | $4,205 | 60,185 |
| Germany | - - | - - | 4,295 | 28,345 |
| West Indies | 2,150 | 130,542 | 1,881 | 91,113 |
| Mexico | - | - - | 612 | 3,695 |
| South America | - | 3,000 | - | 2,548 |
| All other countries | - - | 350 | 15,402 | 111,862 |
| Total 1908 | $780,165 | $8,055,839 | $26,495 | $852,989 |
| Total 1907 | 819,405 | 8,541,137 | 27,355 | 880,179 |
| Total 1906 | 680,740 | 12,878,007 | 27,219 | 523,781 |

Of the above imports for the week in 1908, $50,000 were American gold coin and $8,833 American silver coin. Of the exports during the same time $7,600 were American gold coin and ------ were American silver coin.

**Statement of New York City Clearing-House Banks.**—The detailed statement below shows the condition of the New York City Clearing-House banks for the week ending March 14 The figures for the separate banks are the averages of the daily results. In the case of the totals, however, a departure was made with the statement for Feb. 8, so that in addition to the averages for the week the actual figures at the end of the week are now given.

*We omit two ciphers (00) in all cases.*

| Banks. 00s omitted. | Capital. | Surplus. | Loans. Average. | Specie. Average. | Legals. Average. | Deposits. a Average. | Re- s've. |

| Actual figures this month | | | 1162,961,9 | 237,822,2 | [illegible] | 1179,103,7 | 27.8 |

On the basis of averages "reserve" amounted to $61,406,200 and United States deposits (included in "deposits," $39,260,560; actual figures March 14, Clearing-House, $61,326,000, United States deposits, $42,328,700.

The statements compiled by the State Banking Department, together with the totals for the Clearing-house banks, both the averages for the week and the actual figures at the end of the week, are shown in the following table. In the figures for State banks and trust companies all of these institutions in Greater New York are included.

NEW YORK CITY BANKS AND TRUST COMPANIES.
*Week ending March 14 1908.*

| 00s omitted. | Loans and Investments. | Specie. | Legals. | Deposits. | Reserve on Deposits. | P.C. of Reserve. |
|---|---|---|---|---|---|---|
| | $ | $ | $ | $ | $ | |
| Clearing-House Banks—Actual | 1,[illegible] | 267,[illegible] | [illegible] | 1,179,103,7 | 32[illegible] | 27.82 |
| | +2,056,7 | +659,8 | +1,[illegible] | +4,586,4 | +2,214,3 | |
| Clearing-House Banks—Aver | 1,[illegible] | 264,496,4 | 59,126,0 | 1,171,829,3 | 32[illegible] | 27.61 |
| | —3,[illegible] | 792,3 | +353,6 | 3,871,2 | [illegible] | |
| State Banks— Average | 251,813,2 | 47,140,5 | a5,9[illegible] | 284,315,3 | 79,018,0 | 28.5 |
| | +2,[illegible] | +1,[illegible] | —236,9 | +3,394,3 | +1,[illegible] | |
| Trust Companies —Average | 699,238,8 | 39,561,[illegible] | a5,314,1 | 658,208,0 | 172,921,4 | 26.7 |
| | +[illegible] | +339,2 | 331,8 | +813,2 | —2,030,2 | |
| State Banks and Trust Co's—Not in Clear.-House | 77[illegible] | 42,345,2 | a10,374,7 | b740,353,2 | 192,993,6 | 26.5 |
| | +1,258,4 | +1[illegible] | 213,5 | +956,7 | [illegible] | |

+Increase over last week. —Decrease from last week.
*a* Includes bank notes. *b* After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $1[illegible],178,7[illegible], an increase of $[illegible] over last week's figures.

*Note.*—In the case of the Clearing-House banks the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual figures included U. S. deposits amounting to $48,328,700, a decrease of $4,542,600 from last week; averages included U. S. deposits of $19,260,500, a decrease of $5,213,600 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS & TRUST CO'S OUTSIDE OF GREATER NEW YORK

*Week ending March 14 1908.*

| | Loans. | Increase. | Reserve. | % of Res. |
|---|---|---|---|---|

*Wall Street, Friday Night, March 20 1908.*

**The Money Market and Financial Situation.**—The events of the week affecting business at the Stock Exchange have been for the most part of a character to discourage investors and to cause a decline of security values. The advance movement noted last week was not, as we then stated, based on any real improvement in general conditions, and therefore was of short duration.

Beginning on Monday, liberal sales to secure accrued profits caused a general decline, which has been followed by irregular and featureless markets with a vague, indefinite tendency.

A reduction of the dividend rate on New York Central shares was not wholly unexpected, but its effect was nevertheless depressing, and the announcement of Baltimore & Ohio net earnings for February, showing that they were below the fixed charges for the period, and that for the 3 months ending March 1 they were over $3,000,000 less than for the corresponding months last year, no doubt fairly illustrates the industrial situation of the country.

The Bank of England reports another increase in the percentage of its reserve and reduces its official rate of discount from 3½ to 3%—a rate which has not been in force since September 1905. The local money market remains dull and unchanged in general features

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¾% to 2%. To-day's rates on call were 1¾@2%. Prime commercial paper quoted at 5½@6% for 60 to 90-day endorsements and 5½@6% for best single names.

The Bank of England's weekly statement on Thursday showed an increase in bullion of £615,273, and the per cent of reserve to liabilities was 51.26, against 50.01 last week.

The rate of discount was reduced March 19 from 3½%, as fixed March 5, to 3%. The Bank of France shows an increase of 3,775,000 francs gold and 3,325,000 francs silver.

*Note.*—The Clearing House now issues a statement weekly showing the total of the actual figures on Saturday morning. These figures, together with the returns of separate banks, also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—The market was active and generally higher this week. On Tuesday speculative selling caused a sharp fall, but there was a prompt recovery on the following day due to re-buying of sight bills and to an insufficient supply thereof. The Bank of England rate was reduced to 3%.

To-day's (Friday's) nominal rates for sterling exchange were 4 84@4 84½ for sixty day and 4 87@4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8340@4 8350 for long, 4 8590@4 86 for short and 4 8620@4 8630 for cables. Commercial on banks 4 8315@4 8325 and documents for payment 4 82½@4 83⅝. Cotton for payment 4 82½@4 82⅝, cotton for acceptance 4 8315@4 8325, and grain for payment 4 83½@4 83⅝.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 19⅜@5 18¾*a* for long and 5 17½@5 16⅞*h* for short. Germany bankers' marks were 94 7-16@94½ for long and 95⅛*d*@95⅛ for short. Amsterdam bankers' guilders were 40 13@40 15 for short.

Exchange at Paris on London to-day 25f. 15½c.; week's range 25f. 17½c. high and 25f. 15½c. low.

The week's range for exchange rates follows:

| | Long | | Short | | Cables | |
|---|---|---|---|---|---|---|
| *Sterling Actual—* | | | | | | |
| High | 4 8340 | @ 4 8350 | 4 8605 | @ 4 8610 | 4 8630 | @ 4 8635 |
| Low | 4 8305 | @ 4 8310 | 4 8580 | @ 4 8585 | 4 8605 | @ 4 8610 |
| *Paris Bankers' Francs—* | | | | | | |
| High | 5 19¼ | @ 5 18¾*a* | 5 17½ | @ 5 16⅞ | | |
| Low | 5 20 | @ 5 19⅛ | 5 17½ | @ 5 17½*h* | | |
| *Germany Bankers' Marks—* | | | | | | |
| High | 94 7-16 | @ 94½ | 95⅛*d* | @ 95⅛ | | |
| Low | 94¼ | @ 94⅜ | 95 | @ 95 1-16 | | |
| *Amsterdam Bankers' Guilders—* | | | | | | |
| High | | | 40 13 | @ 40 15 | | |
| Low | | | 40 | @ 40⅛ | | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah 50c. per $1,000 discount; selling 75c. per $1,000 premium. Charleston selling $1 per $1,000 premium. New Orleans bank 25c. per $1,000 discount; commercial 50c. per $1,000 discount. Chicago 20c. per $1,000 premium. St. Louis 65c. per $1,000 premium. San Francisco 50c. per $1,000 premium.

**State and Railroad Bonds.**—No sales of State bonds have been reported at the Board this week.

The market for railway and industrial bonds has been less active, the daily transactions having fallen much below the recent average amount. The market has been steady to firm in tone, showing in a list of 20 active issues 13 higher and 2 unchanged.

Brooklyn Rapid Transit conv. 4s have been the active features of the week and advanced in sympathy with the shares. U. S. Steel 5s have also been conspicuously active and close with a net gain of 2½ points. Colorado Industrial have advanced over 2 points on limited transactions and Wabash & Pittsbu gh Terminals have been active and strong. On the other hand, Mexican Central issues and Interborough-Metropolitan 4½s have lost a part of their recent advance.

**United States Bonds.**—Sales of Government bonds at the Board include $5,500 3s, coup., 1908-18 at 101⅛ to 101⅝ and -$33,000 4s, coup., 1925, at 121 to 122¼. The following are the daily closing quotations; *for yearly range see third page following.*

* This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The stock market has been fairly active, the transactions averaging nearly 750,000 shares per day, but the strength which was a conspicuous feature last week has not continued in force. The upward movement reached a turning point on Monday, followed by more or less irregularity, and closing prices are generally from 1 to 3 points lower than those then recorded.

New York Central was notably weak on a reduction of its dividend rate. Delaware & Hudson sold on Monday 9 points higher than last week and subsequently lost over half the advance. Northern Pacific, Great Northern, Union Pacific and Reading have been active and covered a range of from 5 to 6 points, but all except the former close with only a fractional net change. Brooklyn Rapid Transit has been active and strong throughout the week on rumors of a change of fiscal agents.

Industrial stocks have been relatively steady, generally closing from 1 to 2 points higher than last week.

*For daily volume of business see page 716.*

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

**Outside Market.**—A dull and sluggish market has been experienced in "curb" securities the past week, price movements for the most part being insignificant. Any activity has been confined to mining stocks. Boston Consolidated Copper was weak, sinking from 15½ to 14⅜, the close to-day being at 14¾. British Columbia Copper from 4⅝ reached 5, but receded finally to 4⅞. Butte Coalition sold up from 20½ to 21¼, dropped to 20, but recovered subsequently to 20⅝. Cumberland Ely fluctuated between 8¼ and 8⅞. Douglas Copper declined from 6¾ to 5½, advancing later to 6¼. Greene Cananea sold down from 8½ to 8¼, but closed at 8⅜. Nevada Consolidated Copper was active, the price fluctuating between 11⅛ and 11¾, the close to-day being at 11⅜. Nevada-Utah fell from 4¼ to 3 15-16. Trinity was traded in up from 14½ to 15 and down to 13¾. United Copper common declined from 5 to 4⅞, but sold up again to 5. Nipissing, after an early rise from 7 to 7⅛, was lowered to 6¾. Goldfield Consolidated went up from 5¼ to 5 5-16 and down to 5. The upward movement in American Tobacco was a feature. From 260 it jumped to 309, but sold off to 295 and ends the week at 300. Standard Oil advanced from 509½ to 510 fell to 505 and closed to-day at 509. Consolidated SS. 4s were active and higher, advancing from 10 to 10⅞, a further rise to-day carrying the price to 11¼. Nevada Consolidated Copper 6s "w. i." sold up from 120 to 128 and down to 125.

Outside quotations will be found on page 716.

# Investment and Railroad Intelligence.

## RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from **July 1** to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

| ROADS. | Latest Gross Earnings. Week or Month. | Current Year. | Previous Year. | July 1 to Latest Date. Current Year. | Previous Year. |

## ANNUAL REPORTS.

**Annual Reports.**—An index to annual reports of steam railroads, street railways and miscellaneous companies which have been published during the preceding month will be given on the last Saturday of each month. This index will *not* include reports in the issue of the "Chronicle" in which it is published. The latest index will be found in the issue of Feb. 29. The next will appear in that of March 28.

### American (Bell) Telephone & Telegraph Co.

(*Report for Fiscal Year ending Dec.* 31 1907.)

The report of the company, containing the remarks of President Theodore N. Vail, and the income account and balance sheet, and many tables giving valuable information, will be found on subsequent pages of to-day's "Chronicle." The reports of all the subsidiary companies furnishing the data will be given in a later issue.—V. 86, p. 545, 482.

### United States Steel Corporation.

(*Report for Fiscal Year ended Dec.* 31 1907.)

The annual report signed by Elbert H. Gary, Chairman of the Board, and President William E. Corey, will be fund substantially in full on subsequent pages of to-day's "Chronicle". Given with it are many important tables of operations, balance sheet, &c.

The following tables show the gross total income for the calendar years and the deductions which are made in order to determine the net earnings; also the amounts applied to the payment of interest, dividends, &c., of the Corporation itself, and finally the surplus from the year's operations:

*GENERAL ACCOUNT OF THE COPRORATION AND ITS SUBSIDIARY COMPANIES.*

## Chicago Pneumatic Tool Co., Chicago, Ill.

(*Report for Fiscal Year ending Dec.* 31 1907.)

President J. W. Duntley, Chicago, March 10, says:

An additional plant was purchased during the year, located at Franklin, Pa., in order to increase facilities for the manufacture of rock drills. This plant being located adjacent to one already owned by the company, the two are operated with great economy. A mortgage of $75,000, mentioned under liabilities, was assumed at the time this plant was purchased.

The plants at Aurora, Ill., and Olney, Pa., which were dismantled some years ago in order to consolidate manufacturing operations, were sold during the year, thereby eliminating the expense of maintaining them.

Considerable attention was given to operations of subsidiary companies, located at Montreal, London and Berlin, and an appropriation was made from surplus in order to increase their working capital. Considerable progress has been made in developing the field in foreign countries, as shown by the extended use of our tools, and the additional lines which we have been placing on the market require more money in order to transact the business.

The company's development work has realized substantial success, and its lines of air compressors, pneumatic tools, rock drills and electric tools and appliances are acknowledged as standard.

Mention is made of the fact that the balance of outstanding bond issue account is now reduced to $1,931,594 and its surplus is substantially over $1,000,000.

During the last three months of the year the business of the company was greatly curtailed on account of the prevailing depression, and its showing of earnings for the year therefore considerably reduced. For this reason it was thought advisable to discontinue dividends until such time as the resumption of such disbursements is warranted by increased earnings and better financial conditions. Current liabilities show a decrease during the year of over $184,000, while current assets have increased $95,000. In addition substantial betterments have been made to plants.

RESULTS FOR CALENDAR YEARS.

| | 1907. | 1906. | 1905. |
|---|---|---|---|

## Diamond Match Company.

(*Report for Fiscal Year ending Dec.* 31 1907).

The Audit Company of New York says:

The net profits shown (for 1907) are after ample amounts have been included in operating expenses for repairs, replacements and depreciation, and for the value of stumpage cut from pine lands.

The values of lands, buildings, machinery and equipment as appraised Dec. 31 1906 have been placed on the books; to which has been added the actual cost of net additions during the year. From the value of the pine land and stumpage, as appraised, has been deducted the sum of $703,497 owing to your board of directors not deeming it wise to enhance this value over cost; and from patents, rights, trademarks, &c., has been taken the sum of $917,370, both of which amounts have been written off against surplus.

INCOME ACCOUNT.

| | 1907. | 1906. | 1905. | 1904. |
|---|---|---|---|---|
| | $ | $ | $ | $ |
| Net profits after deduct'g res. for doubt. accts. &c | 2,610,836 | 2,307,623 | *z*1,772,280 | *z*1,653,369 |
| Deprec'n, repairs & replacements ------ | 314,760 | 313,854 | *z*272,280 | *z*153,369 |
| Balance of profits ----- | 2,296,076 | 1,993,770 | 1,500,000 | 1,500,000 |
| Dividends (10%) -- --- | 1,600,000 | 1,550,000 | 1,500,000 | 1,500,000 |
| Surplus - -- ----- | 696,076 | 443,770 | ------- | ------- |
| Prev. sur. (as adjusted) - | 1,387,856 | 888,147 | 1,000,000 | 1,000,000 |
| Total surplus ----- -- | *y*2,083,932 | 1,331,917 | 1,000,000 | 1,000,000 |

*y* From the total surplus, $2,083,932 as of Dec. 31 1907, there has been written off; reduction in value of pine lands and stumpage, $703,497; reduction in patents, rights, trademarks, &c., $917,371; surplus, balance, Dec. 31 1907, $463,064.

*z* The net earnings in 1905 and 1904 are stated above after deducting certain repairs and replacements aggregating about $40,000 in 1905 and $160,000 in 1904. If these items be added to depreciation, as in 1906 and 1907, the combined items, we are informed, would amount to about the same ($313,000) as in each of the last two years. The net earnings in 1905 would then aggregate approximately $1,812,000 and in 1904 about $1,813,000, which amounts compare more closely than those shown above with the net earnings as given for 1906 and 1907.

## Otis Elevator Company.

(*Report for Fiscal Year ending Dec.* 31 1907.)

President W. D. Baldwin, March 10 1908, says:

The year's business has been the largest in the history of the company, not only in volume but also in the net profits. The large amount of uncompleted work carried over from 1906, together with the increased sales i

1907, is reflected in the increased inventories of merchandise on hand, which includes work in process of manufacture.

In accordance with the usual practice, the profits have been made by inventories of raw material and finished stock and depreciation of equipment and for maintenance of plant and improvements.

The factories are in excellent condition, and the large expenditure charged cost during the past year has been substantial evidence of the wisdom of the large expenditures made during past years to enlarge the plant and increasing facilities.

While the outlook for the coming year is not as promising as during the last two years, and while directors do not anticipate a large volume of business in the immediate future, by reason of the prevailing depression in nearly every industry, yet they believe there will be a fair volume, sufficient in any event to operate the various plants of your company on a profitable basis.

The operations of the Ohio Brass Co. companies of Illinois, Pennsylvania, Missouri and Texas are included in the reports below as submitted.

During the first two months of 1908 the current liabilities have been reduced about $750,000.

Out of the earnings of last year's business, the directors have declared a dividend of 3% on the common stock payable 1½% on April 15 1908 and 1½% on Oct. 15 1908.

*RESULTS FOR CALENDAR YEARS.*

## GENERAL INVESTMENT NEWS.

### RAILROADS, INCLUDING STREET ROADS.

**Bainbridge Northeastern RR.**—*Receivership.*—Judge Speer in the United States Court at Savannah on March 2 placed in the hands of Col. J. M. Wilkinson of Valdosta, Ga., as receiver, the property of this 18-mile road between Bainbridge and Swindell in Decatur County, Ga. (only 2 miles of additional road being required to complete the line between the points named); also a saw-mill and some 5,000 acres of timber land in Decatur, Grady and Mitchell counties.

The appointment was made on a bill in equity filed in the case of H. G. Porter of Apalachicola, Fla., against E. Swindell & Co., of Bainbridge, Mrs. Mae Swindell Deaton and Miss Maggie Swindell of Canada, the Bainbridge State Bank and the Deputy Sheriff of Decatur County. Mr. Porter is a creditor of Swindell & Co. to the extent of $15,000 and he brought the suit, the firm assenting to the allegations, to prevent the execution of judgments aggregating $12,000 issued by the City Court of Bainbridge in favor of the Bainbridge State Bank. The property above described is said to be valued at $250,000. Capital stock issued $200,000; bonds none.

**Boston & Northern Street Ry.**—*Preferred Stock.*—The shareholders at their meeting on March 17 ratified the plan to issue $1,250,000 preferred stock. See Massachusetts Electric Companies in V. 86, p. 668.—V. 84, p. 995.

**Boyne City Gaylord & Alpena RR.**—*Ownership, &c.*—See W. H. White Company under "Industrials" below.

**Brinson Railway, Georgia.**—*Bond Issue.*—The shareholders of this company, which was incorporated in Georgia May 15 1906 with $1,000,000 authorized capital stock, and has completed 25 miles of railroad from Savannah to beyond Springfield, Ga., and purchased extensive terminal properties at Savannah, having expended, in all, some $425,000, of which $125,000 in Savannah, will meet at the Savannah Trust Co., in Savannah April 6 to authorize an issue of bonds for the purpose of building and extending the railway through the counties named in its charter. The bond issue is not to exceed $10,000 per mile for the first 100 miles and $15,000 per mile for the remainder of the distance. The application will be considered by the Commission April 8 1908.

The company's charter permits an increase in the capital stock from $1,000,000 to $5,000,000 and authorizes construction of the Savannah-Northwest through Chatham, Effingham, Screven, Jenkins, Burke, Jefferson, McDuffie, Wilkes, Oglethorpe and Clarke counties to Athens, about 180 miles. George M. Brinson of Emanuel County is the President and principal promoter. The other incorporators were Charles Neville, Y. D. Bargeron, W. A. Beale, W. C. Sykes, C. H. Mason, J. D. Mazeman, H. W. DeLoach, E. F. Rogers and W. L. Clarke, all of Emanuel County. According to the "Savannah News" President Brinson has up to present time financed the enterprise without outside assistance. Officers: Geo. M. Brinson, Pres. and Supt.; Chas. Neville, Vice-Pres. and Traffic Mgr.; F. M. Wever, Aud. Office of company, Springfield, Ga.

**Brooklyn Rapid Transit Co.**—*Talk of Possible Relations of J. P. Morgan & Co. with Company.*—Rumors have been in circulation this week that J. P. Morgan & Co. are to become more or less identified with the property through purchase of bonds or stock or otherwise. Whether there is any more basis for the story than that the firm has recently been trading in the refunding bonds does not appear certain.—V. 86, p. 419, 336, 107.

**Canadian Pacific Ry.**—*Increased Dividend from Controlled Company.*—See Minneapolis St. Paul & Sault Ste. Marie Ry. below.—V. 86, p. 601, 545.

**Chicago Great Western Ry.**—*Payment of Coupons.*—The receivers have been authorized by the Court to pay the April 1 coupon on the first mortgage 4% bonds of the Wisconsin Minnesota & Pacific RR. Co.

*Time Extended.*—The time for depositing 4% debenture stock with the Bankers' Trust Co., New York, under agreement of committee, William A. Read, Chairman, has been extended until the close of business April 6 (V. 86, p. 336).

The names of the *English Committee* were given last week, but they were inserted following the item "Chicago & Milwaukee Electric Ry." instead of before it

*Stockholders' Committee.*—Holders of common stock and preferred shares A and B are notified by advertisement on another page that a committee has been formed to protect the interests of all shareholders who shall deposit their certificates with the Guaranty Trust Co., New York, under agreement of March 17. The committee consists of:

John W. Castles, Chairman, Member N. Y. Stock Exchange, Commercial and J. Horace Harriman, with Walker C. Downes as Counsel and Alexander J. Hemphill as Secretary, 28 Nassau St., New York.—V. 85, p. 678, 601.

**Chicago Joliet & Kansas City RR.**—*Not Identified with Chicago & Illinois Western RR.*—Touching this project, which was talked of in 1906, the Dolese & Shepard Co. of Chicago, denying statements current at that time, say: "We are not identified with this enterprise in any way, and the road has no connection with the Chicago & Illinois Western RR. whatever."—V. 83, p. 969.

**Chicago Subway Co.**—*Status of Controlled Property.*—See Illinois Tunnel Co. below.—V. 84, p. 1427.

**Cincinnati Bluffton & Chicago RR.**—*Receiver Appointed—Discharge Expected Shortly.*—At Wabash, Ind., on March 14, General Manager John C. Curtis was appointed temporary receiver of the property in a creditor's suit. The hearing on making the receivership permanent is set for March 28. S. H. Bracey of Chicago, who is President both of the railroad and the construction company, in reply to an inquiry from the "Chronicle" says:

Mr. Curtis was made receiver on petition of attorney to prevent unnecessary trouble. Action taken during absence of officers who consider it unnecessary and expect dismissal shortly.—V. 86, p. 1575.

**Cincnnati Hamilton & Dayton Ry.**—*Exchange of Refunding Bonds for Notes.*—The holders of 4% refunding bonds (outstanding amount $11,558,000) desiring to exchange the same at par for the new collateral purchase money notes, per plan, V. 86, p. 108, are permitted to do so through the committee, James N. Wallace, Frederick Strauss and Mark T. Cox, up to July 15 next. The exchange is voluntary. The new notes are payable to bearer and are in denominations of $1,000 each.

*New Treasurer.*—Assistant Treasurer F. M. Carter has been appointed Treasurer, with office at Cincinnati, Ohio, succeeding J. E. Howard, resigned.—V. 86, p. 337, 108.

**Delaware & Hudson Co.**—*Suit Withdrawn.*—The regular quarterly dividend of 2¼% was paid March 16, the suit in which the temporary restraining order was granted by Judge Ray having been withdrawn late last week. Compare V. 86, p. 668, 546.

**Elmira (N. Y.) Water, Light & Railroad.**—*New Bonds.*—The Public Service Commission, Second District, has authorized the company to issue $372,000 first consols due Sept. 1 1956 at not less than 80% of their par value, to provide for the refunding of certain obligations and for the completion, extension and improvement of the plant. Including this new issue there are $1,604,000 of the first consols outstanding.—V. 83, p. 893.

**Fitchburg RR.**—*New Bonds.*—The shareholders on March 18 voted to rescind last year's authorization of $2,900,000 bonds and approved the creation of $2,400,000 bonds for the purposes stated in V. 86, p. 668.

The new bonds will be 2 year 4s, dated May 1, interest May and Nov. 1 and will probably all be issued.—V. 86, p. 668.

**Grand Trunk Pacific Ry.**—*Bond Offering in London.*—Advices from London are to the effect that of the company's new issue of £2,000,000 4% securities, offered in London this week, the underwriters were obliged to take 50% or more.—V. 86, p. 285.

**Illinois Central RR.**—*Mr. Armour Elected to Succeed Mr. Fish.*—On Wednesday J. Ogden Armour of Chicago was elected a director to succeed ex-President Fish.

*Meeting to Authorize an Increase of Stock.*—The directors on March 18 authorized the calling of a special meeting of stockholders at Chicago on May 18 to vote on an increase of 30% in the capital stock. The total authorized issue of stock will thus be raised from $95,040,000 to $123,552,000. Should the stockholders vote favorably upon the proposition, it is proposed to offer one-half of the new issue to shareholders at par, and the directors are considering the issue of convertible bonds against the other half.—V. 86, p. 668, 602.

**Illinois Tunnel Co., Chicago.**—*Status—Outlook.*—J. B. Russell & Co., 46 Wall St., New York, who placed $17,000,000 of the bonds, in a circular addressed to the security-holders under date of March 10, say in substance:

There have been numerous inquiries the past two years as to why the property did not begin active business. In answer we have invariably stated that it was due to a continual enlargement of the plans for the development of the property. The original builders planned to begin active operation with the general railroad terminal, to which end they purchased the Chicago Dock property; but when the Chicago Subway Co. was formed by the parties in New York who became identified with the company it was decided (early in 1905) to connect additionally with the freight houses of every railroad entering the city before beginning the tunnels for active business. These houses are scattered over a large territory, so that, while the company at first discussed putting in operation 20 miles of tunnels, it has to-day, as the finishing touches are being given, such as installing elevators, &c., over 56 miles of completed tunnels equipped with 56 lb. rails laid in concrete.

This has required an additional investment of approximately $10,000,000, which has been furnished by the personal financial interests in control without offering to the public securities in addition to the $17,000,000 of bonds we sold.

The tunnels are constructed under all the streets in what is known as the "business centre," and also extend six blocks west of the river to Green St.

ten blocks north of the river to Chicago Ave., and on the south to 19th St. At each street corner there are what are termed four-way intersections; these, with sidings in front of business houses, are like sidings to a railroad. Freight Station, three and four way intersections.

*Connections Finished with the Several Railroads.*

Atch. Top. & Santa Fe Ry., 2 in and 2 outbound; Balt. & Ohio Ry., 2 in and 2 outbound; Chi. & Alton Ry., 1 in and 1 outbound; Chi. Burl. & Quincy Ry., 1 in and 1 outbound; Chi. & [illegible] Ry., 1 in and 1 outbound; Chi. & Eastern Ill. Ry., 2 in and 1 outbound; Chi. & Grand Western Ry., 1 Lib and; Chi. Milw. & St. Paul Ry., 1 in and 1 outbound; Chi. Ind. & Louisville Ry., 1 in and 1 outbound; Chi. & N. W. Ry., 2 in and 2 outbound; Chi. R. I. & Pac., 1 in and 1 outbound; Ill. Cent. R.R., 2 in and 2 outbound; Lake Shore & Mich. Sou. Ry., 1 in and 1 outbound; Mich. Cent. Ry., 4 in and 2 outbound; N. Y. Chi. & St. L. Ry., 1 inbound; Pitts. Cin. Chi. & St. L. Ry., 2 in and 2 outbound; Pitts. Ft. Wayne & C. Ry., 2 in and 2 outbound; Wabash Ry., 2 in and 2 outbound; Wisconsin Central Ry., 1.

The connections made with the six passenger terminals gave the company an opportunity to accept a contract from the Government to handle United States mails to and from the stations and the post office, as well as the through mails East and West, which are transferred from station to station. This tonnage has averaged a little over 1,000 cars per day, the handling of which is recognized to have been practically perfect. The multiplicity of tunnels and the plan of operating all trains on the loop system, eliminates the possibility both of head-on collisions and congestion of traffic.

Ninety connections are substantially finished, a number of them being built by lowering the basements of properties to a level with the tunnels, which enables the tunnel cars to run into the basements on grade. The other connections are made by building inclines in front of the properties or running directly under them, and raising the tunnel cars on elevators into the basements of the buildings. The schedule between Marshall Field's warehouse and retail store is one round trip each hour during the entire day. The trains usually comprise 6 or 7 cars.

Coal connections are now operating in several buildings, the trains being run in on a private siding, crossing weighing scales, the coal is then dumped into a pit, from which it is taken by conveyer belts to the furnaces without rehandling.

The two receiving and distributing stations on the north and west sides of the river will be used for freight intended for or received from the several railroads by people whose business will not warrant the expense of a tunnel connection. The station on the north side is 45 ft. deep, 45 ft. wide and 180 ft. long, or equal to 5 stories in height, four being under ground.

The large disposal station will be in operation April 1 1908, for receiving ashes, dirt from excavations and refuse of all kinds. It is located on the river, and the tunnel cars as elevated will dump into scows. After April 1 1908 all dumping of refuse on the Lake front will be prohibited. The advantage of the company's disposal station is, therefore, easily seen.

It is the opinion of eminent experts that the tunnels as constructed have a greater capacity than would be necessary to handle all of the business that will ever be done in the entire business center. That there is business at present to warrant the construction of a property of this magnitude has always been an accepted fact. Our faith in the enterprise is stronger than when we first made an offering of the securities to you.

[The company's mail contract expires July 1 1908 and the Post Office Department, it is understood, is seeking an appropriation to continue the service for four years on a measured scale which, it is stated, would allow the company a sum all profits over and above the interest on the bonds (said to be about $500,000), expended for special equipment and terminal facilities to enable it to do the work.—Ed.]—V. 84, p. 108.

**Indiana Columbus & Eastern Traction Co.**—*Bonds Offered.*—Drexel & Co. and Ervin & Co., Philadelphia, E. H. Rollins & Sons, and Adams & Co., Boston, are offering at 96 and int. a block of "general and refunding mortgage" gold 5s, dated May 1 1906, "total authorized issue, $12,000,000; outstanding (including the amount reserved to retire $1,255,000 divisional liens.—Ed.), $7,600,000." Compare V. 83, p. 37. A circular says:

Mileage, including leased lines, 444.79 miles, in the heart of Ohio. Recently leased to the Ohio Electric Ry. Co., a $25,000,000 corporation which guarantees interest on the bonds as well as 5% dividends on the $1,000,000 preferred stock. With connecting lines in Ohio and Indiana controlled by the same interests, the road forms part of a system of over 1,700 miles.—V. 85, p. 600.

**Louisville & Nashville RR.**—*Bonds Offered.*—Kissel, Kinnicut & Co., 37 Wall St., New York, are offering by advertisement on another page $1,000,000 unified mortgage 4% gold bonds, dated June 2 1890 and due July 1 1940. Authorized issue $75,000,000; outstanding, $36,648,000. A circular says:

This issue is secured by a first mortgage on 728.62 miles, a second mortgage on 1,122.48 miles and a third on 156.92 miles leased, making a total of 2,007.12 miles mortgaged at the rate of $18,256 per mile. A sufficient amount of unissued bonds will be reserved to retire all underlying liens. Dividends have been paid on the capital stock since 1849 as follows: in 1900, 4%; in 1901-1904, 5%; in 1905 and 1906, 6%; 1907, 6%.

*Earnings for Year ending June 30th.*

| | 1907. | 1906. | 1905. |
|---|---|---|---|
| Gross earnings | $48,253,345 | $43,008,996 | $38,517,071 |
| Net earnings (from all sources) | $14,044,397 | $13,642,503 | $13,[illegible] |
| Fixed charges | 7,503,875 | 7,293,981 | 6,[illegible] |
| Surplus after fixed charges | $6,150,521 | $6,348,374 | $6,[illegible] |

The price of the unified 4s between the years 1901 and as ranged from 98 in 1904 to as high as 109 in 1905, and even during the panic of Oct. and Nov. of 1907 the market price did not fall below 92, thereby showing the underlying strength of the bond.—V. 86, p. 421, 357.

**Mexican Southern Ry.**—*Offering of Debenture Stock.*—The shareholders had the right to subscribe until March 16 for £100,000 4% first mortgage debenture stock at 82%, payable 10% on application and 72% on allotment. The proceeds will be used chiefly for the conversion of the line from Tehuacan to Esperanza from a tramway worked by mules into a steam railway of the same gauge as the main line. An English authority says:

The stock so offered is part of a total authorized issue of £1,000,000, of which the last £200,000 cannot be issued unless sanctioned at a meeting of the debenture stockholders. The interest was, until July 29 last, payable only out of profits. But is now payable as a fixed charge, Aug. 1 and Feb. 1. The stock will be secured by a trust deed and mortgage in Mexico as a first charge on the railways from Puebla to Oaxaca (228 miles) and from Tehuacan to Esperanza (52 miles). It is redeemable by means of a sinking fund out of profits sufficient to redeem the whole of the first mortgage debenture stock by June 8 1947, the date of the expiration of the concession for the main line from Puebla to Oaxaca. The amounts so paid by the company are to be applied in purchase of the stock in the open market at not more than par, or in the redemption by annual drawings of stock at par. The principal object of the present issue is to provide funds.—V. 80, p. 222.

**Minneapolis St. Paul & Sault Ste. Marie Ry.**—*Dividend Rate Increased from 4% to 6%.*—The directors on Monday declared a semi-annual dividend of 3% on the common stock, a majority of which has long been owned by the Canadian Pacific Ry. This increases the annual rate from a 4% to a 6% basis. The dividend is payable April 15 to shareholders of record March 27.

| *Dividends*— | 1903. | 1904 | 1905. | 1906. | 1907. | 1908 (Jan.) |
|---|---|---|---|---|---|---|
| Preferred (per cent) | 7 | 7 | 7 | 7 | 7 | April 3% |
| Common (per cent) | 2 | 4 | 4 | 4 | 4 | April 3% |

On June 30 1907 there was outstanding $14,000,000 common and $7,000,000 preferred, of which the Canadian Pacific Ry. owned $7,000,000 common and $3,553,400 preferred. In September 1907 the shareholders subscribed at par for $2,800,000 common and $1,400,000 preferred, subscriptions being payable in installments to and including June 1 1908.—V. 85, p. 1646

**New Orleans (La.) Terminal Co.**—*Notes Offered.*—Potter, Choate & Prentice, Hanover Bank Bldg., New York, are offering at 98¼ and interest, yielding the investor 7¾% interest, a block of the $2,500,000 two-year 6% gold notes, dated 1907 and due April 10 1909. Interest April 10 and Oct. 10. Guaranteed jointly and severally, both as to principal and interest by endorsement on each note, by the Southern Railway Co. and the St. Louis & San Francisco RR. Co., and secured by deposit with the trustee of $4,000,000 first mortgage 4% bonds of the Terminal Company, due 1953, which are also guaranteed by the two railroads.

The company recently completed its new passenger terminal station located at the corner of Canal and Basin streets on a tract of 49 acres in the heart of New Orleans. This station, it is stated, has 10,000 feet of floor space, the upper portion containing the office of the terminal company. The train-shed is described as over 569 feet long, covering four tracks; in addition there are six tracks outside. Besides the aforesaid terminal facilities, extensive river terminals at Port Chalmette and 17.85 miles of belt railroad extending from the Port Chalmette terminal to New Orleans, the company owns considerable acreage on which freight terminals will be located, and additional land with a frontage of about 248 feet on Canal St. which can be used for additional passenger terminals. Compare V. 84, p. 996.

**New York Central & Hudson River RR.**—*Dividend Reduced.*—The directors on Wednesday declared a quarterly dividend of 1¼%, payable on April 15 to holders of record March 24. This reduces the annual rate from 6%, prevailing from Jan. 1907 to Jan. 1908 inclusive, to the old rate of 5%, in effect from 1900 to 1906.

*Dividend Record Since 1892 (Per Cent).*

| '93. | '94. | '95. | '96 to '98. | '99. | 1900 to Oct. 1906. | '07. | 1908. |
|---|---|---|---|---|---|---|---|
| 5 | 5 | 4½ | 4 yearly. | 4 | 5 yearly (Q. J.) | 6 | J.,1½;A. 1¼ |

See statement of earnings for 1907, V. 85, p. 1575, 1577.

**New York New Haven & Hartford RR.**—*B. & M. Amalgamation Favored.*—On Wednesday the special Commission on Commerce and Industry, appointed by Governor Guild of Massachusetts last July, filed with the Massachusetts Legislature a report, signed by a majority of one, favoring the proposed control of the Boston & Maine by the N. Y. N. H. & H. RR. on compliance with certain conditions. One stipulation is that the New Haven road shall, until July 1 1909, accept all B. & M. stock offered to it, giving in exchange therefor, its own stock par for par.

Whether or not the company has violated the Massachusetts statutes in acquiring stock in the street railways, the Commission says, is a question of law now before the Court; but it is recommended that, pending a decision on the matters of law, and policy involved, the company be required, as a condition of acquiring control of the Boston & Maine, to transfer its shares of Massachusetts railway companies to a new corporation, in exchange for the shares of such corporation upon an equitable basis.

*Dividend and Wages.*—The directors on March 14 declared the regular quarterly dividend of 2%, payable March 31 to holders of record March 16.

President Mellen is quoted as saying:

We see no reason at this time for any reduction of wages among our employees and I shall fight any such move to the last ditch. If the present depression continues, something will have to be done. I favor the reduction of dividends first, the raising of rates next, and the cutting of wages only as a last desperate resort.

*Steamship Lines.*—See Hartford & New York Transportation Co. under "Industrials" below.—V. 86, p. 548, 421.

**Old Colony Street Ry.**—*Preferred Stock.*—The shareholders on March 17, approved the proposition referred to last week under Massachusetts Electric Companies (V. 86, p. 668), to issue $750,000 preferred stock.—V. 82, p. 870.

**Pere Marquette RR.**—*Equipment Notes Offered.*—The First National Bank of Chicago is offering at par and interest $900,000 of the $1,600,000 equipment 6% notes, series B, dated March 1 1908, interest payable March 1 and Sept. 1 at office of J. P. Morgan & Co., New York City; First Trust & Savings Bank, Chicago, Ill., trustee. $300,000 due Mch. 1 1909; $300,000 due Mch. 1 1910; $300,000 due Mch. 1 1911.

The notes in this series, amounting to $1,600,000, are issued for the purpose of refunding a portion of a series of equipment notes on which the Pere Marquette was endorser, and through these bonds acquires absolute first lien on the following standard railroad equipment, which cost $2,391,610: 3,650 box cars, 250 stock cars and 900 coal cars. The Pere Marquette, having $300,000 of first refunding bonds available for such a purpose in its treasury, has also deposited these bonds with the trustee as further security for these notes. Compare V. 86, p. 548.

**Quebec Bridge & Railway.**—*Report of Commission.*—The Canadian Commission of Engineers appointed to investigate the causes which led to the fall of the bridge has made an exhaustive report in which they find that defects in the fundamentals of design were overlooked by the engineers in charge. The "Engineering News" of New York, in its issue for March 19, publishes, along with editorial comments, extended extracts from the report. See V. 86, p. 548.

**Spokane & Inland Empire RR.**—*Bonds Offered.*—The bond department of the Harris Trust & Savings Bank, Chicago, is offering for sale $250,000 "first and refunding mortgage" 5% gold bonds, dated May 1 1906. Total authorized issue, $15,000,000; outstanding Dec. 31 1907, $3,925,000; held in escrow to retire prior lien bonds at or before maturity, $1,014,000. The remainder of the bonds may be issued for not to exceed 75% of the cash cost of permanent extensions and additions, but only when the net earnings for the preceding year have been at least twice the annual interest charge on the bonds outstanding and to be issued.

*Abstract of Letter from President Jay P. Graves, Spokane, Wash., Jan. 24 '08.*

The company owns and operates an electrically equipped, high speed railroad system comprising 162 miles of single track, 1.3 miles excepting south from Spokane to Pleasant Prairie, 30 miles extending east from Spokane to Coeur d'Alene City and Hayden Lake, Idaho, including a branch to Liberty Lake; also an electric railroad of 1.31 miles in the city of Spokane, serving the business district, and traversing residential sections, and connecting the valuable freight and passenger terminals of the company.

The company owns a valuable water power plant now nearing completion on the Spokane River, 9 miles below the city, consisting of a concrete dam 60 feet high and a concrete and steel power-house, which will contain hydraulic and electrical machinery capable of generating 10,000 h. p.

The lines of the company should be considered from the steam railroad standpoint rather than from that of the electric railroad, as they transport all kinds of heavy and light freight as well as passengers; have freight and passenger terminals in the heart of the city, and interchange freight with the trunk line steam railroads on favorable terms. Aside from the city mileage the road is constructed, in accordance with standard steam railroad specifications, with 70-pound rails, the only difference being in the form of motive power, which is the most modern type of electrical equipment. Single-phase alternating current is employed in the operation of the Colfax and Palouse lines. For freight operation 50 and 70-ton electric locomotives are used, and the passenger equipment for city and interurban service compares favorably with that of the best roads in the East.

*Earnings for the Half-Year ending Dec. 31 1907.*

(From the operation of the City Railway Lines, the Coeur d'Alene line and an average of a little over one-half of the Colfax and Palouse lines.)

| | | | |
|---|---|---|---|
| Gross earnings | $620,765 | Int. on all bonds now out | *$123,475 |
| Net earnings (after taxes) | 210,239 | Surplus | 86,764 |

*This amount includes interest on $500,000 bonds not issued until after Dec. 31 1907.

Particular attention is directed to the fact that it was not until Oct. 10 1907 that the lines to Colfax and Palouse were placed in operation. The new "Nine Mile Bridge" power plant of the company will very shortly be used in the operation of the company's lines.

"The cash cost of the properties, against which $4,939,000 bonds now outstanding have been issued, is reported by the Audit Company of Illinois to be in excess of $10,350,000, thus showing an equity of more than $5,400,000 which has been provided by the stockholders and expended on the properties." See further facts in V. 83, p. 1291. Compare map on page 101 of "Electric Railway Section."—V. 85, p. 1463.

**San Francisco Oakland & San Jose Consolidated.**—*Consolidation.*—This company, it is stated, has been incorporated with $7,750,000 of authorized capital stock to consolidate the San Francisco Oakland & San Jose Ry. with the San Francisco & Bay Counties Ry., which was recently incorporated to build an electric railway from San Francisco to San Jose. An exchange says:

The company proposes to construct the line from San Francisco to San Jose, to build branches to Northbrae and Claremont, and to connect the main line with Yerba Island by means of a tunnel. The directors are: F. M. Smith, F. C. Havens, E. A. Heron, H. Wadsworth and Dennis Searles of San Francisco.—V. 82, p. 49.

**Seaboard Air Line Ry.**—*No Foreclosure Decree as Yet.*—The statement that a foreclosure decree was recently entered against the company on behalf of the first mortgage bondholders, we learn, was an error. The facts are, it is stated, that an ancillary bill for foreclosure was filed for the purpose of preventing attachment of the Seaboard Air Line cars, and the order of the court was merely one consolidating this proceeding with other proceedings already instituted.—V. 86, p. 669, 604.

**Sharon Ry.**—*New Stock.*—The shareholders will vote March 23 on increasing the capital stock from $800,000 to $1,600,000. The new stock will be issued from time to time for betterments. The road is leased to the Erie RR.—V. 78, p. 288.

**Texas & Pacific Ry.**—*Report.*—Results for calendar year:

| Cal. Year— | Gross Earnings. | Net Earnings. | Other Income. | Fixed Charges. | Dividend on Incomes. | Bal. for Imp., &c. |
|---|---|---|---|---|---|---|
| | $ | $ | $ | $ | $ | $ |
| 1907 | 16,671,668 | 5,093,728 | 110,553 | 2,373,731 | (3½) 863,664 | 1,966,886 |
| 1906 | 14,914,608 | 5,059,685 | 56,017 | 2,032,884 | (5%) 1,233,806 | 1,849,012 |

During 1907 there was appropriated for improvements and equipment $2,226,736 (against $1,518,575 in 1906), after meeting which there was a *deficit* of $259,850 in 1907, against surplus of $330,437 in 1906. The dividends on incomes shown above are those paid March 1 1908 and 1907, respectively. (V. 86, p. 422.)

*Improvements Ordered—Neither Necessary nor Feasible at Present.*—Gen. Mgr. Thorne has informed the Texas Railroad Commission, with reference to its recent order, that while the company proposes to continue a liberal policy with respect to improvements, the management does not feel warranted, under existing money market conditions, in undertaking any extraordinary outlays, nor do they believe such outlays are needed at the present time, the expenditures for new equipment and improvements having aggregated $15,000,000 during the last eleven years. Compare V. 86, p. 669.

**Third Avenue RR., New York.**—*Payment of Overdue Coupon.*—Coupons due Jan. 1 1908 from the $5,000,000 first mortgage 5% 50-year gold bonds were paid on and after March 20 1908 at the office of the Farmers' Loan & Trust Co., trustee, 16 to 22 William St., New York.—V. 86, p. 548, 481.

**Tonopah & Tidewater RR.**—*Guaranty, &c.*—At the annual meeting of the Borax Consolidated, Ltd., held in London on Feb. 28, the Chairman, Lord Lawrence, said:

The directors have arranged to guarantee an issue of £175,000 redeemable 5% sterling bonds of the Tonopah & Tidewater RR., that sum being required to complete the construction of the line. This is in addition to the guaranty originally given in respect to the first mortgage bonds. The railroad is now completed and is connected with the Goldfield & Bull Frog RR., thereby establishing the shortest route from Los Angeles and Southern California to the important mining centres of Bullfrog, Goldfield and Tonopah, and has also opened up very important borate mines in which the company is interested, the latter being the main reason which has induced us to give the guarantee. We have every hope that as soon as conditions in the United States, and particularly in Nevada and California, assume a normal aspect, the railroad will prove a most successful undertaking. V. 85, p. 1210.

**Virginian Ry.**—*Description of Property—Further Facts.*—See "Railroad Gazette" of New York for March 13.—V. 85, p. 1006.

**Western Maryland RR.**—*Both Committees Urge Deposits.*—The committee of "general lien and convertible bondholders," of which Richard Sutro is Chairman, announces, under date of March 16, that it "already controls over 30% of the total issue of the above bonds and about one-third of the stock, and has received promises of further material support." Deposits of stocks and bonds may be with the Bankers' Trust Co., No. 7 Wall Street.

Holders of "general lien and convertible" 4% bonds are notified under date of March 19 by the committee of which Alvin W. Krech has been elected Chairman and Henry E. Cooper Secretary, that "there have been deposited with the committee or pledged by owners absent from New York, a substantial majority" of these bonds. The committee urges that all deposits be made on or before March 25 at the Equitable Trust Co. of New York or the City Trust Co. of Boston.

See the advertisements of the two committees on another page.

*Sale of Bonds at Auction.*—A block of $1,037,000 first mortgage 4% bonds was sold at auction in this city on March 18 at 65⅛.—V. 86, p. 670, 604.

**West India Electric Co., Jamaica.**—*Report.*—For year:

| Year. | Gross. | Net. | Bond Int. | Taxes. | Rental Jam. L. & P. Co. | Surplus |
|---|---|---|---|---|---|---|
| 1907 | $198,845 | $104,040 | $30,000 | $6,953 | $10,000 | $57,087 |
| 1906 | 165,776 | 87,251 | 30,000 | 6,326 | -- | 50,925 |

—V. 85, p. 215.

## INDUSTRIAL, GAS AND MISCELLANEOUS.

**Adams Express Co.**—*No Extra Dividend This March.*—In addition to the regular semi-annual dividend of 4% each paid in June and December, the company distributed yearly in March from 1903 to 1907, both inclusive, an extra 2% from proceeds of sale of certain real estate. On inquiry as to what distribution would be made this month, we are informed "no dividend in March. Dividend dates are June 1 and Dec. 1." Last June a 200% dividend was paid in 4% collateral trust bonds.—V. 85, p. 1647.

**Alabama Consolidated Coal & Iron Co.**—*Plan Abandoned.*—Owing to the objection of a small minority of stockholders to the plan (V. 86, p. 604) to exchange the preferred stock for a new issue of third mortgage bonds, the management has determined to abandon the same.

The objection was based on the fact that a recent examination by expert accountants to form part of the annual report, to be issued within a day or two, showed that the earning power of the property makes it undesirable to exchange a 7% cumulative preferred stock for a 5% third mortgage bond.—V. 86, p. 604.

**Amarillo (Tex.) Water, Light & Power Co.**—*Stock Increase.*—A certificate was filed at Austin on Feb. 18 increasing the capital stock, it is stated, from $100,000 to $200,000.

**American Ice Co., New York.**—*Consolidated Mortgage.*—A mortgage has been filed to the United States Trust Co. of New York as trustee, covering the plants of the company in Kings, Queens, Nassau, Putnam, Dutchess, Rensselaer, Albany, Ulster, Greene and Columbia counties in the State of New York, to secure an issue of $500,000 6% consolidated mortgage bonds of $1,000 each dated March 2 1908 and due March 1913. The issue is a temporary expedient for use as collateral pending the return of more favorable money market conditions.—V. 86, p. 287, 51.

**American Locomotive Co.**—*Negotiating Order for 148 Locomotives.*—See New York Central & Hudson River RR. under "Railroads" above.

*Preferred Stock.*—Harvey Fisk & Sons, have issued a circular regarding the position of the company's preferred stock in relation to earnings, property, owned &c.—V. 85, p. 1340, 1210,

**American Sewer Pipe Co., Pittsburgh.**—*Dividend Action Postponed.*—The directors have postponed action on the quarterly dividend until April 22. On Oct. 1 1907, and again on Jan. 1 1908, ½ of 1% was paid, contrasting with ¾% quarterly July 1904 to July 1907, both inclusive. Stock now $7,000,000. Compare V. 85, p. 724.—V. 86, p. 339, 479.

**American Steel Foundries.**—*Adjourned till April 18.*—The shareholders' meeting has been adjourned till April 18, when it is hoped that the assents to the plan, now over 75% of each class of stock, will be sufficiently general to warrant the adoption of the plan. Compare V. 86, p. 605, 170.

*Earnings.*—For half-year ending Jan. 31 1908:

*Results for Half-Year—Company and Subsidiaries.*

| | | | |
|---|---|---|---|
| Net earnings | $824,225 | Interest on bonds | $116,150 |
| Other income | 21,934 | Sinking fund | 52,500 |
| | | Depreciation | 111,500 |
| Total net income | $946,159 | Total deductions | $280,150 |
| Balance, surplus | | | $566,009 |

Compare statement for quarter ending Oct. 31 1907 in V. 85, p. 1463.—V. 86, p. 482, 422.

**American Telephone & Telegraph Co.**—*Annual Reports.*—See subsequent pages of this issue.

*Earnings.*—For the first two months of 1908 and 1907:

| Two Months ending Feb. 29— | 1908. | 1907. |
|---|---|---|
| Income from Dividends | $3,403,567 | $3,029,891 |
| Interest and other revenue from associated and licensed companies | 1,656,081 | 970,589 |
| Telephone traffic (net) | 697,830 | 628,565 |
| Real estate | 18,226 | 4,750 |
| Other sources | 117,553 | 88,195 |
| Total income | $5,893,257 | $4,721,990 |
| Expenses | 341,211 | 325,133 |
| Net earnings | $5,552,046 | $4,396,857 |
| Deduct Interest | 1,280,941 | 1,094,226 |
| Balance, surplus (for dividends) | $4,271,105 | $3,302,631 |

[Dividends for two months at the present annual rate (8%) on the $152,484,855 capital stock calls for $2,033,131.—Ed.]—V. 86, p. 545.

**Consolidation Coal Co. of Maryland.**—*Report.*—The results for the year ending Dec. 31 were:

| Year. | Gross. | Net. | Other Income. | Charges, &c. | Dividends. | Balance, Surplus. |
|---|---|---|---|---|---|---|
| 1907 | $4,643,804 | $1,744,030 | $374,195 | $646,816 | (8%) $820,000 | $651,499 |
| 1906 | 4,310,608 | 1,522,580 | 497,232 | 591,108 | (8%) 820,000 | 608,704 |
| 1905 | 4,165,437 | 1,336,359 | 312,047 | 631,117 | (6%) 615,000 | 402,289 |

*New Directors.*—J. E. Watson, William H. Grafflin and William Winchester have been elected directors, to succeed Grier Hersh, Walton Miller and George A. Von Lingen, the latter deceased.—V. 85, p. 1579.

**Corn Products Refining Co., New York.**—*Extra Dividend Reduced.*—The directors on Tuesday declared the usual quarterly dividend of 1% on the $28,392,500 (7% cumulative) preferred stock and an extra dividend of 1%, making 5% for the year. This compares with 7% declared in the preceding year. President Bedford gave out substantially the following:

When the company acquired the capital stock of the Corn Products Co., certain of the works of the latters' subsidiary companies were found to be in a deplorable condition. The policy was immediately adopted of devoting a large portion of the profits of those companies to putting all the plants in a position to compete with the most modern works. It was believed that this could be done without suspending any portion of the preferred stockholders' dividend and the appropriations for 1907 were made with that end in view.

It has turned out that through the reduction of business in the latter part of the year and the unexpected outlay made necessary by the new food laws (the latter cost amounting to $500,000) the board feels constrained to ask forebearance of the preferred stockholders' for the present to the extent of all wing the 2% dividend applicable to this year to be made later. While this is a great disappointment temporarily, it is believed that a little self-denial at this time will be amply rewarded in the near future.

The company last year, it is said, spent nearly $2,000,000 for new construction and betterments. The earnings for the fiscal year ended Feb. 29 are reported to have been slightly less than in the preceding year. Up to the time of the panic an increase was shown.—V. 85, p. 527, 348.

**Crucible Steel Co. of America, Pittsburgh.**—*No Dividend at Present.*—The directors at their meeting in Pittsburgh on March 16 decided to postpone action on the preferred stock dividend. This is understood in Pittsburgh to be equivalent to a temporary suspension of dividend distributions. There is $24,436,500 preferred stock and it is entitled to cumulative dividends at the rate of 7% per annum.

*Dividend Record of Preferred Stock (Per Cent.)*

| 1900. | 1901 | 1902. | 1903. | 1904. | 1905. | 1906. | 1907. |
|---|---|---|---|---|---|---|---|
| 1¾ | 7 | 7 | 5¼ | none | (Dec. 29) 1% | 6 | 5½ |

Total accumulated dividends to March 31 1908 about 19%

The following financial statement was given out showing profits and losses from operations after charging all expenses incident thereto, including those for repairs and maintenance of plants, interest and fixed charges.

*Financial Statement for Half-Year Ending Feb. 29 1908.*

| | | | |
|---|---|---|---|
| September 1907, profit | $139,356 | December 1907, loss | $56,730 |
| October 1907, profit | 174,203 | January 1908, loss | 23,070 |
| November 1907, loss | 13,865 | February 1908, loss | 42,325 |
| Net profits, six months | | | $177,569 |
| Add income from investments | | | 2,400 |
| Total income | | | $179,969 |
| Reserve for contingencies | | | 5,836 |
| Net income for half-year | | | $174,133 |
| Charged off in adjustment of inventory values of raw and process materials: (Nov. 1907, $108,569; Dec. 1907, $225,685; Jan. 1908, $66,065; Feb. 1908, $25,973) | | | 426,292 |
| Dividend No. 21 on pref. stock, 1%, paid Dec. 31 1907 | | | 244,365 |
| Total | | | $670,657 |
| Deficit for half-year | | | $496,524 |
| Surplus Aug. 31 1907 | | | $2,457,284 |
| Surplus Feb. 29 1908 | | | $1,960,760 |

Unfilled orders Aug. 31 1907, 101,910 tons; Feb. 29 1908, 76,621, tons.

The condition of the company's plants has been fully maintained, $265,246 having been charged against the operations of the six months.—V. 85, p. 1579, 1521.

**Deschutes (Ore.) Irrigation & Power Co., Columbus, O.**—*Coupons to Be Surrendered to a Committee.*—The company being at the moment unable to meet the semi-annual interest due March 1 1908 on its $359,000 first mortgage 6% bonds, an agreement, approved by the principal bondholders, was unanimously endorsed at a bondholders' meeting Feb. 10, in accordance with which the bondholders agree to surrender to a committee the coupon due March 1, and also, if the committee so requests, the coupon due Sept. 1 1908. The company is expected eventually to pay these coupons with interest at 6%, but if it fails to do so, or in the event of a receivership, the bonds themselves are to be deposited with the committee, in that case the agreement will terminate Feb. 28 1909 unless steps looking to reorganization or liquidation have been taken. The committee consists of H. S. Waite, Caleb McKee, F. N. Sinks and R. J. Bulkley. The bondholders are requested to sign and return the agreement to F. N. Sinks, Capitol Trust Bldg., Columbus, Ohio.

President H. D. Turney gives the following information:

The company will owe on March 1 1908 in current bills, pay-rolls and bond interest about $40,000, which it will not have the money to meet. Of this amount, the bond interest, is, approximately, $11,000. It is believed that, relieved of the bond interest, the company will be able to carry the remainder of the indebtedness until the spring sales of land.

With the completion of the unit now in progress of construction the company will have ready for sale 28,141 acres, which, at $25 per acre, will yield $703,525. This work, it is estimated, will cost $30,000, and but little further outlay will be necessary until the railroad reaches the territory.

There have been sold to date about 41,000 acres of land. No sales were made last season, owing to delay caused by a re-valuation of the land by the State Land Board, which accounts for the depleted condition of the treasury at the present time, but good sales are looked for with the coming spring, the returns from which should give the company ample funds. Compare V. 79, p. 2750.

**Dominion Coal Co.**—*Dispute with Dominion Iron & Steel Co —Statement by President Ross.*—On a subsequent page we publish the statement made by President James Ross at the annual meeting held in Montreal on March 5 regarding the dispute with the Dominion Iron & Steel Co., which is now on appeal to the Privy Council in London, Eng. Compare V. 86, p. 609, 172; V. 85, p. 724; V. 86, p. 609, 605.

**Electric Storage Battery Co.**—*Report.*—For calendar year:

| Year. | Gross. | Net. | Other Inc. | Dividends. | Bal., Sur. |
|---|---|---|---|---|---|
| 1907 | $1,075,227 | $688,206 | $133,069 | (5%) $812,450 | $8,825 |
| 1906 | 1,331,800 | 930,707 | 128,666 | (5%) 812,450 | 246,923 |
| 1905 | 1,467,487 | 1,078,455 | 135,532 | (5%) 812,440 | 401,547 |

*New Directors.*—Francis E. Bond, A. C. Humphreys and William D. Winsor have been elected directors to succeed H. P. Whitney, Thomas Dolan and H. H. Vreeland, resigned.—V. 86, p. 483.

**Empire Oil & Development Co., New York.**—*Proposed New Bond Issue.*—The shareholders will meet at the office of the company, 299 Broadway (Room 1419), New York, March 19 to vote on issuing $4,000,000 6% 10-year first mortgage bonds.

The company was incorporated in October 1905 under the laws of Arizona with $10,000,000 authorized capital stock. The directors are: Leslie B. McMurtry, President; Frank H. Searls, Treasurer; C. Wesley Thorne, Secretary; Frank E. Harrison, and Emil A. Hoeppner. All facts as to extent and location of property withheld.

**Empire Steamship Co. of Buffalo.**—*Bonds Offered.*—Meadows, Williams & Co., Buffalo, N. Y., are offering at 98 and interest to net the investor 5¼ to 6¼% per annum, $100,000 first mortgage 5% gold bonds covering the new steel (freight) steamship *Wm. H. Truesdale.*

Bonds dated April 15 1908, payable in 10 annual installments beginning Jan. 1 1910; denominations $500 and $1,000; interest Jan. and July; Cleveland Trust Co. of Cleveland, O., trustee. Contract price of steamship, $295,000; extras, about $5,000; bonds authorized, $100,000. Vessel, 452 ft. over all; 52 ft. beam; 28 ft. depth of hold; carrying capacity, 8,000 tons. The company will be under the management of Brown & Co., vessel agents, Capt. J. J. H. Brown being one of the directors.

**Fairmont Coal Co.**—*Report.*—This company, controlled by the Consolidation Coal Co. of Maryland, reports:

| Cal. Year. | Gross Earnings. | Net Earnings. | Other Income. | Charges to Inc. | Dividends Prev. Year. | Balance, Surplus. |
|---|---|---|---|---|---|---|
| 1907 | $4,860,327 | $1,444,028 | $579,273 | $836,511 | (2%) $240,000 | $946,790 |
| 1906 | 4,516,588 | 1,335,258 | 448,524 | 710,353 | (4½) 540,000 | 533,429 |
| 1905 | 3,518,674 | 669,709 | 320,996 | 618,389 | (2%) 240,000 | 132,316 |

—V. 85, p. 1579.

**Frost-Johnson Lumber Co., St. Louis, Mo.**—*Bonds Offered*—Clark L. Poole & Co., First National Bank Building, Chicago, are offering at par and interest $900,000 of an authorized issue of $1,500,000 6% "first and refunding mortgage" gold bonds, dated Jan. 1 1908. Denomination $1,000 and $500 each (c*). Bonds payable in series, $60,000 Jan. 1 1912 and $60,000 each six months thereafter up to and including Jan. 1 1919, but redeemable, any or all, on any interest day on 60 days notice at 103 and interest at company's option. Principal and interest guaranteed by C. D. Johnson of St. Louis (President); E. A. Frost of Shreveport, La. (Vice-President); and N. W. McLeod of St. Louis (Secretary and Treasurer). Principal and interest payable at Central Trust Co. of Illinois, trustee, Chicago. A circular says in part:

This mortgage is a first lien on about 78,800 acres of uncut virgin timber lands, located in Livingstone and St. Helena Parishes, La., heavily timbered with short leaf yellow pine and hardwoods. The mortgage will also be first lien on all saw mills, planing mills, dry kilns, &c., that the company may now or hereafter build for the manufacture into lumber of the timber standing on these lands. Careful estimates by Lemieux Bros. & Co. show short leaf yellow pine, 496,805,000 feet; hardwood, 149,620,000 feet cypress, 720,000 feet; total, 647,145,000 feet. The pine timber alone is worth $4 per 1,000 feet ($25 20 per acre). This mortgage is at the rate of $1 81 per 1,000 feet of pine timber ($11 40 per acre).

None of the timber covered by this mortgage is to be cut for four years from the date of this bond issue and the mortgage requires that $4 per 1,000 feet, log scale, for all pine timber cut and manufactured into lumber shall be applied to the payment of the principal only.

*Abstract of Letter from President C. D. Johnson, St. Louis, Jan. 23 1908.*

The company is a Missouri corporation with a paid-up capital of $1,500,000. (The total "capital and surplus" is stated as $2,896,357, and it owns 89,105 acres of timber lands, including those covered by this mortgage and others adjacent thereto.—Ed.). The principal stockholders are C. D. Johnson, Pres.; E. A. Frost, Vice-Pres.; N. W. McLeod, Sec. and Treas.; H. H. Wheless and F. T. Whited, of Whited and Wheless, Alden Bridge, La.; Capt. Geo. Locke, New Orleans, La.; C. W. Mansur, Gen. Mgr., John Deere Plow Co., St. Louis; W. A. Rosenfield, President Moline Wagon Co., Moline, Ill.; C. W. Nelson, Asst. Gen. Mgr. Cotton Belt RR., St. Louis. All of the officers have had many years' experience in the lumber business in the South. Messrs. Johnson, Frost and McLeod are large stockholders in and directly responsible for the management of the Union Saw Mill Co., of Huttig, Ark., and other lumber companies.

The authorized bond issue is $1,500,000, of which $900,000 have been issued; the remaining $600,000 are held in escrow and can be issued (at the rate of $2 per 1,000 feet of additional pine stumpage acquired.—Ed.) only in part payment for additional timber lands, located adjacent to those now owned. The proceeds of the $900,000 bonds issued are to be used to retire obligations and to purchase additional timber. The manufacturing plants will be located on the Baton Rouge Hammond & Eastern Ry., as near the centre of the timber holdings as possible.

**Georgia Telephone & Telegraph Co., Savannah.**—*Sold.*—See Southern Bell Telephone & Teleg. Co.—V. 76, p. 385.

**Hamilton Iron & Steel Co., Hamilton, O.**—*New Enterprise.*—In order to preclude the confounding of this company with the Hamilton Steel & Iron Co. of Ontario, to which reference is made below, it should be said that the Hamilton Iron & Steel Co. was incorporated under Ohio laws on April 3 1907 with $1,800,000 capital stock, in order to erect large blast furnaces in a suburb of Hamilton, Ohio. On April 18 a mortgage was made to the Cincinnati Trust Co., as trustee, to secure an issue of $1,000,000 6% bonds due 1927, of which $500,000 are outstanding; interest payable semi-annually. The plant is in course of construction and is to be completed by June 1 1908. The officers of the Ohio company were at organization:

George L. Pearson of Pittsburgh, President; Edwin L. Ohl, also of Pittsburgh, Vice President and Chairman of the Executive Committee; R. E. Field, Secretary-Treasurer; N. S. Kieth, W. R. Todd and F. F. Dinsmore of Cincinnati, and O. V. Parrish of Hamilton, directors.

**(The) Hamilton Steel & Iron Co., Ltd., Hamilton, Ont.**—*Re-Incorporation.—Stock Increase.*—This company was incorporated on Aug. 20 1907 under the Canadian Companies Act with $5,000,000 capital stock divided into 50,000 shares of $100 each, with a view to taking over the property of the Hamilton Steel & Iron Co. of Hamilton, Ont., manufacturer of pig iron, open-hearth steel, iron bars, railway spikes, forgings, &c. The old company has outstanding $1,517,600 capital stock (in $100 shares), which has of recent years received dividends at the rate of 6% per annum. No bonded debt. (Compare V. 85, p. 1521; V. 79, p. 1644.) The Canadian papers have been reporting that the shareholders of the old company would be given "over three shares" of stock in the new company in exchange for each share held in the old corporation, in order to make the capitalization equal to the value of the property. Under date of Feb. 10, however, Secretary and Treasurer H. H. Champ writes:

The article in regard to the sale of this company to a new company, the old shareholders to receive over three shares of the new company, is incorrect. It is quite true that a charter has been issued to a company with the same name as the present company and with a capitalization of $5,000,000, and a notice was sent out to our shareholders advising them that they would be entitled, on the surrender of their old certificates, to new stock in the new company. The amount of this new stock has not as yet been settled, but under the most favorable circumstances the amount of the new stock would not exceed two shares of the new stock for one of the old stock; but owing to the present stagnation in the iron and steel trade, it is easily possible that this will be reduced. The matter will not be settled by the board of this company for several months yet, and it will altogether depend on the conditions of the iron and steel trade at that time.

*Circular Sent to the Shareholders Jan. 6 1908.*

Pursuant to the instructions received at the last annual meeting, the directors have incorporated a new company, with an authorized capitalization of $5,000,000, and an agreement has since been entered into with the new company by the directors, which agreement is to be completed by the 30th of April next. Before that date a circular will be sent to each shareholder, requesting him to send his certificate of shares to H. H. Champ and C. S. Scott, who will be appointed trustees for the shareholders, and they will issue a receipt for each certificate received, which receipt will entitle the holder to receive a certificate in the new company for the increased number of shares to which he will become entitled in the new company. The certificates for the stock in the new company will be issued as early as possible after the 30th of April. Any dividend that may be declared for the quarter ending April 30 and payable on May 15 will apply only on the shares of the present company of record April 30 1908.

Charles S. Wilcox is President and Robert Hobson Vice-President and General Manager. Compare Hamilton Iron & Steel Co. of Ohio above.—V. 85, p. 1521.

**Hamilton Watch Co.**—*New Stock.*—This Pennsylvania corporation has filed a certificate of increase of capital stock from $500,000 to $1,000,000.

**Hardware & Woodenware Manufacturing Co.**—Judge Martin in the U. S. Circuit Court in this city on Feb. 8 upon application of Orville R. Noble and Ralph B. Cooley, of Granville, Mass., holders of unpaid notes, represented by Masten & Nichols, as counsel, of this city, appointed Nicholas H. Colwell receiver. The company in 1907 took over the property and business of the National Novelty Corporation (V. 77, p. 403, 454; V. 81, p. 612). James R. Burnet, the receiver's counsel, issued the following statement:

The company is capitalized at $3,750,000. According to its last statement the assets are untied, exclusive of good will, to approximately $5,500,000, against liabilities of approximately $1,160,000. It is believed the quick assets consisting of materials, supplies and merchandise in process of manufacture and on hand, exceed the entire liabilities. I am informed the company's embarrassment is due to the contraction of bank credits during the recent financial stress. During the last year the company has retired an issue of first mortgage bonds amounting to $1,250,000, together with other mortgage liens amounting to nearly $500,000, and in addition it has had to face a contraction of bank credits amounting to over $2,000,000.

The officers state that, under prevailing conditions, they are unable to procure adequate loans to carry on the business. A plan for the financial relief of the company, looking to the payment of all its liabilities and the continuation of the business is the under consideration by a committee of the directors and stockholders now.

[On March 3 the receivers were authorized to pay the preferred claims held by employees.—Ed.] V. 85, p. 1146.

**Hartford & New York Transportation Co.**—*New Stock.—Acquisition.*—The directors of this steamship auxiliary of the N. Y. N. H. & H. RR. Co. have voted to increase the capital stock from $750,000 to $2,000,000. The "Hartford Courant" of March 3 said:

An announcement was made yesterday by General Manager C. C. Goodrich of the Hartford & New York Transportation Co. to the effect that this company is to purchase the property and good will of the United States Transportation Co., which as a holding company of the New York New Haven & Hartford RR. Co. controls the Joy Line between New York and Providence, R. I., and the Neptune Line, which runs between New York and Fall River, Mass. The U. S. Transportation Co. also controls the Maine Steamship Co., which runs between New York and Portland, Me. The Neptune Line has done a large freight business, but notice was issued yesterday that the service would be discontinued for the remainder of the winter season, owing to the falling off in business. V. 86, p. 172.

**Hudson Navigation Co., New York and Albany.**—*New Bonds.*—In our issue of Jan. 11 1908 attention was called to the sale at auction of à "bond (payment) certificate calling for $50,000 at par of 5% bonds, with stock bonus, on which 25%, viz., $12,500, has been paid, remaining 75% being due in various installments between May 1907 and May 1908." This certificate, it appears, represents part of a proposed issue of $1,000,000 bonds of $1,000 each, for which the shareholders were asked to subscribe early in 1907, the intention having been to secure the issue by a first mortgage on the two new boats, the *Trojan* and the *Princeton*, which, it was said, would cost $1,500,000. These boats, it is stated, are now carried on the books at $1,000,000—presumably the cost to date.

In the new $4,000,000 6% gold mortgage recently filed, due in 1938, the company agrees that the first $1,000,000 bonds issuable thereunder shall either be issued in exchange for the aforesaid bond payment certificates issued or to be issued by the company or be delivered in place of such bond payment certificates, or if the company shall deem it necessary to carry out the plan to place the steamboats *Princeton* and *Trojan* under the lien of the $1,000,000 mortgage, then for exchanging par for par the 1,000 bonds or any part thereof secured thereby for the bonds which may be issued under the new $4,000,000 mortgage.

The $4,000,000 6% gold bonds due 1938 (interest payable in Aug. and Feb.) are issuable for the above mentioned and other purposes as follows:

| | |
|---|---|
| Issuable in exchange for, or in place of, certain [illegible] bond payment certificates or for the bonds called [illegible] | $1,000,000 |
| Of which to be certified immediately and delivered to Treasurer of company | 300,000 |
| To be used from time to time upon [illegible] board of directors | 700,000 |
| To be reserved and issued in exchange, bond for bond, for bonds of the issue of $1,000,000 5% collateral [illegible] Hudson Navigation Co. dated Jan. 1 1903 and [illegible] 1923, but subject to call at par and interest [illegible] | 970,000 |
| To provide for the completion of new [illegible] purchase of construction, for acquiring bonds [illegible] Co. of Troy, payable Feb. 1 1919 (see V. [illegible] for acquiring debenture notes and the [illegible] Company, in cancellation of outstanding obligations [illegible] incurred for the purpose of [illegible] and for other purposes [illegible] | 637,000 |
| To be certified from time to time by vote [illegible] delivered in exchange, par value [illegible] the New Jersey Steamboat Co., which [illegible] 1921, and secured by a mortgage to the Farmers' Loan & Trust Co., dated March 2 1893 | 1,393,000 |

*Floating Debt, &c.*—"New York Times" of Feb. 29 said:

The stockholders learned the night before [illegible] detail of the annual dividend of 2½% in bonds of the Metropolitan Steamship Co. instead of in cash, that their surplus of $882,000 [illegible] bonds of the Hudson Navigation Co. (Metropolitan Steamship Co.). The Hudson Navigation Co.'s net profits from operations during the "open season" on the river totaled less than $360,000. These earnings were subject to taxes, bond interest and fixed charges, which [illegible] estimated at around $650,000.

Another investment of the [illegible] stockholders in general had not been informed was [illegible] $500,000 of Clyde Line bonds, $25,000 of New York & Cuba Mail Steamship Co. and $400,000 of the Consolidated Steamship Co. bonds.

The floating debt of the company, [illegible] by the management early this month, totals over $827,000, [illegible] to for $100,000 endorsed jointly by the company and C. V. Sh[illegible] which an attachment was taken out against the company's property [illegible]. The heaviest indebtedness is to the National Bank of [illegible] America, for which a note for $175,000 was given, secured by [illegible] Steamship bonds and 50 bonds of the Metropolitan Steamship Co. V. [illegible], p. 1146, 483.

**Inter-State Telephone Co., Spokane, Wash.**—*Status.*—An exchange paper recently said:

Six per cent 20 year sinking fund gold bonds were put on the market with a 25% bonus in preferred stock. The company [illegible] sold one issue of $[illegible],000 of bonds and built 300 miles of [illegible] line into Northern Idaho.

**Keystone Watch Case Co.**—*Additional Stock Listed.*—The Philadelphia Stock Exchange has listed $551,400 additional stock, making the total amount listed $551,400. Compare V. 86, p. 288.

**King-Crowther Corporation, Boston.**—*Receiver for President King.*—Judge Dodge in the United States District Court at Boston on March 12 appointed Jeremiah Smith Jr., as receiver for the affairs of the company's President and promoter, C. F. King, on complaint of John G. McCarthy, who holds a claim for $2,967 against Mr. King. Mr. McCarthy alleges that search has failed to reveal the present whereabouts of Mr. King.—V. 85, p. 1516.

**La Crosse (Wis.) Water Power Co.**—*Status—Bonds Offered.*—The Trowbridge & Niver Co., Chicago, is offering at 93 and interest, yielding over 5⅓% interest, $500,000 1st mortgage 5% gold bonds, dated April 2 1906 and due April 1 1931, part of a present issue of $1,500,000 due at various dates; total authorized issue $3,000,000. The remaining bonds are to provide for enlargements. Compare V. 84, p. 807. A circular says:

At Hatfield, Wis., on the Black River, [illegible] of La Crosse and 48 miles from Winona, this company has [illegible] solid concrete dam and is now finishing a canal two miles [illegible] its power-house, where a clear fall of 97 feet is [illegible]. The transmission lines carried on steel towers will transmit power [illegible] to Winona, La Crosse and other nearby cities in [illegible]. Long-time contracts aggregating over $150,000 per annum [illegible] sale of power have already been entered into, representing [illegible] power, and the immediate sale of all the power available is assured. When the product of the present installation of 8,000 [illegible] is sold, the gross revenue will amount, it is estimated, to three times the interest charges, with only one-half the power utilized.—V. 84, p. 807.

**Lake Superior Corporation.**—*Earnings.*—For the 6 months ending Dec. 31 earnings of subsidiary companies were:

| | | | |
|---|---|---|---|
| Gross earnings | $5,393,601 | Interest on bonds | $93,123 |
| Expenses | 4,559,941 | Int. on Sup. 1st M. bds. | 214,000 |
| Net earnings | $833,659 | Balance | $526,066 |

The balance as above, $526,066, compares with $[illegible],039 for the fiscal year ending June 30 last and $[illegible],856 in the year 1906-07. The full 5% dividend on the $5,000,000 [illegible] preferred stock, payable Oct. 1, calls for $150,000 yearly. The floating debt is now $[illegible] less than a year ago.

*Annual Meeting.*—The annual meeting, which has been adjourned a number of times because of the injunction preventing the vote on 50,174 shares of stock held as collateral, will be held on April 6.—V. 86, p. 671.

**Lehigh Coal & Navigation Co., Philadelphia.**—*New Stock Issue Possible.*—The Philadelphia financial papers understand that at a special meeting of the executive committee on March 19 it was agreed to recommend to the board an allotment of 10% ($1,730,500) of new stock at par to stockholders at the next dividend period, to provide for improvements on the Lehigh & Hudson and the Lehigh Canal, and for other purposes.—V. 86, p. 549, 483.

**Monongahela River Consolidated Coal & Coke Co., Pittsburgh, Pa.**—*Operations.*—For three months ending Jan. 31:

| 3 Mos. to Jan. 31. | Total Tons. | Gross Earns. | Deductions—Royalty. | Deprec. | Taxes. | 1st M. Int. | Balance, Surplus. |
|---|---|---|---|---|---|---|---|
| 1908 | $1,941,007 | $599,012 | $132,717 | $97,609 | $30,000 | $127,755 | $201,931 |
| 1907 | 1,546,562 | 520,039 | 87,630 | 81,487 | 30,000 | 129,635 | 191,297 |

—V. 86, p. 232.

**National Fire-Proofing Co.**—*Earnings for Calendar Year.*—

| Cal. Year. | Net Earnings. | Pref'd Divid'd. | Replac'm't Reserve. | Adjustments. | Balance, Surplus. |
|---|---|---|---|---|---|
| 1907 | $502,223 | (4%) $316,020 | $100,000 | | 86,213 |
| 1906 | 943,180 | (3%) 237,015 | $100,000 | 48,353 | 557,812 |

—V. 84, p. 807.

**National Novelty Corporation.**—*Successor Company.*—See Hardware & Woodenware Mfg. Co. above.—V. 85, p. 1146.

**Nevada-California Power Co.**—*Bonds Offered.*—Mason, Lewis & Co., Chicago, Philadelphia and Boston, are offering at par and interest $500,000 first mortgage 6% sinking fund bonds dated April 1 1907, authorized issue $3,000,000, outstanding $2,319,000. Present installation 7,500 h. p. to. be inceased this summer (work under contract) to about 17,000 h. p. Compare V. 84, p. 807.

*Results for Cal. Year 1907.*

| | | | |
|---|---|---|---|
| Gross earnings | $377,998 | Fixed charges | 232,514 |
| Net earnings | 145,962 | Net surplus | 35% 448 |

"Had the entire $2,319,000 bonds been outstanding for the full period, the interest charge would have been $139,140 and the net surplus $206,822."—V. 84, p. 807.

**New York Air Brake Co., New York.**—$3,000,000 6% *Convertible Bonds to Be Offered to Shareholders.*—The directors on March 18 approved the plan for offering to the shareholders an issue of $3,000,000 20-year 6% bonds, dated April 15 1908 and due in 1928, but convertible at option of holder into stock at par at any time beginning July 1 1909 and before July 1 1914. A circular will shortly be sent to the stockholders giving full particulars. The following is pronounced substantially correct:

The bonds are issued against assets certified by independent accountants to be of the value of $11,000,000. They will enable the company to liquidate its floating debt and increase its working capital to $3,000,000 cash. The company has no bonds and no preferred stock. It has paid dividends for 8¾ years, deferring the annual declaration at the last regular period on account of its inability to collect its accounts in which position it was not greatly different from many other industrial corporations.

The company has been making improvements out of earnings for years to a much greater extent than its new bond issue, and the proceeds of the bonds will, according to official authority, justify the resumption of dividends from earnings in the early future. The company is employing 1,200 men at its works at Watertown, N. Y., and on March 1 concluded a large contract for locomotive brakes with a prominent Eastern road.—V. 86, p. 671, 112.

**New York Butchers' Dressed Meat Co.**—*Litigation.*—Justice Leventritt on Feb. 29 granted the application of Jacob Bloch and other minority stockholders to inspect the books of the company, but denied a mandamus to enjoin the consummation pending trial of the action of the alleged contract of sale to President Frederick Joseph of $450,000 stock of four others with a view of delivering control to the "trust." Compare V. 85, p. 472.

The Court holds the contract, which, it is stated, has been cancelled is purely personal and in no way related to the business management or affairs of the corporation. It is further held that while the plaintiffs are entitled to some remedy looking to the proper management of the concern, the allegations of conspiracy to wreck the company, while numerous, are all made upon information and belief, and unsupported by facts.—V. 85, p. 472.

**North Shore Gas Co., Waukegan, Ill.**—*Bonds, Earnings, &c.*—H. T. Holtz & Co., Chicago, who are offering a block of first mortgage 5% gold bonds, dated Jan. 1 1901 (compare V. 83, p. 41), report:

The company serves Waukegan, North Chicago, Lake Forest, Lake Bluff, Libertyville, Fort Sheridan, Fairwood, Highland Park, Ravinia and Glencoe, all in Illinois; total population estimated at 25,000. The central station is at Waukegan a well-equipped, modern plant. The franchises run to 1945 and are satisfactory in every way. Total bonds authorized by mortgage, $750,000; issued to date, $647,000. Financial statement Dec. 31 1907: Net earnings, $59,185; bond interest, $32,350; surplus, $26,835.—V. 85, p. 41.

**People's Gas Light & Coke Co., Chicago.**—*Sale of Bonds.*—The company has arranged to sell to N. W. Harris & Co. and the Harris Trust & Savings Bank, $1,000,000 refunding mortgage 5% bonds dated 1897 and due Sept. 1 1947. These bonds, when issued some weeks hence, will increase the amount outstanding to $11,400,000.

It is understood the company is getting into strong financial condition for contemplated extensions and improvements, among which is the proposed erection of a new and modern building at Adams St. and Michigan Av., Chicago, the present location of the company's main offices.—V. 85, p. 419.

**Pittsburgh Coal Co.**—*New Officers.*—The following changes are announced:

(1) Retirement of Mr. Lee Dempster, as director, and election in his place of W. K. Field; (2) Number of directors increased from 17 to 18 by the election of James H. Gaboes, Jr.; (3) Election of W. K. Field as Vice-President, increasing the number of vice presidents from 2 to 3.—V. 86, p. 665, 424.

**Richelieu & Ontario Navigation Co.**—*Bonds—Further Facts.*—The Bank of British North America and the Bank of Scotland received subscriptions recently in London at par for £200,000 5% 30-year mortgage debentures of £100 each. These debentures are described as follows:

Part of an authorized issue of £400,000 debentures, constituting a first charge upon the entire property, subject to only £9,700 outstanding debentures, the money for the redemption of which has been deposited with the trustee. The balance of the debentures (£200,000) can only be issued on the terms of the trust deed, viz., to the extent of 75% of certain capital expenditures. The new debentures will be redeemed by annual drawings at 105%, or by purchase in the market if under 105, the trust deed providing that the whole shall be redeemed by Sept. 1 1957. In the event of voluntary winding up the debentures will be redeemable at 110%, and power is reserved to the company at any time on six months' notice to redeem the whole of the outstanding debentures at the same price. Coupons payable March 1 and Sept. 1. Holders of the outstanding debentures of the 1895 issue are invited to exchange their debentures of the present issue, and will receive for each £100 debenture deposited for exchange a debenture for a like amount of this issue, together with a cash payment of £5, being the difference between the price of issue of the present debentures and the price at which the outstanding debentures are subject to redemption by drawings, viz., 105%. The debentures are repayable, principal and interest, at the Bank of British North America, trustees, in London or at par of exchange in Montreal, at the option of the holder.—V. 86, p. 484.

**Wm. A. Rogers, Ltd., Toronto.**—*Report.*—For calendar years 1907 and 1906:

| Cal. Year— | Total Sales. | Net Profits. | Pref. Div. (7%). | Common Dividends. | Transf. to Reserves. | Bal., Surp. |
|---|---|---|---|---|---|---|
| 1907 | $1,395,965 | $195,745 | $53,900 | (8%) 45,000 | $25,000 | $47,649 |
| 1906 | 1,390,902 | 191,552 | 63,000 | (6%) 45,000 | 85,000 | def.1,448 |

Par of shares, $100. No bonds. Pres., S. J. Moore.—V. 83, p. 434.

**Smart Bag Co., Ltd., Montreal.**—*Preferred Stock Offered.*—D. M. Stewart & Co., Montreal, are offering a block of 7% preferred cumulative stock at par, $100 a share, with a bonus of 100% in common stock. A circular dated Feb. 20 says:

Manufactures jute and canvas bags, &c., for all millers' products, cement, sugar, salt, oats, potatoes, &c. The only concern of the kind with factories in Montreal, Toronto and Winnipeg. The sales are considerably in excess of last year, and the mills are working at full capacity.

Paid-up capital, $600,000 preferred 7% cumulative stock (preferred as to capital as well as dividend) and $450,000 common stock; total bond issue, $69,500, on Toronto property only, and reduced every six months. There is no mortgage or other indebtedness on the company's valuable land, buildings and plant at Montreal and Winnipeg. Fiscal year ends Feb. 29 1908. Last year the net earnings, after paying all fixed charges, preferred dividend, &c., were well over 10% on the then outstanding common stock. Quarterly dividends on the preferred stock are paid regularly on the last days of March, June, Sept. and Dec. at the rate of 7% per annum. In May 1907 a dividend at the rate of 3% was paid on the common stock, and in view of the satisfactory business of the past year, there is no doubt that the dividend will be maintained, and possibly increased in March 1908.

**Somerset Coal Co.**—*Report.*—This company, controlled by the Consolidation Coal Co. of Maryland, reports:

| Cal. Year— | Gross Earnings. | Net Earns. | Other Income. | Charges to Income. | Balance, Surplus. |
|---|---|---|---|---|---|
| 1907 | $2,363,595 | $490,072 | $150,065 | $356,534 | $282,603 |
| 1906 | 1,957,327 | 398,231 | 26,840 | 264,834 | 160,237 |
| 1905 | 1,603,271 | 247,175 | 21,445 | 240,289 | 28,331 |

—V. 85, p. 1406.

**Southern Bell Telephone & Telegraph Co.**—*Savannah Independent Plant Taken Over.*—On March 4 the plant of the Georgia Telephone & Telegraph Co., which has been operating in Savannah for about eight years, was formally taken over by the Southern Bell Telephone & Telegraph Co. The "Savannah News" said:

The sale was predicated upon the desire of the subscribers of both companies to do away with a dual telephone system and to have only one exchange in Savannah, and carried with it the approval of the City Council and the Railroad Commission. [The Railroad Commission stipulated that the Georgia T. & T. Co. should cancel and destroy all outstanding stocks and bonds, mortgages or trust deeds.—Ed. "Chronicle."]—V. 85, p. 1403.

**South Shore Gas & Electric Co., Hammond, Ind.**—*Status.*—H. T. Holtz & Co., Chicago, in offering for sale general mortgage 5% gold bonds, dated Dec. 1 1903, report:

Financial statement Oct. 31 1907: General mortgage bonds outstanding, $554,000; reserved to retire old bonds, $320,000; reserved to be issued for 90% of the cash cost of permanent extensions and additions, $1,126,000; total general mortgage bonds authorized, $2,000,000. Gross earnings year ending Oct. 31 1907, $195,076; operating expenses, including insurance and taxes, $115,377; net earnings, $79,699; bond interest, $43,700; surplus, $35,699. Compare V. 84, p. 1311.

**Spanish-American Iron Co.**—*Listed in Philadelphia.*—The Philadelphia Stock Exchange has listed $1,454,000 first mortgage 6% twenty-year sinking fund gold bonds dated July 1 1907. Compare V. 85, p. 226, 350.—V. 86, p. 485.

**Taylor (Tex.) Water Co.**—*New Stock.*—A certificate was filed at Austin, Tex., on Feb. 18 increasing the capital stock, it is said, from $75,000 to $125,000.

**Union Electric Light & Power Co., St. Louis.**—*Notes Offered.*—Spencer Trask & Co., New York, Albany and Chicago, are offering at 97½ and interest, yielding about 8%, a block of the company's 3-year 5% (coupon) gold notes of $1,000 each, dated Jan. 15 1906 and due Jan. 15 1909, but subject to call at par and interest on any interest date upon 60 days' notice. Authorized issue, $4,000,000; outstanding, $3,000,000. The company has pledged $3,000,000 (of its $12,885,000) capital stock as security for the notes, and the North American Co., which owns most of the remaining stock, has contracted to purchase at par the $3,000,000 pledged if the notes are not otherwise provided for at maturity.

*Earnings for Calendar Years—Union Electric Light & Power Co.*

| Cal. Year. | Gross earnings. | Net (after taxes, &c.). | Miscel. deductions. | Interest charges. | Int. on notes. | Balance above notes. | for stock. |
|---|---|---|---|---|---|---|---|
| 1907 | $2,555,417 | $1,733,855 | $195,336 | $635,669 | $150,000 | $757,850 | |
| 1906 | 2,242,481 | 1,653,678 | 362 | 363,936 | 150,000 | 539,380 | |

—V. 86, p. 232.

**United Kansas Portland Cement Co., Iola, Kan.**—*Consolidation.*—This company was incorporated under the laws of West Virginia on Jan. 14 1908 with $12,750,000 of authorized capital stock, consisting of $8,500,000 common stock and $4,250,000 7% cumulative preferred stock (amounts outstanding not stated), par of shares $100. The company, which "has no bonded indebtedness," has taken over the properties and business of three cement companies, with combined output capacity, it is officially stated, of 9,000 barrels per day. The companies so combined and their stock, as reported on good, but not official, authority, were:

| | Common. | Preferred. |
|---|---|---|
| Kansas Portland Cement Co., Iola, Kan. | $3,000,000 | $600,000—7% |
| Indian Portland Cement Co., Neosho, Wis. | 1,200,000 | 800,000—8% |
| Independence (Kan.) Port. Cement Co. | 1,500,000 | 1,000,000—7% |

*Directors and Officers of United Kansas Ports and Cement Co.*

Directors—Geo. E. Nicholson, C. W. Vandiver, John F. Goodwin, Wm. K. Caffee, Almond B. Cockerill, O. V. Wilson, Yates H. Campbell, B. Warkentine, Leigh Hunt, Wm. Lanyon, Lewis L. Northrup, J. N. Roberts, L. H. Calloway, I. W. Hocker.

Officers—President, Geo. E. Nicholson, Iola, Kan.; Vice-President, A. B. Cockerill; Secretary, W. S. Goodin, Iola, Kan.; Treasurer, L. L. Northrup, Iola, Kan.

**United States Gypsum Co., Chicago.**—*Report.*—Cal. years:

| | 1907. | 1906. | | 1907. | 1906. |
|---|---|---|---|---|---|
| Net earnings | $559,901 | $450,759 | Balance, surplus | $78,626 | $245,035 |
| Bond reserve | 50,000 | 50,000 | Prev. surplus | 983,556 | 945,610 |
| Div. on pref. (7½) | 272075 | (3½) 135764 | Total surplus | 1,068,122 | 1,190,645 |

Capitalization Dec. 31 1907: Preferred 7% cumulative stock, $3,628,300 outstanding; common stock, $2,240,600 outstanding; bonds issued, $850,000, of which $611,000 in treasury.—V. 85, p. 1007

**United States Steel Corporation.**—*Earnings.*—See "Annual Reports" on other pages.

*Lease of Ore Properties.*—See Great Northern Ore Properties under "Annual Reports" on a preceding page.—V. 86, p. 672, 425.

**Union Typewriter Co.**—*Common Stock Dividend Omitted.*—The directors on Wednesday decided to omit this spring the semi-annual dividend of 3% paid regularly on the $10,000,000 common stock since the first distribution on that stock in 1902. The usual dividends of 3½% on the $4,000,000 first preferred stock and 4% on the $5,015,000 second preferred stock were declared, payable April 1.

President Seamans issued the following explanation:

The dividend has been earned and something more; and had business continued as good to the present time as it was in the first half of 1907 it would have warranted the payment of the common dividend; but with the general depression which set in in the autumn, business fell off greatly and still continues much below normal.

The present period of depression is likely to continue for some months. During that time a large amount of money will be required by the manufacturing companies for the production of machines in anticipation of the growing demand for them, and for the holding together of the manufacturing and selling organizations. These reasons seem to justify the passing of the dividend on the common stock.

The condition of the company is sound and satisfactory. We have paid in dividends since our organization over $12,500 000, and over $6,000,000 has been added to tangible assets. Since April 1 1902 we have paid 6% annually on the common stock, in addition to the regular dividends on the preferred stocks, an aggregate in six years of $7,443,600 in dividends; and in addition thereto there has been earned and added to tangible assets during the same period over $3,000,000.

These additions are in the nature of expansion and permanent improvement, and are not available for dividends, but have been necessary for the development of the business, and have added largely to the stability and strength of the company.

With such a showing we think we have no reason to feel discouraged, and when the present business depression in the country is over we hope and expect for our company even greater prosperity than in the past.—V. 84, p. 630.

**Utica (N. Y.) Gas & Electric Co.**—*Status of Enterprise.*—In connection with the sale to N. W. Harris & Co. and Perry, Coffin & Burr of the $1,000,000 "refunding and extension mortgage" bonds offered by them at 92½ and interest, Vice-President William E. Lewis writes in substance:

*Abstract of Letter from Vice-Pres. William E. Lewis, Utica, Feb. 6 1908.*

*Organization.*—The company was incorporated in May 1902, being a consolidation of the Utica Electric Light & Power Co. (incorporated 1888) and the Equitable Gas & Electric Co. of Utica (incorporated 1848). In June 1907 the Herkimer County Light & Power Co. was merged into the company, which thus owns and controls the entire gas business and practically the entire electric light and power business in Utica, Little Falls, Herkimer, Mohawk, Ilion, Frankfort and othre municipalities located in the rapidly growing Mohawk Valley; total population served over 130,000.

*Total Capitalization.*

| | |
|---|---|
| Capital stock (authorized and issued) | $2,000,000 |
| "Refunding and extension mortgage bonds" due July 1 1957 (authorized $5,000,000), issued | 2,000,000 |
| Underlying bonds of constituent companies (closed mortgages, viz., $1,000,000 Utica Elec. Lt. & Power Co. 1st M. 5s, $1,000,000 Equitable Gas & Elec. Co. 1st M. 5s and $390,000 Herkimer County Lt. & Power Co. 1st M. 5s. The sinking fund of the Utica El. Lt. & Pow. Co. bonds will practically retire that issue at maturity) | 2,390,000 |

The $3,000,000 "refunding and extension mortgage" bonds unissued are reserved for either retirement of certain (of the aforesaid) underlying bonds or for permanent extensions, additions, &c., to the property, up to 75% of the cash cost thereof, but upon condition that the company shall, for the twelve months immediately preceding their issuance, have earned net at least 9% on all bonds outstanding, together with those proposed to be issued. (See further particulars in V. 85, p. 165.—Ed.)

*Earnings and Expenses for Calendar Year 1907.*

(Including Herkimer County Light & Power Co. for a similar period.)

| | | | |
|---|---|---|---|
| Gross earnings | $772,728 | Interest on underlying bds. | $119,500 |
| Oper. exp. and taxes | 373,133 | Annual int. on $2,000,000 "ref. & ext. M." 5s | 100,000 |
| Net earnings | $399,595 | | |
| Surplus | | | $180,095 |

In vew of extensions and additions, the net earnings for the current year should be at least $470,000.

*Equity in Property.*—Since the formation of the company in 1902, approximately $1,250,000 surplus, which was available for dividends, has been put into extensions and additions. The equity in the property is largely in excess of all outstanding bonds, including the $2,000,000 "refunding and extension mortgage" bonds.

*Water Powers Owned and Controlled.*—(1) At Trenton Falls, on West Canada Creek, the company has a hydro-electric station of approximately 8,000 horse power, which at comparatively small outlay can, by means of storage reservoirs and additional equipment, be increased to approximately 14,000 horse-power. The water has a static head of 264 feet, that at Niagara but 140 feet. (2) At Dolgeville, on the East Canada Creek, the company has a stone and steel hydro-electric plant of approximately 3,400 horse-power capacity, which operates under a head of 75 feet. (3) In Little Falls the company also controls a 400 horse power hydro-electric development. (4) At Prospect, on West Canada Creek, an undeveloped water-power site of approximately 5,000 horse power, and (5) on Fish Creek about 8 miles from Rome, it owns lands covering two sites which can be developed so as to produce about 8,000 horse-power. There are no other undeveloped powers within reasonable distance of the territory served.

*Plant and Equipment.*—In addition to the 11,800 hydro-electric horse-power developed, the company has two steam stations in Utica, with a combined capacity of 8,000 horse power. High tension transmission lines aggregating 62 miles (more than half on private right of way) connect all of the hydro-electric and steam developments with one another.

The gas plant in Utica has been practically rebuilt during the past few years. Its generating capacity is over 2,500,000 cubic feet of gas per day. An additional holder of 2,000,000 cubic feet capacity has recently been erected. The company also has small gas plants in Little Falls, Herkimer and Ilion, and has under construction a high pressure distributing system from its central generating plant in Utica down the Mohawk Valley to distribute gas in Frankfort, Mohawk, Herkimer, Ilion and Little Falls. This high-pressure main has been laid as far as Mohawk, and it is expected that Little Falls will be reached by June 1908, all rights of way having been secured. It is believed that the savings in cost of manufacturing gas at the large central station in Utica will materially increase the net earnings.

*Rates Charged.*—It has been the policy to supply light and power at reasonable rates, 93% of the electric output being produced by water power.

*Franchises.*—All franchises, for both gas and electricity, in Utica and adjacent suburbs are unlimited in time, and contain no burdensome restrictions. This is also true of practically all of the other franchises.

*Tax exempt Bonds.*—The "refunding and extension" bonds are, under Section 291 of the New York State Law, exempt from taxation by the State or counties, cities, towns, villages, school districts or other local subdivisions therein.—V. 86, p. 606.

**Westinghouse Air Brake Co., Pittsburgh.**—*Regular Extra Dividend Omitted.*—The directors on March 18 declared the usual quarterly dividend, payable April 10 to holders of record April 1, but omitted the extra 2½% (quarterly) which has been paid regularly for some time past. In effect this action reduces the annual rate to 10%, contrasting—

*Cash Dividend Record.*

| —to '98. | '99. | '00. | '01 to '03. | '04. | '05. | '06. | '07. | 1908. |
|---|---|---|---|---|---|---|---|---|
| 20 yearly. | 25 | 30 | 24 | 21 | 20 | 22½ | 20 | Jan., 5; Apr., 2½ |

In 1898 a stock dividend of 100% ($5,000,000) was paid and in Jan. 1908 a stock dividend of 25%, the outstanding stock being now about $13,750,000.—V. 85, p. 1522.

**Westinghouse Electric & Manufacturing Co., Pittsburgh, Pa.**—*Status.*—E. M. Herr, one of the receivers, in a statement which is pronounced substantially correct, says:

At this time we have about 8,500 men working regularly, which is 75% of the number under normal conditions. The small work has not been affected. Orders for such things as small motors and switchboards have been larger than ever. Heavy machinery is not in so much demand. Our repair department, however, has been rushed. We have done more repair work in the past two months than for a year. Our foreign business is splendid. South American contracts are coming in fast, but little work like installing plants in North America is being done.

Low-water mark, the officers believe, has been passed, February and the first two weeks of March showing a marked improvement in business.—V. 86, p. 672, 550.

*Holdings of President Westinghouse Kept Intact.*—The agreement consummated last week between President Westinghouse and his bankers, it is pointed out, will have the effect of keeping intact the stock holdings of Mr. Westinghouse in this company and the Westinghouse Air Brake Co. and prevent their being thrown on the market. The amounts of stock involved are currently reported as 60,000 and 30,000 shares respectively, par value $50 per share. See V. 86 p. 672.

**W. H. White (Lumber) Company, Boyne City, Mich.**—*Bonds Offered.*—Devitt, Tremble & Co., First National Bank Bldg., Chicago, are offering at par and interest, $400,000 of this company's 6% "first mortgage timber reserve gold bonds," dated Feb. 1 1908, denomination $1,000. Interest payable Feb. 1 and Aug. 1 at the office of the trustee, the Michigan Trust Co., Grand Rapids, or its fiscal agency in New York City. Total issue, authorized and outstanding, $800,000, due and payable $50,000 each six months from Aug. 1 1909 to Feb. 1 1917, both inclusive, but redeemable on any interest date after 60 days' notice, at 103 and interest at company's option. A circular says in substance:

The company has a capital and surplus of $2,100,678; has been engaged in the manufacture of lumber for the past 25 years and is regarded as one of the soundest and most successful lumber companies operating in Michigan. Its net income each year for the past five years (1903 to 1907 inclusive) has been in excess of $200,000. For the year 1908 the company reports that one-third of its output has already been sold.

The bonds offered are a first and only lien on property of the company described in the deed of trust, consisting more particularly of 53,920 acres of uncut hardwood timber lands, owned in fee simple, estimated to contain over 378,000,000 feet of merchantable timber and appraised at $50 per acre, or approximately $2,500,000.

The property, consisting of approximately 53,920 acres of uncut hardwood timber lands (maple, elm, beach and hemlock predominating), upon which the bonds offered are a first mortgage, is located in Charlevoix, Antrim, Montmorency Otsego and Alpena Counties, Mich. The company's location at the head of Pine Lake, which is accessible to the Great Lakes steamers, gives it the advantage of low freight rates to all lake ports; while the Boyne City Gaylord & Alpena RR. (owned by the W. H. White Company), making direct connections with the Michigan Central and the Grand Rapids & Indiana railroads, furnishes adequate rail transportation facilities. The controlling interest in the stock of the Boyne City Gaylord & Alpena RR.—totaling over 62 miles of track, together with locomotives, passenger and freight cars and valued at $1,000,000—is also pledged under this mortgage as additional security for these bonds. The mills owned and operated by the company have a total capacity of approximately 30,000,000 feet per year, and consist of one equipped with bad, circular and gang saws, one with circular saw and shingle mill combined and one with band saw and box factory; also planing mill, together with dry kilns, &c.

The mortgage requires the deposit with the trustee of $5 per 1,000 feet, mill run, on all timber cut. It also requires the company to cut and manufacture exclusively from 15,920 acres, containing 146,000,000 feet of timber, holding the remaining 38,000 acres, containing 232,000,000 feet, as a reserve, which cannot be cut during the life of this mortgage This sinking fund should retire over $500,000 of this loan before maturity; the unpaid balance $300,000 will then have for security the remaining 38,000 acres.

**Youngstown Sheet & Tube Co.**—*Acquisition.*—Possession was taken March 16 of the plant of the Morgan Spring Co. at Struthers, O., recently purchased. The latter's Worcester (Mass.) plant was not included in the purchase.—V. 83, p. 1556.

---

—We are in receipt of the initial circular of the Bond Department of the National City Bank of Chicago, and notice among its principal offerings 4 per cent bonds of the City of Chicago, Chicago South Park, Metropolitan West Side Elevated Railway and Atchison Topeka & Santa Fe; 4½s of Chicago South Side Elevated; 5 per cents of Chicago City Railway Co., Peoples' Gas Light & Coke Co. and Commonwealth Electric Co.; and 6 per cent 5-year collateral gold notes of the Chicago Railways Company. R. U. Lansing is manager of the department.

—The Hibernian Banking Association, Chicago, has opened a bond department for dealing in Government, municipal, corporation and public utility securities. William G. Leisenring, who for the past two years has been in the Chicago office of N. W. Halsey & Co., has been appointed manager of the new department.

—Attention is called to the announcement in our advertising columns relating to the Chicago Rock Island & Pacific Railway two-year 4½ per cent collateral trust notes maturing April 1, which may be extended through Speyer & Co. for one year at six per cent.

—A copy of the Hand Book of Rhode Island Investments, revised to 1908, has been presented to us by Richardson & Clark, 25 Exchange St., Providence. The pamphlet contains a record of prices for a series of years, besides other financial statistics.

# Reports and Documents.

## UNITED STATES STEEL CORPORATION.

### SIXTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDED DECEMBER 31 1907.

*Office of United States Steel Corporation,*
*51 Newark Street, Hoboken, New Jersey,*
*March 17 1908.*

*To the Stockholders:*

The Board of Directors submits herewith a combined report of the operations and affairs of the United States Steel Corporation and Subsidiary Companies for the fiscal year which ended December 31st 1907, together with a statement of the condition of the finances and property at the close of that year:

INCOME ACCOUNT FOR THE YEAR 1907.

(Including operating results of Tennessee Coal, Iron & RR. Co. for months of November and December.)

| | | |
|---|---|---|
| The total earnings of all properties after deducting all expenses incident to operations, including those for ordinary repairs and maintenance (approximately $35,000,000), employees' bonus and pension funds, and also interest on bonds and the fixed charges of the subsidiary companies, amounted to | | $160,964,673 72 |
| Less: Appropriations for the following purposes, viz.: | | |
| Sinking Funds on Bonds of Subsidiary Companies | $1,977,761 03 | |
| Depreciation and Extinguishment Funds (regular provisions for the year) | 6,681,746 03 | |
| Extraordinary Replacement Funds (regular provisions for the year) | 15,560,237 38 | |
| Special Replacement and Improvement Funds | 3,500,000 00 | 27,719,744 44 |
| Net Earnings in the year 1907 | | $133,244,929 28 |
| *Deduct*— | | |
| Interest on U. S. Steel Corporation Bonds outstanding, viz.: | | |
| Fifty-Year 5 per cent Gold Bonds | $14,341,018 37 | |
| Ten-Sixty Year 5 per cent Gold Bonds | 8,519,334 45 | |
| Sinking Funds on U. S. Steel Corporation Bonds, viz.: | | |
| Installment on 50-Year 5 per cent Gold Bonds | $3,040,000 00 | |
| Installment on 10-60-Year 5 per cent Gold Bonds | 1,010,000 00 | |
| Interest on above Bonds in Sinking Funds | 1,087,497 18 | |
| | 5,137,497 18 | 27,997,850 00 |

| Undivided Surplus of Subsidiary Companies, representing profits accrued on sales of materials to other subsidiary companies and on hand in the latter's inventories, viz.: | | |
| Balance on December 31 1906, per Annual Report | $18,164,60 34 | |
| Add: Increase during the year 1907 | 9,744,692 51 | |
| Balance December 31 1907 | | 27,908,752 85 |
| Total Undivided Surplus December 31 1907 | | $122,645,243 62 |

MAINTENANCE, RENEWALS AND EXTRAORDINARY REPLACEMENTS

The expenditures made by all companies during the year 1907 for maintenance and renewals, including the re-lining of blast furnaces, and for extraordinary replacements, equaled the total sum of $55,828,253 12, an increase in comparison with the expenditures for the same purposes during the preceding year of $7,495,163 75, or 15.5%. The expenditures in the year 1907 were the largest of any year in the organization's history. The annual expenditures since 1902 have been as follows:

| | |
|---|---|
| 1902 | $29,157,010 73 |
| 1903 | 34,785,191 21 |
| 1904 | 26,258,372 22 |
| 1905 | 37,171,769 63 |
| 1906 | 48,333,089 37 |
| 1907 | 55,828,253 12 |
| Total | $231,833,686 28 |

The entire amount of the foregoing expenditures was charged to current operating expenses and to replacement funds reserved from earnings. A statement showing the principal items of replacement and betterment comprehended in the total expenditures for extraordinary replacements is included in the statistical tables printed in this report.

The following table shows the amount of the expenditures made during the year for above purpose:

| *EXPENDED ON* | *EXPENDITURES DURING YEAR 1907.* *Ordin'y Maintenance & Repairs, Includ'g Blast Furnace Relining.* | *Extraordinary Replacem'ts.** | *Total.* | *Total Expenditures in Previous Year.* | *Increase (+) or Decrease (—).* |
|---|---|---|---|---|---|
| Manufacturing Properties— | | | | | |
| Total, except Blast Furnace Relining | $23,256,791 26 | $14,886,969 81 | $38,143,761 07 | $32,561,377 85 | +$5,579,383 22 |

* Payments to Trustees of Sinking Funds.
x Amounts charged off for payments from these for:

| | | |
|---|---|---|
| Expenditures for Additional property acquired in 1907 | $2,835,793 43 | |
| Expenditures in previous years for Additional property | 129,000 00 | |
| Bonds, Mortgages and Purchase Obligations retired in 1907 | 796,753 26 | |
| Write down in book value of investments for account these funds | 568,559 60 | |
| Write off of depreciation account of sundry properties | 25,626 22— | $4,286,732 51 |

y Expenditures and charges made during 1907, viz.:

| | | |
|---|---|---|
| Expenditures in 1907 for Extraordinary Replacements (see page 40 of pamphlet) | $20,324,584 80 | |
| Expenditures in 1907 for Construction | 887,937 00 | |
| Write off account valuation of property abandoned | 14,311 12— | 21,226,832 92 |

The balance to the credit of the several funds on December 31 1907, per the preceding table, are included in the assets of the organization in the following accounts, viz.:

| | | |
|---|---|---|
| In Depreciation and Extinguishment Fund Assets, viz.: | | |
| Sundry Securities at market value | $7,839,695 30 | |
| Cash | 2,902,281 89 | |
| | | $10,741,977 19 |
| Invested in Tennessee Coal, Iron & Railroad Co.'s stock | | 4,222,537 11 |
| In Sundry Marketable Securities, at market value | | 983,273 34 |
| In Cash (Special Deposit) | | 757,500 00 |
| In Current Assets—Cash, Loans, Receivables, &c | | 24,655,367 55 |
| | | $41,360,655 19 |

TRUSTEES OF BOND SINKING FUNDS.

The trustees' transactions for account of the Bond Sinking Funds of the United States Steel Corporation and Subsidiary Companies for the year, and the condition of the funds on December 31 1907, are shown in the following table:

| FUNDS | Cash Uninvested Dec. 31 1906. | Installments Received. | Interest Accretions and Other Receipts in 1907. | Total. | BONDS REDEEMED AND OTHER PAYMENTS. Par Value of Bonds. | Net Premium Paid on Bonds Redeemed. | Cash Resources in Hands of Trustees Dec. 31 1907 |
|---|---|---|---|---|---|---|---|
| U. S. Steel Corporation Bonds | $87,076 29 | $4,050,000 00 | $1,018,885 22 | $5,155,961 51 | $4,801,500 00 | $347,484 00 | $6,977 51 |
| Subsidiary Companies' Bonds | 310,211 60 | 1,872,320 90 | 379,820 02 | 2,562,352 52 | 2,118,500 00 | 6,629 15 | 437,223 37 |
| Total | $397,287 89 | $5,922,320 90 | *$1,398,705 24 | $7,718,314 03 | $6,920,000 00 | $354,113 15 | $444,200 88 |

* Includes $1,343,480 81 of Interest Accretions, $4,950 00 of Miscellaneous receipts and $50,274 43 of assets of T. C., I. & RR. Co. sinking funds taken up in this account.

SPECIAL FUNDS FOR CAPITAL EXPENDITURES.

*General Construction Fund for Authorized Appropriations.*

| | | |
|---|---|---|
| The unexpended balance in this fund at close of the fiscal year 1906 was | | $3,057,059 15 |
| As shown by the Income Account, there was appropriated from the surplus net income of the year 1907, for account of this fund, the sum of | | 35,500,000 00 |
| | | $38,557,059 15 |
| Of this amount there was expended during the year ending December 31 1907 the following: | | |
| In payment for additional property, new plants and construction | $33,793,009 67 | |
| In payment of maturing bonds and mortgages | 840,234 52 | |
| | | 34,633,244 19 |
| Leaving an unexpended balance on December 31 1907, available for future capital expenditures heretofore authorized, of | | $3,923,814 96 |

*Special Construction Fund for Account Gary, Indiana, Plant.*

| | | |
|---|---|---|
| There have been specifically set aside from surplus net income for account of this fund amounts as follows: | | |
| From surplus net income of the year 1905 | | $10,000,000 00 |
| From surplus net income of the year 1906 | | 21,500,000 00 |
| From surplus net income of the year 1907 | | 18,500,000 00 |
| Making an aggregate appropriation of | | $50,000,000 00 |
| Advnces have been made from this fund to cover expenditures for the acquirement of real estate and construction work at the Gary Plant, the building of the City of Gary, and terminal railroad work adjacent thereto, as follows: | | |
| During the year ending December 31 1906 | $4,632,202 11 | |
| During the year ending December 31 1907 | 19,316,555 27 | |
| | | 23,948,757 38 |
| Leaving a balance unexpended December 31 1907 of | | $26,051,242 62 |

Of the unexpended balance reserved as above, $15,920,542 14 had been specifically invested prior to December 31 1907 in salable securities, pending the actual requirement of the money. This investment is separately shown in the General Balance Sheet. The balance of the fund is in the cash assets of the organization.

CAPITAL STOCK.

The amount of outstanding capital stock of the United States Steel Corporation on December 31 1907 was the same as at the close of the preceding fiscal year, as follows:

| | |
|---|---|
| Common Stock | $508,302,500 00 |
| Preferred Stock | 360,281,100 00 |

BONDED, MORTGAGE AND DEBENTURE DEBT.

| | | |
|---|---|---|
| The total bonded, mortgage and debenture debt of the United States Steel Corporation and Subsidiary Companies outstanding on January 1 1907 was | | $564,670,875 96 |
| Add, Issues made during the year as follows: | | |
| U. S. Steel Corporation 10-60 year 5% Bonds (issued for purchase of T. C., I. & RR. Co. stock) | $30,000,000 00 | |
| Union Steel Co. First Mortgage and Collateral Trust Bonds (issued in exchange for Sharon Steel Co. Bonds retired) | 12,000 00 | |
| Bessemer & Lake Erie RR. Co. Bessemer Equipment Trust Bonds | 1,100,000 00 | |
| Sundry Real Estate Mortgages assumed by Coke Companies | 50,988 05— | 31,162,988 05 |

Issues were made during the year of the following amounts of Subsidiary Companies' bonds, which were sold to trustees of sinking funds, viz.:

| | | |
|---|---|---|
| Duluth Missabe & Northern Ry. Co. General Mortgage Bonds | $32,000 00 | |
| Connellsville & Monongahela Ry. Co. First Mortgage Bonds | 26,000 00 | |
| Chicago Lake Shore & Eastern Ry. Co. Federal Equipment Trust Bonds | 94,000 00 | |
| Chicago Lake Shore & Eastern Ry. Co. American Equipment Trust Bonds | 60,000 00 | |
| National Mining Co. National Equipment Trust Bonds | 40,000 00 | |
| | | $252,000 00 |

There have been added to the Bonded Debt of subsidiary companies as included in combined balance sheet the bonds of the Tenn. Coal, Iron & RR. Company and its Subsidiary Companies which were outstanding at the time the stock of that company was acquired by the U. S. Steel Corporation, viz.:

| | | |
|---|---|---|
| T. C., I. & RR. Co. Consolidated Mortgage Bonds (Tennessee Division) | $1,108,000 00 | |
| T. C., I. & RR. Co. Purchase Money and Improvement Mortgage Bonds (Birmingham Division) | 4,008,000 00 | |
| T. C., I. & RR. Co. General Mortgage Bds. | 4,423,000 00 | |
| De Bardeleben Coal & Iron Co. First Mortgage Bonds | 2,718,000 00 | |
| Cahaba Coal Mining Co. First Mortgage Bonds | 892,000 00 | |
| Alabama Steel & Shipbuilding Co. First Mortgage Bonds | 730,000 00 | |
| Potter Ore Co. First Mortgage Bonds (one-half of total issue) | 347,000 00 | |
| | | 14,226,000 00 |
| There has also been added the proportion of outstanding bonds account of the one-half interest in stock of Hostetter-Connellsville Coke Co., not heretofore owned by the H. C. Frick Coke Co., a majority of which stock interest was acquired during the year | | 440 000 00 |
| | | $610,751,864 01 |

Less, Bonds and Mortgages retired or acquired during the year, viz.:

| | | |
|---|---|---|
| Carnegie Steel Co.—Ohio Steel Co. First Mortgage Bonds | $105,000 00 | |
| Lorain Steel Co —The Johnson Co. First Mortgage Bonds | 103 000 00 | |
| Clairton Steel Co.'s Issues: | | |
| Clairton Steel Co. 5% Mortgage Bonds | 500,000 00 | |
| St. Clair Steel Co. First Mtge. Bonds | 100,000 00 | |
| Union Steel Co.—Sharon Steel Co. Collateral Trust Bonds (in lieu of which Union Steel Co. bonds were issued) | 12,000 00 | |
| H. C. Frick Coke Co.'s Issues: | | |
| First Mortgage Bonds | 101,000 00 | |
| Continental Coke Co. Purchase Money Mortgage Bonds | 137,000 00 | |
| Hostetter Connellsville Coke Co. Purchase Money Mortgage Bonds | 12,500 00 | |
| Pittsburgh Steamship Co.—Northern Lakes S. S. Co. Bonds | 10,000 00 | |
| Penna. & Lake Erie D. C., P. & T. Terminal Bonds | 77,900 00 | |
| Illinois Steel Co. Debenture Scrip | 702 52 | |
| Sundry Real Estate Mortgages of Subsidiary companies | 115,374 04 | |
| | $1,574,476 56 | |

| | | |
|---|---|---|
| Bonds purchased by Trustees of Sinking Funds, viz.: | | |
| U. S. Steel Corp. 50-year 5% Bonds | $3,470,000 00 | |
| U. S. Steel Corp. 10-60 Year 5% Bonds | 1,331,500 00 | |
| Various Subsidiary Companies' Bonds | 2,055,376 28 | |
| | $6,856,876 28 | |
| | | $8,431,352 84 |
| Bonded, Mortgage and Debenture Debt, Dec. 31 1907 | | $302,320,511 17 |

*Summary of Changes During Year.*

| | |
|---|---|
| Increase in Bonded Debt consequent upon acquisition of Tennessee Coal, Iron & Railroad Company and the majority interest in the Hostetter-Connellsville Coke Company | $44,666,000 00 |
| Net decrease in Bonds retired or matured and purchased for sinking funds, less new issues to cover capital expenditures | 7,016,364 79 |
| Net increase in Bonded, Mortgage and Debenture Debt outstanding Dec. 31 1907, in comparison with Dec. 31 1906 | $37,649,635 21 |

*Treasury Bonds Subject to Sale.*

There were on hand at the close of the year in the Treasury of the United States Steel Corporation, available for sale, various bonds of subsidiary companies of an aggregate par value of $4,849,000, a net decrease of $98,000 compared with the amount so available at close of preceding year—$122,000 of bonds having been issued and $220,000 having been sold to Trustees of Sinking Funds during the year. The foregoing bonds were issued by subsidiary companies to provide funds for construction, and were purchased by the United States Steel Corporation, but, being held in its Treasury as disposable assets, are not included in the schedule of outstanding bonds, nor in the assets of the organization as shown by the General Balance Sheet. The bonds on hand in the Treasury December 31 1907 were as follows:

| | |
|---|---|
| Chicago Lake Shore & Eastern Ry. Co. Federal Equip. Trust Bonds | $1,290,000 |
| Chicago Lake Shore & Eastern Ry. Co. American Equip. Trust Bonds | 875,000 |
| Connellsville & Monongahela Ry. Co. First Mortgage Bonds | 852,000 |
| Monongahela Southern RR. Co. First Mortgage Bonds | 1,112,000 |
| National Mining Co. National Equipment Trust Bonds | 320,000 |
| Youghiogheny Water Co. First Mortgage Bonds | 400,000 |
| | $4,849,000 |

There may also be issued at any time to cover capital expenditures made, bonds at par, as follows:

| | |
|---|---|
| Union Steel Co. Mortgage and Collateral Trust Bonds | $3,074,000 |
| Duluth Missabe & Northern Ry. Co. General Mortgage Bonds | 2,299,000 |
| Total of Capital Obligations authorized or created for capital expenditures made, and held in the treasury subject to sale, but not included in Assets as shown in the General Balance Sheet | $10,222,000 |

A detailed schedule of the various issues of bonds outstanding on December 31 1907, also of bonds held by Trustees of Sinking Funds, the interest on which is currently paid into the sinking funds, will be found on page 38 of pamphlet.

From April 1 1901 to December 31 1907 the amount of bonds and mortgages paid and retired by all companies was as follows:

| | | |
|---|---|---|
| Bonds and Mortgages paid and retired with moneys from Depreciation Funds and Surplus Income | | $12,235,585 01 |
| Bonds purchased and retired with Bond Sinking Funds provided from net earnings | | 33,056,907 87 |
| Total | | $45,292,492 88 |
| During the same period there were issued and sold by subsidiary companies bonds and mortgages for new property and construction work (including $6,456,727 79 by Union Steel Company to provide funds for part payment of cost of completing construction work at Donora and South Sharon, which was under way when capital stock of that company was acquired by U. S. Steel Corporation) to the sum of | $16,831,128 70 | |
| Bonds have also been issued by subsidiary companies for funding unsecured indebtedness and for working capital | 946,795 00 | |
| | $17,777,923 70 | |
| There were also issued and sold during the period named (1901-1907) U. S. Steel Corporation 10-60-year 5% bonds as follows: | | |
| For account construction and capital expenditures | $20,000,000 00 | |
| For account purchase of stock of Tennessee Coal, Iron & Railroad Co. | 30,000,000 00 | |
| | $50,000,000 00 | |

PURCHASE MONEY OBLIGATIONS, BILLS PAYABLE AND SPECIAL DEPOSITS OR LOANS.

| | | |
|---|---|---|
| During the year of 1907 Subsidiary Companies issued Purchase Money Obligations in part payment for sundry coke and timber properties acquired in the amount of | | $977,313 75 |
| There were added to the assumed liabilities of Subsidiary Companies the outstanding Purchase Money Obligations and Bills Payable of the Tennessee Coal, Iron & Railroad Company at date (November 1 1907) of acquirement of its stock by U. S. Steel Corporation, as follows: | | |
| Purchase Money Obligations | $85,886 90 | |
| Bills Payable | 2,374,811 88 | |
| | $3,438,012 53 | |
| Payments were made during the year in discharge of assumed liabilities of above character, viz.: | | |
| Purchase Money Obligations | $282,500 00 | |
| Bills Payable (Payments in November and December of C., I. & RR. Co. items) | 581,564 29 | |
| Special Deposits or Loans | 19,796 71 | |
| | $883,861 00 | |
| Net increase during the year in above-named liabilities | | $2,574,151 53 |

Since April 1 1901 there has been paid off an aggregate amount of liabilities of the above character of $43,378,124 77. There were issued during the same period Purchase Obligations, in connection with the acquirement of additional fixed property and assets, to the amount of $4,208,563 75. Of the total amount paid off as aforesaid, the sum of $10,270,074 13 represents moneys originally borrowed by Subsidiary Companies, or received and used as working capital; the balance, $33,108,050 64, represents specific obligation originally incurred for the acquirement of property, or for moneys used for the purchase of property or the discharge of capital liabilities.

The outstanding liabilities of the above classes at December 31 1907 in comparison with amounts outstanding at close of the preceding year, were as follows:

| | *Outstanding Dec. 31 1907.* | *Outstanding Dec. 31 1906.* | *Increase.* |
|---|---|---|---|
| Purchase Money Obligations | $3,258,700 65 | $1,717,500 00 | $1,541,200 65 |
| Bills Payable (of Tenn. Coal, Iron & RR. Co.) | 1,052,747 59 | | 1,052,747 59 |
| Special Deposits or Loans | 1,057,195 58 | 1,077,292 29 | Dec. 19,796 71 |
| Total | $5,368,943 82 | $2,794,792 29 | $2,574,151 53 |

PRODUCTION.

The production of the several properties for the year, exclusive of that of the Tennessee Coal, Iron & Railroad Co., in comparison with the results for the fiscal year of 1906, was as follows:

| *Products.* | 1907. | 1906. |
|---|---|---|
| *Iron Ore Mined*— | *Tons.* | *Tons.* |
| From Marquette Range | 1,170,496 | 1,442,290 |
| From Menominee Range | 1,625,358 | 1,874,680 |
| From Gogebic Range | 1,425,157 | 1,465,375 |
| From Vermilion Range | 1,724,217 | 1,794,186 |
| From Mesaba Range | 16,458,273 | 14,068,617 |
| Total | 22,403,801 | 20,645,148 |
| *Coke Manufactured* | 12,373,938 | 13,295,075 |
| *Coal Mined*, not including that used in making Coke | 1,841,259 | 1,912,444 |
| *Limestone Quarried* | 2,957,163 | 2,227,436 |
| *Blast Furnace Products*— | | |

INVENTORIES.

The book valuation of the inventories of all the properties at December 31 1907 aggregated $136,188,874, in comparison with a total at close of preceding year of $119,897,467, an increase of $16,291,407. This increase in the total figures is due in part to including this year the Tennessee Coal, Iron & Railroad Company's inventories, amounting to $2,507,804, but principally to the increased quantity of iron ore in stock. The tonnage of this commodity on hand at furnaces and lower lake docks was 27% greather than at December 31 1906. The average price at which the same was inventoried is also somewhat higher than the price used at close of preceding year. The diminution in operations which began in November 1907 resulted somewhat in adding to the tonnage of ore on hand, but it was the intention to have on hand a larger supply than usual. The diminution in operations above mentioned also accounts to some extent for the increased inventory of fuels, fluxes and refractories, manufacturing and operating supplies, and finished products on hand.

Inventories were taken on the basis of actual purchase or production cost of materials to the respective companies holding the same, unless such cost was above the market value on December 31 1907, in which case the market price was used. The aggregate inventory valuation of all raw, partly finished and finished materials produced within the organization is much below the market price on December 31 1907. Inventory valuations do, however, include the profits on materials embraced in inventories which have been purchased by one subsidiary company from another; but, as shown by the General Balance Sheet, such profits are segregated and carried in a specific surplus account, and will not be included in the reported earnings of the entire organization until such profits shall have been converted into cash or a cash asset to the organization. The specific surplus account referred to is therefore practically a guaranty fund for these profits so locked up in inventories pending realization in cash.

CAPITAL EXPENDITURES.

The expenditures made during the year, and properly chargeable to capital account, for the acquisition of additional property and construction, less credits for property sold, but exclusive of amount paid by United States Steel Corporation for purchase of stock of Tennessee Coal, Iron & Railroad Company, were as follows:

| | |
|---|---|
| Expended by all companies, exclusive of construction outlays on T. C. I. & RR. Co. since November 1 1907 (the date as of which U. S. Steel Corporation acquired a majority of the Company's stock) | $15,946,365 72 |
| Expended by Tennessee Coal, Iron & Railroad Company during the months of November and December 1907 | 34,886 74 |
| Total | $66,981,252 46 |

The expenditures in 1907 include, as shown below, a large outlay for account of the Gary, Indiana, plant and the building of the City of Gary. All of the above expenditures comprehend, as stated in the certificate of the chartered accountants (see page 33 of pamphlet), only actual additions and extensions to the plants and properties. The capital expenditures are classified by property groups as follows:

| | |
|---|---|
| Gary, Indiana, Plant, the City of Gary, and terminal railroad work adjacent thereto | $19,343,229 62 |
| All other Manufacturing Properties except Tennessee Coal, Iron & Railroad Company | 23,329,673 09 |
| Tennessee Coal, Iron & Railroad Company (for months of November and December 1907) | 984,886 74 |
| Coal and Coke Properties | 4,093,283 65 |
| Iron Ore Properties | 5,854,797 07 |
| Transportation Properties | 13,194,074 61 |
| Miscellaneous Properties | 181,307 68 |
| Total for the year 1907 | $66,981,252 46 |
| Amount expended for additional property and construction from April 1 1901 to January 1 1907 | 139,094,037 49 |
| Making a grand total expended to January 1 1908 of | $206,075,289 95 |

The funds for the payment of the expenditures made during the year 1907, as above, have been provided from the following sources, viz.:

| | |
|---|---|
| From Bonds, Mortgages and Purchase Obligations issued and disposed of during the year | $2,348,301 80 |
| From Depreciation, Replacement and Sinking Funds appropriated for payment of expenditures included therein | 3,786,854 15 |
| From General Construction Fund appropriated from surplus net income | 33,793,009 67 |
| From Special Construction Fund appropriated from surplus net income for account Gary, Indiana, Plant | 19,316,555 27 |
| And the balance has been advanced from the general surplus account as an investment thereof in Property Account | 7,736,531 57 |
| Total | $66,981,252 46 |

Reference is made to statement below showing the sources from which were provided the funds for payment of the total of capital expenditures made since April 1 1901; also for the payments made since same date of capital liabilities (bonds, mortgages and purchase obligations), together with the disposition made in the accounts of the organization of the charges and payments named.

SUMMARY OF EXPENDITURES FOR ADDITIONAL PROPERTY AND CONSTRUCTION AND FOR PAYMENT OF CAPITAL LIABILITIES

*From April 1 1901 to December 31 1907.*

(Exclusive of cost of Tennessee Coal, Iron & RR. Co. stock as of date of acquirement, November 1 1907.

The following is a summary of the payments which have been made by all companies since April 1 1901 (the date of organization of U. S. Steel Corporation) for the above-named purposes, viz.:

| | | |
|---|---|---|
| For Additional Property and Construction | | $206,075,289 95 |
| For Bonds and Mortgages discharged, exclusive of bonds redeemed with Sinking Fund moneys | $12,235,585 01 | |
| For Bonds redeemed with Bond Sinking Funds | 33,056,907 87 | |
| For Purchase Money Obligations paid off, originally issued for acquirement of property | 33,108,050 64 | |
| | $78,400,543 52 | |
| Less, Amount of securities included in this total of payments which were originally issued after April 1 1901, in financing property and construction expenditures made subsequent to that date | 2,274,177 63 | 76,126,365 89 |
| Total | | $282,201,655 84 |

Of the foregoing total expenditures and payments there have been financed by the issue and sale of securities the following amounts, viz.:

| | | |
|---|---|---|
| By U. S. Steel Corporation 10-60-Year 5% Bonds | $20,000,000 00 | |
| By Union Steel Co. Mortgage and Collateral Trust Bonds issued and sold for account of construction expenditures on that company's properties made since Dec. 1 1902 | 6,456,727 79 | |
| By Bonds and Mortgages of sundry subsidiary companies | 10,374,400 91 | |
| By Purchase Money Obligations issued | 4,103,528 20 | |
| | $40,934,656 90 | |
| Less, Amount of the foregoing securities which have been retired up to Dec. 31 1907 | 2,274,177 63 | 38,660,479 27 |
| Balance of expenditures | | $243,541,176 57 |

This balance of capital expenditures has been paid with funds derived from the following sources, to wit:

| | |
|---|---|
| Bonds paid from Bond Sinking Funds set aside from net earnings, and the interest accretions thereon | $33,056,907 87 |

Expenditures paid from bond sinking, depreciation and improvement funds, and from surplus net income, and formally written off thereto by authority of the Board of Directors, the Property Account being correspondingly reduced, viz.:

| *Expended for—* | *Paid from Sinking, Dep'n and Impr't Funds.* | *Paid from Surplus Net Income.* | |
|---|---|---|---|
| Additional Property and Construction | $22,310,413 40 | $110,205,120 15 | |
| Payment of Capital Liabilities | 8,720,151 47 | 15,847,186 43 | |
| | $31,030,564 87 | $126,052,306 58 | 157,082,871 45 |
| Total of payments made from Funds and Surplus Net Income and charged off thereto | | | $190,139,779 32 |
| And the remainder of the outlays has been paid from the capital surplus at date of organization and the balance of accumulated surplus net income of the U. S. Steel Corporation and the Subsidiary Companies as shown Dec. 31 1907 | | | 53,101,397 25 |
| Total | | | $243,541,176 57 |

EMPLOYEES AND PAY-ROLLS.

The average number of employees in the service of all companies during the fiscal year of 1907, in comparison with the fiscal year of 1906, was as follows:

| *Employees of—* | 1907. *Number.* | 1906. *Number.* |
|---|---|---|
| Manufacturing Properties | 151,670 | 147,048 |
| Coal and Coke Properties | 21,447 | 21,929 |
| Iron Ore Mining Properties | 16,462 | 14,393 |
| Transportation Properties | 18,133 | 16,638 |
| Miscellaneous Properties | 2,468 | 2,449 |
| Total | 210,180 | 202,457 |
| Total annual salaries and wages | $160,825,822 | $147,765,540 |

On January 1 1907 (on March 1 1907 in case of the Coke Companies), an advance was made in the wages and salaries of approximately sixty-five per cent of the total employees of all companies. This advance increased the wages and salaries of the employees affected about 6 6-10 per cent. The average rate of wages and salaries paid all employees during 1907 was above 5 per cent higher than the similar average rate in the next preceding year.

ACQUISITION OF TENNESSEE COAL, IRON & RAILROAD CO. PROPERTIES.

In and since November 1907 the Corporation acquired $30,374,825, par value, of the Common Stock, and of Common Stock subscription receipts of the Tennessee Coal, Iron & Railroad Company, being all but $220,160 of the total of said Common Stock and Common Stock subscription receipts issued and outstanding at December 31 1907.

Of the foregoing aggregate of $30,374,825, par value, of Common Stock and Common Stock subscription receipts acquired, $29,742,170 of same were purchased at par, the Corporation delivering in payment therefor its Ten-Sixty Year Five Per Cent Sinking Fund Gold Bonds, as the equivalent of cash, at the rate of $11,904 76, par value, of said bonds for $10,000, par value, of Tennessee Coal, Iron & Railroad Company's Common Stock; the balance of $632,655 of said stock acquired was paid for in cash, being the installment of 20 per cent payable December 15 1907 on the Common Stock subscription receipts. The total cost to the Corporation of the stock acquired as above was as follows:

| | *Par Val. of T.C.I.& RR. Co. Com. Stk. Acquired.* | *Ten-Sixty Bds. at Par Delivered in Payment Thereof.* | *Par Value of Bonds Issued, and Cost of Bds Purchased, for Delivery Per Preceding; also Amt. of Cash Payment Made.* |
|---|---|---|---|
| For full paid Common Stock certificates | $29,109,515 | $34,654,000 | $33,949,282 48 |
| For Common Stock subscription receipts, 20% paid | 632,655 | 753,000 | 735,695 16 |
| Total paid for with bonds | $29,742,170 | $35,407,000 | $34,684,977 64 |
| For 20% installment paid Dec. 15 1907 on subscript'n receipts | 632,655 | | (Cash) 632,655 00 |
| Total acquired and cost of the same | 30,374,825 | $35,407,000 | $35,317,632 64 |

Of the Ten-Sixty Year Five Per Cent Sinking Fund Gold Bonds delivered as above, $30,000,000 thereof were bonds of this issue held in the Corporation's Treasury, which had been executed and certified in 1903, as authorized by the Directors and Stockholders. The balance of the bonds delivered for the purpose aforesaid was acquired by the Corporation through purchase in the open market.

As appears from its books, the outstanding stocks, bonded debt and Purchase Money Obligations of the Tennessee Coal, Iron & Railroad Company, other than its Common Stock acquired by the U. S. Steel Corporation as above recited, are as follows:

| | |
|---|---|
| Common Stock | $220,160 |
| Preferred Stock (cumulative 8% dividend) | 124,500 |
| Preferred Stock of Alabama Steel & Shipbuilding Co. (6% guaranteed dividend) | 193,000 |
| Various issues of secured bonds as listed in table on page 728 aggregating | 14,226,000 |
| Purchase Money Obligations (secured by deposit of Birmingham Southern RR. Co. stock as collateral) | 826,386 |

The Company also had outstanding at November 1 1907 Bills Payable, originally issued for funds obtained for construction purposes, amounting to $1,634,311 88.

During the year 1907 the production of the mineral and manufacturing properties of the Tennessee Company was as follows:

| | | |
|---|---|---|
| Iron Ore | 1,576,757 | Gross Tons |
| Limestone and Dolomite | 244,059 | " " |
| Coal (not including that used in making coke) | 1,709,251 | Net Tons |
| Coke | 1,170,826 | " " |
| Pig Iron—For Market | 315,573 | Gross Tons |
| For Conversion at Steel Works | 287,254 | " " |
| | 602,827 | " " |
| O. H. Steel Ingots | 243,444 | Gross Tons |
| Steel Rails | 146,171 | " " |
| Billets, Plates and Bars | 88,009 | " " |

The net profits of the Tennessee Coal, Iron & Railroad Company for the year 1907, after charging off $437,666 84 for depreciation and extraordinary replacements, and $885,552 31 for net interest charge on bonded and floating debt, were $1,426,684 58.

Extensive outlays were made during the year for construction and improvement work. The total amount expended aggregated $6,589,116 99. The outlays covered additions and betterments as follows:

| | |
|---|---|
| Land and Real Estate Account | $71,936 41 |
| Extensions and Betterments at Ore and Coal Properties | 1,259,017 77 |
| Improvements at Bessemer Rolling Mills | 4,592 87 |
| Additions, Extensions and Betterments at Ensley Furnaces, Steel Works and Rolling Mills | 5,253,569 94 |
| Total | $6,589,116 99 |

VOLUME OF BUSINESS.

This volume of business done by all companies during the year, as represented by their combined gross sales and earnings, equaled the sum of $757,014,767 68.

This amount represents the aggregate gross value of the commercial transactions conducted by the respective companies, and includes sales made between the subsidiary companies, and the gross receipts of the transportation companies for services rendered both to subsidiary companies and to the public. The earnings for the year resulting from the above gross business represent the combined profits accruing to the several corporate interests on the respective sales and services rendered, each of which is in itself a complete commercial transaction.

The increase in the aggregate amount of business done by all companies in 1907 on the foregoing basis, as compared with the preceding year, was $60,257,876 67, divided as follows: Increase in sales value of products shipped to the public, $18,553,909 92; in sales value of products sold between subsidiary companies (including ore, coal and coke), $37,372,606 09; and in the gross earnings of the transportation and miscellaneous companies, $4,331,360 66.

EMPLOYEES' SUBSCRIPTIONS TO PREFERRED STOCK.

In January 1908 there was again offered to the employees of the United States Steel Corporation and of the Subsidiary Companies the privilege of subscribing for 25,000 shares of Preferred Stock on substantially the same conditions as offered previously, except the price was fixed at $87 50 per share. The offer was over-subscribed by about one hundred per cent, applications having been received from 24,884 employees for an aggregate of 50,075 shares. Allotments were made as follows: Each subscriber for one share was allotted the same, and all others were allotted fifty per cent of their subscriptions. The total number of shares allotted on this basis was 30,621.

BALANCE SHEET, STATEMENTS OF ACCOUNTS AND STATISTICS.

The statements of accounts, statistics, &c., presented in this report comprehend, unless otherwise specifically stated, the combined results for the United States Steel Corporation and all of the Subsidiary Companies, including the Tennessee Coal, Iron & Railroad Company. In respect of this latter company, however, its operating results, wherever included in combined statements, cover only its operations since November 1 1907, the date as of which the United States Steel Corporation acquired a majority interest in the stock of said company.

The Condensed Balance Sheet, on next page, exhibits the combined assets and liabilities of the United States Steel Corporation and of the several Subsidiary Companies, based on the valuations at which the stocks of the Subsidiary Companies and The Carnegie Company bonds were acquired by the Steel Corporation, but *liabilities from one company to another are omitted from both liabilities and assets.* This combined balance sheet for December 31 1907 takes up under their respective headings the assets and outstanding liabilities of the Tennessee Coal, Iron & Railroad Company; also the proportionate part of the assets and liabilities of the Hostetter-Connellsville Coke Company applicable to the stock of that Company which was not previously owned by Steel Corporation interests. The inclusion of these last-named assets and liabilities accounts for substantially all of the items of additions of $614,722 63 under the heading of Property Account. The increase of $738,410, as compared with December 31 1906, in the outstanding stocks of subsidiary companies not held by U. S. Steel Corporation, is made up of $220,160 of Common and $124,500 of Preferred Stock of Tennessee Coal, Iron & Railroad Company, $193,000 of Preferred Stock of Alabama Steel & Shipbuilding Company (a subsidiary of the T. C., I. & RR. Co.), and $203,750 of Hostetter-Connellsville Coke Company stock—total, $741,410, less $3,000 of subsidiary companies' stocks outstanding at close of 1906 acquired during the year.

The accounts of the Steel Corporation and of the Subsidiary Companies for the year 1907 have been audited by Price, Waterhouse & Co., the chartered accountants selected for this purpose by the stockholders at the annual meeting April 15 1907. The certificate of the chartered accountants is printed in full on page 33 of pamphlet.

GENERAL.

During the first ten months in the year 1907 the several departments of the Subsidiary Companies were operated at substantially their maximum capacity. The production by the manufacturing properties of finished products for sale during the period from January 1 to November 1 1907 showed an increase of five per cent over the corresponding period in 1906. Owing, however, to the sudden and severe check to general trade conditions which took place in the fall of 1907, the volume of business of the Subsidiary Companies was materially curtailed, resulting during the last two months of the year in a decrease in production of finished products which exceeded the gain made during the preceding ten months. The production of finished steel products for sale in the entire year of 1907 shows a decrease compared with 1906 of 201,691 tons, or about 2 per cent. The decrease in actual shipments of products made to customers showed a somewhat larger falling off, 10,451,488 tons of all kinds of manufactured materials (including furnace products and scrap) having been shipped in 1907, against 10,862,425 tons in the preceding year. Prices of steel commodities for domestic sale were not generally advanced during the year, notwithstanding there were marked increases in the cost of raw materials and supplies used in manufacturing, in railroad freight charges, in wages and in taxation charges.

The satisfactory results obtained from the export business through the building up of a permanent and continuous export trade, as noted in previous reports, have continued. During the year there were shipped for export 1,014,082 tons of steel commodities of various kinds, a decrease of 6 per cent as compared with the shipments in the previous year. The gross receipts for the 1907 shipments, however, exceeded those for 1906 by 16 per cent. The average mill price per ton received for all exported materials was only 7½ per cent less than the average price received for all domestic shipments. The advantages to the employees, the domestic consumer, and the manufacturer, of a fair volume of foreign trade during periods of business depression in the United States, have been emphasized in previous reports. In order to obtain the maximum benefits from such trade during times of lesser activity in business in the domestic market, it seems wise to sell continuously in the neutral markets of the world, and even at times when foreign trade conditions do not result in prices so near the domestic prices as were received during 1907.

In November 1907 the Corporation acquired a majority of the common stock of the Tennessee Coal, Iron & Railroad Company as is set forth in detail on the previous page. The purchase was made during the financial panic of October 1907. The parties owning or controlling a majority of the Tennessee Company's stock offered the same to the Corporation on terms which were satisfactory both as to price and manner of payment. The purchase of the property promises benefit to the Corporation and also aided promptly and materially in relieving the financial stress at the time existing. The Tennessee property is very valuable. Its mineral resources are large. The location of the iron ore and coal deposits in the immediate proximity of the manufacturing plants enables the production of iron at reasonable cost. It is believed the lines of business of the Tennessee Company can be materially extended. During the last two years about $6,250,000 were expended in rehabilitating, modernizing and enlarging the furnaces and steel plant. Additional expenditures of considerable magnitude in 1908 are contemplated to complete the plans for improvements which were under way when the Corporation acquired the property. It is believed that when these improvements and extensions shall have been completed and the operating management perfected, the business of the company will be profitable.

The expenditures by subsidiary companies during 1907 for additional property and construction, including the Tennessee Company's expenditures for two months only, amounted to $66,981,252 46. Included in this total is $19,343,229 62 for account of the Gary Plant in Indiana. The subsidiary companies also made during the year expenditures aggregating $20,324,584 90 for extraordinary replacements. In this report are found schedules showing the more important additions, improvements and replacements comprehended by the above aggregate outlays. The foregoing expenditures, with the exception of $2,348,301 80, financed by issue of securities and purchase obligations, have been paid for from earnings and surplus income. The properties have been maintained at the highest state of efficiency, and through liberal outlays their production and earning power have been materially increased. At the close of the year a large amount of construction and improvement work was still in progress, being principally the uncompleted portion of the program for extensions and betterments authorized in the early part of 1907. The amount unexpended at January 1 1908 for these purposes, including those for Tennessee Coal, Iron & Railroad Company, but exclusive of the requirements for the new work at Gary, Indiana, referred to below, equaled approximately $40,000,000. It is estimated that about eighty-five per cent of this total amount can be expended in 1908.

Substantial progress was made during the year in the construction of the new plant at Gary, Indiana, the building of the city of Gary, and in the terminal railroad work and facilities adjacent to the steel plant. The expenditures made in connection with the foregoing to December 31 1907, including the cost of about 9,000 acres of land, amounted to $24,063,388 53. This amount has been provided entirely from surplus net profits of the Corporation. At December 31 1907 there was reserved in the Special Fund set aside and available for the foregoing construction work, a balance of $26,051,242 62. The balance unexpended at January 1 1908 on appropriations heretofore authorized for this work was $35,517,000. It is believed about $18,000,000 of this amount can be expended during 1908.

There has been purchased a site containing about 1,580 acres (of which 300 acres are now submerged) located in St. Louis County, Minnesota, ten miles from the center of the city of Duluth, on which it is proposed to construct a moderate-sized iron and steel plant. The tract fronts on the St. Louis River, which is navigable for large lake steamers, and is located on the line of the Northern Pacific Railway. It is expected, however, that there will be constructed in

connection with the steel plant a belt railway extending northwardly therefrom to a connection with the Duluth Missabe & Northern Railway, to enable the prompt and economical delivery of ore to the plant from the Minnesota ore ranges; also eastwardly from the steel plant across the St. Louis River into Superior, Wisconsin, where connections will be made with five trunk lines of railways reaching the head of Lake Superior from the south and west. It is proposed to have the plant constructed by the Minnesota Steel Company a subsidiary corporation. The plans for the scope and construction of the steel plant have not yet been fully developed. The expenditures on account of this property during 1907 include the purchase of the real estate and some clearing and leveling of the site.

Reference was made in the last annual report to the proposal to establish from the employees' bonus fund for 1907 a separate fund to be used for pension purposes. Accordingly, there was reserved for this purpose the sum of one million dollars. The plan under which the benefits accruing from this Pension Fund will be extended to employees is under consideration.

During the first six months of 1907 orders for steel products were received equaling substantially the maximum capacity of the mills. Subsequently there was a marked falling off in the new business offered. As a result the tonnage of unfilled orders on the books at December 31 1907 was only 4,624,553 tons of all kinds of manufactured steel products. In common with other lines of industry there was a material reduction in sales during the latter part of 1907. However, the bookings for January were twenty-five per cent better than December, and for February twenty-five per cent better than January. As this report goes to press the bookings per day are at least twenty-five per cent larger than those of February. The management express hopeful views of the future.

The Board takes pleasure in acknowledging the loyal and efficient services of the officers and employees of the Corporation and the several subsidiary companies.

By order of the Board of Directors.

ELBERT H. GARY, Chairman.
WILLIAM E. COREY, President.

## CONDENSED GENERAL BALANCE SHEET DECEMBER 31 1907.

### *ASSETS.*

| | | |
|---|---|---|
| **Property Account—** | | |
| *Properties Owned and Operated by the Several Companies—* | | |
| Balance of this account as of December 31 1906 | | $1,378,185,605 07 |
| Additions during 1907 to foregoing balance (see previous page) | | 614,722 63 |
| Tennessee Coal, Iron & RR. Co.'s Properties, viz.: | | |
| Cost of Fixed Property as acquired at November 1 1907 | $48,961,208 83 | |
| Expended for Construction in November and December | 984,886 74 | |
| | | 49,946,095 57 |
| Expended for Additional Property and Construction in 1907 other than by or for account T. C., I & RR. Co | | 65,996,365 72 |
| | | $1,494,742,788 99 |
| Less—Charged off to the following accounts, viz.: | | |
| To Bond Sinking Funds | $572,500 00 | |
| To Depreciation, Extinguishment and Replacement Funds | 4,680,421 03 | |

| Balance of Income | | $177,201,561 65 |
| **Interest Charges—** | | |
| Interest on Bonds and Mortgages of the Subsidiary Companies | $6,338,163 50 | |
| Interest on Purchase Money Obligations and Special Deposits or Loans of the Subsidiary Companies | 124,031 92 | |
| | | 6,492,195 42 |
| Balance, being the aggregate earnings of the several companies for the year | | $170,709,366 23 |
| Less—Profits earned by subsidiary companies on sales made and service rendered account of materials on hand in purchasing companies' inventories, and which profits have not yet been realized in cash from the standpoint of a combined statement of the business of the U. S. Steel Corporation and subsidiary companies | | 9,744,692 51 |
| Earnings for the Year 1907, per Income Account, page 34 of pamphlet | | $160,964,673 72 |

* Includes charges for ordinary maintenance and repairs, approximately $35,000,000. See table on page 727

We have audited the above Balance Sheet, and certify that in our opinion it is properly drawn up so as to show the true financial position of the United States Steel Corporation and Subsidiary Companies on December 31, 1907.
New York, March 7 1908. PRICE, WATERHOUSE & CO., Auditors.

## AMERICAN TELEPHONE & TELEGRAPH COMPANY.

### ANNUAL REPORT FOR THE YEAR ENDING DECEMBER 31 1907.

*New York, March* 10 1908.

*To the Stockholders:*

The results of the business for the year 1907, as shown by the Comptroller's statement appended, were as follows:

| | |
|---|---|
| Profits | $23,479,290 10 |
| Interest | 7,209,902 16 |
| Balance | 16,269,387 94 |
| Dvidends paid | 10,943,644 00 |
| Carried to Reserve | 3,500,000 00 |
| Carried to Surplus | 1,825,743 94 |

The following were the corresponding figures for the year 1906:

| | |
|---|---|
| Profits | $17,857,687 37 |
| Interest | 4,886,750 61 |
| Balance | 12,970,936 76 |
| Dividends paid | 10,195,233 50 |
| Carried to Reserve | 1,773,736 62 |
| Carried to Surplus | 1,001,966 64 |

SUBSCRIBER STATIONS.

The number of stations at the end of the year operated directly by the associated companies which constitute our system in the United States was 3,035,533, an increase of 308,244. In addition to this number there were 755,316 exchange and toll stations connected to our system by our toll and long-distance lines, but operated by local, co-operative and rural independent companies or associations having sub-license or connection contracts. Adding also our telephones employed for private line purposes, there was a total of 3,839,000 stations connected to the Bell system, as against 3,070,660 stations at the close of the previous year, an increase of 768,340 stations.

The increase in the number of subscriber stations operated directly by our associated companies was less than last year, due to more rigid collection of bills and more careful scrutiny of applicants. As the average cost of connecting subscribers far exceeds the average annual income per station, permanency is more desirable than numbers. The result has been an improvement in the class of subscribers, so that, notwithstanding this smaller increase in subscriber stations, the increase in gross revenue is fully equal to that of former years.

WIRE MILEAGE.

The total mileage of wire in use for exchange and toll service was 8,610,592 miles, of which 1,141,687 were added during the year. These figures do not include the mileage of wire operated by sub-licensees.

TRAFFIC.

Including the traffic over the long-distance lines, but excluding sub-licensees, the daily average of toll connections was about 494,000 and of exchange connections about 18,130,000, as against corresponding figures in 1906 of 462,000 and 16,478,000; the total daily average for 1907 reaching 18,624,000, or at the rate of about 5,997,000,000 per year.

CONSTRUCTION.

In the early part of the past year there were signs of a coming change in general business conditions, and steps were taken to stop all construction not necessary either for immediate demand or to put the plant in condition to economically meet future demand. The result of this action has been satisfactory. The construction expenditures during the latter part of the year were largely reduced.

The amount added to construction and real estate by all the companies, excluding sub-licensees, constituting our system in the United States during the year 1907 was:

| | |
|---|---|
| For Exchanges | $44,184,800 |
| For toll lines | 4,426,400 |
| For land and buildings | 4,510,200 |
| | $52,921,400 |

CONSTRUCTION OF PREVIOUS YEARS.

The amount added in 1900 was $31,619,100; in 1901, $31,005,400; in 1902, $37,336,500; in 1903, $35,368,700; in 1904, $33,436,700; in 1905, $50,780,906; and in 1906, $79,366,949, making the grand total of expenditure upon these properties during the eight years $351,835,655.

MAINTENANCE AND RECONSTRUCTION.

During the year $36,626,667 was applied out of revenue to maintenance and reconstruction purposes.

The total amount of maintenance and reconstruction charged against revenue for the last five years was over $147,000,000. This expenditure is reflected in the superior condition of the plant, the theory and practice being that the plant must be kept in standard condition at the expense of revenue.

AMERICAN TELEPHONE & TELEGRAPH COMPANY INVESTMENT.

The amount contributed by the American Telephone & Telegraph Company in 1907 by way of investment in its own long-distance plant ($1,285,000), in real estate ($585,485) and in the purchase of stock and bonds and in advances to its operating companies ($29,952,000), was in all $31,822,485, an addition of about ten per cent to its entire investment up to January 1 1907.

ASSOCIATED COMPANIES.

*Financial Condition.*

The associated operating companies of the United States (not including the American Telephone & Telegraph Company) commenced the year with rather an abnormal indebtedness. Measures were at once taken to bring this within the normal limits of current operations. This has been done and the obligations of those companies to other than the American Telephone & Telegraph Company decreased for the year $21,000,000, while the cash on hand increased at the same time $1,500,000—a net improvement in such liabilities of $22,500,000.

During the year the Western Electric Company decreased its indebtedness $9,400,000 and increased its cash $1,150,000, making a net improvement of $10,550,000 for that company.

The total improvement of our associate operating and manufacturing companies in the United States was $33,050,000, bringing the current and floating indebtedness of all the associated companies well within the limits of current operations.

*Construction for the Current Year.*

Estimates of all the associated operating companies and of the American Telephone & Telegraph Company for all anticipated requirements for 1908 have been prepared, thoroughly studied and considered in connection with available resources. Maximum expenditure in each case has been agreed upon, which is well within the available resources. All who are responsible for the expenditures are working in entire accord with these agreements and understandings, and it is believed that the results will be well within the limits fixed.

WESTERN ELECTRIC COMPANY.

The Western Electric Company desired to extend its relations with our company and the associated companies, and to cover with its operations the entire telephonic field, whether connected with the Bell system or not. At the same time it was thought that the management, which would remain the same if brought into closer touch with the general organization of the Bell system, could avoid duplication of effort in electrical and mechanical development, and in this way, and by the concentration of the purchase and distribution of supplies, effect greater efficiency and economy.

To this end contracts have been made with most of the Bell companies, and the contract between our company and the Western Electric Company has been modified in respect to the sale of telephones and telephonic apparatus.

The business of the year 1907, considering the unusual conditions and the large contraction in business, was fairly satisactory, if taken alone by itself. When taken in connection with the overstock from 1906 and the amount of merchandise and material on hand or in process at the beginning of the year, it shows very small profit.

Marketable goods and merchandise on hand at the end of the year 1907 were inventoried at $2,000,000 less than cost, and concessions in prices to the amount of $335,000 were made.

These items, in addition to the high rates and unusual amount of interest paid, made it necessary to pay substantially all of the dividend of 1907 out of surplus.

At the end of the year cash and cash assets exceeded the payables by about eighteen per cent. The quick assets including merchandise exceeded the payables more than two to one. The plant stands on the books at about $12,000,000, which is fifty-one per cent of the actual cost.

During the year an issue of bonds to the amount of $15,000,000 was authorized, which will be used when conditions are favorable to provide additional working capital if needed.

A proposition was made by our company to purchase the outstanding share capital of the Western Electric Company at a price agreed upon with some representative shareholders as fair and equitable. Over 30,000 shares have accepted the offer, making the total holdings of our company over 120,000 out of 150,000 shares.

GROSS REVENUE AND EXPENSES OPERATING COMPANIES.

Attention has been given to the operating expenses with a view to bringing them down to the lowest economy consistent with the highest efficiency.

In spite of increase in wages and the continuance of the same high standard of maintenance which has always prevailed, the ratio of expense to gross revenue has decreased, so that the net revenue shows a gratifying improvement.

It is expected and believed that the continuation of the present policy through the coming year will produce equally satisfactory results.

The following table shows the year's results of all the telephone operating companies associated with the Bell system, not including the long-distance business and the Bell Telephone Company of Canada, for the year 1907, compared with 1906.

COMPARATIVE CONSOLIDATED STATEMENT OF BELL TELEPHONE COMPANIES IN UNITED STATES, AMERICAN TELEPHONE & TELEGRAPH COMPANY NOT INCLUDED.

*(Excluding Duplications.)*

| | 1906. | 1907. | *Increase.* |
|---|---|---|---|
| Gross Earnings | $105,441,600 | $120,753,200 | $15,311,600 |
| *Expenses—* | | | |
| Operating and General | 47,206,400 | 53,242,300 | 6,035,900 |
| Maintenance | 30,639,200 | 34,665,700 | 4,026,500 |
| Total Expenses | 77,845,600 | 87,908,000 | 10,062,400 |
| Balance, Net Earnings | 27,596,000 | 32,845,200 | 5,249,200 |
| Deduct Interest | 5,197,800 | 7,025,500 | 1,827,700 |
| Balance | 22,398,200 | 25,819,700 | 3,421,500 |
| Dividends Declared | 16,682,000 | 19,206,100 | 2,524,100 |
| Undivided Profits | 5,716,200 | 6,613,600 | 897,400 |

ISSUE OF NEW SHARE CAPITAL.

Early in the year, anticipating the possibility of an uncertain financial condition, your Directors authorized an offer of 219,252 shares of capital stock to the existing shareholders, at the ratio of one share to each six shares then held. Of this issue, all but 9,486 shares were subscribed for and taken. The money realized placed our company in such condition that it was enabled to fully protect all of its associated and allied interests during the exceedingly critical financial period just passed, and left it in a position to meet all anticipated demands of the current year based on a complete discussion of and agreement on the requirements and resources of our company and of the associated, and controlled companies.

With this issue there are now outstanding 1,525,280 shares of capital stock, distributed among 23,469 shareholders, an increase of 5,275 over January 1 1907, being an average of sixty-five shares each.

It will be interesting to note that 1,312,502 of these shares are held by 23,453 shareholders, an average of less than fifty-six each, the balance, 212,778, being held by sixteen shareholders of 5,000 or over shares each—an average of 13,298 each. More than three-quarters of the entire share capital is held in New England.

SELLING TELEPHONES.

The policy of our company in the past has been to lease telephones, and to allow the Western Electric Company to sell only apparatus to our licensees. Believing that the best interests of all would be advanced by the general use of standard telephonic apparatus, after consultation with and with the approval of our associated and licensed companies, we authorized the Western Electric Company to sell both telephones and telephonic apparatus to all applicants. While the time has been too short to show positively the effect of this policy, the indications are that the benefits direct and indirect will be large, particularly in the development of unoccupied territory in connection with the Bell system.

EXAGGERATION OF TELEPHONE PROFITS FOR SPECULATIVE PURPOSES.

Much of the agitation against legitimate telephone business is founded on false and exaggerated statements of the profits originally made by the early Bell companies.

These statements have been used by the promoters of both good and bad enterprises.

As a matter of fact, the shareholders of The American Bell Telephone Company and its predecessors paid into the treasuries of those companies more actual cash than was represented by the capitalization at par value.

The only shares of The American Bell Telephone Company not issued for cash at par or at a premium were the shares, amounting to $5,100,000, issued in exchange for the shares and property of the National Bell Telephone Company. The premiums received by the company on further issues of stock amounted to more than this sum.

The substitution of the American Telephone & Telegraph Company for The American Bell Telephone Company was, in effect, the purchase of the property of The American Bell Telephone Company for cash at somewhat less than the average market price prevailing prior to the purchase. None of the American Telephone & Telegraph shares now stand on any other basis than cash at par value.

In view of the enterprise shown and the risk incurred by the original investors, who received no interest or dividends for years, the return was certainly not large to those who created an enterprise which has probably done more to bring about a new and advantageous condition in the affairs of mankind than any other industry in the history of the world.

PHYSICAL VALUATION OF TELEPHONE PLANTS.

For the purpose of determining the relation between the physical plant and the capitalization, a valuation of the exchange, toll and long-distance line plant included in the Bell system was made at the close of the year. The valuation was based on the replacement cost of the existing plant, and does not include any "unearned increment" or allowance for franchises, but assumes a clear field and free franchise. When to this valuation is added the value of rights of way now unobtainable, patents, franchises, and other valuable considerations, it will be conceded that the Bell system is unique. This showing is interesting and should serve to correct some popular but erroneous impressions.

| | |
|---|---|
| January 1 1908 all obligations of the American Telephone & Telegraph Company and its associated operating companies in the United States, including capital stock at par, held by the public were | $554,939,000 |
| Cash on hand, quick receivables, working assets, and sundry investments were | 101,074,000 |
| Balance, capital representing plants | 453,865,000 |
| The plants are carried on the books of the various companies at | 492,496,000 |
| Appraised value by Engineers (copper at 15 cents) | 488,296,000 |
| Outstanding obligations against plant | 453,865,000 |
| Appraised value in excess of outstanding obligations | 34,431,000 |
| Book value exchange construction only, per exchange station | 114 |
| Book value all plant (toll line and exchange) of Bell operating companies in United States (not including long-distance) per exchange station | 149 |
| Book value all plants in the United States, including long-distance, per exchange station | 162 |

PROMOTION AND COMPETITION—INDEPENDENT COMPANIES.

The unusual production and prices, during the past few years, of those commodities which this country sells to the whole world, with accompanying very general distribution of wealth, resulted in an almost phenomenal financial and industrial activity, stimulating new enterprises and promotions of all kinds, among them independent telephone companies.

The exaggerated stories of the fortunes made by original telephone investors, together with misleading statements of probable profits, made it possible to launch many of these companies pledged to *low rates for exchange service and high dividends to investors*. At these low rates, with "maintenance" and "reconstruction" expenses either intentionally or ignorantly disregarded, these companies for a time had an appearance of prosperity.

The result has been unfortunate in nearly every case. The promises and pledges as to rates and profits, made as an excuse for their coming, as a basis for their franchise, and as an incentive to attract capital, are now admitted to be impossible. Most, if not all, of these companies, which have had an existence long enough to force attention to the items of "maintenance" or "reconstruction," are now asking for increased rates, and to be absolved from onerous conditions freely accepted and assumed at the beginning. Reorganizations are now in progress.

It would seem, as a whole, that the gain of the public through competition based on low rates has not compensated for the loss of capital invested in these enterprises.

During this period of strife and rush for development and extension, many subscribers were connected to exchange systems with little or no benefit to themselves or advantage to others, and much was done that under ordinary conditions would not have been done.

RATES AND RATE REGULATION.

The result of these conditions has been to create in the minds of the public, and of public bodies, misleading and mistaken ideas of the telephone business. It has encouraged attempts at regulation of rates and business on lines that if obligatory or persisted in would be ruinous. In controversies as to rates, the policy of our associated companies has been to make a complete and absolute showing of the condition, cost and value of plant, cost and value of service

cost and necessity of proper maintenance, and the broad position is taken that neither our company nor the associated companies have anything to conceal or anything to apologize for. That the capitalization of all the companies is conservative, far within justifiable limits, and in the relation between the replacement value of the properties and the capitalization of the companies, unique. Fair rates, therefore, should be authorized or acquiesced in, for it is only by fair rates that good service to the public and permanent, healthy conditions can be created or maintained. With a full knowledge of all surrounding circumstances and conditions, it is believed that this would be fully acquiesced in by the public.

*Fair rates* would insure high-class plant and equipment maintained at a high state of efficiency, and would provide fair wages to employees, the highest paid for similar class of employment. Both of these are necessary to good service.

*Fair rates* should give fair return on the investment, and promise fair return on new money needed. This is necessary to maintain the interest of the existing shareholders in the proper administration of the business, as well as to provide for the continually increasing public demand.

Any revenue produced over and above such requirements and the proper reserve to provide for contingencies could be used for the benefit of the public, allowing the company to retain a part sufficient to stimulate the most efficient and economical management. It would be difficult, if not impossible, to get effective and economical management, such as would produce the best results for both the public and the shareholders, without recognizing this principle.

It does not seem possible that there can be any question of the justice of this position. That being granted, the facts to be settled are:

Is the management honest and competent?

What is the investment?

Is the property represented by that investment maintained at a high standard?

What percentage of return does it show?

Is that a fair return?

Is it obtained by a reasonable distribution of gross charges?

If these questions are answered satisfactorily, there can be no basis for conflict between the company and the public, and the less the working conditions are made inflexible by legislative proscription, the better will be the solution of the constantly changing problems incident to a growing business.

The question of maintenance is of the greatest importance and will be referred to more at length later.

### COMPETITION.

The value of any exchange system is measured by the number of members of any community that are connected with it. If there are two systems, neither of them serving all, important users must be connected with both systems. Connection with only one is of but partial value and cannot be satisfactory. Two exchange systems in the same community, each serving the same members, cannot be conceived of as a permanency, nor can the service in either be furnished at any material reduction because of the competition, if return on investment and proper maintenance are taken into account. Duplication of plant is a waste to the investor. Duplication of charges is a waste to the user.

The advantages claimed for competition are lower rates and improved service. Exhaustive competition may temporarily produce either or both of these results, but, as before stated, this temporary gain is purchased by an excessive waste. Duplication of plant and operation cannot produce either result without exhaustive competition. Given the same management, the public must pay double rates for service, to meet double charges, on double capital, double operating expenses and double maintenance. In most cases of proposed competition an examination of the prospectus will show that, by some process, it is expected to make good a capitalization equal to at least two or three times the actual cost of the construction. The only benefits are to the promoter.

### PUBLIC CONTROL.

It is contended that if there is to be no competition, there should be public control.

It is not believed that there is any serious objection to such control, provided it is independent, intelligent, considerate, thorough and just, recognizing, as does the Inter-State Commerce Commission in its report recently issued, that capital is entitled to its fair return, and good management or enterprise to its reward.

### WHAT IS FAIR RETURN ON CAPITAL?

With guaranteed or reasonably certain income, money can be obtained for any enterprise at moderate rates.

With uncertainty—owing to competition and opposition, possible or actual, or possible regulation of rates without proper investigation or consideration—a more or less speculative price must be paid.

Subject to these general rules, "locality" and existing general conditions will establish the rate.

### FAIR CHARGES—UPON WHAT BASED? EXCHANGE SERVICE.

An exchange system is made up of circuits (each consisting of two wires) radiating from a central office, or from central offices connected by trunk lines, so arranged that each circuit can be connected directly or through trunk lines with the others. There are in these circuits of the Bell system about 7,000,000 miles of wire—over two miles of wire to each subscriber—one-half in underground conduits. The system of radiating circuits is the most expensive part of the exchange system to build, it is least durable, therefore most expensive to maintain, calls for the largest part of the total investment, and consequently must bear the largest part of the cost of capital.

The real value of a telephone exchange system depends entirely on the distribution and number of other members of the same or other communities connected with the same or connecting systems, with whom any subscriber can have prompt and satisfactory communication.

Any member of a community connected with an exchange system can be reached as well, but not as conveniently, from a central or public office as from a subscriber's station.

To reach any member of a community not connected with any exchange system, whether from public station or subscriber's station, is too inconvenient and impractical to be considered for ordinary use.

Therefore, the particular circuit connecting any subscriber with the exchange is what might be termed a *convenience to that particular subscriber, but a necessity to all other subscribers.*

It is not merely the maintenance of the individual circuit connecting with the exchange that is paid for by any subscriber; *it is in a greater measure the use from time to time of the circuits, trunks and facilities which make communication possible with all other subscribers.*

It is the ability to communicate with others that makes the exchange valuable; it is the use of other circuits than your own.

The cost and value of the system to any subscriber do not depend so much on the number of communications had as on the number and extent of other circuits and facilities necessary to give the communications desired.

It is plain, therefore, that the character of the circuit connecting any subscriber with the exchange does not determine either the cost or value to that subscriber of the exchange connections.

The many and complicated systems of charges prevailing indicate the struggles experts have had in their efforts to establish consistent and reasonable rates.

As the value of the exchange to the subscriber depends upon the number of subscribers within reach—rates must be so established that the maximum number of subscribers can be obtained, so that the greatest number of those with whom communication may be wanted will be connected with the exchange. The cost of any circuit, therefore, must be largely distributed between those who may desire to communicate with the particular subscriber connected by that circuit.

The cost or value cannot be exactly distributed—an approximation is reached by measured service charges, or by a classification of service between business houses and residences with a sub-classification of plant between "direct" and "party" line.

Business rates are higher for the reason that presumably the business subscriber connects with the greatest number of other subscribers, and consequently makes use of the greatest number of circuits and operating facilities in an exchange.

Residence rates are lower because the residence subscriber connects with a limited number of other subscribers, and because he makes more limited demands on the central office.

It being established that the measure of value is not in the particular class of line connecting any subscriber to an exchange, but in the use of the exchange system as a whole, and that the value of any exchange depends on the area covered and the maximum number of desired individuals that can be reached, rates must be so adjusted that no rate shall bear unjustly on particular individuals or classes; that, at some rate, connection with the exchange is within reach of any one who can add to the value, to others, of the exchange, and that, as a whole, the revenue will be sufficient to maintain the plant, pay fair wages, make enough return on capital and enterprise to insure good economical management and sufficient capital to meet the increasing demands of the public.

### "TOLL" LINE AND "LONG-DISTANCE" SERVICE.

Toll line and long-distance communications require, as in exchange connections, the exclusive use of a circuit, two wires, between two points for an interval of time, varying with the conditions; over the whole system the average "time interval" consumed in the completion of each communication is about seven and one-half minutes.

Direct service between two points with large demands for service is the least complicated; the average "time interval" of each communication lasts about three and one-half to five minutes. Between points of small demand, or between intermediate points on local lines, both complications and cost increase, and the average "time interval" is not less than five minutes each. Between points on side or branch lines, or distant points requiring combinations of circuits, or complicated and delicate auxiliary apparatus with many attendant operators, complications and cost increase rapidly, and the "time interval" taken for each communication varies from five to seven and one-half minutes to an indefinite period.

*Cost is determined by the capital and maintenance charges of the plant and operating costs divided by the average number of communications.*

Cheap rates for service depend upon high average use of facilities.

High average is obtained ordinarily in public service by putting on higher pressure—crowding—or in some way rendering more than normal service through or over any given facilities during the limited periods of great demand.

It is by this means, and by this means only, that cheap service is rendered to the public.

Whatever inconvenience or discomfort there may be caused on one hand is compensated for by the reduced price charged for service.

In this particular toll line or long-distance service is unique. In whatever way the circuit is made up, a certain "time interval" must be given exclusively to each communication and to the communicating parties. No other communication can be crowded on that circuit during that "time interval."

Any "time interval" passed without being utilized is lost beyond recovery. A good average cannot be made by crowding two or more communications into the "time interval" of one, nor by putting on higher pressure to get more "time intervals" over the same circuit.

There are only a certain number of five-minute "time intervals" in each hour, or five-minute "spaces" on each clock. If you want more "time intervals" or more "spaces" you must take more hours or more clocks. In toll line business anything above the normal capacity of each circuit must be provided for by additional circuits.

Toll line or long-distance business requires the presence of the communicating parties; for that reason it is confiend to the business or working hours of the day; and, further, the greater part of this business is not only limited to those few hours when parties are most likely to be located at some particular place, but to that part of those few hours immediately after the general business of the day has developed. For this reason the greater part of the toll line or long-distance business is crowded into an exceedingly small part of the business day. The periods of great demand are short. The facilities provided are idle a great part of even the business hours.

The diagrams following illustrate this most graphically—one taken at Washington, where the business hours, due to the newspaper correspondence, extend well into the night, the other at a city which shows better than the average. (See pamphlet report.)

Examination shows that about half the facilities are utilized to a fair part of the capacity during business hours only. All the rest are utilized only to a fractional part of the capacity at any time. If during certain hours the business as shown on these diagrams could be subjected to a half hour's delay, the facilities required could be reduced one-third at least.

Toll line or long-distance business is in the minds of the public similar to telegraphic message business. There is no comparison. Telegraphic circuits between points are at most one wire, on all trunk lines two to four circuits over one wire.

Telegrams are handed in, filed before an operator and despatched in order. In this way the business is distributed more uniformly over working hours, and during the night hours the lines are used for press messages, night messages, or for long-distance messages in transit.

### MAINTENANCE.

Utter disregard for repairs and reconstruction, usually comprised under the head of "maintenance," has been the cause of more misunderstanding on the part of the public and public bodies having to do with rates, of more self—or selfish—deceit on the part of promoters of telephone enterprises, and of more mistakes on the part of the investing public than any one factor in the telephone business.

With a new plant, "current repair" is at a minimum, and can be for a time disregarded; with a growing plant, it is too easy to lose it in construction; but sooner or later, if not provided out of current revenue, where it belongs, it will be found either in increased construction—that is, capital charges—or in a depreciated plant.

Any company paying dividends and fixed charges, particularly dividends, without first providing for proper maintenance, can have but one end—disaster.

In any consideration of this question the leaning should be towards liberal rather than inadequate maintenance. In any properly administered company any excess would be found in betterments or construction, and consequently in reduced capital investment, while inadequate maintenance would soon show in quality of service and in reconstruction requirements. In other words, surplus maintenance would be offset by decrease of capital charges, while inadequate maintenance requiring new construction in time would increase capital charges.

Attention is called to the facts shown above that during the past five years there has been expended out of revenue for maintenance and reconstruction about $150,000,000 on plant, which now has a replacement value of $488,000,000.

### COMPARATIVE STATISTICS AND STATEMENTS.

Appended hereto, as usual, are a series of comparative statistics showing certain phases of the development of the business of the company and its associated companies; the balance sheet of the company as of January 1 1908; also a comparative statement of the earnings and expenses for the years 1906 and 1907, and a statement showing the net revenue and the dividends paid 1900-1907.

In connection with the improvement shown in the year's business, it may not be amiss to call attention to the fact that each year in the past has shown an improvement over the previous year, whatever may have been the general business conditions.

Everything indicates that the current year will be no exception to this.

It is only in times like the present that the true economy and value of the telephone service with its varied relations to the dispatch and conduct of business and to social relations can be realized. This only emphasizes the fact that of all services the telephone service is the last to be dispensed with.

### GENERAL.

The past year completes what may be called the thirtieth year of corporate organized work in the development of the Bell Telephone System. In the mind of Mr. Bell, the invention and its application had simultaneous growth. During the first year, such of the many "imaginations" and ideas as to development as were demonstrably practical were assimilated and the business was established on the lines now followed, which make our company with its associated companies a national system with millions of subscribers connected by millions of miles of circuit with local exchange systems, all bound into one large comprehensive system by the toll and long-distance lines with their 163,000 miles of poles and 1,664,000 miles of wire, the whole inter-dependent and inter-communicating, an aggregation or union impossible to destroy in detail, and impossible to reproduce as a whole.

Each year has seen some progress in annihilating distance and bringing people closer to each other. Thirty years more may bring about results which will be almost as astonishing as those of the past thirty years. To the public, this "Bell System" furnishes facilities, in its "universality" of service and connection, of infinite value to the business world, a service which could not be furnished by disassociated companies.

The strength of the Bell system lies in this "universality." It affords facilities to the public beyond those possible on any other lines. It carries with it also the obligation to occupy and develop the whole field. The urban field was the first to receive attention and the development keeps pace with the demand. The semi-urban and rural demand came later. This has been met both directly by the operating companies and indirectly through local, co-operative and rural combinations, under license from, and connected by toll lines with, our operating companies. The policy adopted during the year of selling telephones and telephonic apparatus has given fresh impetus to this line of development, which is now showing most gratifying results.

This position of our company has been reached only by a large expenditure of capital, which is, however, fully represented by plant and property with an earning power that must be considered satisfactory.

If this expenditure is but considered as the financing of thirty-five distinct companies occupying thirty-five distinct territories, and is considered as so distributed rather than as a whole, the aggregate does not seem formidable. In this focussing of capital there are distinct advantages in that the revenue is derived from so many and such varied sources, and that the success of our company lies not in the success of any one company but in the average of all.

For the Directors,

THEODORE N. VAIL,
*President.*

### TOLL LINES IN THE UNITED STATES OF THIS COMPANY AND THE COMPANIES ASSOCIATED WITH IT.

| | *Jan.* 1 1899. | *Jan.* 1 1905. | *Jan.* 1 1906. | *Jan.* 1 1907. | *Jan.* 1 1908. |
|---|---|---|---|---|---|

## DOMINION COAL COMPANY, LIMITED.

### DISPUTE WITH DOMINION IRON & STEEL COMPANY, LIMITED.

STATEMENT MADE BY MR. JAMES ROSS, PRESIDENT, TO THE SHAREHOLDERS OF THE DOMINION COAL CO., AT THE ANNUAL MEETING HELD AT MONTREAL ON THURSDAY, 5th MARCH, 1908.

In moving the adoption of the Report, I wish to make a statement with regard to your Company's relations towards the Dominion Iron & Steel Company and their bearing on the year's earnings.

In 1899 the American interests then controlling your Company contracted to supply coal to the Steel Company *without limit as to quantity and at a low price.* They also gave the Steel Company an option to rent your property for a rental equal to 6% on your stock; it to provide fixed charges and a deposit of $600,000 as a guaranty. The object may have been to enable the Steel Company, if the cheap coal turned out unsatisfactory, to work the property so as to get better coal at its own cost. However that may be, the option enabled the Steel Company, if after several years of experiment it concluded that the steel works were going to be a success, and that the mines would be profitable, *to take over your property and so secure for its own shareholders the surplus profits of both concerns.*

It may perhaps appear to you, as it did to the Canadian Directors when they succeeded to the control of the property, that the arrangement was not an advantageous one to your Company. It was, however, an accomplished fact, and the agreements could not be re-opened, and your Company, as I will explain, gave full effect to them throughout its dealings with the Steel Company.

*The price for the Steel Company's coal was so low that your Company had to look to its other customers, and chiefly to its St. Lawrence trade, to earn its fixed charges and any profits it could hope for,* and its future was dependent on the expansion of outside business and on carrying on its operations on the largest scale and with the utmost economy.

When the time approached at which the Steel Company had to exercise its option, its enterprise was not a proved success and it was in no position to give the guaranty. Your Company took no advantage, however, but agreed to a modified lease, with a rental raised from 6% to 8% upon your common stock, and dispensed with the guaranty, *having no security for the rental except the ability of your Company's own property to earn it.*

Under this lease, which was dated 12th July 1902, the Steel Company took possession of your property and there continued for about fifteen months, when it *was unable to meet the rent and your Company became entitled to re-enter.*

Because of the lease, much of your Company's stock was taken up by investors, and the default of the Steel Company not only deprived them of their 8% dividend, but opened a new phase of the situation which constituted a menace to the future of your Company, arising out of the provision by which, in event of re-entry, coal from a designated seam was to be supplied to the Steel Company for metallurgical purposes and coal from other seams for other purposes, with no limit as to quantity and at a low price.

The Steel Company has power by its charter to mine for every kind of mineral, to manufacture iron and steel and to carry on the manufacture of every kind of article made in whole or in part of iron or steel. It was important, therefore, to place your Company's obligations upon a definite and limited basis in view of the fact that the then existing arrangements were made when the two Companies were more or less controlled by the same interests and that they were henceforth to be separate, and that your Company's stocks were largely held by investors, whilst the Steel Company's enterprise was still of a speculative character.

The Steel Company claimed to have invested upon your property large sums in permanent work, and this, upon re-entry, would inure to your benefit; but its right to an unlimited supply of coal, if not of any value to it at the moment, was a danger to your Company if the Steel Company passed into stronger hands.

*The alternatives presented to your Directors were either to allow the Steel Company to go into bankruptcy (a step which would have serious consequences to the commercial community), or to go to its assistance. The latter course was chosen.* A new arrangement was arrived at for the coal supply. *Your Company re-entered and paid the Steel Company* $2,635,000, *of which sum the President of the Steel Company stated that* $1,500,000 *was paid for the cancellation of the former arrangement and the substitution of the new agreement with the modifications it contained.*

This transaction necessitated the raising of an additional loan by your Company, since consolidated, as you are aware, and now forming a permanent charge on your enterprise.

The help thus extended to the Steel Company at a time when it could not have obtained assistance in any other way gave your Directors reason to expect that everything would be done by the Steel Company in carrying out the new contract to recognize the services rendered.

Access to the St. Lawrence being impossible during the winter months, your Company's profit depended, as had the Steel Company's during its tenancy, on strenuous efforts to deliver coal via the St. Lawrence in summer, because your coal, when delivered by rail, could not compete in the St. Lawrence markets with American coal. In winter we bank coal in large quantities and there is no pressure upon the mines; but in summer the banked coal and all that can be forced out of the mines is shipped up the St. Lawrence.

At the time of the contract of 20th October 1903 (the one now in litigation), *the Steel Company's supply was less than* 550,000 *tons a year,* but it was foreseen that it would increase so that in 1907 your Company would require relief, and by the contract the Steel Company *agreed after October* 1907 *to take slack coal (a lower grade) instead of run of mine.*

As you are aware, run of mine is the ordinary product of the mine, and when screened that part of it that does not pass through the screen bars is called screened coal and that which does pass through is called slack coal. The former sells for a higher price than run of mine, and run of mine for a higher price than slack.

The business meaning of the arrangement was that, after October 1907 your Company would have screened coal for its outside customers on which to make a profit, and the Steel Company would get slack, which was not easily salable elsewhere, but was just as good for most of the purposes of the Steel Company as run of mine.

*The Steel Company got assistance from the Dominion Government by way of customs duties, bounties upon its output, and carriage over the Government railways at rates less than cost; and the Provincial Government turned over to it for every ton of coal it burned one-half the royalty which* your *Company paid upon the coal it raised.*

The Steel Company, under this encouragement, progressed more rapidly than had been anticipated, and by the fall of

1905 *was claiming* 960,000 *tons a year, nearly one-third of the whole of your Company's output,* and it was much harder for your Company to keep up its St. Lawrence shipments and to supply the increased demands of the Steel Company in the summer, and more important for your Company that the Steel Company should make a large bank in the winter and reudce its demands in the summer as much as possible.

The Steel Company, however, did not like to bank coal during the winter months, both on account of the extra cost of handling and because such coal loses its volatile constituents and is not so profitable when used in by-product coke ovens as fresh coal.

*The Steel Company always designated the Phelan seam,* and after October 1907 the slack it used would come from this seam and necessarily the screened coal from which it was taken and to which your Company would have to look for its profits. *To make provision, in due time new workings were laid out on the east slope of pit No.* 4 *and a new pit* (*No.* 6) *was opened, both of them on the Phelan seam.* The coal from these was in all respects good steam coal, but high in sulphur, and not desired by the Steel Company for metallurgical purposes.

The contract provided for certain delays and notices to protect your Company against sudden increases, and in the fall of 1905 the Steel Company was contending that it was entitled to 80,000 tons per month, and your Company that the period provided in the contract had not expired, and that it could not for at least a year be compelled to deliver quite so much.

*The contract called for coal of a certain specification as to quality and to be taken from a seam designated by the Steel Company,* and your Company's attitude was that if large demands were made and the Phelan seam designated, and if the Steel Company made no bank in the winter, your Company during the summer might have to insist on its right to deliver coal of the specified quality provided it came from the Phelan seam, even if it came from the east slope of No. 4 or from No. 6.

Under these circumstances the Steel Company did not press the suggestion it at first made, that the parties should go to the Courts for an interpretation of the contract, but entered into an arrangement such as diplomatists style a *modus vivendi,* to the effect that coal from No. 3 should be screened and the resulting slack delivered before any coal from No. 1, and coal from No. 1 screened and the slack delivered before the Steel Company was asked to take any coal from No. 5, and so on until No. 4 was reached, the order, Nos. 3, 1, 5, 2, 4, being the order of preference the Steel Company had for the coal. As to No. 6, it was to take from 75 to 100 tons a day and coal from other seams for steam purposes, and in addition it was to make a bank in the winter.

It failed to make a bank, or a sufficient bank, in the winter. *In* 1906 *one of your mines was out of service through fire and there was an extraordinary shortage of labor,* owing to general prosperity and to railway construction work under way everywhere. Your Company spent large sums to secure labor, but in spite of its exertions it was impossible to keep up the output and the Company was behindhand in its deliveries to all its customers.

During August, September and October 1906 the Steel Company did not get 80,000 tons per month. It got enough to keep three blast furnaces in operation but not enough for the fourth. It bought some 20,000 tons in the open market, a course to which your Directors raised no objection. For the excess cost of this coal over the contract price a claim was made upon your Company, which was repudiated, as your Directors believed the Company had carried out the *modus vivendi* to the letter.

Whatever might be the merits of the question , the amount involved was trifling compared with the enormous sum which your Company had given to the Steel Company three years before, or even as compared with the yearly carrying charges representing it which you have borne ever since; and the dispute might have been settled for all time either through the Courts or by arbitration without in any way interfering with the *modus vivendi* or with the friendly relations between the two Companies.

Rumors, however, shortly became current that an attack was to be made upon your Company, of the nature and object of which your Directors were ignorant. We could hardly believe that the rumors were true, and were anxious that the Steel Company directors, who knew what had been done for their Company in 1903, should understand our position. A statement was accordingly prepared and communicated to the leading directors of the Steel Company, showing the extraordinary efforts made by your Company to assist the Steel Company's progress, resulting in its getting within the short space of two and a half years *several hundred thousand tons more coal per year than previously used without any corresponding increase in your Company's outside trade.*

*All the additional capital and work put into the mines since they were taken back by your Company had thus been for the sole benefit of the Steel Company.* Owing to the increased prices of labor and material, the coal was being supplied to it at an actual loss, not reckoning any allowances for the risks of mining or the depletion of the mines, and your Company's financial position was seriously affected by its inability to get increased credit by showing increased earning capacity. All this was explained at length and the figures given.

No notice was, however, taken of this appeal by the Steel Company, and it pressed on its pre-determined attack, which began by *a notice dated the* 18*th October* 1906 (*Thanksgiving Day*), *advising your Company that from and after the* 31*st of October it would take no coal except run of mine from the Phelan seam of the standard contract specification as to quality;* that is, although it knew that arrangements had been made looking to supply it with slack, it would not take slack but would insist that it had a technical right to run of mine, although the latter served its purpose no better than the former.

Knowing as it did that up to the close of the navigation season (which might be the end of November but would not be before the 20th), your Company would be using its utmost exertions to ship by the St. Lawrence, it knew that the alternative which it presented to your Company was either to abandon the St. Lawrence contracts and to give it (the Steel Company) the screened coal intended for the St. Lawrence trade, or to put the slack coal on the dump and raise 80,000 tons per month over and above what had been intended to be raised. The Steel Company could not but have been aware that after the close of navigation your Company would have coal to spare and until that time had large quantities of slack but very little run of mine.

*The termination of the modus vivendi brought matters back upon the strict letter of the contract,* and the raising of additional run of mine necessitated pressure upon all the pits. In the first eight days of November about 10,000 tons were delivered.

*The Steel Company's instructions to its officials* who received the coal *were to reject all coal that contained over* 4% *of sulphur,* an arbitrary line drawn not with reference to any purpose for which the coal would be used, but because a line drawn there would cut off coal from Nos. 4 and 6.

About 3,000 *tons* out of the 10,000 tons delivered were rejected, *although they were in all respects coal of the quality described in the contract and from the seam designated and were a good delivery under the contract,* unless the Steel Company be right in the contention it now makes that the coal not only had to be according to the specification but had in addition to be suitable for its purposes, that is to say, it had not to contain more than a minimum percentage of sulphur and ash.

After continued rejections from day to day, the situation *culminated on the 8th of November by the Steel Company stating that it proposed to refuse in future all coal,* even if according to the contract specification, *that was not also suitable for its purposes;* in other words, that it was useless for this Company to mine the 80,000 tons per month from the selected seam and expect that it would be taken merely because it complied with the specification as to quality, and that the mining operations of your Company would in the future have to be carried on primarily with the object of finding for the Steel Company coal with such a minimum of sulphur and ash as it would accept as suitable, and that all your Company's contracts would have to be made subject to this.

The 3,000 tons rejected was not of itself a large matter, but *the claim to reject it as of right was adding to the contract something that your Company never agreed to and which might at any time during the* 86 *years which the contract had still to run expose your Company to ruin.*

The Steel Company itself had not been able to successfully operate your mines as an undertaking subsidiary to the Steel Company's interests, and your directors had no reason to suppose that they would be able to do it. Your best coal runs right upon the danger line, so far as fitness for steel-making is concerned, and your Company's business is mining and selling commercial coal and not searching its mines for coal paricularly fit for steel-making. *Moreover, the question of the risk as to the coal being suitable for steel-making had been present to the minds of both parties at the time the contract was entered into, and we had in our possession a letter from the Steel Company admitting that the risk of sulphur contents,* upon which the suitability of coal for steel-making turns, *was a risk taken by it,* and the draft contract submitted by the Steel Company during the negotiations in October 1903, by which it had proposed that the *risk should be assumed by your Company but which your Company declined to take.*

The bargaining in 1903 was not on the basis of a buyer describing what he wanted and asking a seller to name a price, but upon the basis *that the Steel Company could not afford to pay more than* $1 24 *per ton, and what was the best the Coal Company could do for that price?* It would in any event have been impossible for the Coal Company at any price to bargain with regard to the quality of the future output of its mines, as the result of the new workings on No. 4 and the opening of No. 6 abundantly showed.

The low price of the coal as compared with the market price made it impossible for the Coal Company to hope to get any damages for breach of contract, and the only alternative was to withdraw from the contract, which was done by letter dated 9th November.

The Steel Company's course of action appeared to your Directors to be wholly unreasonable. The slack which it refused it had been taking for a year, and had volunteered the statement that it was satisfactory. The run of mine which it insisted on it had to crush to the same size as the slack before it could use it. Your Company had slack but could only get run of mine with great difficulty. The time chosen was the one time at which such action would most embarrass your Company. There was no advantage to the

Steel Company to justify its action. There was, however, the possibility that such action taken at such time would so embarrass your Company that it might fail to deliver full quantities and the Steel Company could then have closed its works at your risk and dictated terms.

With the course of the litigation which has since arisen you are no doubt familiar. It would not be fitting that I should comment upon the judgments of the Courts that at present stand against you; but I may say, as has been said in the report now before you, that your Directors have throughout endeavored to secure the best legal assistance, and since the judgment of the Nova Scotia Court of Appeals they have taken the additional precaution of submitting the whole matter to eminent counsel in Ontario and in the United States not heretofore connected with the case, and are advised by all of them that the judgment of the Court of Appeals is erroneous.

Whether or not there be any technical rule of law which will *impose* upon your Company something that it was asked to do and *refused* to do will be ultimately decided in the law suit now going on. *I do not, however, wish you to go away with the impression that your Directors do not recognize that no stone should be left unturned to come to an amicable settlement.* There are, however, certain points that have to be borne in mind in approaching the matter with that view.

The first is that your Company cannot go further than to undertake to deliver *the best it has*, or what the buyer may think the best. It cannot safely *undertake to produce coal* that will make steel, much less to produce it out of a *particular spot to be selected by the purchaser* in a limited part of your areas. To contract to supply such coal it would require to be free to go into the open market to buy, and pay the price which would command the article.

The second is that if the purchaser is to exercise a right of selection more extensive than that exercised by the Steel Company under the contract of 1903, the terms must be such as will enable the work to be done without loss to your Company.

*Both before and during the trial your Company named the terms on which it would be willing to deal for a settlement. The Steel Company has never done so, nor has it ever been willing even to negotiate for a settlement on the basis that the object of the negotiations was to be the supply to the Steel Company of what it thought best at a price which would enable the Coal Company to supply it with coal without actual loss* and the fixing of remuneration of some kind to the Coal Company as an inducement to carry on the business.

The attitude of the Steel Company has been and so far as your Directors are aware still is that the Coal Company should admit that it has been entirely wrong, pay the damages claimed by the Steel Company and place it back upon the former contract, and that when this is done the Steel Company will state what the terms for future supply will be.

I feel I hardly need to ask any of you what you would do under similar circumstances.

*The contract of October* 1903 *does not contain in words any undertaking that the coal would be suitable for any particular purpose*, but it contains a specification as to the quality of coal to be furnished and an agreement that coal of this quality to the amount ordered would be delivered on three months' notice and would be taken from a seam selected by the Steel Company.

The specification called for the best merchantable coal and the Steel Company by its right of designation could choose the seam most likely to supply steel-making coal, and this Company's understanding has always been that *its obligations ended when it had delivered coal from the chosen seam of the agreed specification as to quality.*

Having in mind the uncertainties of mining, the known variations in the seam, the fact that the price would bring no profit, that in the negotiations when the question of risk came up *your Company had refused to bind itself as to the future steel-making qualities of the coal*, and that after the contract was made the *Steel Company had voluntarily placed itself on record as saying that the sulphur content*, which is the element that bears upon fitness for steel-making, *was at its risk*, your Directors could not but feel that the claim made upon your Company by the Steel Company was without justification and that the attempt to saddle your Company with the *obligation to furnish at all hazards suitable coal* had to be resisted by them because such an obligation had never been contemplated by either party and because, if assumed, it was an obligation that might at any time lead to the ruin of your Company.

The claim put forward by the Steel Company in the Courts to the effect that it only insisted on suitable coal *if in the seam designated*, and that suitable coal was there at the time, while calculated to gain the ear of any one who does not stop to think, does not go to the root of the matter. *The coal*, according to the contract, *has to be crushed, washed and coked by the Steel Company*, all of these being processes towards the elimination of sulphur and processes over which *your Company has no control.* Whilst it was feasible for your Company to agree to deliver coal from a particular seam treated in a particular way, no one has yet stated in words what would be a proper description of coal that would be suitable during the term of contract. If your Company had gone further and bargained in words that it should be so, even if such coal could be described, the problem of determining whether it be in the seam is one that *has no limit until the seam has been exhausted*, and when one seam had been gone over the contract would enable the Steel Company to force the Coal Company to begin again and search through another, and so on.

Considered, therefore, as a rule to be binding upon your Company during the remaining term of the contract, there would be no relief in a construction which would make it read that suitable coal was to be supplied if to be found in the seam. The reason this proposition was put forward by the Steel Company is that it seemed a plausible one for the time being. The Steel Company for months previous had been taking coal from pits 1, 2, 3 and 5, and it was prepared, at all events for the moment, to say that these pits contained coal that was suitable. Your Company's arrangements had been made to give coal from these pits in the form of slack. It was not your Company's fault that the Steel Company did not take this slack, but it was because it refused to do so and insisted on having run of mine instead, that your Company had to change its operations and to get out additional run of mine from the pits most available so as to prevent the serious loss to which it would have been exposed if it had abandoned its St. Lawrence customers.

In conclusion, I would say that the large increase in profits shown by the statement before you is due in large measure to the higher prices paid by the Steel Company for *selected coal* under a temporary arrangement of a special character made after your Company had withdrawn from the contract and to meet representations made by the Minister of Finance (the Hon. Mr. Fielding) that any other course would impose hardship upon the Steel Company's workmen during the winter of 1906-1907.

Your Company's mining costs *are the lowest in the Province* and so long as the Steel Company can use any of its coal, the proximity of your mines to Sydney and the short haul over your own railway should enable your Company to meet competition except that of coals which bring only lower prices on the open market. If as a result of the litigation coal has to be supplied under the contract now in dispute, the earnings will be considerably less, and even if supplied under a new contract the price will have to be adjusted to meet competitors, and you cannot, therefore, look upon the earnings of 1907 as forming a basis for what the earnings are likely to be in future years.

I have pleasure, however, in saying that the mines are in excellent condition, and if the mining costs are kept down to a reasonable figure your property should steadily improve. My effort and ambition is to keep it in an assured position so that the shareholders may continue to look upon their coal stock as a certain source of income.

On behalf of the Board, I have to thank you for the loyal support extended to us during a trying period of your Company's history, and to assure you that it has stimulated us to leave nothing undone to deserve it.

---

—Lee, Higginson & Co., Boston, Mass., have prepared and issued a ready reference book of bonds frequently bought and sold in New England. The New York office of the firm is at 43 Exchange Place.

—Attention is called to the advertisement of the Municipal & Corporation Securities Co., Pittsburgh, offering first mortgage 6% guaranteed gold bonds. See particulars in the advertisement on another page.

—Attention is called to the advertisement in our municipal department of MacDonald, McCoy & Co., Chicago, offering an issue of municipal bonds authorized by a special Act of Congress, and tax-exempt. Special circular will be sent on application.

—The William R. Compton Bond & Mortgage Co. announces the removal of its offices from Macon to St. Louis, Mo., on the 10th inst. The company's new quarters are in the Merchants-Laclede Building, corner Fourth and Olive streets. Two new officers of the company are William Foley, who has become Vice-President, and Clarkson Potter, Assistant Secretary. The other officials are: William R. Compton, President; Thomas N. Dysart, Treasurer, and Fred. Emert, Secretary.

—Having sold the greater part of their successful award of New York State tax-exempt 50-year 4% gold bonds, Kountze Bros., 120 Broadway, New York, offer the balance to investors at an attractive price. The State of New York has an assessed valuation of $8,565,379,394, a bonded debt of only $21,230,660 (including the last $5,000,000 issue) and sinking fund of $9,573,055, leaving a net debt of $11,657,605, or ⅛ of 1%. On Sept. 30 next the net debt will be further reduced by this year's sinking funds to $5,983,700.

—The Union Trust Co. of Chicago, with offices in the Tribune Building, corner of Dearborn and Madison streets, has opened a bond department with Gail Dray as manager. We notice in circular No. 1, issued by the institution under date of March 12, a goodly list of local securities, such as Chicago Railways Co. 6% collateral gold notes; Metropolitan West Side Elevated Railway 1st mortgage and extension 4s; Sanitary District 4s; Congress Hotel 4½s; Cook County 3½s; besides many high-class railroad and municipal issues. The Union Trust Co. has a capital of $1,000,000, an earned surplus of $1,000,000, and (on Feb. 15 last) deposits of $10,528,978 83. F. H. Rawson is its President.

# The Commercial Times.

## COMMERCIAL EPITOME.

*Friday Night, March* 20 1908.

With some advances in prices, notably in metals, and a slight improvement in business, the tone is, on the whole, reasonably cheerful. The desirability of caution, however, is not lost sight of, a fact which is reflected in the very general disinclination towards speculation.

LARD on the spot has been stronger. Strengthening factors have been a rise in the market for futures at the West, some decrease in the movement of live hogs, light offerings and the strength of the grain markets. Trade has been only moderately active. Western 7.90c. and City 7⅝c. Refined lard has also risen, mainly owing to the reasons stated above. Trade has been quiet at the advance. Refined Continent 8.35c., South America 8.90c. and Brazil, in kegs, 10.15c. Speculation in lard futures at the West has been moderately active, with the trend of prices upwards, owing to smaller receipts of hogs, the strength of the grain and hog markets, covering of shorts and commission-house buying. Stocks are accumulating, but this fact has had no effect, nor has the further fact that the cash trade has been below the normal for this time of the year.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

| | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| May delivery | 7.90 | 7.95 | 7.95 | 8.02½ | 7.97½ | 7.92½ |
| July delivery | 8.12½ | 8.17½ | 8.17½ | 8.25 | 8.20 | 8.12½ |
| September delivery | | 8.40 | 8.37½ | 8.47½ | 8.42½ | 8.37½ |

PORK on the spot has shown some irregularity, but the changes in prices have not been very marked. The demand has been fairly active. Mess $13 75@$14 75, clear $14 75@$16 and family $15@$15 50. Beef has been moderately active and firmer. Supplies are moderate. Mess $11@$12, packet $12 50@$13 25, flank $12@$12 50, family $13 50@$14 75 and extra India mess $21 50@$22. Cut meats have been in fair jobbing demand, with offerings light and prices generally firm. Pickled hams 8¾@9c. and pickled bellies, 14@10 lbs., 7¼@7¾c. Tallow has been moderately active and firm; City 5⅜c. Stearines have been in fair demand and firm; oleo 7¾c. and lard 9c. Butter has been quiet and steady; creamery extras 28c. Cheese has been moderately active and firm; State, f. c., small, colored, fancy, 15¾c.; white 16c. Eggs have been active but weak under large receipts; Western firsts 15¾@16c.

OIL.—Cottonseed has been active and firmer; prime summer yellow 39@39¼c. Linseed has been firm with the demand moderately active for small lots. City, raw, American seed, 43@44c., boiled 44@45c. and Calcutta, raw, 70c. Lard has been firmer, owing to the stronger market for the raw material. The demand has been moderate. Prime 67@68c. and No. 1 extra 52@54c. Cocoanut has been quiet and steady; Cochin 8c. and Ceylon 6½@7c. Olive has been quiet and steady; yellow 67@70c. Peanut has been quiet and steady; yellow 65@80c. Cod has been moderately active and steady; domestic 42@43c.; Newfoundland 44@45c.

COFFEE on the spot has been quiet and steady. Rio No. 7, 6⅛c.; Santos No. 4, 8½@8⅝c. West India growths have been steady as a rule, with a light jobbing trade. Fair to good Cucuta 9¼@10⅛c. Speculation in future contracts has been quiet in the main, though of late there has been some increase in activity. Prices have shown no marked changes. On the whole the tone has been a little easier of late, owing to liquidation by tired holders, selling of the distant months by Europe, favorable crop accounts from Brazil and the narrowness of the speculation. The principal buying has been to cover shorts, though roasters and dealers have bought to some extent. Closing prices were as follows:

| | | | |
|---|---|---|---|
| March | 5.75c. | July | 5.90c. |
| April | 5.75c. | August | 5.90c. |
| May | 5.85c. | September | 5.95c. |
| June | 5.85c. | October | 5.95c. |
| November | | | 6.02c. |
| December | | | 6.05c. |
| January | | | 6.05c. |
| February | | | 6.15c. |

SUGAR.—Raw has been in active demand and stronger. Centrifugal, 96-degrees test, 4.125c.; muscovado, 89-degrees test, 3.625c., and molasses, 89-degrees test, 3.375c. Refined has been more active and firmer. Granulated 5.10c. Teas have been steady, with a quiet jobbing trade. Spices have been quiet and steady. Hops have been dull and steady. Wool has been quiet and steady.

PETROLEUM has been in good demand and firm. Refined, barrels 8.75c., bulk 5c. and cases 10.90c. Gasoline has been in brisk demand and firm; 86 degrees 22c. in 100-gallon drums; $8.50 extra for drums. Naphtha has been moderately active and firm; 73@76 degrees in 100-gallon drums 19c.; drums $8.50 extra. Spirits of turpentine has been in moderate demand and firmer at 54c. Rosin has been dull but firmer; common to good strained $3 85.

TOBACCO.—The market for domestic leaf has been dull and heavy. Consumption of cigars below the normal, and manufacturers show little disposition to buy leaf except on a hand-to-mouth scale. Sumatra has been in light request. Advices from the inscriptions report that fair prices are being paid. Havana has been quiet and steady.

COPPER has been dull and firmer; lake 12¾@13c. and electrolytic 12¾@12⅞c. Lead has been dull but firmer at 3.90@4c. Spelter has been quiet and firmer at 4.65@4.75c. Tin has been moderately active and firmer; Straits 30¾c. Iron has been firm and more active; No. 1 Northern $17 75@$18 75 and No. 2 Southern $17 25@$17 75.

## COTTON.

*Friday Night, March* 20 1908.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 90,038 bales, against 109,489 bales last week and 97,612 bales the previous week, making the total receipts since the 1st of September 1907, 7,136,851 bales, against 8,674,771 bales for the same period of 1906-07, showing a decrease since Sept. 1 1907 of 1,537,920 bales.

| Receipts at— | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri | Total. |
|---|---|---|---|---|---|---|---|
| Galveston | 4,632 | 3,778 | 8,648 | 6,301 | 4,119 | 7,655 | 35,133 |

Speculation in cotton for future delivery was very quiet during most of the week, but on Thursday it suddenly became much more active, though it was at the expense of values. The so-called May bull deal then to all appearance collapsed. The liquidation was very heavy, supposedly in large part for prominent interests; stop orders were reached and short selling on a considerable scale capped the climax. It is worthy of note, however, that March and May alone have shown any material decline during the week. While the loss on these months approximates 40 points, other months have shown only a moderate recession. Many who recently bought May sold July and October, and much of the selling of May has therefore been accompanied by purchases of July and October. There has also been some buying of October at the current liberal discount, on the possibility at least that the next crop may meet with a setback. Liverpool and the South, on the whole, however, have been sellers. One of the most depressing factors of the week has been persistent reports that the South was offering the actual cotton more freely, and that prices were giving way sharply in many parts of the belt. The low grades, it is said, have been offered with especial freedom and the discounts on such descriptions are reported to have been increased, while the revision of differences on some of the Southern exchanges is also said to have been at the expense of the low grades. Rumors, apparently without much foundation, have also been circulated to the effect that considerable cotton will be sent to New York, though how this can be done is by no means clear to the average member of the trade. Another source of weakness has been the continuation of 10% cuts in wages in various parts of New England, notably at Providence, R. I., where it will affect about 30,000 operatives. Announcement has also been made of the closing down of some mills in North Carolina and of continued curtailment in South Carolina and other parts of the South. The quietness of trade, moreover, and the dulness of speculation, and such an incident as the reduction of the New York Central dividend, have not been without their effect, though from the purely financial point of view the reduction in the Bank of England rate of discount to 3% was, of course, a favorable factor. But, on the other hand the Liverpool spot business has fallen off sharply and the reports from Manchester have not been altogether favorable. So far as the weather at the South is concerned, it has been clear and warm; in fact unusually warm for this time of the year, maximum temperatures in parts of Texas latterly being as high as 94 to 96 degrees. The general tenor of the advices is that good progress is being made in crop preparations and the impression is that the acreage will be increased, especially in Texas. With speculation dull, spot markets quiet and lower, and the so-called May deal apparently abandoned, the general sentiment here is bearish, though it is recognized that the long liquidation in certain directions has been of a very drastic character, and that not improbably there is still a considerable short interest in the market. To-day there was an advance at first, partly owing to a bullish Census Bureau report, putting the crop at 11,261,163 bales, against 13,305,265 in 1906-07 and an estimate of Dec. 10 1907 on the present yield of 11,678,000 bales. According to these figures the Government estimates of Dec. 10 were an over-estimate in every case except North Carolina and South Carolina. But the report that the Borden Mills at Fall River will close down every other week for two months had a distinctly depressing effect later on. Spot cotton has been dull and easier. Middling uplands closed at 10.65c.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

| Mch 14 to Mch. 20— | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| Middling upland | 11.20 | 11.20 | 11.05 | 11.00 | 10.80 | 10.65 |

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns, and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

Continental imports for the past week have been 135,000 bales.

The above figures for 1908 show a decrease from last week of 102,858 bales, a loss of 848,513 bales from 1907, a decrease of 238,861 bales from 1906, and a gain of 284,348 bales over 1905

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

| Towns. | Movement to March 20 1908. | | | | Movement to March 22 1907. | | | |

The above totals show that the interior stocks have *decreased* during the week 6,703 bales and are to-night 6,396 bales less than at the same time last year. The receipts at all the towns has been 38,622 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The results for the week and since Sept. 1 in the last two years are as follows:

| March 20— | 1907-08 | | 1906-07 | |
|---|---|---|---|---|
| Shipped— | Week. | Since Sept. 1. | Week. | Since Sept. 1. |
| Via St. Louis | 10,108 | 327,076 | 16,072 | 641,634 |
| Via Cairo | 6,233 | 153,303 | 3,775 | 189,206 |
| Via Rock Island | 1,123 | 26,428 | 2,960 | 63,161 |
| Via Louisville | 751 | 41,033 | 1,984 | 66,628 |
| Via Cincinnati | 2,392 | 35,130 | 1,734 | 44,658 |
| Via Virginia points | 2,481 | 73,147 | 4,118 | 104,106 |
| Via other routes, &c. | 3,986 | 192,684 | 12,651 | 248,257 |
| Total gross overland | 27,074 | 848,801 | 43 294 | 1,357,650 |
| Deduct shipments— | | | | |
| Overland to N. Y., Boston, &c. | 2,345 | 83,484 | 7,276 | 133,337 |
| Between interior towns | 518 | 58,054 | 2,946 | 58,167 |
| Inland, &c., from South | 1,100 | 46,727 | 1,915 | 42,057 |
| Total to be deducted | 3,963 | 188,265 | 12,137 | 233,561 |
| Leaving total net overland * | 23,111 | 660,536 | 31,157 | 1,124,089 |

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 23,111 bales, against 31,157 bales for the week last year, and that for the season to date the aggregate net overland exhibits a decrease from a year ago of 463,553 bales.

| In Sight and Spinners' Takings. | 1907-08 | | 1906-07 | |
|---|---|---|---|---|

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports from the South this evening denote that the conditions have, on the whole, been favorable during the week. In most sections higher temperature has prevailed and the rainfall has been generally light or there has been an absence of moisture. As a result of the favorable conditions, crop preparations have progressed well.

*Galveston, Texas.*—Dry all the week. Average thermometer 69, highest 78, lowest 60.

*Abilene, Texas.*—It has been dry all the week. Thermometer has averaged 69, the highest being 96 and the lowest 42.

*Corpus Christi, Texas.*—There has been no rain during the week. The thermometer has averaged 70, ranging from 58 to 82.

*Fort Worth, Texas.*—There has been only a trace of rain, on one day, during the week. The thermometer has ranged from 44 to 90, averaging 67.

*Palestine, Texas.*—We have had a rainfall of thirty-eight hundredths of an inch during the week, on one day. Average thermometer 67, highest 88, lowest 46.

*San Antonio, Texas.*—We have had rain on one day of the week, the rainfall reaching forty-four hundredths of an inch. The thermometer has averaged 78, the highest being 90 and the lowest 62.

*Taylor, Texas.*—There has been rain on one day during the week, to the extent of twelve hundredths of an inch. The thermometer has averaged 66, ranging from 44 to 88.

*New Orleans, Louisiana.*—Rain has fallen on one day of the week, the precipitation reaching two hundredths of an inch. Average thermometer 74.

*Shreveport, Louisiana.*—There has been rain on one day during the week, the rainfall being five hundredths of an inch. The thermometer has averaged 70, the highest being 89 and the lowest 50.

*Leland, Mississippi.*—We have had no rain during the week. The thermometer has ranged from 34 to 85, averaging 65.

*Vicksburg, Mississippi.*—We have had a rainfall of eight hundredths of an inch during the week, on one day. Average thermometer 70, highest 87, lowest 45.

*Helena, Arkansas.*—Weather warm and fine for farming. Acreage under cotton will be increased and labor is more plentiful. There has been rain on one day during the week, to the extent of twenty-one hundredths of an inch. The thermometer has averaged 64.4, ranging from 42 to 87.

*Little Rock, Arkansas.*—Farm work has been active the past week. Temperature has been abnormally high. There has been rain on one day during the week, to the extent of two hundredths of an inch. The thermometer has ranged from 38 to 88, averaging 63.

*Memphis, Tennessee.*—Weather dry all the week except yesterday. Preparations for the next crop have made fine progress. The week's precipitation reached fifty-seven hundredths of an inch. Average thermometer 67.7, highest 85, lowest 41.

*Mobile, Alabama.*—Weather in the interior very favorable and farm work active. No rain during the week until today, but rain is now falling. The thermometer has averaged 70, ranging from 54 to 81.

*Montgomery, Alabama.*—Planting has started and land has been well prepared. We have had no rain during the week, but rain is in sight and needed. The thermometer has ranged from 44 to 87, averaging 70.

*Selma, Alabama.*—We have had no rain during the week. Average thermometer 70, highest 88, lowest 42.

*Madison, Florida.*—We have had no rain the past week. The thermometer has averaged 71, the highest being 83 and the lowest 56.

*Augusta, Georgia.*—It has been dry all the week. The thermometer has averaged 70, ranging from 43 to 86.

*Savannah, Georgia.*—We have had no rain during the week. The thermometer has ranged from 52 to 86, averaging 71.

*Charleston, South Carolina.*—We have had no rain the past week. Average thermometer 71, highest 84, lowest 55.

*Greenwood, South Carolina.*—There has been no rain during the week. The thermometer has averaged 63, the highest being 75 and the lowest 52.

*Stateburg, South Carolina.*—There has been rain on one day during the week, the precipitation being one hundredth of an inch, and light showers fell in a few neighboring places. The thermometer has averaged 69, the highest being 87 and the lowest 50.

*Charlotte, North Carolina.*—We have had rain during the week, the rainfall being forty-nine hundredths of an inch. The thermometer has ranged from 44 to 82, averaging 65.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

| | | *Mch.* 20 1908. | *Mch.* 22 1907. |
|---|---|---|---|
| | | *Feet.* | *Feet.* |
| New Orleans | Above zero of gauge | 16.8 | 15.7 |
| Memphis | Above zero of gauge | 34.9 | 32.3 |
| Nashville | Above zero of gauge | 15.8 | 19.7 |
| Shreveport | Above zero of gauge | 8.9 | 12.0 |
| Vicksburg | Above zero of gauge | 45.4 | 41.1 |

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

According to the foregoing, Bombay appears to show a *decrease* compared with last year in the week's receipts of 66,000 bales. Exports from all India ports record a loss of 12,000 bales during the week and since Sept. 1 show a *decrease* of 274,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

| *Alexandria, Egypt, March* 18. | 1907-08. | 1906-07. | 1905-06. |
|---|---|---|---|
| *Receipts* (cantars) | | | |
| This week | 80,000 | 75,000 | 90,000 |
| Since Sept. 1 | 6,497,277 | 6,687,884 | 5,712,802 |

| *Export* (bales)— | *This week.* | *Since Sept. 1.* | *This week.* | *Since Sept. 1.* | *This week.* | *Since Sept. 1.* |
|---|---|---|---|---|---|---|
| To Liverpool | 3,000 | 178,459 | 4,000 | 173,387 | 4,500 | 177,052 |
| To Manchester | 9,250 | 161,779 | 7,750 | 167,252 | | 137,478 |
| To Continent | 8,000 | 256,764 | 6,250 | 265,406 | 4,000 | 236,577 |
| To America | 1,500 | 49,966 | 3,500 | 93,337 | 500 | 60,892 |
| Total exports | 21,750 | 646,968 | 21,500 | 699,382 | 9,000 | 611,999 |

*Note.*—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

| Cotton Takings. Week and Season. | 1907-08. | | 1906-07. | |
|---|---|---|---|---|
| | *Week.* | *Season.* | *Week.* | *Season.* |
| Visible supply March 13 | 4,657,641 | | 5,453,298 | |
| Visible supply Sept. 1 | | 2,291,844 | | 1,784,156 |
| American in sight to March 20 | 149,446 | 9,593 228 | 221,782 | 11,585,404 |
| Bombay receipts to March 19 | 57,000 | 1,383.000 | 123,000 | 1,771,000 |
| Other India ship'ts to March 19 | 10,000 | 140,000 | 11,000 | 159,000 |
| Alexandria receipts to March 18 | 10,000 | 866,000 | 10,000 | 892,000 |
| Other supply to March 18 * | 1,000 | 191,000 | 2,000 | 217,000 |
| Total supply | 4,885,087 | 14,465,072 | 5,821,080 | 16,408,560 |

| Visible supply March 20 | 1,554,783 | 4,554,783 | 5,403,296 | 5,403,296 |
| Total takings to March 20 | 330,304 | 9,910,289 | 417,784 | 11,005,264 |
| Of which American | 250 304 | 7,630,289 | 272,784 | 8 443,264 |
| Of which other | 80,000 | 2,280,000 | 145,000 | 2,562,000 |

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

JUTE BUTTS, BAGGING, &c.—There has been little or no demand for jute bagging during the week under review, and prices continue nominally unchanged at 7¼ cents per yard for 2-lb. domestic bagging and 6½ cents per yard for re-woven and inferior foreign. Jute butts dull at 2@3 cents per lb. for bagging quality.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is steady for yarns and quiet for shirtings. Merchants are buying very sparingly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

| | 1908. | | 1907. | |

## BREADSTUFFS.

*Friday, March 20th 1908.*

Prices for wheat flour have moved within an extremely narrow range during the week. In the main, however, the tone of the local market has been somewhat easier, owing to the stagnation of trade, which has offset the strength of the grain markets. During considerable of the time the market has been merely a nominal affair. Export business has been lifeless. At the large milling centres of the Northwest and the West, as well as the Southwest, reports in many cases indicate a material falling off in trade of late. At many places exporters have withdrawn from the markets. Corn meal has been quiet but firm. Rye flour has been dull and steady.

Wheat has advanced, partly owing to decreased shipments from Argentine, higher foreign markets and rumors of depredations by green bugs in parts of Kansas and Oklahoma. An easier money market—the Bank of England rate of discount also being reduced—has tended to advance Liverpool quotations, but prices on the Continent have also shown a good deal of strength, with news of dwindling supplies in Russia and Hungary and the likelihood of similar conditions were long in Germany. Furthermore, there have been some reports of export business, especially at Duluth. The cash situation in this country has, indeed, been considered strong and the firmness of corn has not been without its effect on the wheat market. The visible wheat supply in this country, moreover, decreased 1,213,000 bushels, against an increase for the same week last year of 1,604,000 bushels. A notable factor of the week has been the, so to speak, more friendly disposition of Europe towards the market, and some tendency towards an increase in export trade, though the total transactions have been far from large. There is an idea, too, that the Argentine exports must shortly fall off considerably. The estimate of such exports for the current week showed some reduction, though not so great as was at one time looked for. Still, from present appearances, the total for the current week must fall a good deal below that for the corresponding week last year, and, judging from the markets of Europe, there would seem to be some apprehension on this score. It is worthy of note, too, in this connection, that the weather in Hungary is cold and unfavorable, and that it has been too wet in the United Kingdom and France, while in Russia it has been cold and unfavorable. Odessa stocks are said to be very small and it is added that very little wheat is offered there for immediate delivery. Prices have been rendered somewhat irregular at times by the contradictory advices from the Southwest in regard to the alleged damage by green bugs, Hessian flies and so forth. It is the time of year when such reports are apt to be rife and experienced people receive them with a grain of allowance. At the same time, very many are inclined to consider the outlook for the wheat market in this country as on the whole cheerful, both as to business and prices. To-day prices declined on favorable crop reports from the Southwest, weakness at Liverpool, reports of increasing stocks at the Northwest, large Argentine shipments, bearish pressure and liquidation.

Indian corn futures have advanced, with the trading fairly active. Bulls have been favored by bad roads in the Central West, continued small receipts and poor grading. There is said to be a scarcity of seed corn in some States, moreover, notably in Illinois, Ohio, Indiana and Iowa, where a good deal of corn did not mature last year. In northern Illinois as high as $3 a bushel, it is stated, is being paid for seed corn. Bulls have given support and there has been active covering of shorts at times, as well as more or less new buying through commission houses. Liverpool's strength at times has also been a factor. The stock of contract corn at Chicago is still small. To-day prices declined on depression in wheat, lower cables, reports of larger country acceptances and liquidation.

| September delivery in elevator | 61⅞ | 61¾ | 62 | 63½ | 64⅛ | 63 |

Oats for future delivery in the Western market have been stronger, owing to the rise in other cereals, though the trading has been inactive and has lacked any very striking features. But with the offerings light, it has taken no great buying pressure to impart strength to prices. The receipts have been small, and unfavorable reports in regard to the quality and quantity of oats for seeding have been received from some important sections of the West. Some of the new plantings have not germinated and there have been some complaints of damage from bugs. To-day prices declined on the weakness in wheat. The offerings were larger, and for the time being, at least, there was no aggressive support.

## THE DRY GOODS TRADE

*New York, Friday Night, March 20 1908.*

Business in the primary cotton goods market has been almost entirely confined during the week to the purchasing of small quantities of goods for immediate shipment to fill urgent requirements. There has been practically nothing doing for future delivery and it is evident that jobbers are determined to work stocks down to the lowest possible level before entering the market for fall goods. How long it will be before they are prepared to operate agents are particularly anxious to know, but it is generally felt that, in view of the fact that they are doing more business now than they were at this time last month, the long-awaited movement will not be much further delayed. The course of the raw-material market has been one of the principal factors during the past week in deterring buyers, and although the price of goods has fallen proportionately much lower than that of cotton, the recent sharp decline in the latter and the daily announcements of reductions in wages of mill operatives have created the impression in the minds of many that the bottom has not yet been reached. In several lines, notably print cloths, prices are quotably lower than they were last week, and in some instances second hands are selling goods below the actual cost of production. Collections will be watched very closely during the next few weeks, as in fact will the whole credit situation; in some of the Southwestern States this is said to be not very good and business, accordingly, is being considerably hampered. The men's wear woolen and worsted goods market is extremely quiet but a moderate business is passing in dress goods.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending March 14 were 3,905 packages, valued at $269,486, their destination being to the points specified in the table below:

| | 1908 | | 1907 | |
|---|---|---|---|---|
| New York to March 14. | Week. | Since Jan. 1. | Week. | Since Jan. 1. |
| Great Britain | 5 | 98 | 43 | 612 |
| Other Europe | 3 | 118 | 27 | 158 |
| China | | 5,402 | 2,050 | 6,191 |
| India | | 3,122 | 697 | 3,780 |
| Arabia | 1,541 | 5,447 | 1,831 | 14,202 |
| Africa | 146 | 1,120 | 389 | 2,587 |
| West Indies | 621 | 4,737 | 547 | 5,512 |
| Mexico | 20 | 407 | 88 | 482 |
| Central America | 239 | 2,854 | 48 | 3,667 |
| South America | 1,191 | 8,974 | 527 | 10,563 |
| Other countries | 139 | 3,482 | 79 | 9,879 |
| Total | 3,905 | 36,751 | 6,525 | 57,633 |

The value of these New York exports since Jan. 1 has been $2,411,709 in 1908, against $3,491,799 in 1907.

Some very low prices have been named on heavy brown drills and sheetings, but in spite of this the reductions have not equaled the demands of buyers, who continue to talk prices which agents find it impossible to accept under present conditions. Medium and light-weight drills and sheetings have also been shaded and have been in slightly better request. The export division of the market has been more affected by the decline in the price of cotton than the domestic, but the trade to miscellaneous countries has shown some improvement during the week. China has figured as a small buyer of light-weight drills and sheetings and the prospects are for a better demand from this source in the near future. Bleached goods are extremely quiet and a further revision of prices is expected in some quarters. There has been an improved call for kid-finished cambrics at the lower level established, but the most active lines continue to be the napped goods, which, in several instances, have sold as well as in any normal year. Denims have been reduced and other coarse, colored cotton goods have been shaded, but the volume of business has been small. Increasing curtailment is noted in the production of prints and the market for these and also for ginghams has been very quiet. Print cloth regulars have been reduced during the week to 3½c. and standard gray goods to 5½c., but business has been light, although during the past few days there has been a little better inquiry.

WOOLEN GOODS.—It is now generally realized in the men's wear woolen and worsted goods market that the volume of heavy-weight business will depend to a great extent on the spring season. An early spring with an improvement in the general demand would give buyers increased confidence for fall, and duplicate buying in that case would probably be sufficently heavy to make the season a satisfactory one. Everything this year depends upon the volume of re-ordering, for initial buying has not been more than 50% of last year's, and there are few who will take the chance of making goods for stock. Curtailment at the present time is very great, and it is likely to be even more drastic during the next few months. Spring business is moderately satisfactory, and an increased interest has been shown, particularly in worsted goods. Orders for a substantial yardage of these have been received during the week, mostly for immediate shipment; browns and tans are the most popular colors. There is more activity in the dress goods market and inquiries for spring goods have been numerous. Unfortunately, however, these have mostly been for goods which were the most popular during the initial buying period, and which accordingly it is impossible to obtain at this time; where they are available, buyers are perfectly willing to pay a premium to secure them. The fall demand will not be heavy until more has been done for spring, but the orders placed thus far have favored piece-dyed serges in plain colors, panamas and certain fancy worsteds.

FOREIGN DRY GOODS.—Imported woolen and worsted dress goods have not been particularly active, but the outlook is regarded as encouraging. Silks and ribbons have practically been neglected. Linens are quiet and price revisions more in line with the cotton goods market are expected, but not on goods already on this side. There has been an improved demand for burlaps.

# State and City Department.

## News Items.

**Kentucky.**—*Legislature Adjourns.*—The Legislature of this State adjourned March 18.

**Philippine Islands.**—*Depository for Funds.*—Secretary Taft has designated the banking house of Speyer & Co. as depository for Philippine funds in the United States. There are now six such depositories. The total amount of Philippine funds aggregate $10,000,000, but this is to be reduced materially in the near future by payments to meet maturing obligations.

## Bond Proposals and Negotiations this week have been as follows:

**Ashtabula School District (P.O. Ashtabula), Ashtabula County, Ohio.**—*Bond Sale.*—On March 17 the $8,000 4½% 2-17-year (serial) coupon school bonds described in V. 86, p. 618, were awarded to Seasongood & Mayer of Cincinnati at 103.012—a basis of about 4.114%. Following is a list of the bids received:

| | | | |
|---|---|---|---|
| Seasongood & Mayer, Cin | $8,241 00 | New First Nat. Bk., Colum. | $8,172 00 |
| Dennison & Farnsworth, Cleveland | 8,236 25 | Hayden, Miner & Comp'y Cleveland | 8,167 00 |
| Breed & Harrison, Cincin | 8,205 00 | Secur. Sav. Bk. & Tr. Co., Toledo | 8,157 00 |
| Otis & Hough, Cleveland | 8,203 00 | W. R. Todd & Company, Cincinnati | 8,137 00 |
| Ashtabula National Bank, Astabula | 8,202 00 | Farmers' Nat. Bk., Ashtab. | 8,133 60 |
| Clev. Tr. Co., Cleveland | 8,200 80 | Emery, Anderson & Co., Cleveland | 8,083 33 |
| W. J. Hayes & Son, Cleve | 8,197 00 | | |

**Baltimore, Md.**—*Bond Sale.*—There were 234 bids, aggregating $18,181,200, received on March 16 for the $1,000,000 4% registered Annex loan due in 1955 and the $1,000,000 4% registered Park loan due in 1954 and described in V. 86, p. 558. The award was made to 84 bidders, the majority of whom were local, at an average price of about 99. The largest awards were as follows: $555,000 to a local syndicate headed by Estabrook & Co. at 98.02, $300,000 to O'Connor & Kahler of New York City at prices ranging from 99 to 99.50, $150,000 to the Safe Deposit & Trust Co. of Baltimore at 98.16 and 98.33.

**Barnesville, Belmont County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. March 30 by F. Waldo Hilles, Village Clerk, for $3,854 58 5% street-paving assessment bonds. Authority Sections 1536-210 Revised Statutes. Denomination $200, except one bond of $75 and one bond of $179 58. Date Jan. 15 1908. Interest annual. Maturity part yearly on Jan. 15 from 1909 to 1918 inclusive. Purchaser to pay accrued interest.

**Beatrice School District (P. O. Beatrice), Neb.**—*Bonds Voted.*—An election held March 10 resulted in favor of a proposition to issue $80,000 5% 10-30-year coupon high-school-building-construction bonds. These bonds are to be in the denomination of $1,000. Date May 1 1908. Interest semi-annually at the Nebraska fiscal agency in New York City. Date of sale not yet determined.

**Beloit, Mitchell County, Kan.**—*Bond Sale.*—We are informed that the two issues of improvement bonds offered on Feb. 25 (V. 86, p. 495), aggregating $31,500, were disposed of to local bidders at a premium.

**Blue Ridge, Fannin County, Ga.**—*Bonds Not Sold.*—No sale has been made of the $30,000 5% 30-year water-works and electric-light bonds offered on March 2. See V. 86, p. 433, for description of these bonds.

**Brampton, Ont.**—*Debenture Sale.*—An issue of $17,692 5% improvement debentures has been awarded, it is reported, to Wood, Gundy & Co. of Toronto. Maturity part yearly for twenty years.

**Brookhaven, Lincoln County, Miss.**—*Bond Sale.*—Through the reports in papers we learn that on March 10 the City Council sold $15,000 power-house-improvement bonds to John Nuveen & Co. of Chicago at par.

**Centerville, Iowa.**—*Bond Sale.*—On March 2 $8,000 6% warrant funding bonds were sold to Geo. M. Bechtel & Co. of Davenport at 101.875. Denomination $1,000. Date March 2 1908. Interest annual. Maturity March 2 1911, but subject to call before that time.

**Charlotte, N. C.**—*Bond Sale.*—According to local papers $100,000 5% 30-year funding bonds were awarded on March 13 to the American Trust Co. of Charlotte at 102.50 and accrued interest—a basis of about 4.842%.

**Chickasha, Grady County, Okla.**—*Bond Sale.*—We are advised that an issue of $55,000 5% 20-year refunding bonds was awarded on March 12 to Ben F. Johnson for $55,025—the price thus being 100.045. Date April 1 1908.

**Cincinnati, Ohio.**—*Bond Sale.*—On March 6 an issue of $10,000 4% park bonds was purchased by the Sinking Fund Trustees at par. Date March 6 1908. Interest semi-annual. Maturity March 6 1909.

On March 16 the $115,500 4% coupon Eighth Street viaduct bonds offered on that day (V. 86, p. 496) were awarded to W. E. Hutton & Co. of Cincinnati at 103.52. Maturity Feb. 1 1938. Following are the bids:

| | | | |
|---|---|---|---|
| W. E. Hutton & Co., Cin | $115,566 00 | Prov. Sav. Bk. & Tr. Co., Cincinnati | $118,387 50 |

*a* Successful bidders.

**De Kalb School District No. 64 (P. O. De Kalb), De Kalb County, Ill.**—*Bond Sale.*—On March 2 the $30,000 4% school-building bonds described in V. 86, p. 559, were awarded to E. H. Rollins & Sons of Chicago for $29,050, the price thus being 96.833. Maturity $1,000 yearly on July 1 from 1910 to 1919 inclusive, $2,000 on July 1 in each of the years 1920, 1921, 1922 and 1927, and $3,000 yearly on July 1 from 1923 to 1926 inclusive.

**Denver, Col.—Montclair Park District.**—*Bond Offering.*—Further details are at hand relative to the offering on March 24 of the $397,700 6% coupon park bonds mentioned in V. 86, p. 619. Proposals will be received until 4:30 p. m. on that day by the Park Commission. Denominations $100, $500 and $1,000. Date March 1 1908. Interest annually at the City Treasurer's office or at the Mercantile Trust Co. in New York City. Maturity fifteen years; subject to call, however, at any time. Official circular states that this city has never defaulted in the payment of principal or interest on any of its bonds.

**Dixon School District (P. O. Dixon), Lee County, Ill.**—*Bond Sale.*—The Harris Trust & Savings Bank of Chicago is reported as being the successful bidder for the $50,000 5% coupon school-building bonds offered on March 12 and described in V. 86, p. 619. Bonds mature $3,000 yearly beginning July 1 1914.

**East Cleveland (P. O. Station J, Cleveland), Ohio.**—*Bond Sale.*—On March 14 the $38,000 4% coupon school-addition bonds described in V. 86, p. 683, were awarded to Borton & Borton for $38,037 50—the price thus being 100.098. A bid of $38,010 was also received from Otis & Hough of Cleveland. Maturity March 14 1928.

**East Liverpool School District (P. O. East Liverpool), Columbiana County, Ohio.**—*Bond Sale.*—On March 16 the $12,000 4% 4-9-year (serial) coupon school bonds offered on that day (V. 86, p. 683), were awarded, it is stated, to J. McCullough of Wellsville.

**Edgeley, Lamoure County, N. D.**—*Bonds Not to Be Offered at Present.*—The Village Clerk informs us that it is not likely that any action will be taken in regard to issuing the $3,000 6% 5-year electric-light bonds voted Jan. 6 (V. 86, p. 126) until after next month.

**Elizabethtown, Lancaster County, Pa.**—*Purchasers of Bonds.*—We are informed that the $12,000 4% 5-30-year (optional) refunding bonds disposed of on March 3 (V. 86, p. 683) were awarded to the Elizabethtown National Bank and other local bidders at prices ranging from par to 102.25. Denominations $100 and $500. Date April 1 1908. Interest semi-annual.

**Elyria School District (P. O. Elyria), Lorain County, Ohio.**—*Bond Sale.*—On March 17 the $10,500 4½% Jefferson Building bonds, described in V. 86, p. 683, were awarded to Seasongood & Mayer of Cincinnati at 103.13 and accrued interest. Bids were also received from Otis & Hough, Dennison & Farnsworth, Hayden, Miller & Co., W. J. Hayes & Sons, all of Cleveland, the Security Savings Bank & Trust Co. of Toledo and Weil, Roth & Co. of Cincinnati.

**Essexville, Bay County, Mich.**—*Bonds Not Sold.*—No sale has been made of the $25,000 5% Woodside Avenue Paving bonds offered on Feb. 26. See V. 86, p. 434.

**Estelline, Hamlin County, S. D.**—*Bond Offering.*—Proposals were asked for until 8 p. m. yesterday (March 20) by Leroy Smith, Village Clerk, for the $4,000 5% coupon water-works bonds recently voted. Denomination $250. Date, day of issue. Interest annually at the Village Treasurers' office. Maturity ten years, subject to call after five years. The result of this offering was not known to us at the hour of going to press.

**Forrest County (P. O. Hattiesburg), Miss.**—*Bond Sale.*—We are informed that the $40,500 5% 10-20-year (optional) jail-construction bonds, offered on March 2 (V. 86, p. 497), have been awarded to John Nuveen & Co., of Chicago, at par.

**Gloucester City, Camden County, N. J.**—*Bond Sale.*—We are advised that the $75,000 4½% 20-year coupon or registered street-improvement bonds recently authorized (V. 86, p. 559), have been disposed of.

**Goderich, Ont.**—*Debenture Sale.*—On March 10 this town awarded $50,000 5% 1-20-year debentures and $11,000 5% 1-30-year debentures to W. A. Mackenzie & Co. at 97.203 and accrued interest.

The following bids were received:

W.A.MacKenzie&Co.,Toron $59,294 | Aemilius Jarvis & Co. ,Tor. $57,950
Wood, Gundy & Co., Toront. 59,075 | W. C. Brent & Co., Toronto 57,139
Dom. Sec. Corp., Toronto 58,222 |

*Price Paid for Debentures.*—We are advised that the price paid for the $25,000 5% debentures recently awarded to G. A. Stimson & Co. of Toronto (V. 86, p. 559) was par.

**Gulfport, Harrison County, Miss.**—*Bond Sale.*—There are reports in the papers stating that the $125,000 5½% 20-year street-paving bonds authorized by the City Council on May 7 (V. 84, p. 1263) have been disposed of at par to John Nuveen & Co. of Chicago.

**Guthrie, Okla.**—*Bond Issue.*—This city will issue $21,500 6% coupon bonds to redeem a like amount of judgments. We are advised that the holders of the judgments, which are to be redeemed, will take the new issue of bonds in exchange for the judgments held by them. Denomination $500. Date Feb. 1 1908. Interest semi-annually in New York City. Maturity $2,000 yearly beginning Feb. 1 1924.

**Hamilton School District (P. O. Hamilton), Butler County, Ohio.**—*Bond Sale.*—We see it reported that $23,000 school bonds have been disposed of to the Hamilton Clearing House Association of Hamilton for $23,005—the price thus being 100.021.

**Harris County (P. O. Houston), Tex.**—*Bond Offering.*—Proposals will be received until 12 m. April 11 by A. E. Amerman, County Judge, for the following bonds:

$374,000 [illegible] and bridge bonds dated Oct. 10 1907. Maturity Oct. 10 [illegible]. These securities are the unsold portion of the $500,000 [illegible] of which was made in V. 86, p. 435.
500,000 con[illegible] bonds. Date April 11 1908.

Certified check required.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Hartford, Conn., Arsenal School District.**—*Bonds Voted.*—An election held March 13 resulted unanimously in favor of a proposition to issue $80,000 4% bonds for building new school-houses and buying land. Bonds will be dated May 1 1908. Maturity May 1 1938. Date of offering not yet determined. We are advised by Robert C. Glazier, Treasurer, that "the district has the power to sell these bonds either at public or at private sale."

**Helena, Mont.**—*Bond Election.*—Propositions to issue $600,000 water bonds and $70,000 sewer bonds will be submitted to a vote of the people on April 25.

**Hendricks County (P. O. Danville), Ind.**—*Bonds Not Sold.*—Papers report that no bids were received on March 12 for four issues of 4½% gravel-road bonds aggregating $31,940 offered on that day.

**Homestead, Allegheny, Pa.**—*Bond Offering.*—Proposals will be received until 7:30 p. m. March 25 by Andrew Hill, Borough Secretary, for the $25,000 4½% coupon refunding bonds offered without success on March 2 (V. 86, p. 559.) Denomination $1,000. Date April 1 1908. Interest semi-annually at Homestead. Maturity April 1 1928. Certified check for $1,000, payable to the "Borough of Homestead," is required. Bands are exempt from all State taxes.

**Huntington Park, Los Angeles County, Cal.**—*Bonds Voted.*—The result of an election held in this city on Feb. 10 was in favor of the issuance of $3,500 7% 1-5-year bonds for street work. The vote was 58 to 20. Date of sale not yet decided.

**Irvington (P. O. Station Newark), N. J.**—*Bond Sale.*—On March 17 this town awarded the $58,000 4½% 50-year school-building addition offered on that day (V. 86, p. 620), to J. S. Rippel of Newark at 102.10—a basis of about 4.396%. The following bids were received.

J. S. Rippel, Newark 102.10 | A. B. Leach & Co., N. Y. 100.17
John D. Everitt & Co., N. Y. 100.282 |

**Junction City School District No. 69 (P. O. Junction City), Lane County, Ore.**—*Bond Offering.*—Proposals will be received until 12 m. to-day (March 21) by F. W. Moorhead, Clerk Board of Education, for $6,000 5% bonds.

**Lake Village, Chicot County, Ark.**—*Bond Offering.*—Proposals will be received until 12 m April 15 by C. M. Matthews, Chairman Board of Improvements, for $30,000 6% Improvement District No. 4 water-works and electric-light bonds. Interest annual. Maturity twenty years. Certified check for $500, payable to the "Board of Improvement, District No. 4," is required.

**Lancaster, Fairfield County, Ohio.**—*Bond Offering.*—Proposals will be received until 12 m. April 3 by the City Auditor for $5,608 73 5% Sewer District No. 1 assessment bond. Authority Section 2701, Revised Statutes. Date March 25 1908. Interest annual. Maturity March 25 1909. Certified check for 2% of the bonds bid for, payable to the City Treasurer, is required. Accrued interest to be paid by purchaser.

**Luzerne County (P. O. Wilkes-Barre), Pa.**—*Bond Sale.*—On March 19 the $300,000 4½% coupon bonds described in V. 86, p. 621, were awarded to Baker, Ayling & Co. of Philadelphia at 103.765. The following bids were received:

Baker, Ayling & Co., Phila. 103.765 | Brown Bros. & Co., Phila. 102.290
N. W. Harris & Co., N. Y. 103.388 | Otis & Hough, Cleveland 102.150
Heyl & Major, Philadelphia 103.297 | Kountze Bros., Philadelphia 102.033
R. E. Glendinning & Co., Philadelphia 103.160 | Wurts, Dulles & Co., Phila. 102.030
Montgomery, Clothier & Tyler, Philadelphia 103.140 | R. E. Robinson & Co., Phila. 101.377
Edw. V. Kane & Co., Phila. 102.770 | Forrest & Co., Philadelphia 101.358
Graham & Co., Philadelphia 102.510 | N. W. Halsey & Co., Phila. 101.289
 | Wm. A. Read & Co., N. Y. 101.060
 | C. D. Barney & Co., Phila. 100.55

Maturity $15,000 yearly from 1912 to 1916 inclusive, $18,000 yearly from 1917 to 1920 inclusive, $19,000 in 1921 and $19,000 in 1922, and $23,000 yearly from 1923 to 1927 inclusive.

**Lynn, Mass.**—*Bond Sale.*—This city, it is stated, has sold $214,000 4% coupon bonds to Perry, Coffin & Burr of Boston.

**Madisonville School District (P. O. Independent Sta. M, Cincinnati), Hamilton County, Ohio.**—*Bond Sale.*—On March 14 the $50,000 4% 30-year school-building-construction and equipment bonds offered on that day (see V. 86, p. 560) were awarded, we are informed, to the Western German Bank and Weil, Roth & Co., both of Cincinnati, for 100.812 and accrued interest. Following are the bids:

West.Ger. Bk. and Weil, Roth & Co., Cincinnati $50,406 00 | Central Tr. & Savgs. Dep. Co., Cincinnati $50,125 00
A. Kleybolte & Co., Cin. 50,312 50 | Seasongood & Mayer, Cincinnati 50,125 00
Prov. Savgs. Bk. & Tr. Co., Cincinnati 50,187 50 | W. R. Todd & Co., Cin. 50,102 50

**Marion County (P. O. Indianapolis), Ind.**—*Note Sale.*—On March 12 the $30,000 5% notes mentioned in V. 80, p. 560, were awarded, it is stated, to the Fletcher National Bank of Indianapolis for $30,005—the price thus being 100.016. Loan to mature not later than June 15 1908.

**Medford, Mass.**—*Temporary Loan.*—This city recently negotiated a loan of $50,000 with Blake Bros. & Co. of Boston at 4.35% discount. Loan matures $25,000 in 8 months and $25,000 in 9 months.

**Montpelier, Williams County, Ohio.**—*Bonds Voted.*—We are informed that an election held here March 16 to vote on the question of issuing $30,000 water and light bonds resulted in favor of that proposition. The vote was 256 "for" to 32 "against."

**Montreal, Que.**—*Offering of Stock and Bonds.*—Proposals will be received until 3 p. m. March 27 by the City Clerk for £1,000,000 sterling or $5,000,000 currency 4% gold "registered stock" or "coupon bonds." The stock will be issued in denomination of $100 or multiples thereof, while the bonds (which may be converted into registered stock at any time) will be for $500 or $1,000 each at option of purchaser. Interest May 1 and Nov. 1 at the City Treasurer's office in Montreal or in New York, London or Paris, to suit the successful bidder. Maturity May 1 1948. Certified check for 1% of bid is required. Loan will be delivered 25% on May 1 1908, 50% on June 24 1908 and 25% on Nov. 1 1908. Purchaser to pay accrued interest from May 1. W. Robb is City Treasurer.

**Morgan County (P. O. Martinsville), Ind.**—*Bonds Not Sold.*—No bids were received for the $16,400 Washington Township and the $6,200 Jackson Township 4½% gravel-road bonds offered for sale by the County Treasurer on March 16. See V. 86, p. 684, for a description of these bonds.

**Mount Vernon, Westchester County, N. Y.**—*Bond Sale.*—The only bid received on March 17 for the $60,000 and $35,000 5% 3-year tax-relief bonds described in V. 86, p. 561, was one of 100.133 submitted by Kountze Bros. & Co. of New York City.

**Nashville, Davidson County, Tenn.**—*Bond Offering.*—Proposals will be received until 3 p. m. April 15 by the Bond Commissioners, care of H. S. Bauman, City Recorder, for the following bonds:

$125,000 4½% Suburban Street bonds dated July 1 1905. Maturity thirty years.
100,000 4% water-main bonds dated Jan. 1 1908. Maturity twenty years.

Authority Chapters 55 and 131 of the Acts of the General Assembly of 1905 and 1907. Denomination $1,000. Interest semi-annually at Nashville or at the banking-house of Latham, Alexander & Co. in N. Y. City, at option. Bonds are free from city taxes. Bid must be made on each issue separately and accompanied by a certified check for 5% of bonds bid for, payable to the City Recorder. Purchaser to pay accrued interest. Official circular states that there

has never been any default in the payment of principal or interest and that there is no litigation pending or threatened affecting the issuance of these bonds.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**New York State.**—*Bids for Highway Bonds.*—The following is the official list of the 244 bids received last Wednesday (March 11) for the $5,000,000 4% 50-year gold coupon or registered highway-improvement bonds, the award of which was given in last week's issue. The list given last week by us, we find, was not entirely complete. The total amount of bids received was $81,535,000. Those bids marked with an asterisk (*) were successful.

**Oklahoma City, Okla.**—*Bond Sale.*—On Feb. 15 an issue of $72,000 5% 20-year refunding bonds was awarded to the State National Bank of Oklahoma City at par and accrued interest. Denomination $500. Date Feb. 15 1908. Interest semi-annual.

**Paterson, Passaic County, N. J.**—*Bond Offering.*—Proposals will be received until 4 p. m. April 2 by John J. Brophy, City Clerk, care City Treasurer's office, for $100,000 4½% coupon renewal bonds. Denomination $1,000. Date May 1 1908. Interest semi-annual. Maturity May 1 1928. Certified check for 5% of bid, payable to the City Treasurer

and drawn on a national or State bank, is required. Accrued interest to be paid by purchaser.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Port Huron, Saint Clair County, Mich.**—*Bond Sale.*—On March 18 the $45,000 5% 10-year high-school-building bonds described in V. 86, p. 685, were disposed of to A. B. Leach & Co. of Chicago at 103.571. Following is a list of the bids received:

| | | | |
|---|---|---|---|
| A. B. Leach & Co., Chic | $46,607 66 | First Nat. Bk., Pt. Huron | $45,000 00 |
| Well, Roth & Co., Cincin | 46,521 00 | Bumpus, Stubbs & Co., Detroit | 45,519 60 |
| Kleybolte & Co., Cincin | 46,375 00 | Otis & Hough, Cleveland | 45,329 00 |
| Seasongood & Mayer, Cincinnati | 46,152 75 | W. J. Hayes & Sons, Cleve | 45,239 00 |

**Rochester, Strafford County, N. H.**—*Bond Sale.*—The $65,000 4% city-hall bonds recently authorized by the City Council (V. 86, p. 622,) have been disposed of to N. W. Harris & Co. of Boston. Maturity part yearly on Jan. 1 from 1912 to 1927 inclusive.

**Rochester, N. Y.**—*Bond Offering.*—Proposals will be received until 3 p. m. May 25 by Charles F. Pond, City Comptroller, for $75,000 4% registered school bonds, which will be engraved and certified as to genuineness by the Columbia Trust Co. of New York City. Authority Chapter 549, Laws of 1906. Denomination $5,000. Date June 1 1908. Interest Jan. 1 and July 1 at the Union Trust Co. in New York City. Maturity $25,000 yearly on June 1 from 1917 to 1919 inclusive. Certified check for 2% of the bonds bid for, payable to the City Comptroller, is required. Accrued interest, if any, to be paid by purchaser. Bids to be made on blank forms furnished by the city.

**Rome, Oneida County, N. Y.**—*Bonds Awarded in Part.*—Under date of March 13 the City Clerk advises us that $20,000 more of the $100,000 4% 20-year registered water-supply bonds mentioned in V. 86, p. 363, had been disposed of. This makes a total of $60,000 bonds sold to local investors at par and accrued interest to date. The remainder of the issue is now being offered at par and accrued interest.

**Roselle Park School District (P. O. Elizabeth), Union County, N. J.**—*Bonds Not Sold.*—No award was made on March 16 of the $68,000 4½% coupon school bonds offered on that day (V. 86, p. 623). Maturity on Jan. 1 as follows: $18,000 in 1928, $25,000 in 1933 and $25,000 in 1938.

**Rosser, Man.**—*Debenture Sale.*—On Feb. 29 the $20,000 5% drainage debentures described in V. 86, p. 501, were awarded to Nay & James of Regina, Sask., at 94.085.

**St. Boniface, Man.**—*Debenture Sale.*—An issue of $200,000 4½% 40-year debentures was recently awarded, it is stated, to Wood, Gundy & Co. of Toronto at 95.11.

**St. Louis, Mo.**—*Bond Sale.*—On March 16 the $1,000,000 4% 20-year gold coupon insane-asylum bonds described in V. 86, p. 685, were awarded as follows: $800,000 to the Mississippi Valley Trust Co. and $200,000 to the German Savings Institution, both of St. Louis, at an average price of 100.883. Fifteen bids were received aggregating $4,314,000.

## NEW LOANS.

# CITY OF NASHVILLE, TENN.

## $125,000 Suburban Street Bonds
## $100,000 Water Main Bonds

Sealed Bids will be received until 3 o'clock P. M. April 15, 1908, for $125,000 Suburban Street Bonds and $100,000 Water Main Bonds of the City of Nashville.

Said Suburban Street Bonds are of the denomination of $1,000 each, and bear interest at the rate of 4½ per cent per annum, payable the first days of January and July respectively at Nashville, Tenn., or at the Banking House of Latham, Alexander & Co., New York City, at the option of the holder.

Said bonds are dated July 1, 1905, and mature thirty (30) years from date without option.

Said bonds are issued by the Mayor and City Council of Nashville, Tenn., for the purpose of building suburban streets that have not been graded nor macadamized.

Said Water Main Bonds are of the denomination of $1,000 each and are a part of a $200,000 authorized issue, and bear interest at the rate of 4½ per annum, payable the first days of July and January respectively, at Nashville, Tenn., or at the Banking House of Latham, Alexander & Co., New York City, at the option of the holder

Said bonds are dated January 1, 1908, and mature twenty (20) years from date without option.

Said bonds are issued by the Mayor and City Council of Nashville, Tenn., for the purpose of extending water mains into the territory annexed to the City of Nashville by Chapter 333 of the Acts of 1905, approved April 13, 1905.

Bids will be received for each class of bonds separately and must be marked bids for "Suburban Street Bonds" or "Water Main Bonds," must include accrued interest to date of delivery and be accompanied by a certified check, payable to the City Recorder, for 2½ per cent of the amount of bonds bid for. Bids will be received only for the whole of either issue of the bonds. The right is reserved to reject any and all bids.

Address Bids to Bond Commissioners, Nashville, Tenn.

Care H. S. BAUMAN, City Recorder.

## INVESTMENTS.

# TAX EXEMPT BONDS

are a most desirable form of investment. We own and offer on an attractive income basis an issue of Municipal Bonds, authorized by a special Act of Congress, bearing

**4½%**

interest, payable semi-annually in Chicago. These bonds are the direct obligation of a growing and prosperous city of over 20,000 estimated population, and, in the opinion of counsel, are

**EXEMPT FROM TAXATION**

to the same extent as United States Government bonds.

Call or write for price and circular No. P-268, giving full information.

Maturity $1,000 yearly on March 14 from 1909 to 1924 inclusive.

**Seattle, Wash.**—*Vote.*—We are advised that the official vote on the $2,250,000 water-system-extension bonds mentioned in V. 86, p. 686, was 16,121 "for" to 2,229 "against." Interest not to exceed 5%.

As previously stated, these securities take the place of the $2,250,000 5% bonds awarded to local banks last August, which sale was never consummated, as the bonds were subsequently declared invalid by the State Supreme Court.

*Bond Sale.*—An issue of $200,000 3¾% 20-year bonds, dated July 1 1907 has been awarded to the State of Washington at par.

**Spring Lake (P.O.Spring Lake Beach), Monmouth County, N. J.**—*Bonds Awarded in Part.*—We are advised that $17,000 of the $46,000 5% coupon or registered refunding bonds (the unsold portion of an issue of $56,000) (V. 86, p. 363), have been disposed of at par and accrued interest. This makes a total of $27,000 bonds disposed of to date.

**Stamford, Fairfield County, Conn.**—*Bond Sale.*—We are advised by wire that the $55,000 4% 30-year public-park bonds described in V. 86, p. 562, were awarded on March 20 to R. L. Day & Co. of Boston at 100.827. The following bids were also received:

Blodgett, Merritt & Co., Boston ..... 100.65 Merrill, Oldham & Co., Boston ..... 100.143
Chas. A. Peabody & Co. ..... 100.625 Boston.

**Stratton School District (P. O. Lemoore), Kings County, Cal.**—*Bond Sale.*—On Feb. 29 an issue of $3,000 7½% 1-6-year building bonds was awarded to S. C. Page for 104.166. Denomination $500. Date Feb. 6 1908. Interest annual.

**Syracuse, Onondaga County, N. Y.**—*Bond Sale.*—The $16,000 4% 1-5-year (serial) registered local-improvement bonds offered at public auction on March 16 (V. 86, p. 686), have been disposed of as follows:

| | |
|---|---|
| Patrick Moriarity, Syracuse | $6,000 due 1910 1912 from 100.95 to 101.05 |
| David D. Shannahan, Syracuse | 5,400 due 1909-'12 from 100.06 to 101. |
| Christopher Jackson, Cazenovia | 1,000 due 1913 at 101. |
| Thomas Staunton, Syracuse | 1,000 due 1910 & '11 from 100.45 to 100.90 |
| Paulina Woese, Syracuse | 1,000 due 1909..100 |
| A. M. York, Syracuse | 500 due 1909, '11 &'12 from 100 to 100.95 |
| Nathan E. Young, Syracuse | 500 due 1909..100 |

### *CLEARING HOUSE RETURNS.*

The following table, made up by telegraph, &c., indicates that the total bank clearings of all clearing houses of the U. S. for week end. to-day have been $2,253,038,495, against $2,364,008,218 last week and $3,061,415,918 the week last year.

| *Clearings—Returns by Telegraph Mch. 28* | 1908. | 1907. | % |
|---|---|---|---|
| New York | $1,080,562,249 | $1,708,139,560 | —36.7 |
| Boston | 99,234,387 | 145,240,812 | —31.7 |
| Philadelphia | 86,988,638 | 102,004,239 | —14.7 |
| Baltimore | 17,145,801 | 18,021,963 | —4.9 |
| Chicago | 189,666,567 | 190,669,953 | —0.5 |
| St. Louis | 46,817,646 | 49,379,939 | —5.2 |
| New Orleans | 12,589,748 | 15,900,166 | —20.8 |
| Seven cities, 5 days | $1,533,005,036 | $2,229,356,632 | —31.2 |
| Other cities, 5 days | 345,018,761 | 370,914,218 | —7.0 |
| Total all cities, 5 days | $1,878,023,797 | $2,600,270,850 | —27.8 |
| All cities, 1 day | 375,014,698 | 461,145,068 | —18.7 |
| Total all cities for week | $2,253,038,495 | $3,061,415,918 | —26.4 |

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below detailed figures for the week ending with Saturday noon, March 21, for four years.

## *THE FINANCIAL SITUATION.*

One after another the more troublesome features of the business outlook have of late been clearing up and a basis for a substantial and permanent recovery is in the way of being established. The better situation has been a slow growth, but it has made decided progress the past week in stock values; if continued it is assumed as likely that bonds will follow, and then trade affairs, which always lag behind, will fall in line. This movement has been for weeks brewing. Comptroller Metz evolved out of the darkest kind of surroundings early in February a wee bit of light when he advertised his New York City 50 millions bond proposal. Very few thought he could get much of a response out of the discouraging environment he faced. That 31st of January message to Congress left business paralyzed. For illustration, recall the short list of transactions recorded day after day at the New York Stock Exchange at that period and subsequently—transactions in what were acknowledged to be the best lot of securities the world had to offer, without finding takers even at the beggarly prices then ruling.

And yet, in the midst of these discouraging features the bond sale transaction turned out to be an unbounded success. The takings were several times larger than the offerings and the prices bid were materially higher than previous sales. In writing at that time of the results, we summed up the affair by stating the obvious truth that there was not a sign in it all of scarcity or timidity of capital, but the best of evidence of abundance of funds and of absolute confidence awaiting our call, coming up, too, from every part of the industrial world. This result determined the limits within which the disease we were staggering under lay. It was in no respect connected with lack of funds; there was no such lack. It did not attach to American securities per se, for the city bonds were in most urgent demand. We were thus confronted with a wonderful contrast. For it must not be forgotten that it was at the same mart and to the same body of investors that the two appeals were made. What gave the bonds so wide and active a demand, when our corporate stocks, though netting a much better return for the capital expenditure, were wholly neglected?

Every one should heed this question, for within it lies, in very considerable part, the solution of the problem respecting the future. The facts stated prove that the entire difference in results was due to an artificial difference existing in the securities offered —a difference not natural but of man's making. Our Washington authorities had put the value of the Stock Exchange security in jeopardy by various devices; stability was thereby jeopardized; while the city bond was as stable as a Bank of England note. The Federal Administration could not reach it. This taint of instability might be imparted by any kind of control which an official exercised that decreased in an arbitrary way the earning power or increased in a like manner the expense account. We have a forcible instance of such a transaction in a letter written by Mr. Roosevelt to the Inter-State Commerce Commission under date of Feb. 18, in which, among other things, he says: "I am informed that a number of railroad companies have served notice of a proposed reduction of wages on their employees."

He nowhere in the letter states that the roads had all raised wages, almost imprudently, several times, when earnings were large enough to warrant a raise; but now that earnings were way off, what were they to do? Their reply in substance was—the only reply a sensible railroad manager could make—that they must economize or be forced into insolvency, and their earnings corroborated this assertion. Bear in mind that this letter was written at the time when every individual of moderate means and nearly every firm or corporation was so straitened and hard pressed that all were seeking most industriously to shorten the expense account. No one needs to be told that such treatment of railroads and other corporations could lead only and inevitably to insolvency, to receiverships, and generally to the shutting up of the corporation shops and the discharging of a large proportion or all of the employees. Because no such result has intervened on this occasion does not make a wrong act right, or lessen the tendency of such a letter to harm corporations or to harm a community. Besides, the books are not closed in even that case yet.

Highly important happenings of late have greatly helped the effort to advance stock values. We have described above the initial step in recovery. The change in the character of the outcroppings from Washington was one of the contributory side-lights. Another message was announced, but it was to be shorter and more conciliatory than the January utterance. It came, but it breathed more of the spirit of the 10% proposal for a restoration of railroad rates than of the bitterness theretofore existing. To that was added the decisions of the Federal Court. The fact that they were substantially unanimous—only one member of the Court dissenting—gave them special force. Furthermore the two points, (1) that every individual was entitled under the Federal Constitution to equal protection of the law and (2) that no man's property can be taken from him without due process of law, covered what at the moment was especially needed. But this deliverance by the Court was perhaps of primary influence in removing discredit because it removed a certain lack of faith which was prevailing in business circles; this lack arose from a fear lest the Court would weaken when these issues came before it. Every other source of help had failed; hence the public as a kind of last desperate hope asked—can we depend upon the Federal Court, which had always been true in enforcing the constitutional limits—or will it too fail us? The decision therefore relieved and removed from the public mind this fundamental apprehension which no circumstances but a fresh decision could have freed the public from.

Some of our readers with the help of the foregoing will understand better the point we made last week of the Washington proposal to include a 10% increase in the rates of freight on all our railroads. Administration circles, we may presume, were aware of the substance of the decision which was about to be handed down. Hence this 10% suggestion from Washington was merely taking the bull by the horns. As lower rates had shortened income below the point of safety, an increase of rates would restore stability. Probably the scope of the decision that was expected also leaked out in Wall Street, and has been among other influences which have helped to vitalize the

inert market which had long been such a conspicuous condition on the stock exchange.

---

We learn from the Berlin correspondent of the "London Economist" that the Imperial Government of Germany has decided to inaugurate a system of postal checks in connection with the post office. This plan was projected about eight years ago, but it was never carried out because the Reichstag coupled with it conditions which the Government would not accept. The present scheme will be put into operation through decree, which will remain in force till 1914, by which time a general law on the subject is expected to be passed. The German system will be modeled to a considerable extent upon that of Austria, which has been highly successful; but, contrary to the Austrian prototype, no interest upon deposits will be paid. This is regarded as a defect in the plan. One of the merits of the Austrian system is that it appeals to the savings instinct of the people, besides supplying them with a cheap and easy method of effecting their payments without the use of currency.

---

Referring to the reduction in the Bank of England rate of discount to 3½% March 5, the "Economist" says it cannot be said that the reappearance of easier money in London has solved the embarrassments caused by the crisis. There is a good deal of commercial wreckage in many parts of the world. Probably one reason is that some of the thrifty adventurers in places like Rio, Valparaiso and Mexico have found that not only are their demands for more funds ignored, but considerable sums that have been placed there by American and European capitalists, to earn a big interest, have been withdrawn in the strain and stress of the monetary crisis. Meanwhile, it is becoming increasingly plain that the low discount and loan rates which everybody expects in the immediate future will not mean that large supplies of loanable capital will be available for investment in the new securities that are coming forward at such a rate. Indeed, some are disposed to question whether even yet the prices of first-class securities have been scaled down to a parity with the loanable capital of the world. The new capital creations since the lower discounts were established amount, it is said, to 40 million dollars, and at least 43 millions more are impending; only a few of these proposed emissions seem to be of a substantial character, and the list does not include a St. Petersburg ruble loan for 4 millions sterling nor contemplated issues by China and the Transvaal.

Early in the week it was reported from St. Petersburg that the Russian Finance Minister, in addressing the Budget Committee of the Douma, announced that new loans were inevitable, despite Russia's already heavy indebtedness. He mentioned the double-tracking of the Siberian Railway, the building of the Amur line and the requirements for national defence and famine relief as alone involving an extraordinary expenditure of 75 million dollars annually for several years. It is suggested that, while the Douma might assent to appropriations for national defence, in an emergency, it would scarcely make provision at present for so great an expenditure as is contemplated for the other purposes named. Moreover, with France on the eve of issuing supplementary credits on account of the Moroccan operations, negotiations for a Russian loan in Paris would probably not now be successful. Germany is in no condition to participate in such an emission, and the demands upon British capital are so urgent that a Russian loan would not enlist support in London.

One incident this week has been a steady fall in exchange at Paris on London, indicating withdrawals by the Bank of France from that of England of the balance due on account of advances by the former to the latter of 15 millions gold last November. Some of the metal that arrived in London this week from the Cape and from Australia was bought for shipment to Paris; though there appeared to be no competition by the English Bank for this gold, the market price was advanced ½ a penny per ounce, to 77 shillings 9½ pence. It was reported during the week that the German Reischsbank was offering inducements for the importation of gold from Australia, it probably finding it more advantageous to attract Australian gold than to seek supplies in London.

The last installment of the call by the Secretary of the Treasury for the surrender by depositary banks of those of their public funds which were placed therein during the crisis matured on Monday; the responses to this portion of the call were prompt, as had been those to the earlier maturing installment on March 9, and as the result the whole of the 35 million deposits recalled have been returned to the Treasury. The loan certificates which were issued by the New York Clearing-House Association in order to amelioriate the effects of the panic were reduced this week, through payments by the banks so relieved, to $250,000, and it was expected that this amount would be extinguished by the end of the month. The Knickerbocker Trust Co., the failure of which in the early days of the panic contributed to the precipitation of the acute stage of the crisis, resumed business this week, after undergoing reorganization; the Oriental Bank began to liquidate its indebtedness to its depositors; the National Bank of North America is being liquidated by its receivers, and hence the most important traces of the panic have been or are speedily being removed.

---

It is a great point gained to have the President write in a conciliatory way, using temperate language, as he does in the special message which he sent to Congress on Wednesday of this week. The public has become accustomed to very strong and violent expressions on the part of Mr. Roosevelt, and as a consequence a disposition had grown up to ignore what he was saying, particularly as his outgivings were nearly always of inordinate length. In this week's document, however, a complete departure has been made. Not only are the usual rasping sentences missing, but the size of the message itself has been curtailed, so that we have a deliverance of not much more than reasonable length, though a variety of topics is treated in the same. The good effects are already observable. There is a disposition to listen to the President and to give due consideration to his suggestions and recommendations. A view is also growing up that as the President has been induced to modify and soften the tone of his utterances, possibly he can be prevailed upon to go still further and alter his policy to some extent, and pursue hereafter a more

conservative and judicious course than has been his wont in the recent past.

We cannot undertake to discuss all of Mr. Roosevelt's recommendations. Rather more than the ordinary interest, however, attaches to his suggestions with reference to amending the Inter-State Commerce Act and the Sherman Anti-Trust Law. We are unable to give our approval to these proposed amendments. As a matter of fact it appears to us that they would be exceedingly unwise. We are constrained to say, too, that there is not the slightest indication in any portion of this latest Presidential document that Mr. Roosevelt has experienced a change of heart. The language is softer and less bitter, but the purpose remains unaltered. He admits unreservedly, as he has many times in the past, that the Anti-Trust Law has operated, and is operating, unwisely, and he argues in favor of some substitute measure, but he would grant relief only on condition that the Federal Government be given further powers of supervision and control. Nor would he stop merely with the regulation of railroads and other carrying concerns, but he would have the Federal arm reach out and take in, in its all-embracing sweep, concerns engaged in inter-State business of every kind.

Thus there is to be relief from the operation of the Anti-Trust Law, but only coupled with conditions which might make the last stage of the business worse than the first. The President's extreme solicitude at this juncture is evidently due to the recent decision of the United States Supreme Court, holding a labor boycott illegal as being in restraint of trade under the Anti-Trust Law of 1890. This decision has given rise to rather well-grounded fears that in certain contingencies labor unions themselves might be declared illegal and injunctions be obtained dissolving them. From a political standpoint this presents an extremely disturbing development. So long as enforcement of the Anti-Trust Law affected simply the employer or the capitalist, the consequences were not considered likely to endanger political prospects. But to hit labor unions, with their immense body of voters, called for the inauguration of a new policy. The law now became a two-edged sword. To Mr. Roosevelt's credit be it said he does not attempt to justify the boycott, but expressly declares that "nothing should be done to legalize either a blacklist or a boycott that would be illegal at common law." He does argue in favor of the right to strike, though calling the strike a clumsy weapon. He says the right of employers to combine and contract with one another and with their employees should be explicitly recognized, and so should the right of the employees to combine and to contract with one another and with the employers, to seek peaceably to persuade others to accept their views, and to strike for the purpose of peaceably obtaining from employers satisfactory terms for their labor. With this part of the message no fault can be found.

It is when Mr. Roosevelt proceeds to indicate what legislation should be adopted that one is obliged to take exception. He states it as his opinion that "the Inter-State Commerce Law should be amended so as to give railroads the right to make traffic agreements, subject to these agreements being approved by the Inter-State Commerce Commission and published in all of their details." But, he adds, "the Commission should also be given the power to make public and pass upon the issuance of all securities hereafter issued by railroads doing an Inter-State commerce business." We cannot help thinking that this latter provision would be exceedingly harmful and that its tendency and operation would be to check railroad development in this country. The idea underlying the recommendation is, of course, that the issue of securities should be limited to cost, that a company should be allowed to put out stocks and bonds only for actual value received. With capitalization thus restricted the promoters would be allowed to earn merely a moderate return on their investment. In the newer sections of the country, where vast areas remain to be supplied with railroad facilities, capital cannot be induced to come in on such terms. The result would inevitably be to stifle the growth of the country. If it be urged that the Commission might be allowed to use its discretion in the matter and grant permission to issue securities in excess of the cost when circumstances seemed to demand such a course, the reply must be that no public body should be endowed with such discretion and that a community needing new railroad facilities should not be placed at the mercy of some central body at the seat of the General Government.

We also regard as highly objectionable the President's proposal that "a law should be passed providing in effect that when a Federal Court determines to place a common carrier or other public utility concern under the control of a receivership, the Attorney-General should have the right to nominate at least one of the receivers." With such a law in force, what a lot of fat plums would be at the disposal of the Government in a time of extreme depression like the present. We think it is no part of the business of the Government to meddle in such things. The Government should not be allowed to have a finger in everything that is going on in the business world.

Hardly less sound, in our estimation, is the President's suggestion regarding the amendment of the Anti-Trust Law. He argues that "the substantive part of the Anti-Trust Law should remain as at present; that is, every contract in restraint of trade or commerce among the several States or with foreign nations should continue to be declared illegal; provided, however, that some proper governmental authority (such as the Commissioner of Corporations acting under the Secretary of Commerce and Labor) be allowed to pass on any such contracts." The President thinks that "probably the best method of providing for this would be to enact that any contracts, subject to the prohibition contained in the Anti-Trust Law, into which it was desired to enter might be filed with the Bureau of Corporations or other appropriate executive body. This would provide publicity. Within, say, sixty days of the filing—which period could be extended by order of the Department whenever, for any reason, it did not give the Department sufficient time for a thorough examination—the Executive Department having power might forbid the contract, which would then become subject to the provisions of the Anti-Trust Law, if at all in restraint of trade. If no such prohibition was issued, the contract would then only be liable to attack on the grounds that it constituted an unreasonable restraint of trade. Whenever the period of filing had passed without any such prohibition, the contracts or combinations could be disapproved or forbidden only after notice and hearing

with a reasonable provision for summary review on appeal by the Courts."

We do not see that this scheme has anything to commend it. It would lodge tremendous authority in the hands of some central official or body. This official, or body, would have power of approval or disapproval in the first instance. What a fine opportunity for the display of favoritism this would furnish. What an opportunity for harassing recalcitrant officials or concerns. Even after approval, the contract or combination would still be subject to attack on the ground that it constituted an unreasonable restraint of trade. Why not provide in the first instance that the Anti-Trust Law is to apply only in cases of "unreasonable" restraint of trade, and let the Court decide the question of fact involved, and do away with all this cumbersome machinery. The Anti-Trust Law is working great harm and injury, but in effect there is to be no relief for the sufferers except by the acceptance of such intolerable conditions as here indicated. "Labor organizations, farmers' organizations and other organizations not organized for purposes of profit" are to be specifically exempt from the operation of the statute, provided only they register under the law. But business and manufacturing concerns must continue to endure existing hardships unless they are willing to accede to the conditions named. Is not that class legislation of the most offensive type?

---

The completed abstract of the condition of the national banks as issued Feb. 14 1908, by the Comptroller of the Currency, discloses a very satisfactory status of those institutions. One of the important features of the situation is, of course, the volume of loans and discounts carried by the banks, that item more than any other serving as an indicator of activity or inactivity in general mercantile affairs. As time passes, with the needs of the country increasing, business active, and therefore greater requirements for accommodation than the banks can readily respond to, the volume of loans and discounts will no doubt steadily increase. Inversely, inactivity, distrust or related causes are reflected in a contraction of loans, &c. Thus it was in 1893-94 and 1896-97, and has been in 1907-08. At its high point (on Aug. 22 1907) the aggregate of loans and discounts stood at $4,678,583,969; but that was anterior to the financial crisis. The succeeding statement, covering date Dec. 3 1907, showing a decrease in this item of 93 millions of dollars, reflected in part, of course, the let-up in activity that followed the fall panic, which is more fully evidenced by the further decrease of 163 millions, leaving the aggregate Feb. 14 1908 at $4,422,353,648, or lower than at the date of any call since November 1906.

The contraction in loans is not confined to any special locality—it is noticeable in about all sections of the country. On the other hand, the actual cash resources of the banks were on Feb. 14 very greatly in excess of those at any former period. Of gold the holdings were 478 millions of dollars, a total of decidedly record proportions and 80 millions greater than on Dec. 3; of silver the banks had 136 millions, which compares with 111½ millions on Dec. 3, the previous high-water mark. Legal-tender-note holdings Feb. 14, at 174 millions, were also in excess of any recent date, and only slightly below the record total of January 1905. Including with the items of cash already enumerated the national bank notes on hand, the cash resources of the banks as a whole on Feb. 14 were in excess of 826 millions of dollars, against the previous record of 732 millions on Aug. 22 1907 and 724 millions in January 1907.

In the number of banks there has been a satisfactory increase in the interval since the previous call, the West and South having especially benefited from the growth recorded. Inferentially banking capital has been augmented moderately and in about the same degree surplus fund has been added to. Undivided profits, however, show a falling off between December and February of 12 millions of dollars. These three items combined, therefore, were a little less on Feb. 14 than on Dec. 3, standing at 1,648½ millions, against 1,652 millions, but exceeding any earlier total.

Circulation of the banks was further increased between December and February by nearly 26 millions of dollars, the volume of notes outstanding on the latest date having been 627 2-3 millions. This, moreover, represents an augmentation within a year of over 83 millions. Clearing-House certificates, of which there were more than 64 millions outstanding Dec. 3, had been drawn down to 5½ millions on Feb. 14 and have now been practically all retired. This fact in itself, as much as any other, clearly depicts the change in the situation.

In the item of individual deposits a further diminution of 70 millions of dollars is shown, the aggregate standing at 4,106 millions on Feb. 14, against 4,176 millions in December and the record figure of 4,322 millions last May. Altogether, the total loss in this item as a result of the troublous times through which we have been passing is but little over 200 millions, or about 5% of the aggregate. The only wonder is that, under the circumstances, the falling off was not greater. Government deposits were in February about 2 millions less than in December. As already stated, these comments apply to the banks as a whole, but with rare exceptions they can be taken to apply to individual cities or States. In other words, with the general situation so reassuring, it would be superfluous to go into details.

---

The unsatisfactory status of affairs in the cotton-manufacturing industry of the country has been further attested recently by additional announcements of reductions in wages or curtailment of production, or both. Following the notices of 10% cuts in wages to go into effect March 30, and affecting about 45,000 operatives at Manchester and Nashua, N. H., and Lowell, Mass., to which we referred two weeks ago, there have been further definite announcements of the same import. At various points in each of the New England States the employees were officially notified last week of reductions identical in percentage and time with that mentioned above. And the cotton mills in Rhode Island and those located at New Bedford, Mass., collectively employing upwards of 50,000 hands, posted notices Monday last of a similar cut effective April 6. Furthermore, it is reported that at the Stark Mills, Manchester, N. H., a new schedule of wages involving a cut of 8% is now being arranged.

At Fall River, the leading cotton-manufacturing centre of the country, there has already been some

curtailment of production in the mills included in the Manufacturers' Association, but no specific action with regard to wages has been taken. The situation there, however, differs radically from elsewhere. The operatives are working under a sliding-wage scale, adjustment being made every six months upon the basis of the average margin between cotton and goods during a specified time prior to the date of adjustment. The last adjustment was made in November 1907 and it afforded the operatives a scale of wages higher than ever before enjoyed in the cotton mills, which they will continue to receive until May, when the next adjustment is due. What the outcome will be it is not now possible to accurately predict; but the fact that there has been a steady and very noticeable shrinkage in the margin since last November gives strength to the assumption that wages will be reduced. At the mills in Fall River known as the Borden plants —American Printing Co. and Fall River Iron Works Co.—half-time running (the mills to run alternate weeks) was entered upon on Monday last.

Southern mills have also been forced to reduce wages and curtail their output. Recent advices indicate that this has been the case at some points in almost all States where cotton manufacturing is carried on, but it has been more extensive in the Carolinas than elsewhere, and in some instances the mills have closed for an indefinite period, or until market conditions improve. The present uncertain and unsatisfactory situation in the cotton-manufacturing industry seems all the more anomalous after the extended period of active and highly profitable operation the companies have experienced. Some think they see a rather prolonged period of inactive trade, but such pessimistic conclusions may not be warranted. In some directions conditions are already improving and with a good crop promise there should be a marked betterment of the trade situation before the summer has far advanced.

---

The final report on cotton ginning for the season of 1907-08 was issued by the Census Bureau on Friday last. The report, which in effect purports to cover the actual production from the planting of 1907, makes the yield 11,261,163 running or standard bales, an item of 127,646 bales yet to be ginned as well as 276,500 bales linters from cotton-seed oil mills being included in the total. Contrary to general expectations, this aggregate is much less than the crop estimate of the Department of Agriculture issued in December last, which made the probable growth, not including linters, 11,678,000 bales of 500 lbs. gross weight each. Allowing for linters would bring the Department's estimate up to about 12,000,000 bales of 500 lbs. gross each, which compares with an aggregate of 11,302,872 bales of like weights forecasted by the Census Bureau. It has been the rule heretofore for the Bureau's total to exceed that of the Department and in most seasons quite materially. In 1906-07 the excess amounted to a million bales, in 1905-06 it was 600,000 bales and in 1904-05 a million and a half. This season the Bureau is lowest by 700,000 bales.

Accepting the aggregate given by the Census Bureau as approximately correct, it is indicative of a most decided decline in production in some very important localities in the last season. Along the Atlantic seaboard the report indicates that the crop was better than in 1906-07, as witness the increases shown in the Carolinas and Georgia. In the Eastern Gulf States, as well as in Tennessee and Oklahoma, moderately smaller yields are reported, with the falling off somewhat greater in Arkansas and Louisiana. When, however, we turn to the result in Texas, evidence of a most decided crop disaster is seen, unless, of course, a serious error has been made in collecting and compiling the figures. It is difficult to realize that, with the steadily increasing area in that State, and the comparatively enormous acreage put under cotton in 1907 (approximately 9½ million acres), the crop should turn out to be only 2,271,724 bales, or less than 120 lbs. per acre. So low a product per acre would be occasion for surprise in older territory, but if it is a true measure of the productiveness of Texas from the 1907 planting, it emphasizes the extent of the disaster. In 1896-97 from an area only a little more than half as great, Texas raised a crop almost identical with that predicted as the outcome of the current season. For the whole country the product as reported by the Bureau would give an average yield per acre of only 163 lbs.—the smallest since 1888-89. While not inclined to take serious issue with the Census Bureau, we are of the belief that its result for Texas is likely to be proven incorrect and that the aggregate yield for the United States will turn out rather over than under the Department of Agriculture estimate.

---

There was no change in official rates of discount by any of the European banks this week. Compared with last week, unofficial or open market rates at the chief Continental centres were steady to firm.

The statement of actual conditions on Saturday last week of the New York Associated Banks showed material differences in various items compared with the statement of the average conditions. Loans actually decreased $3,193,500; the average increased $934,100. Specie showed an actual gain of $9,455,100; the average increase was $7,493,600. Legal tenders actually increased $992,900; the average increase reported was $1,828,500. The actual cash gain was $10,448,000; the average was $9,322,100. Deposits actually increased $7,029,300; the average indicated an increase of $10,250,900. The reserve was augmented, according to actual conditions, $8,690,675, to $42,040,050 surplus; the average increase was $6,759,375, to $37,424,450 surplus.

On Monday of this week there matured the second installment of the call, which was issued by the Secretary of the Treasury on Feb. 24, for the surrender of public funds by those of the depository banks that held an excess of $100,000 deposits; the amount required to be surrendered was 15%, or 21 millions. As was the case, however, when the first installment of the call for 10%, or 14 millions, matured March 9, the surrenders had been largely anticipated by local banks, which were indisposed, because of the congested condition of the money market, longer to retain these funds—inasmuch as such retention involved, in some cases, the continued borrowing of pledges therefor. Consequently the balance of deposits surrendered on Monday through banks at this centre was but little more than 9 millions, thus completing, with surrenders elsewhere, the quota required by the February call. The amount to which public funds in all depositories

have been reduced, according to the daily reports by the Treasury of holdings of such funds, is 191½ millions; the sum of such deposits to the credit of the Treasurer March 2 was 219½ millions; on Feb. 1, 226¼; Jan. 4, 246½, and Dec. 27, 249¼ millions. The public deposits in New York City banks were last week reported as 48¼ millions, against 78 4-5 millions Nov. 28, the maximum during the crisis.

---

The surrenders of public deposits, as above noted, had only a slight influence upon the market for loanable funds; money on call, representing bankers' balances, loaning at the Stock Exchange on Monday at 2¼% as the highest and 1¾% as the lowest. Thereafter, during the remainder of the week, such loans were effected at 2% and at 1¾%, averaging about 2%. Banks loaned at 1¾% and trust companies at 2% as the minimum. Though time money was easier and stock speculation more active, as was shown by the increased volume of transactions, and non-professional participation in the market more confident, as the result of an apparently improved outlook, there was no important increase in the inquiry for loans for fixed periods. The banks are over-supplied with funds and the trust companies are active competitors for business, but the commission houses appear to be disposed to rely upon the call-loan branch of the market for their requirements instead of seeking short-time loans, and through the renewal of maturities borrowers have generally made provision for their needs for the fall and, in some cases, for the remainder of the year. Quotations for loans on good mixed Stock Exchange collateral are 3% for sixty and 3¼% for ninety days, 3½@4% for four and 4@4¼% for five to six months. Commercial paper continues in good demand, especially by Western buyers, though at the unchanged quotations of 5½@6% for sixty to ninety-day endorsed bills receivable and for four to six months' choice single names; some short-term paper has been sold this week at 5¼%.

---

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety-day bank bills in London 2⅝%. The open market rate at Paris is 2⅝% and at Berlin and Frankfort it is 4⅝%. According to our special cable from London, the Bank of England gained £150,232 bullion during the week and held £40,763,388 at the close of the week. Our correspondent further advises us that imports from Egypt and purchases of bar gold in the open market continue to be the feature of the situation, and account for the gain in bullion holdings. The details of the movement into and out of the Bank were as follows: Imports, £431,000 (of which £222,000 from Egypt, £5,000 from Lisbon and £204,000 bar gold bought); exports, £272,000 (of which £110,000 to South America, £139,000 to Paris, £16,000 to Gibraltar and £7,000 to Bermuda), and shipments of £9,000 *net* to the interior of Great Britain.

---

The foreign exchange market was quite narrow this week and the business was in limited volume. Though the European mail service was not deranged, as has been the case in previous weeks, there being the usual schedule of fast steamers, the demand for remittance was so small that no special activity was observed in preparation for the out-going mails. The semi-monthly settlements on the London Stock Exchange were in progress during the week, but the American account did not appear to be important, and therefore there was little or no inquiry for cables for covering deferred remittances. There seemed to be efforts made by prominent bankers, who could control large blocks of exchange through the establishment of credits created by the placing abroad of securities, to hold in check the advancing tendency of the market. Therefore, speculation for a rise in exchange was made more or less hazardous, contributing to discourage such operations. Arbitrage business in stocks was small and apparently confined to the most stable securities, probably because such only were traded in on the London market, there being no speculation in low-grade properties. The pendency abroad of comparatively large loan negotiations, some of which might, it was thought, be attractive to foreign investors, and perhaps also to our capitalists, served to induce bankers to refrain from disturbing their balances through unnecessary drawing, and therefore the supply of bankers' bills was limited to current requirements. Though money was even cheaper abroad than it was in our market, for corresponding periods of maturity, there were no advantages to be obtained through the negotiation of finance bills. The demand for time money was so small and the offerings thereof so great that the competition of foreign capital in our loan market would doubtless contribute to establish a relatively lower rate here than abroad. Continental exchange was more active than was sterling; francs were stronger because of the fall in rates at Paris on London, and marks seemed to be in demand for direct remittance to Berlin, to take advantage of the high rates for money at that centre. There was no perceptible increase in offerings of commercial bills, and rates therefor were maintained at figures very close to those of bankers' drafts.

Compared with the previous day, exchange on Saturday of last week showed only slight changes, long falling 5 points to 4 8340@4 8345, while short rose 10 points to 4 86@4 8615 and cables 10 points to 4 8630@4 8640. On Monday long advanced 5 points to 4 8345@4 8350, short declined 10 points to 4 86@4 8605 and cables 5 points to 4 8630@4 8635. On Tuesday long was unchanged, while short was 5 points lower at 4 8595@4 86 and cables 10 points at 4 8620@4 8625. On Wednesday long rose 5 points to 4 8350@4 8355, short 5 points to 4 86@4 8605 and cables 10 points to 4 8630@4 8635. On Thursday the market was 5 points lower all around—long at 4 8340@4 8350, short at 4 8595@4 86 and cables at 4 8625@4 8630. On Friday the tone was firm because of a demand for remittance by to-day's (Saturday's) steamer. Long rose 30 and short and cables 20 points each.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

| | | *Frt., Mch. 20* | *Mon., Mch. 23* | *Tues., Mch. 24* | *Wed., Mch. 25* | *Thurs., Mch. 26* | *Frt., Mch. 27* |

The market closed on Friday at 4 8370@4 8380 for long, 4 8615@4 8620 for short and 4 8640@4 8650 for cables. Commercial on banks 4 8330@4 8340 and documents for payment 4 82¾@4 83¾. Cotton for payment 4 82¾@4 82⅞, cotton for acceptance 4 8330 @4 8340 and grain for payment 4 83⅝@4 83¾.

The following gives the week's movement of money to and from the interior by the New York banks.

| Week ending March 27 1908. | Received by N. Y. Banks. | Shipped by N. Y. Banks. | Net Interior Movement. |
|---|---|---|---|
| Currency | $2,885,000 | $3,960,000 | Gain $4,325,000 |
| Gold | 1,647,000 | 906,000 | Gain 741,000 |
| Total gold and legal tenders | $9,932,000 | $4,866,000 | Gain $5,066,000 |

With the Sub-Treasury operations the result is as follows.

| Week ending March 27 1908. | Into Banks. | Out of Banks. | Net Change in Bank Holdings. |
|---|---|---|---|
| Banks' interior movement, as above | $9,932,000 | $4,866,000 | Gain $5,066,000 |
| Sub-Treasury operations | 32,000,000 | 35,011,000 | Loss 3,011,000 |
| Total gold and legal tenders | $41,932,000 | $39,877,000 | Gain $2,055,000 |

The following table indicates the amount of bullion in the principal European banks.

| Banks of | March 26 1908. | | | March 28 1907. | | |

| Prev. week | 419,220,683 | 106,201,119 | 525,421,802 | 402,217,543 | 107,073,886 | 509,291,429 |

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held, and consequently duplicated in the above statement, is about one-quarter of the total.

## *THE DUKE OF DEVONSHIRE.*

The death of the Duke of Devonshire last Tuesday, in the seventy-fifth year of his age, is an event which may turn out to have considerable bearing on British politics. More particularly, it calls to mind the career of a statesman who may be said to have typified in himself, to an unusual degree, some of the peculiar and admirable traditions of British legislation. Readers of "Punch," who had grown familiar, in its Parliamentary cartoons, with the sprawling figure, eyes closed, attitude listless and hat tipped over the forehead, rather generally got the idea that the Marquis of Hartington, which was the Duke of Devonshire's title during the greater part of his career, was a sluggish and apathetic member of the House. No impression could have done greater injustice. Entering Parliament in 1857, at the age of twenty-four, Hartington became Secretary of State for War in 1864, Postmaster General in 1868, Chief Secretary for Ireland in 1871, leader of the House of Commons in 1875 and Secretary of State for India under Gladstone in 1880. Here is the record of an unusually busy Parliamentary career, both on the legislative and the executive side. Judged alone by his admittedly successful achievements in this wide range of offices, Hartington would readily be placed among the most useful of modern British statesmen.

But his peculiar force in British politics did not find full play until after all of these achievements—not, in fact, until he had passed the age of fifty years. It was then that the breach in the Liberal Party, to which Lord Hartington had always belonged, occurred as a result of Mr. Gladstone's Irish Home Rule Bill. Hartington, a statesman of the utmost conscientiousness, and at the same time of quick decision and bulldog pertinacity, broke immediately with Gladstone on this issue. The question of the day, it will be recalled, was whether the large body of statesmen and voters who were driven from support of their party's responsible leaders by the Home Rule Bill, would or would not go over outright to the Tory opposition. Hartington, whose influence was paramount, stood in the way of such a recourse. Chiefly through his personal influence and indomitable vigor, the so-called Liberal-Unionist party was organized, which during the two succeeding decades stood between the Liberal and Conservative parties, voting as a rule with the Liberals on questions of general policy, but steadfastly supporting the Conservative program on questions concerning Ireland.

In due course of time it was admitted that the Home Rule issue, as presented by Mr. Gladstone, had been fought out and that the policy had encountered defeat. With this acknowledged achievement, the uses of the Liberal-Unionist organization as a separate body in Parliament largely disappeared. So fully was this recognized by the leader of that faction that in 1895, having by that time become the Duke of Devonshire, he accepted office in the Conservative Cabinet as Lord President of the Council. This distinguished but not especially active office he retained, until suddenly, in 1903, a new rupture of political relations was thrust upon the Parliamentary body through Mr. Balfour's virtual adoption of the Chamberlain program of a protective tariff. For a few weeks, political bewilderment, both in and out of Parliament, was complete over this episode. What would have followed, in the confusion of ideas, had it not been for the Duke of Devonshire's personality, it is even now difficult to say. The Duke did not hesitate; writing to Mr. Balfour, then Premier, and frankly taking issue with the vague and obscure language in which that gentleman had accepted the Chamberlain propositions, he remarked:

"I had hoped to have found in your speech a definite statement of adherence to the principles of free trade as the ordinary basis of our fiscal and commercial system and an equally definite repudiation of the principle of protection in the interest of our national industries. But in their absence, I cannot help thinking that such declarations as those which I have quoted cannot fail to have the effect of materially encouraging the advocates of direct protection in the controversy which has been raised throughout the country and of discouraging those who, like me, and I hope yourself, believe that our present system of free imports, and especially of food imports, is on the whole most advantageous to the country."

With this he placed in the Premier's hands his own resignation from the Cabinet, and, not content with that, he at once, despite his seventy years of age, plunged into the active work of organizing, in cooperation with such leaders as Lord Goschen and Sir Michael Hicks-Beach, a body of statesmen and voters who should stand firm against any tampering

with the free trade institutions of Great Britain. The work was effective; withdrawal of these eminent statesmen and their supporters from the Balfour Party, and the active propaganda which they began at once against the protectionist idea, had its results in the overwhelming defeat of Mr. Balfour and the Conservatives in the general election held in 1906.

The death of an English statesman with so striking a record, in standing between the two dominant parties on questions which were believed to supersede party allegiance, directs attention very naturally to the remarkable situation present at the moment in British politics. Holding a seemingly overwhelming majority in Parliament, the Campbell-Bannerman Cabinet would seem to guarantee immunity from further effective efforts at a reversion to the protective tariff. Unfortunately, what the present Liberal Ministry has gained in the way of endorsement of the free-trade program by the people it has been largely throwing away through its acceptance of socialistic doctrines advocated by a faction of its voting supporters. It has been shrewdly remarked by an English critic that protective duties, which Englishmen could not be brought to favor under the theoretical arguments of Mr. Balfour and Mr. Chamberlain, were obtaining by degrees a potent argument based on the necessities which would inevitably be created, if the Old-Age Pension scheme and similar propositions of the present Government were to be enacted into law.

With naval and military expenditure still on a scale so enormous that the income tax remains at the highest figure ever previously reached, except in time of war, the plan for pensioning the aged out of the public funds would impose upon the British exchequer a burden scarcely even calculable in advance. It is rightly enough asked, if such expenditure is to be provided by the general law, who is to provide the revenue, and there are not wanting those who assert that the absence of other available sources of taxation might easily drive the people into recourse to the tariff. In that case, our own experience points out that the protective theory would inevitably find its opportunity.

This, it may be remarked in passing, is only one illustration of the extent to which socialistic ideas lead the way inevitably to drastic expedients in finance, and to the abandonment of sound political economy in the public policies. Under such circumstances, the need for statesmen with the peculiar qualities of the Duke of Devonshire is peculiarly urgent. The consolation is that emergencies of this sort, in Anglo-Saxon legislation, almost invariably produce the man; also, that in England, as in the United States, the sober common sense of the individual elector provides the safeguard which sometimes the legislative body itself does not provide. The overwhelming Liberal defeat in this week's by-election at Peckham, London, where a previous Liberal majority of twenty-five hundred was turned into a Tory majority of almost exactly the same proportions, is only one in a long series of instances going to show that the voters of Great Britain at large are not taking kindly to these vague and extravagant schemes to which the present Cabinet has, unfortunately, given a hearing. It is the middle-class Englishmen who overthrew Mr. Balfour's protectionist theory in the last general election; we do not doubt that they will do a similar public service in disposing of the socialistic notions of the day.

## *STATE RAILROAD LAWS AND FEDERAL JURISDICTION.*

The decisions handed down by the United States Supreme Court in the matter of the railroad rate laws of Minnesota and North Carolina are in the highest degree assuring—in fact, no more assuring decisions by the court of last resort have been rendered in a long while—and yet it cannot be asserted that these rulings embody any new or novel doctrine. In the last analysis the question upon which the Supreme Court was called upon to pass was simply whether the Federal courts could intervene to enforce a right guaranteed by the United States Constitution where an attempt was made by a State to annul or to override such constitutional guaranty. The ingenious plea was set up that for a Federal Court to interfere with the enforcement of a State enactment was an invasion of the rights of the State, and consequently further than such court could go. The truth is, no such issue was presented.

The point was simply whether the States in their legislative acts could disregard the plain mandate of the Federal Constitution and could prevent the United States courts from passing upon the constitutionality of such enactments. It was clear from the first that an aggrieved party could not be deprived of his right to a hearing in the Federal courts, and it was equally clear that where a Federal question was involved ultimate determination must rest with the Federal courts —that the complaining citizen could not be told that his only redress was in an appeal to the State itself, which was attempting to deprive him of his constitutional rights. Another point definitely disposed of is that a State cannot accomplish by indirection what it is forbidden to do directly—cannot by excessive fines and penalties or other punishment for disobedience to its enactments do what is tantamount to a denial of access to the courts.

Long in advance of this week's decisions, opinion was well settled among the legal fraternity as to what the judicial outcome of the contest between the States and the Federal courts would be. Following a long line of authorities, the United States Supreme Court would assert its prerogative, would hold that the Federal courts had full jurisdiction and that Constitutional provisions were just as potent and binding as they had ever been. Among laymen, however, and the general public, there was no small amount of anxiety concerning the controversy. The State laws now condemned were the outgrowth of a political crusade. Would our courts also bend to the supposed popular will? Would the mania for oppressive regulation and supervision of the railroads meet its check at the hands of the highest judicial tribunal, or would it, too, be found ready, on some trifling or technical ground, to aid in the work of undermining stability and prosperity? This fear is now seen to have been entirely groundless. Nevertheless, investing interests feel immensely relieved to have all doubt removed. Moreover, the verdict is really more decisive and conclusive than even the most sanguine had dared hope it would be, for out of the nine members of the Court, eight concur in the judgment and opinion, Justice Harlan alone being in dissent.

The Court sustains both Judge Lochren in the United States Circuit Court for the District of Minnesota and Judge Pritchard in the United States Court at

North Carolina, holding that in both instances the Federal courts had full authority to enjoin the enforcement of State laws which sought to override the Federal Constitution. Both were very flagrant cases, since the State officials assumed an attitude of defiance to the Federal courts, and evidently took great pride in the act. The facts are still fresh in mind. In the North Carolina case, Judge Pritchard enjoined the enforcement of the new law and later declared unconstitutional that portion of the same imposing excessive fines and penalties for violations of its provisions. In disregard of the Federal injunction, the State authorities—as pointed out in our issue of July 27 last—prosecuted and secured the conviction of James H. Wood, district passenger agent of the Southern Ry., and O. C. Wilson, ticket agent of the same road, who were thereupon sentenced in the State court to 30 days on the chain gang for selling passenger tickets at rates higher than those fixed in the new statute. In habeas corpus proceedings, Judge Pritchard promptly discharged both Wood and Wilson, and it was from this action that an appeal was taken to the United States Supreme Court. The reader will recall that very inflammatory talk resulted, that Governor Glenn threatened to call out the State militia. It will also be recalled how the anti-railroad movement spread from one Southern State to another, and that, to avert the fate incurred by North Carolina, the special object was to make the statutes being devised "injunction proof," meaning that the laws were to be so framed as to place them beyond the reach of the Federal courts—a purpose never attained.

The Minnesota case was of similar character. There, Attorney-General Young deliberately placed himself in contempt of the Federal Court. We reviewed the case on Oct. 5. Judge Lochren had enjoined the enforcement of the Minnesota statute on the ground that it prescribed confiscatory rates and imposed excessive penalties; but Attorney-General Young nevertheless proceeded, in the State Courts, to compel the roads to adopt the rates and obey the law. When Judge Lochren's attention was called to the matter, he fined Mr. Young $100 for contempt of court, which fine the Attorney-General refused to pay, and then, on habeas corpus proceedings, carried the case to the Supreme Court. In speaking with regard to the penalty clause in the Minnesota statute, Judge Lochren used plain and vigorous language, saying that such legislation was vicious, almost a disgrace to the civilization of the age, and a reproach upon the intelligence and sense of justice of any legislature which would enact provisions of that kind. By the way, this enactment, thus characterized, was signed by Governor Johnson of Minnesota, who is now attaining some prominence as a candidate for the Presidential nomination at the hands of the Democratic Party.

The United States Supreme Court supports Judge Lochren in his views as to the unconstitutionality of these laws. The opinion is by Justice Peckham, and the main pronouncement of the Court is in this Minnesota case, a much less elaborate opinion being delivered in the North Carolina case, since the points at issue were substantially identical with those raised against the Minnesota law. Justice Peckham points out that, for disobedience to the Minnesota Freight Act, the officers, directors, agents and employees of a company are made guilty of a misdemeanor, and upon conviction each may be punished by imprisonment in the county jail for a period not exceeding ninety days. Each violation would be a separate offense. Disobedience to the Passenger Rate Act renders the offender guilty of a felony and subject to a fine not exceeding $5,000 or imprisonment in the State prison for a period not exceeding five years, or both fine and imprisonment. The sale of each ticket above the price permitted by the Act would be a violation thereof. Justice Peckham says it would be difficult, if not impossible, for a company to obtain officers, agents or employees willing to carry on its affairs except in obedience to the Act and orders in question. The company itself would also, in case of disobedience, be liable to the immense fines provided for in violating orders.

Justice Peckham reasons that the necessary effect and result of such legislation must be to preclude a resort to the Courts (either State or Federal) for the purpose of testing its validity. The officers and employees could not be expected to disobey any of the provisions of the Acts or orders at the risk of such fines and penalties being imposed upon them in case the Court should ultimately decide that the law was valid. Consequently, there would be a denial of any hearing to the company. He holds that, when the penalties for disobedience are by fines so enormous and imprisonment so severe as to intimidate the company and its officers from resorting to the courts to test the validity of the legislation, the result is the same as if the law in terms prohibited the company from seeking judicial construction of laws which deeply affect its rights. His views on this point are outlined in the following:

By reason of the enormous penalties provided in the rate laws, by way of fines against the companies and imprisonments of their agents and employees, the companies are, in effect, prevented from ever questioning the validity of those laws, as the risk of confiscation of property and imprisonment of agents in case the companies failed in their defense was too much to undertake in order to obtain a judicial decision of the question of such validity.

Such laws are therefore held unconstitutional, as they prevented the companies from resorting to the courts, and therefore deprived them of the equal protection of the laws .

The question of the sufficiency of the rates to enable the company to obtain some return to its stockholders for their investments has for many years been held to be one for the courts to decide, as it would be a violation of the Constitution of the United States to fix rates so low as to be confiscatory if enforced.

The laws providing rates for transportation of passengers and freight in the two cases under consideration have been held by the courts below to be so low as to be substantially confiscatory, and should therefore not be enforced until after further trials. The courts had jurisdiction to make such an order.

One point upon which the State authorities had relied with much confidence was the contention tha the Federal courts could not interfere with the action of State officials in their execution of the laws, Attorney-General Young claiming that suits brought to restrain him from enforcing a State law are suits against the State preventing it from carrying on its governmental functions. In support of this contention, he cited the Eleventh Amendment to the Federal Constitution, which provides that "The judicial power of the United States shall not be construed to extend to any suit in law or equity commenced or prosecuted against one of the United States by citizens of

another State, or by citizens or subjects of any foreign State." Judge Lochren's opinion in overruling this contention had been very convincing. He directed attention to the Fourteenth Amendment of the Constitution, which provides that "no State shall deprive any person of life, liberty or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws." Judge Lochren said that this was a provision of the Constitution which required no action of Congress to make it effective. It is a prohibition against the State. If the State, by any action, deprives a citizen of life, liberty or property without due process of law, the courts must provide some remedy for the protection of the citizen. He said it would be a reproach to the courts did they fail to provide an adequate remedy in a case of that sort.

Justice Peckham reasons much in the same way in discussing this aspect of the case. He says it has been long held that a suit which seeks to prevent a State officer from bringing actions for the enforcement of a State law fixing rates so low as to be confiscatory, and therefore in violation of the Constitution of the United States, is not a suit against the State. It is no more a suit, he declares, against the State than is a proceeding which compels an officer of the State to produce a person in his custody and charged with a crime against the State before a Federal court or judge, who thereupon discharges such person on the ground that his imprisonment is in violation of the Federal Constitution. The jurisdiction of the Federal court in such cases is only exercised where the State enactment is alleged to be a violation of the Constitution of the United States, and in such cases, Justice Peckham asserts, it is proper for those courts to take jurisdiction equally with the State courts, as the constitution of the United States is, by its own provisions, the supreme law of the land, anything in any State constitution or law to the contrary notwithstanding; and there is no usurpation of jurisdiction in such event. Accordingly, when a Federal court has taken jurisdiction, it has authority to enjoin any person from proceeding in a State court until the Federal court has proceeded to judgment.

Justice Peckham thinks that a decision in this instance does not require a decision of the question whether the adoption of the Fourteenth Amendment in any way altered or limited the effect of the Eleventh Amendment, prohibiting suit against a State. He says: "We may assume that each exists in full force, and that we must give to the Eleventh Amendment all the effect it naturally would have, without cutting it down or rendering its meaning any more narrow than the language fairly interpreted would warrant. It applies to a suit brought against a State by one of its own citizens, as well as a suit brought by a citizen of another State. It was adopted after this Court, in 1793, had held that a State might be sued by a citizen of another State."

Answering the contention that the restraining order was void because it attempted to control the Attorney-General in the exercise of his discretion, Justice Peckham says no interference with his discretion is shown. The general discretion regarding the enforcement of the laws when and as he deems appropriate is not interfered with by an injunction which restrains the State officer from taking steps towards the enforcement of an unconstitutional enactment to the injury of complainants. In such case, no affirmative action of any nature is directed, and the officer is simply prohibited from doing an act which he had no legal right to do. An injunction to prevent him from doing that which he has no legal right to do is not an interference with the discretion of an officer. If the act which the Attorney-General seeks to enforce be a violation of the Federal Constitution, the officer in proceeding under such enactment comes in conflict with the superior authority of that Constitution, and he is in that case stripped of his official or representative character and is subjected in his person to the consequences of his individual conduct. The State, Justice Peckham well says, has no power to impart to him any immunity from responsibility to the supreme authority of the United States.

All this is both sane and logical. And, with the reasons which prompted the Court to its conclusions thus made clear, it will be readily admitted, we think, that there is no ground for fears or assertions that, owing to these decisions, the States are shorn of any of their rights.

## *THE NEW YORK CENTRAL REPORT.*

The annual report of the New York Central & Hudson River Railroad Company for the calendar year 1907, like the recently-issued annual report of the Pennsylvania Railroad Co. covering the same year, brings in sharp relief the trying conditions under which railroad operations have had to be carried on in recent periods. Gross earnings, despite the falling off in traffic and revenues which came in the closing months of 1907, show further large gains, following the splendid record of growth made in the years preceding. Not so, however, the net earnings. Here there is a noteworthy decrease.

It is perhaps well to note at the outset that, aside from the prosperity and activity of general trade, which continued almost without break up to the time of the panic in October and November, there was another favoring circumstance which tended to raise the amount of the improvement in the gross receipts. We refer to the fact that in 1906 the volume of the coal traffic had been reduced by reason of the widespread strike and suspension of work at the mines, which occurred in the early months of that year. In 1907 there was no such drawback, and as a consequence the coal tonnage of the road, after having fallen off 1,651,915 tons in 1906, increased no less than 4,189,417 tons. It appears that this increase in the coal tonnage exceeded the gain in the freight traffic as a whole, the latter having been only 3,851,622 tons. It follows that in other classes of freight there must have been a decrease. As a matter of fact, out of 39 articles of freight separately enumerated, no less than 24 show a falling off from the previous year, making it evident that even in the case of the gross earnings conditions were not altogether propitious. The falling off extended to products of agriculture, to products of animals, to lumber and to manufactures.

Still, as stated, in the gross earnings (aided in part by further expansion in the passenger revenues) there was in 1907 quite substantial growth over 1906, on top of the very satisfactory gains made in the years preceding. This growth reached $6,279,291, or not far from 7%. Thereby aggregate gross earnings from

operations were brought very near to the 100-million mark, the exact total of the gross being $98,369,059. It should be remembered that these figures cover merely the Central proper, without including any of the subsidiary lines, like the Michigan Central, the Lake Shore, the "Big Four," the "Nickel Plate," the Pittsburgh & Lake Erie, the Rutland, &c. Unfortunately, however, the augmentation in expenses reached no less than $10,849,638, thus producing a loss in net of $4,570,348. In 1906 the company had appropriated $1,308,260 out of earnings for new construction and new equipment and charged the same directly to expenses. This appropriation was omitted in 1907 (was of necessity omitted, as we shall presently see), but even with this item cut out, a loss of $3,262,087 still remains in the net. In the three years from 1904 to 1907 gross earnings rose almost $20,000,000—that is, increased from $78,573,208 to $98,369,059—but the net revenues, even after cutting out entirely in 1907 the special appropriations for new construction and equipment, remained practically stationary, being for 1907 $22,565,725 and for 1904 having been $22,450,823. In other words, a point has been reached where an enlarged volume of traffic and heavily expanded gross earnings no longer bring any addition to the net revenues.

Nor can it be said that the further augmentation in expenses represents, as has sometimes been the case in the past, unusual and exceptional outlays on maintenance account. Though the outlays for new construction and equipment were eliminated altogether in 1907, the increase under the head of maintenance of equipment is of no more than normal proportions, reaching, in fact, only $254,573. Even under the head of maintenance of way and structures, where the severe winter weather encountered in the early months of 1907 served to swell outlays, the increase, while very substantial, and reaching $1,743,447, accounts for only a small portion of the aggregate increase under all heads for the twelve months of 1907.

The conclusion to which all this drives us is that there has been a direct increase in the *cost* of operations. Confirmation of the truth of this statement is found in the circumstance that, out of the $10,849,638 augmentation in expenses in 1907, no less than $8,728,314 was under the head of conducting transportation. The New York Central is being put to some extra expenditures for the time being, owing to the reconstruction of the terminals at 42d Street, and the electrification of the lines running out from that point, since in a portion of what is called the electric zone a double system of operations—in part by steam, in part by electricity—has to be maintained pending the completion of the whole work. But that is, after all, only one factor out of many in the enlarged operating cost. President Newman in his remarks states that the largest addition in the cost of conducting transportation occurred in the charges covering compensation paid to employees, especially those connected directly with the train service, this being due in part to the additional business done, but more generally to increased rates (meaning wages) in all departments; also to the extension of block-signal territory and improvement and elaboration of existing signals and to the putting into effect of the eight-hour day for operators. That there was no neglect in applying the ordinary economies in operations, that, in fact, there was further increase in operating efficiency, becomes evident when we examine the traffic statistics in another part of the report, showing that the average train-load of revenue freight was increased by 16 tons in 1907, bringing the average up to 419 tons. Including freight for the company's own use, the average train-load was raised by 22 tons (4¾%) to 481 tons.

The fact which stands out with great prominence, therefore, in the New York Central report, is that, whereas in 1906 the ratio of expenses to gross earnings (including therein a charge of $1,308,260 for new construction and equipment) was 70.53%, for 1907 the corresponding ratio, without any charge for new construction or new equipment, was 77.06%. The further fact which should be borne in mind is that this situation was brought about by causes entirely beyond the control of the management. It is not generally appreciated, we think, how far the higher operating cost of United States railroads everywhere must be ascribed to legislation. It is obvious that if rates are reduced while there is no corresponding reduction in expenses, operating cost must necessarily rise. It is equally obvious that a shortening of the hours of labor or the requirement of extra accommodations and facilities must likewise swell the operating cost. Railroad officials, as a rule, do not deem it worth while to lay emphasis upon these things, probably because they do not wish to offend the politicians—at whose mercy they are in great measure—but President Newman is not at all squeamish about the matter. This is evident from the following paragraph in the report, which deserves wide circulation by reason of the succinct way in which the facts bearing upon recent experiences are brought out.

"The tendency to regulate railroads and the details of their business has been shown in many Federal and State laws, either enacted or proposed. The Inter-State Commerce Commission and the Public Service Commissions which have been established in a number of the States have been given indefinite and almost arbitrary power. Hours of labor have been shortened by law, rates of fare have been reduced, liability for accidents has been increased, and in ways too numerous to mention burdens have been placed on railroad companies which other corporations are not subjected to, and their ability to bear them has been lessened. While the enactment of just and equal laws is of the highest importance to railroads, much of the recent legislation has not been preceded by intelligent study or investigation, and has been passed without reference to practical results. Uncertainty as to the effect of these new laws and doubt as to how far regulation and special legislation as to railroads is to be carried has without question been one of the causes which have unsettled the value of securities and helped to bring on the present period of depression."

What Mr. Newman says here may be supplemented by facts and data drawn from various parts of the report, all going to show that the tendency of legislation and arbitrary government regulation is uninterruptedly in the direction, on the one hand of reducing revenues, and on the other hand of increasing expenditures. Take, for instance, the matter of mail transportation. How many persons stop to consider that here, too, the railroads are sufferers. The earnings of the Central during 1907 from the transportation of mails actually decreased $232,032. In a matter-of-fact way, clearly betokening that it is considered that protest against such action would be of no avail, the report states: "In consequence of an Act of Congress

passed March 2 1907, the compensation received from the United States Government for the transportation of mails has been reduced, the rates taking effect from July 1 1907 and affecting the receipts for the last six months of the fiscal year covered by this report." Again, how many persons reflect that the State and Federal governments alike are adding to the expenses of the roads by calls for increased information or new methods of accounting, and the compilation and furnishing of additional statistics, some of which are put to no use whatever and simply encumber the records. As bearing directly on that point, the following statement from the Central's report deserves noting: "In general expenses there has been a large increase in the cost of clerical labor in both general and division offices, part of which was made necessary by the new system of accounts in effect on July 1 1907 as promulgated by the Inter-State Commerce Commission and State Commissions."

The Central last week reduced its quarterly dividend from 1½% to 1¼%—that is, from a basis of 6% annum to 5% per annum. The reduction would have had to come in 1907 except for the fact that the company was able to enlarge its income from its investments in the other properties of the system. It may be recalled that in December 1906 the dividend on the stock of the Lake Shore & Michigan Southern, of which the Central holds such a large amount, was increased from a basis of 8% per annum to 12% and that in December 1907 an extra dividend of 2% was declared, bringing the stock up to a basis of 14% per annum. Similarly, the Michigan Central in December 1906 increased its dividend from a basis of 4% per annum to 6% and in December 1907 declared 2% extra, making 8% to come out of the 1907 earnings. In this way the Central realized $1,962,532 more in 1907 than in 1906 on its holdings of Lake Shore stock and $532,453 more on its holdings of Michigan Central stock. It also realized larger returns from some of its other investments. Altogether income from investments increased $3,768,313, wiping out the $3,262,087 loss in net earnings from operations and leaving an increase of $506,226 in total net income.

This latter, however, went only a small way towards meeting the interest on the $25,000,000 of 3-year 5% notes issued by the company early in the year. And this brings out another feature in the unfortunate situation of the roads. We have already seen that in the Central's case an expansion of $20,000,000 in gross earnings during the last three years has brought with it practically no addition to the net. But in the interval extensive capital outlays have had to be made in order to provide the increased rolling stock and facilities needed to handle the larger volume of traffic. In the case of the Central not only was the requirement for interest in 1907 much larger than in 1906, but dividends had to be earned and paid on $29,434,200 more stock. The Central also (on account of the increase in the *rate* of dividend made late in 1906) had a larger per cent of dividends to pay in 1907 than it paid in 1906. Altogether the result is that, notwithstanding the increased return from its stock holdings in other companies and notwithstanding the cutting out of appropriations for new equipment and new construction, the company had a surplus above charges and dividends of only $365,909 on the operations of 1907, against a surplus of $3,134,762 on the operations of 1906. With such a small margin to encroach upon and with earnings for 1908 falling off heavily, both gross and net, a reduction in the dividend as now made inevitably followed.

After the addition to the share capital made in 1906 there was no further increase of consequence in 1907 and practically the entire amount of new money obtained for the extensive improvement work being carried on by the company is represented by the $25,000,000 of 3-year notes issued. Where the bulk of this money went is evidenced by the fact that the amounts expended for additions to property and charged to cost of road and equipment reached $6,431,915; that $9,014,974 was expended for construction on leased lines, and that $5,845,252 was advanced to the controlled properties in the system in the purchase of equipment trust certificates on their behalf. In the present year (1908), it will be recalled, an issue of $30,000,000 of equipment trust certificates has been created to cover the needs of the Central itself and the several controlled properties, and out of the proceeds of that issue the $5,845,252 of moneys advanced will be repaid. The balance sheet shows that finances were in good shape on Dec. 31 1907; and the further moneys to be obtained through the issue of the equipment trust certificates—of which the Central's own proportion (aside from the re-payment of the advances made by it to the controlled properties) will be $13,500,000—should place it in easy condition for some time to come.

## *THE COUNTRY'S STEEL PRODUCTION IN* 1907.

It appears that, after all, total steel production in 1907 did not fall materially behind 1906, notwithstanding the adverse conditions which developed towards the close of the year. In our issue of Feb. 29 we gave the output of Bessemer steel and showed that in this class of steel there had been a substantial contraction. This week Mr. James M. Swank of the American Iron and Steel Association has made public the statistics regarding the make of steel by the open-hearth process. Here there has been no retrograde movement. On the contrary, the make of open-hearth steel records, as expected, further growth, the increase for the twelve months in that class of steel being almost, though not quite, equal to the decrease in Bessemer steel.

The expansion in the production of open-hearth steel in recent years has been one of the noteworthy features in the development of the American steel industry. In 1907 the United States produced no less than 11,549,088 tons of open-hearth steel, as against 10,980,413 tons in 1906. Ten years ago our output of that class of steel was hardly more than one-tenth the present amount, having been in 1897 only 1,608,671 tons. As recently as 1900 the country produced only 3,398,135 tons of open-hearth steel. The increase to 11,549,088 tons in the seven years following represents, it will be admitted, a phenomenal advance. Prior to 1895 the open-hearth output had never in any calendar period of twelve months reached as much as a million tons, and for a long time the country's aggregate steel output was measured almost entirely by the figures showing the Bessemer product. During the last seven years, however, the open-hearth output has been increasing so fast that it has been steadily gaining on the Bessemer product, and in 1907 almost

overtook the latter. In other words, the Bessemer figures have all but lost the lead they so long maintained.

It looks now as if in 1908 the Bessemer product would have to yield first place to the open-hearth output. How near the open-hearth producers came to wresting control from the Bessemer steel interests in 1907 will appear when we say that in that year 11,549,088 tons of steel were made by the open-hearth process and 11,667,549 tons by the Bessemer process. In the following we show the open-hearth product for each year back to 1894. Of the total of 11,549,088 tons for 1907, it is proper to say 745,877 tons were direct castings and 10,803,211 tons were ingots, and of the whole amount, 10,279,315 tons were made by the basic process and 1,269,773 tons were by the acid process.

OPEN-HEARTH STEEL PRODUCTION.

| Year. | Tons. | Year. | Tons. | Year. | Tons. |
|---|---|---|---|---|---|
| 1894 | 784,936 | 1899 | 2,947,316 | 1904 | 5,308,105 |
| 1895 | 1,137,182 | 1900 | 3,398,135 | 1905 | 8,971,376 |
| 1896 | 1,298,700 | 1901 | 4,656,309 | 1906 | 10,980,413 |
| 1897 | 1,608,671 | 1902 | 5,687,729 | 1907 | 11,549,088 |
| 1898 | 2,230,292 | 1903 | 5,829,911 | | |

The growth in the open-hearth production has been uninterrupted in all recent years. Even in 1903 and 1904, when depression in the steel industry was so marked, and when, as a consequence, the Bessemer product underwent material contraction, the open-hearth product continued to increase, though of course only in a small way. Open-hearth steel in large measure goes into general and miscellaneous uses. On the other hand, a large part of the production of Bessemer steel is intended for railroad purposes, and more particularly for conversion into rails. This is the reason why the Bessemer product fell off in 1907. Railroad conditions having become gradually more unfavorable as the year progressed, orders for rails naturally diminished, and this in turn reduced the demand for Bessemer steel for conversion into rails. The Bessemer product is always quick to reflect any change in railroad conditions, whether favorable or unfavorable. This was very emphatically shown in the last preceding period of depression in the railroad industry, at which time the Bessemer steel product fell from 9,138,363 tons in 1902 to only 7,859,140 tons in 1904, to be succeeded by a quick upward movement again on an improvement in railroad conditions, this carrying the Bessemer product up in two years from 7,859,140 tons to 12,275,830 tons. In turn, this has been followed by a drop to 11,667,549 tons in 1907, with the renewed development of unfavorable conditions for the railroads.

As during 1908 the depression has been becoming steadily more intense, there is certain to be a further large decrease in the Bessemer product in the current year. The course of open-hearth production during 1908 cannot be so clearly foreshadowed. Heretofore, as already stated, the make of open-hearth steel has kept on increasing even in dull times. It would be taking too sanguine a view to expect a similar outcome in 1908, for the country has scarcely ever had—certainly not in recent decades—any such severe period of business depression as it is experiencing at the present time. Under the circumstances, it is reasonable to look for a substantial decrease in the open-hearth output during 1908. It seems almost equally safe to assume that, whatever the decrease, it will be smaller than the decrease in the Bessemer production, thus giving first place to the open-hearth product.

There is also a little crucible steel made in the United States and a little steel of miscellaneous forms. No exact data for these kinds of steel for 1907 are yet available, but in 1906 the make of steel outside of that by the Bessemer process and the open-hearth process reached 141,893 tons. Evidently the production in 1907 of these minor classes of steel was much the same. For we notice Mr. Swank makes the statement that, when the collection of the statistics of the production of crucible and miscellaneous steel ingots and castings is completed, it will be found that the total production of all kinds of steel ingots and castings in this country in 1907 approximated 23,360,000 gross tons. This will compare with 23,398,136 tons, the total steel output for 1906, showing that aggregate output in the two years was substantially the same. That is to say, in 1907 the make of steel was of the same exceptional proportions as it had been in 1906. In the table we now present we indicate the production of each kind of steel since 1899.

STEEL PRODUCTION IN UNITED STATES IN GROSS TONS.

| Calendar Year | Bessemer Steel. | Open-Hearth. | All Other Steel. | Total Ingots and Castings. |
|---|---|---|---|---|
| 1899 | 7,586,35 | 2,947,316 | 106,187 | 10,639,857 |
| 1900 | 6,684,770 | 3,398,135 | 105,424 | 10,188,329 |
| 1901 | 8,713,302 | 4,656,309 | 103,984 | 13,473,595 |
| 1902 | 9,138,363 | 5,687,729 | 121,158 | 14,947,250 |
| 1903 | 8,592,829 | 5,829,911 | 112,238 | 14,534,978 |
| 1904 | 7,859,140 | 5,908,166 | 92,581 | 13,859,887 |
| 1905 | 10,941,375 | 8,971,376 | 111,196 | 20,023,947 |
| 1906 | 12,275,830 | 10,980,413 | 141,893 | 23,398,136 |
| 1907 | 11,667,549 | 11,519,088 | *143,363 | 23,360,000 |

* Approximate.

The foregoing brings out in a graphic way how wonderful has been steel development in the United States in recent years. In 1899 the total steel product was only 10,639,857 tons and in 1900 10,188,329 tons. From this in five years the production was doubled, reaching 20,023,947 tons in 1905, with a further expansion to 23,398,136 tons in 1906 and 23,360,000 tons in 1907. Progress has now been completely checked, and the figures for 1908 are certain to show a marked falling off, though it is impossible for any one so early in the year to make any reliable guess as to the extent of the loss. Obviously, much will depend upon developments as the year progresses, and particularly the developments in the political world. The output might shrink, however, fully 50% and still leave the United States ahead of Germany in its make of steel, and it is inconceivable that there should be a drop to such an extent as to bring the United States steel product down anywhere near to that of Great Britain, for the latter country makes less than 7,000,000 tons of steel annually.

## *RAILROAD GROSS AND NET EARNINGS FOR JANUARY.*

We present to-day our final compilation of the gross and net earnings of United States railroads for the month of January. It furnishes impressive testimony to the extent to which the railroads are suffering from the existing industrial prostration. Counting all the roads from which we have been able to procure returns, whether of both gross and net or of gross alone, there is a loss in gross earnings in the large sum of $20,524,600. This covers a very large aggregate of mileage, namely 185,216 miles, and yet leaves about 40,000 miles unrepresented. It appears to be well within the mark to say that, if we could have returns for the missing roads (which include companies like the New York New Haven & Hartford, the Boston & Maine, &c., which there is every reason to believe suffered equally with the rest), the loss for the month as com-

pared with January 1907 would be raised to $25,000,000. In brief, then, in the month referred to the gross revenues of the railroads of the United States were falling off at the rate of $300,000,000 a year.

As far as net earnings are concerned, the loss has also been very heavy. Here we have systems comprising an aggregate of only 157,629 miles of road, on which the loss in gross earnings has been $20,025,624. Fortunately, the roads were able to offset this loss by a pretty substantial reduction in expenses. The reduction represents in part savings and economies forced upon the managements by the tremendous shrinkage in business. In part, however, and perhaps to a preponderating extent, the reduction may be attributed to the fact that the winter weather in 1908 was mild, obviating those extra heavy outlays which some of the roads were obliged to incur in January last year, when the weather was very much more severe. Whatever the part to be assigned to this factor, the important, the encouraging circumstance, is that it was found possible to reduce expenses in amount of $8,529,278. This, however, still left a loss in net in the sum of $11,496,346—covering 157,629 miles of road. With all the roads represented, this loss would probably be increased to $16,000,000 or $17,000,000, or a rate of falling off, roughly, of $200,000,000 in the net. Obviously, such a loss, if long continued, would mean very serious consequences, and consequently it is gratifying to note that the outlook for the railroads appears now to be brightening.

| January. (103 roads.) | 1908. | 1907. | Increase or Decrease. Amount. | |
|---|---|---|---|---|
| Miles of road | 157,629 | 156,213 | 1,416 | 0.91 |
| Gross earnings | $135,127,093 | $155,152,717 | —$20,025,624 | 12.91 |
| Operating expenses | 105,467,852 | 113,997,130 | —8,529,278 | 7.48 |
| Net earnings | $29,659,241 | $41,155,587 | —$11,496,346 | 29.93 |

Additional significance is given to the loss the present year by the fact that it has happened twice before during the last five years that our January compilations have shown reduced net. This will appear from the following, carrying the January totals back to 1896

| Year. | Gross Earnings. Year Given. | Year Preceding. | Increase or Decrease. | Net Earnings. Year Given. | Year Preceding. | Increase or Decrease. |
|---|---|---|---|---|---|---|
| Jan. | $ | $ | $ | $ | $ | $ |
| 1896 | 53,316,855 | 48,726,980 | +4,589,875 | 15,494,163 | 13,189,595 | +2,304,568 |
| 1897 | 51,065,589 | 54,615,619 | —3,550,030 | 14,277,924 | 15,394,495 | —1,116,571 |
| 1898 | 60,345,290 | 52,705,271 | +7,640,019 | 17,833,662 | 14,601,313 | +3,232,349 |

| 1903 | 100,840,997 | 92,230,740 | +8,610,257 | 30,021,883 | 29,745,477 | +276,406 |
| 1904 | 101,839,230 | 106,687,145 | —4,847,915 | 24,043,886 | 32,139,525 | —8,095,639 |
| 1905 | 103,641,710 | 96,912,364 | +6,729,346 | 26,583,361 | 23,538,414 | +3,044,947 |
| 1906 | 128,566,968 | 106,741,980 | +21,824,988 | 38,673,269 | 26,996,772 | +11676497 |
| 1907 | 133,840,696 | 123,664,663 | +10,176,033 | 36,287,044 | 37,096,918 | —809,874 |
| 1908 | 135,127,093 | 155,152,717 | —20,025,624 | 29,659,241 | 41,155,587 | —11,496,346 |

*Note.*—In 1896 the number of roads included in the month of January was 135; in 1897, 127; in 1898, 130 in 1899, 115; in 1900, 114; in 1901, 130; in 1902, 109; in 1903, 105; in 1904, 103; in 1905, 94; in 1906, 100; in 1907, 97; in 1908, 103: Neither the Mexican roads nor the coal-mining operations of the anthracite coal roads are included in any of the totals.

The showing for the roads as a whole is duplicated in the case of the returns of the separate companies. Here we have an exceedingly lengthy list of decreases—many of them very large, too—in both gross and net. On the other hand, the gains are very few and come entirely from roads which had the advantage of some special favoring circumstance. In the table we now give we have brought together all changes for the separate roads for amounts in excess of $30,000, whether gains or losses.

| Kanawha & Michigan | 30,664 |
| Richmond Freds. & Pot. | 30,270 |
| Representing 49 road in our compilations | $11,603,765 |

*x* These figures are for the Railroad Co.; the Coal & Iron Company reports a decrease of $86,607.

*y* These figures cover the lines directly operated east and w est of Pittsburgh and Erie. The net on Eastern lines decreased $666,800 and the net on Western lines decreased $581,700.

Classifying the roads in groups, in our usual manner, it is found that every group records a loss in gross and also every group a loss in net, furnishing striking evidence of the general nature of the depressing conditions under which the whole railroad system of the United States is laboring.

SUMMARY BY GROUPS.

| Section or Group. | Gross Earnings. 1908. | 1907. | Net Earnings. 1908. | 1907. | Inc. or Dec. | |
|---|---|---|---|---|---|---|
| January. | $ | $ | $ | $ | $ | % |
| Trunk Lines(14) | 44,140,005 | 51,756,379 | 8,076,487 | 11,908,934 | —3,832,447 | 32.18 |
| Anth. Coal (5) | 7,501,425 | 8,021,602 | 2,390,528 | 2,591,393 | —200,865 | 7.75 |
| East. & Mid(12) | 3,957,018 | 4,319,952 | 462,449 | 527,556 | —65,107 | 12.34 |
| Mid. West. (16) | 8,393,557 | 10,228,135 | 1,849,246 | 2,794,703 | —945,457 | 33.83 |
| N.W.& N.P.(14) | 17,432,935 | 19,048,826 | 4,598,326 | 5,666,111 | —1,067,785 | 18.85 |
| S.W.& S.P.(16) | 34,279,973 | 38,532,929 | 8,532,360 | 11,759,363 | —3,227,003 | 27.36 |
| Southern (26) | 19,422,180 | 23,244,894 | 3,749,845 | 5,907,527 | —2,157,682 | 36.53 |
| Total (103) | 135,127,093 | 155,152,717 | 29,659,241 | 41,155,587 | —11,496,346 | 27.93 |
| Mexican (4) | 2,792,551 | 1,768,741 | 961,644 | 903,770 | +57,874 | 6.40 |

*Mileage.*—The mileage for the above group is as follows: Trunk Lines, 29,803 miles, against 29,716 miles in 1907; Anthracite Coal, 3,273, against 3,273; Eastern & Middle, 3,714, against 3,701; Middle Western, 10,580, against 10,488: Northwest & North Pacific, 29,414, against 28,925; Southwest & South Pacific, 50,145, against 49,653; Southern, 30,660, against 30,547; grand total, 157,629, against 156,213; Mexican, 3,538, against 3,529.

The foregoing, as already stated, comprises the roads which supply figures of both gross and net earnings. In addition there is a body of roads—including some important companies like the Northern Pacific, the Great Northern, the Milwaukee & St. Paul, &c.—which make public only statements of gross. Starting with the total of the gross in the above, we add on these other roads in the table which we now insert.

ROADS REPORTING GROSS BUT NOT NET.

| January. | 1908. | 1907. | Increase. | Decrease. |
|---|---|---|---|---|
| | $ | $ | $ | $ |

| Toronto Ham & Buffalo | 58,297 | 55,196 | 3,101 | |
| Western Maryland | 416 080 | 419,773 | - | 3,693 |
| Total (122 roads) | 151,758,406 | 172.283,006 | 1,121,729 | 21.6 16,32 ) |
| Net decrease (11.91%) | | | | 20,524,600 |
| Miles of road | 185,216 | 183,261 | 1,955 | |

In this way the length of road included is brought up to the figure mentioned at the outset of this article, namely 185,216 miles, and the amount of loss in gross is raised to $20,524,600—a decrease of 11.91%. In the corresponding month of last year the result, according to the same method of computation, was a gain in gross of $10,588,422, or 6.51%.

## ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

—The public sales of bank stocks this week aggregate 114 shares, of which 104 shares were sold at auction and 10 shares at the Stock Exchange. The transactions in trust company stocks reach a total of 122 shares

—According to advices to the daily papers on the 23d inst., the Bank Committee of Copenhagen, which took over the affairs of the Detailhandlers' Bank on Feb. 9, has come to the conclusion that the institution is insolvent and has decided to liquidate its affairs. The capital of the bank is said to be regarded as entirely lost. On Feb. 13 cable advices from Copenhagen stated that the Folkething had passed the Government bill authorizing the State guaranty of the liabilities of both the Detailhandlers' Bank and the Freeholders' Bank.

—An amendment to the Aldrich Currency Bill offered by Senator Lodge, providing for the inclusion of Porto Rican bonds as security for the emergency currency, was adopted by the U. S. Senate on Wednesday. Another amendment of Senator Lodge authorizing the use of bonds of the Philippine Government and the city of Manila as a basis for emergency circulation was approved by the Committee on Finance on Thursday. It is also stated that the Senate has agreed to an amendment proposed by Senator Du Pont, which provides that interest at the rate of ½ of 1 per cent a month shall be paid on the emergency notes during the first six months of their issue and at the rate of ¾ of 1 per cent a month thereafter. An amendment has likewise been incorporated in Committee increasing from two-fifths to four-fifths after January 1 1909, the proportion of the reserve of the country banks, which must consist of cash not to exceed one-third of the four-fifths so held may be in the bonds enumerated in the Act. It was decided to modify the amendment of Senator Nelson requiring national banks to pay interest at the rate of 1½% per annum on Government deposits, by making the rate 1%, this to be paid only where deposits are made direct by the Treasury Department. The modification exempts from interest charges money deposited in national banks by postmasters, collectors of internal revenue and other Government officials of a like character.

—Governor Hughes, at Albany, on Monday signed the bill providing for the creation of the office of Third Deputy State Superintendent of Banking. The object in having a new deputy is that the Department may be represented by one in authority at the branch office in the Metropolitan district, within which four-fifths of the banking power of the State is said to be concentrated. The bill is the first of the series recommended by Clark Williams to become a law.

—The Appellate Division (First Department) of the New York Supreme Court on the 20th inst. rendered a decision which holds unconstitutional the stock transfer tax law of this State in so far as it concerns the inspection of the transfer books of brokers by a representative of the State Comptroller. The decision was given in the case of John S. Ferguson of 49 Wall St., who, last October, for the purpose of testing the validity of the law, refused to permit an agent from the Comptroller's office to examine his firm's books. In writing the opinion Justice Scott stated that the purpose of giving the Comptroller the authority in question was to ascertain whether the tax imposed had been paid, adding:

> The bald question, therefore, is whether the Legislature can compel a citizen against his will to submit to a search of his private books and papers in order that evidence may be thereby obtained whereby he may be convicted of a crime or subjected to a penalty.
> The answer is to be found in Section 6 of Article 1 of the Constitution of this State, which provides that 'no person shall be compelled in any criminal case to be a witness against himself.'

The Court was unanimous in its decision, Justices Patterson, Ingraham and Clarke silently concurring. Justice McLaughlin wrote a concurring opinion, stating that while the law could provide the keeping of a special memorandum which might be demanded for inspection, it could not give the Comptroller power to inspect the private books and papers of persons liable for the tax.

—By a vote of 81 to 45 the New York State Assembly on Thursday passed the bill increasing the reserves of State banks. The bill provides for the maintenance of a 25% reserve by banks in Greater New York; institutions in the Borough of Manhattan are obliged to keep 15% of the reserve in cash in vault, while those in the other boroughs in the Greater City are required to hold 12½% in vault and 12½% with a reserve agent; elsewhere in the State the reserve is fixed at 15%, of which 6% is required to be held in vault and 9% on deposit with a reserve agent. At present the banks in New York City are required to keep a reserve of but 15%, and those elsewhere in the State a reserve of 10%. Among other banking bills passed by the Assembly this week one amends the law with regard to the incorporation of banks by adding new sections providing for the filing and examination of certificates of organization by the State Superintendent of Banks. Another it is stated, provides that stocks and bonds constituting a part of the lawful investment of capital of trust companies shall not be valued upon the books of a company or entered in its reports at a higher value than their investment value, as determined by amortization. A bill has also passed the Assembly providing that no trust company may establish branches unless in addition to the paid-in capital now required the sum of $100,000 be furnished for each branch so opened and maintained. A similar bill requiring banks in Manhattan and Brooklyn to provide an additional capital of $100,000 for each branch opened has likewise passed the Assembly. Still another bill passed by the Assembly but affecting savings banks, provides that depositors of these institutions shall receive as nearly as may be, all the profits, after deducting the necessary expenses, and likewise provides for the amortization and gradual extinction of premiums or discounts on all securities owned by such banks.

It is stated that by common consent, and with the understanding that full opportunity would be permitted for discussion on final passage, all the Assembly bank bills recommended by Clark Williams were advanced to a third reading in the Senate on Thursday and on Senator Hooker's motion were made a special order for next Thursday.

—William Barrett Ridgely tendered his resignation yesterday as United States Comptroller of the Currency. This action is taken as an indication that Mr. Ridgely, who has been persistently mentioned for the presidency of the reorganized National Bank of Commerce of Kansas City, Mo., will assume direction of that institution, which is to reopen on Monday next, the 30th inst. It is stated

that the bank has complied with all the requirements of the Comptroller, the stockholders having turned over to Receiver Cutts the $2,870,000 of new money necessary as a preliminary to reopening. The proposition to increase the capital from $1,000,000 to $2,000,000 was ratified by the stockholders on the 23d inst.

—The Appellate Division (First Department) of the Supreme Court yesterday denied the motion of Attorney-General Jackson for permission to appeal to the Court of Appeals from the order of Justice O'Gorman dismissing the temporary receivers of the Oriental Bank. The order of Justice O'Gorman had been affirmed by the Appellate Division (First Department) of the Supreme Court on the 17th inst., but the Attorney-General had obtained an order to show cause why he should not be allowed to carry the case to the Court of Appeals. The assets of the bank were transferred last Saturday to the vaults of the Metropolitan Trust Co. under the direction of Clark Williams, State Superintendent of Banks. In accordance with the agreement between the company and the bank, the payment in full of depositors of the latter has been under way this week. On Monday the $500,000 balance of its debt to the Clearing House was paid off, besides some $500,000 or $600,000 due to savings banks as preferred creditors. The other depositors are being paid off in alphabetical order, as fast as the work can be expedited.

—The Corn Exchange Bank of this city purchased on Thursday at public auction the branch of the Williamsburgh Trust Co. of Brooklyn Borough, located at Broadway and Myrtle Avenue. The bank was the sole bidder. It pays $20,000 for the title, furniture and good-will of the branch, which it will open as a branch of its own. It is reported that it is the intention of the bank, with the consent of the receivers, to loan to the depositors of this branch of the Williamsburgh Trust 50% of their deposits. The statement is made that all idea of resumption by the trust company has been abandoned by the depositors. At a meeting of the depositors' committtee on the 19th inst. a resolution was adopted calling for despatch in the liquidation of the institution's affairs without further delay over consideration of reorganization plans.

—A new number of the Rand, McNally Bankers' Directory revised to January 1 1908 has made its appearance. The present is the 64th edition of the publication.

—Suggestions with regard to the revision of the banking laws of Rhode Island have been offered in a report recently presented by a Commission appointed by the Governor, pursuant to a resolution passed by the General Assembly in April 1907. The only steps thus far taken by the Legislature with regard to the recommendations have been two hearings before the Committee on Judiciary. No definite action, however, was taken at either of these. There have also been conferences this week between members of the Commission, several lawyers representing banking institutions, and other interested parties, during which various provisions of the bill were discussed at length. While the bill as a whole will probably not meet with any opposition, various provisions in it, we understand, are deemed rather stringent, and the object of these conferences is to suggest reasonable modifications.

The report is signed by four of the five Commissioners appointed, namely Edward P. Metcalf, John S. Murdock, John J. Connly and William Thornley. Realizing how inadequate are the present statutes to cover the important phases of banking as now conducted, the Commission recommends that Chapters 178 and 179 of the General Laws be repealed, as everything of importance contained in them has been embodied in the Act which they submit. They also point out that as the laws governing trust companies are to be found only in the respective charters granted to them, it was deemed advisable, in order to define the powers of such companies, to adopt such provisions of those charters as are common to all the trust companies. By Section 2 of the Act the present charters of trust companies are altered or amended so as to conform to the provisions of the Act. It is stated in the report that these institutions, although few in number, are the depositories of three-quarters of the total depositors in all the State banks, and that, under the name of participation accounts, they conduct savings banks without any of the very limited restrictions which have heretofore applied to savings banks. For this reason, it is recommended that trust companies which accept participation deposits shall be obliged to invest such deposits in the same class of securities which is provided in the Act for savings banks, and such securities shall be held for the sole benefit of deposits in such participation accounts. This provision with regard to the investment of deposits of savings institutions we expect to print in a subsequent issue.

The Act provides a general incorporation law for banks, savings banks and trust companies under the supervision of a board of bank incorporation consisting of the Bank Commissioner, the General Treasurer and the Attorney-General. Large discretion is given to this board, but as two of the new members are directly subject to the people, such discretion, it is thought, will not be abused. The Act prohibits the taking of deposits by any person, firm or corporation not authorized by law to engage in the business of banking. The Commission states that while it may be true that there are private bankers entirely responsible, yet it is believed that all who wish to engage in banking should be brought within the scope of the Act and made subject to the restrictions imposed on the legitimate banks. James M. Scott, who is the one member of the committee not signing, concurs in recommending the proposed Act, aside from some five or six exceptions.

—The Clearing-House indebtedness of the National Bank of North America of this city was reported as reduced to $250,000 on Wednesday. This represents the total amount of Clearing-House certificates now outstanding. The bank owed $2,200,000 to the Clearing House on such certificates when it closed its doors in January.

—The Knickerbocker Trust Company of this city reopened its doors at noon on Thursday, after a suspension of five months. The motion for the appointment of a permanent receiver was dismissed several weeks ago, and on Wednesday the order dissolving the temporary receivership was signed by Justice Clarke in the Supreme Court at Brooklyn. At the same time the Court allowed a total of $300,000 for receivership fees—$75,000 for each of the receivers, Ernst Thalmann, George L. Rives and Henry C. Ide, and $25,000 each for the three attorneys representing the receivers. Attorney-General Jackson has announced his intention of opposing the allowances. The final plans for the resumption of the company were completed on Saturday last. The institution opened under the presidency of Charles Hallam Keep, who resigns as a member of the up-State Public Service Commission. Mr. Keep is a son of the late Charles Keep, who was president of a bank at Lockport, N. Y., and a nephew of Albert Keep, formerly Chairman of the Board of the Chicago & North Western Ry. He was at one time Ass't Sec. of the U. S. Treasury, holding that office from 1903 until January 1907, when he was appointed New York State Superintendent of Banking. In June of last year he was transferred to the Public Service Commission. His term would not have expired until 1912. The company's other officers are B. L. Allen, Second Vice-President; Joseph T. Brown, Third Vice-President, and Horace A. Dunn, Secretary and Treasurer. The board, which had formerly consisted of thirty-one members, has been reduced to fifteen, and the members thus far chosen by the Voting Trustees are: Frederick G. Bourne, ex-President of the Singer Manufacturing Co.; G. Louis Boissevain, of Kean, Van Cortlandt & Co.; Franklin Q. Brown, of H. S. Redmond & Co.; Dumont Clarke, President of the American Exchange National Bank; Edward H. Clark, manager of the Hearst estate; J. Horace Harding, of C. D. Barney & Co.; Charles F. Hoffman, real estate and investments; Charles H. Keep; Hinsdill Parsons, Vice-President and general counsel of the General Electric Co.; Herbert L. Satterlee, lawyer, of the firm of Ward, Hayden & Satterlee and President of the Habirshaw Wire Co.; William A. Tucker, banker, of Tucker, Anthony & Co.; Payne Whitney, director of the Northern Pacific Ry. Co., and Samuel T. Peters, of Williams & Peters, coal merchants. Of these, Messrs. Bourne, Boissevain, Hoffman, Tucker and Whitney had previously been members of the directorate. An executive committee was elected on Wednesday, consisting of Messrs. Bourne, Boissevain, Harding and Tucker. The following statement showing the company's condition with its re-opening was issued by President Keep.

| | | |
|---|---|---|
| *Assets—* | | |
| Cash on hand and in banks | | $14,045,507 82 |
| Demand loans | | 11,189,670 85 |
| Time loans | | 14,947,469 49 |
| Bonds and mortgages | | 2,725,513 78 |
| Investments | | 5,456,663 50 |
| Real estate | | 2,050,000 00 |
| Accrued interest due to the company | | 495,644 04 |

| Reserve for receivers, and counsel fees | | 400,000 00 |
| Accrued interest due by company | | 580,741 52 |
| Total | | $50,910,469 48 |

The resumption plan was referred to in brief in our issue of March 14, and was given in full in the "Chronicle" of December 28. Under this plan certificates representing 70% of the deposits have been issued to depositors, 10% of which is paid with resumption, and the balance in installments extending over a period of two years and four months. The remaining 30% of the deposits is represented by "surplus certificates", which are to be paid only out of net earnings and surplus. It is by reason of this concession on the part of the depositors and the $2,400,000 cash contributions by the shareholders that the company has been placed in such a favorable condition.

—The directors of the Lincoln Trust Co. of this city, at a meeting on Tuesday, elected Alexander S. Webb Jr. to the presidency of the institution, to succeed Frank Tilford, who retires. Mr. Webb, who is at present Second Vice-President of the New York Trust Company, will assume the duties of his new post on April 15. At this week's meeting the directors also elected as First Vice-President of the Lincoln Trust. Abram M. Hyatt, who for the past six months has been its managing director. The company, which was one of the institutions called upon to meet extraordinary demands during the panic of last Fall, when its deposits fell from about $23,000,000 to $6,000,000, is once more on a substantial footing, having succeeded in wiping out practically the entire amount of indebtedness contracted at that time. The $5,000,000 advanced by the associated trust companies has all been paid (the final 15% of the debt was discharged on Monday last), and this has been done without any substantial sacrifice of its securities. Before April 15 the company expects to pay off its only remaining obligation of $1,000,000, borrowed from a national bank before the organization of the trust companies' relief committee. The enlarged capital of $1,500,000, representing an addition of $500,000, is to become available on the 15th of the coming month. Mr. Webb, the new head of the institution, is a son of General Alexander S. Webb, formerly President of the College of the City of New York. He was for eleven years in the employ of the Lincoln National Bank, later becoming Secretary of the Metropolitan Trust Co. Subsequently he served as Secretary of the New York Security & Trust Co., and with the consolidation of that institution and the Continental Trust, forming the present New York Trust Co., was made Third Vice-President of the latter. Last week he was elected Second Vice-President of that company. Mr. Hyatt, the new First Vice-President of the Lincoln Trust Co., likewise has an intimate knowledge of banking matters. He was for many years connected with the United States Trust Co. and was also Secretary and Vice-President of the New York Security & Trust Co. The full managerial staff of the Lincoln Trust Co. will be as follows: President, Alexander S. Webb Jr.; First Vice-President, Abram M. Hyatt; Second Vice-President, Owen Ward; Third Vice-President, William Darrow Jr.; Secretary, Joseph Z. Bray, and Treasurer, Horace F. Poor.

—The quarterly dividend of 1½% declared by the Citizens Central National Bank of this city, payable April 1, marks a change in the periods of distribution by this institution, payments having been 3% each January and July since the consolidation in 1904.

—G. Bruce-Webster, Agent of the Chartered Bank of India, Australia and China, announces the receipt of the following cablegram from the head office at London:

"At the approaching meeting of the shareholders the directors will recommend the payment of a dividend for the past half year at the rate of 14%, per annum, free of income tax, and a bonus of 10%, to the employees; £25,000 to be written off bank premises account; £50,000 to be carried to the reserve fund (making £1,525,000), and £129,183:1:3 to be carried forward as undivided profit."

—The directors of the New York State National Bank of Albany at a meeting on the 20th inst. elected Laurence H. Hendricks Cashier to succeed Willis G. Nash, who resigned to become President of the Mercantile National Bank of New York. Mr. Hendricks advances from the post of Assistant Cashier. The New York State National Bank is the oldest financial institution in Albany, having been chartered in 1803.

—S. W. Holmes has been chosen Cashier of the New England National Bank of Boston to replace the late Arthur C. Kollock. Mr. Holmes also continues as Vice-President of the bank.

—The fiftieth anniversary of the Philadelphia Clearing House Association was commemorated on the 23d inst. with a banquet at the Bellevue-Stratford. During the evening some interesting statistics concerning the association were presented by Joseph Moore Jr., President of the National Bank of the Northern Liberties. Starting with a membership of seventeen banks on March 22 1858, with combined capital of $11,300,000 and combined deposits of $13,200,000, the membership now (March 16 1908) numbers 32 banks, with combined capital of $21,825,000 and combined deposits of $239,748,000. The amount of business passing through the Clearing House from March 22 1858 to March 16 1908 was $149,134,805,019. One of the speakers at the banquet was James V. Watson, a member at the time of its organization, and a former President of the Clearing House, now in his ninety-first year.

—John A. McCormick, formerly receiving teller of the Merchants' Loan & Trust Co. of Chicago, has become Assistant Cashier of the Chicago Savings Bank & Trust Co.

—The Harris Trust & Savings Bank of Chicago has declared a first dividend of 2% on its capital of $1,250,000, payable April 1 to stockholders of record March 18. The institution began business on Feb. 4 1907.

—Since the Fourth National Bank of Nashville, Tenn., has been occupying its magnificent new quarters, its business has greatly increased. The deposits at the time of the last official call on February 14th were $5,407,700, as against $4,874,472 reported under the call of Dec. 3 1907, a gain of over a half million dollars in two months. The institution has a capital of $600,000 and surplus and profits of $680,200. Samuel J. Keith is at the head of this important Southern bank with J. T. Howell as Cashier.

—An indictment against William Adler, former President of the State National Bank of New Orleans, charging misapplication of the funds of the bank, was handed down by the United States Grand Jury at New Orleans on the 5th inst. The indictment contains seventy-four counts, covering, it is reported, transactions aggregating $203,000. Mr. Adler disappeared following his resignation as President of the institution last December, and is now believed to be in Honduras. The bank was placed in voluntary liquidation on Jan. 30.

—The seventy-second annual meeting of the Bank of British North America was held in London on the 5th inst. and on a subsequent page of this issue there will be found a report of the procedings, including the address of E. A. Hoare, the Chairman, and the balance sheet.

—The Canadian Bank of Commerce (head office Toronto) announces that it has taken over the business of the Sovereign Bank of Canada at Exeter and Thedford, and has established branches at both points; the business of the Dashwood and Crediton offices of the Sovereign Bank will be carried on at Exeter, and a sub-branch is to be established at Crediton shortly; the business of the Arkona branch of the Sovereign Bank will be carried on at Thedford. The business of the branches of the Sovereign Bank at Chatham, Goderich, Ottawa, Market (Toronto) and Windsor, Ont., has been taken over by the Canadian Bank and merged with its offices at these points. The other offices of the Sovereign Bank taken over by the Canadian Bank, namely, Ilderton, Lambeth, Sandwich and Thorndale, have been closed, and their business transferred to the following branches: Ilderton, Lambeth and Thorndale to London, and Sandwich to Windsor. The closing of the branches of the Canadian Bank of Commerce at Kenville, Man., and Kinistino, Sask., is also announced.

## DEBT STATEMENT FEBRUARY 29 1908.

The following statements of the public debt and Treasury cash holdings of the United States are made up from official figures issued Feb. 29 1908. *For statement of Jan. 31 1908, see issue of Feb. 15 1908, page 386; that of Feb. 28 1907, see March 23 1907, page 669.*

| Title of Loan | Interest Payable. | Amount Issued. | Amount Outstanding — Registered. | Coupon. | Total. |
|---|---|---|---|---|---|
| | | $ | $ | $ | $ |
| 2s, Consols of 1930 | Q.-J. | 646,250,150 | 640,873,750 | 5,376,400 | 646,250,150 |

+Increase over last week. — Decrease from last week.
*a* Includes bank notes. *b* After eliminating the item "Due from reserve depositories and other banks and trust companies in New York City," deposits amount to $625,467,300, an increase of $2,288,600 over last week's figures

*Note.*—In the case of the Clearing-House banks the deposits are "net" both for the average and actual figures; in all other cases "gross" deposits are shown. The Clearing-House actual figures included U. S. deposits amounting to $48,281,500, a decrease of $47,200 from last week, averages included U. S. deposits of $48,227,200, a decrease of $1,033,300 from last week.

"Reserve on deposits" includes, for both trust companies and State banks, not only cash items but amounts due from reserve agents, and in the case of trust companies includes likewise municipal bonds. State banks in New York City are required by law to carry a reserve amounting to 15% of deposits, while outside of New York City only 10% is required, which reserve in both cases need not be more than one-half in cash. Trust companies in Greater New York are required to keep a reserve of 15%, of which only 5% need be in cash and 5% more may be in municipal bonds, while in the case of the trust companies in the rest of the State the required reserve is 10%, of which only 3% need be in cash and 3% more may be in municipal bonds.

The State Banking Department also furnishes the following report for State banks and trust companies outside of Greater New York.

STATE BANKS & TRUST CO'S OUTSIDE OF GREATER NEW YORK
*Week ending March 21 1908.*

a Including Government deposits, and for Boston and Philadelphia the item "due to other banks." At New York Government deposits amounted to $18,227,200 on March 21, against $49,260,500 on March 14; at Boston to $5,500,000 on March 21, against $5,539,000 on March 14

# Banking and Financial.

## BANK OF BRITISH NORTH AMERICA.

REPORT OF THE DIRECTORS PRESENTED TO THE PROPRIETORS AT THEIR SEVENTY SECOND YEARLY GENERAL MEETING.

The seventy-second yearly general meeting of the Bank of British North America was held on Tuesday, March 3d, at the office of the corporation, 5 Gracechurch Street, E. C., Mr. E. A. Hoare presiding.

The Secretary (Mr. A. G. Wallis) having read the notice convening the meeting and the auditors' report,

The Chairman said: I will not occupy your time by reading the report, but will proceed at once to comment upon the principal items in the balance sheet, making my comparison with the balance sheet of December 31st 1906. The reserve to which I shall refer again is increased by £20,000. Deposits show a decrease of £263,000. This decrease is chiefly in the current accounts; interest-bearing deposits in Canada actually showed an increase compared with the previous year. You are already aware that throughout the year, and particularly towards the end of the year, there was a very keen demand for money in Canada, and not in Canada alone, but throughout the world, and under these conditions we consider it most satisfactory that our deposits have held their own so well. In studying the annual reports sent home by our branch managers, I find the decline in deposits repeatedly explained by the attractions of sound investments, which, owing to the financial stringency, were to be purchased at most favorable prices, and also to the opportunities of lending money in the West upon mortgage at high rates of interest. Notes in circulation show a decrease of £87,000. At no time during 1907 did the circulation expand to the level of 1906, owing to the condition of the harvest in the West, to which I shall refer later on. Bills payable and other liabilities, including provision for contingencies, show a decrease of £601,000. This is an important reduction, due chiefly to the contraction of business in the United States during October, November and December, to which I shall have to make further reference later on. On the other side of the account cash and specie show an increase of £219,000. The cash and specie, amounting to £1,118,000, was equivalent to 53 per cent of our immediate liabilities—that is, deposits payable on demand and note circulation—a percentage which shows an unusually strong position. Cash at call and short notice show a decrease of £757,000. Investments show the follo ing changes In the interim balance sheet to June 29th you have already been informed that the sum of £6,060 had been taken from the profits of the half-year with the object of writing down our holding of consols to 83, at which figure they now stand in the balance sheet. Dominion of Canada bonds show an increase of £12,600, and now stand at £157,000, with 97 as the book cost. Other securities have decreased £15,000, and we are able to repeat the statement in the report of June 29th that "the book cost is lower than the current market quotation." The total of the investments is £9,000 lower than a year ago. Bills receivable and loans on security and other accounts show a decrease of £380,000, and premises, after the transfer of £20,000 from the profits, show a decrease of £5,077. The work undertaken on premises during the year has not yet all been paid for, and there is still much to be done before we can feel satisfied that our branch premises have been brought up to the required standard. We can assure you that the money thus appropriated is most carefully spent, not for purposes of display, but simply to promote the efficiency of the bank's business. We have three branches at this moment which imperatively demand either new premises, or substantial extensions of existing premises, the cost of which, apart from the requirements of Central Canada and the usual incidentals at other branches, will absorb the whole of this sum, and more.

As already stated, by the addition of £20,000, the reserve fund has been increased to £480,000. Good progress has been made in recent years in building up the reserve fund, but still there is much to be done, and we hope to be able, year by year, to make substantial additions to it. As to profits, again we have the satisfaction of reporting to you that the bank's business during 1907 has shown satisfactory profits, although just falling short of the profits earned in the preceding year. The actual net profits for 1906 were £129,016, and for 1907, £122,617, showing a decrease of £6,399. We are still able to repeat exactly the distribution of this time last year by payment of the usual dividend at the rate of 6 per cent per annum, with the addition of a bonus of 1 per cent, making in all 7 per cent for the year. We again suggest to you that you should kindly recognize the services of the staff, of which we cannot speak too highly, by granting them a bonus of 5 per cent upon their salaries, which will absorb about £4,000. We shall then carry forward to the new account £24,014, compared with £19,610 at this time last year. Some of the changes to which I have referred are larger than fall within our usual experience, and they are chiefly due to the great disturbance of credit which we have recently witnessed in the United States. The decline in our bills payable is due to this cause alone, and means that our exchange business in New York was completely paralyzed for nearly three months; nor have we yet seen a return to such conditions as to lead us to seek after a large volume of exchange business, and, in fact, our bills payable to-day show a further large diminution since December 31st. We fully appreciate the more favorable position of the New York banks, coupled with the resumption of cash payments since the beginning of the year; but we should feel more confidence in the future if there were some clearer evidence that the lessons of the crisis will not be allowed to pass unheeded, and therefore we continue to act cautiously, waiting to see what the after-effects may be upon the industry and commerce of the country.

It is no part of my duty to-day to investigate the causes which led to this financial convulsion in the United States, or to endeavor to award either censure or excuse; but this much I may say—that it did not need any unusual degree of sagacity to foresee that their financial methods must inevitably lead to danger, and therefore in the early days of 1907 we began to take measures of precaution which were fully justified by subsequent events. There was one statement frequently made, both in this country and Canada, and repeated openly in the press, to the effect that Canadian banks were greatly hampered because their resources were so largely employed in New York. Speaking for ourselves alone, I am glad of the opportunity of most definitely correcting this statement. We employ part of our call money in New York we have always done so—and when the recent panic broke out we had a considerable sum employed in this manner. It is only due to our many and valued friends with whom we do business in New York to state that in no single instance did this bank fail to obtain re payment of call loans when we wanted the money. Naturally, we disturbed our loans as little as possible, but still from time to time, in the ordinary course of our business, it was necessary to make calls, and when this occurred the borrowers never failed to respond. In Canada, fortunately, contraction had commenced long before the time of trouble in the United States, a contraction which was by no means voluntary on the part of the community, but which was enforced by the banks. After some years of prosperity there had been the usual tendency to advance more rapidly than even the favorable conditions of the country justified, and even before the end of 1906 this had been evident to those whose business it is to preside over the banking institutions of the Dominion. The demand for money was keen before the close of 1906, and as the months

passed on in 1907 there was a general stringency felt in every department of business. The resources of the banks throughout 1907 were employed up to the limit of safety, and they found it necessary to refuse additional advances, and strictly to hold their customers within limits. This was, indeed, fortunate, for the result was that when the storm burst in the United States, Canada found herself in a safe position. The stringency of money continued, and even increased, with a consequent depreciation in the value of securities and a decided check to mercantile business; but this condition of affairs did not come to them suddenly, and so, happily, although the trouble was very nigh at hand, the people remained calm and faced the situation with most commendable good sense. At no time was there any trace of panic in Canada. The banks did their utmost to supply all the legitimate needs of their customers, and the customers, recognizing the gravity of the situation, reduced their requirements in every possible direction. The result must be regarded as eminently satisfactory by all concerned, and especially by the Dominion Government, which has now seen its banking system, originated with much care and skill, and subsequently elaborated with the assistance of the Bankers' Association, put to a most severe test, and emerging from it with complete success. The occasion may serve to illustrate the value of close and intimate consultation between the Government and the Bankers' Association, thus working harmoniously together for the good of the community.

The wheat crop was a disappointment. Owing to the length and excessive severity of the winter 1906-07, the crop was late and consequently exposed to early frost. It was at one time estimated that, notwithstanding the damage thus done to the crop, the results of the season to the farmer would be as good as in the preceding year, owing to the greatly enhanced price of wheat. This hope can no longer be entertained, for there is no doubt that in many districts the damage done by frost was so extensive that even the high price ruling for good qualities could not compensate for the loss thus sustained. But, notwithstanding this disappointment, there is still considerable value in the wheat crop, and disappointment evidently does not mean discouragement, for it has been stated recently by the High Commissioner that the acreage under crop in 1908 will exceed that of 1907 by no less than 1,000,000 acres, and up to the present time the season has been open and favorable. The mineral production of British Columbia for 1907, according to an approximate estimate, shows an increase of three-quarters of a million dollars over that of 1906, which must be considered satisfactory when it is remembered that the Boundary Mines were shut down for about two months. The total value of the mineral production in the province was $25,730,000, compared with $24,980,000 in 1906. It must be remembered that for the greater part of 1907 the price of copper, which is the largest product of the mines, was exceptionally high, and far above that ruling to-day. At Dawson, however, the production of gold continued to decline, and in 1907 barely reached $3,000,000, compared with $5,250,000 in 1906. It is anticipated by those who know the camp well that when the works of the Yukon Gold Company are completed, this continuous decline will be arrested, and a large increase of production will be seen. We hope that these anticipations may be verified, but there have been the inevitable delays, and the great Ditch will not be ready for the 1908 season.

Since December 31st—the date to which the accounts are made up—we have felt it our duty to join with the other leading banks in Canada in giving a guaranty for the Sovereign Bank, which has gone into liquidation. We were invited to join in the guaranty on the extent of $300,000, and having regard to the fact that all the circumstances had been carefully weighed by the leading banks in Canada and that the proposal to wind up the Sovereign Bank was approved by them with the best means of information at their disposal, we felt that it was our duty to join with them in taking steps necessary to prevent the suspension of payment. At the same time we feel that it is an open question whether it is wise for other banks thus to intervene and ward off the consequences of unsound banking. This is the second time within fifteen months that we have been invited to take our part in rendering such assistance, and though we have consented to do so under guidance from strong local opinion, we are not convinced that such action is for the real good of the country. It appears to us that such intervention, thus repeated, is sure to weaken the sense of responsibility amongst those who direct and manage banks everywhere, and also that it must tend to encourage carelessness amongst depositors and the community generally. And now, before I conclude, you will expect me to say a few words respecting our future prospects; and this is the most difficult part of my task. The influences which we must consider do not have their origin in Canada alone, or even principally in Canada. We have still to consider the after-effects of the crisis in the United States. There are apparently some on the other side who consider that those effects are merely temporary, and that industry and commerce will suffer no set-back, and although we do not share this opinion—and the evidence of decreasing railway traffics and increasing failures is distinctly opposed to it—it may yet be justified by the strong recuperative power shown in the past by that great country. If, on the other hand, there follows, as we ourselves expect, a period of dulness, or even of depression in trade, in the United States, this can hardly fail to affect business in Canada, for the trade relations between the two countries are close and intimate. We must also remember that trade in European countries has certainly passed high-water mark, and that we have already entered upon a period of diminishing activity. In Canada itself, as I have already pointed out, the proceeds of the harvest are below expectations, and consequently there will be less money available for distribution. If these influences should mean a pause in the rapid progress of the last few years, an interval between the progress of the past and its certain resumption in the future, it will probably be no bad thing for Canada. A time for the municipalities, manufacturers, merchants, individuals, and last, but surely not least, for labour, to examine into their position, re-value their assets, critize their expenditure, and, where necessary, institute economies, will be useful, and will serve to build in the foundations of future progress and prosperity even more firmly than they stand at present. But this process may mean an interval of diminished profits for us all, and although we have been able this year to repeat the bonuses of last year, both to shareholders and to the staff, we do not wish any of you to calculate upon that additional distribution a year hence. We shall see our way more clearly as the months pass by and the prospects of the harvest develop. With 6,000,000 acres under the plough in the three Central Provinces, as stated by the High Commissioner, the harvest of 1908 must be an important factor. If it should happily come to maturity and be garnered in good condition, it would be reasonable to expect that this might be a signal for renewed activity in the business of the whole country.

I must not omit to refer to the opening of the Canadian Mint on January 2nd, when the first coin ever minted in Canada was struck by Earl Grey, the Governor-General, who said—"As a representative of His Majesty, I have much pleasure in declaring the Canadian branch of the Royal Mint open." More recently—on February 6th—Mr. Fielding, Minister of Finance, replying to a question in the Dominion House of Commons, said that the Mint would shortly be turning out gold coins of the value of $2 50, $5 and $10. In the course of the year Mr. Tompkinson, at the request of the court, paid a visit to the New York and San Francisco agencies, and to the branches of the bank in British Columbia and the Central Provinces; and Mr. Mayne Campbell, on his return to Canada in the summer, kindly made arrangements, at the request of the court, to visit some of the branches in Ontario which had not previously been brought within the itinerary of a visiting director, and we feel much indebted to both of our colleagues for their most valuable services. I beg now to propose that the report and accounts be adopted. (Applause.)

Mr. Richard H. Glyn : I beg to second that.

The resolution was then put and carried unanimously.

The Chairman : The following directors retire by rotation, and offer themselves for re-election—I have to put my name, proposed by Mr. G. D. Whatman; Mr. G. C. W. Tomkinson is proposed by Mr. H. J. B. Kendall and Mr. J. H. Mayne Campbell is proposed by Mr. J. H. Brodie.

These nominations were formally approved.

On the motion of Mr. Powell, seconded by a shareholder, Mr. George Sneath and Mr. Nicholas E. Waterhouse were re-elected auditors.

The Chairman : That concludes the business before the meeting.

Mr. Powell : I think we ought to pass a vote of thanks to the directors and staff. They have served us extremely well during the year.

The resolution was carried unanimously, and the Chairman having acknowledged the compliment, the procedings terminated.

## BALANCE SHEET 31ST DECEMBER 1907.

*Dr.*

| | | |
|---|---|---|
| To Capital—20,000 Shares of £50 each, fully paid. | | $4,866,666 66 |

*Wall Street, Friday Night, March 27 1908.*

**The Money Market and Financial Situation.**—Supreme Court decisions as to the Constitutional right of State legislatures to fix railway traffic rates have undoubtedly been the most important events of the week affecting the security markets. These decisions, announced on Monday, promise to be far-reaching in results and railway securities in many cases advanced to the highest quotations reached since the panic last year. A brief report, the first of its kind, given out by the American Sugar Refining Company was also favorably received and caused a sharp upward movement of the shares. The announcement on Thursday of a proposed new Union Pacific bond issue had, however, an adverse effect and a part of the previous advance in the market was lost.

In financial circles considerable interest has attached to the reopening of the Knickerbocker Trust Company, and much credit is, no doubt, due to the parties who have so successfully brought about its rehabilitation.

The money market is practically unchanged and the financial situation at home and abroad is about as heretofore reported.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¾% to 2%. To-day's rates on call were 1¾@2%. Prime commercial paper quoted at 5½@6% for 60 to 90-day endorsements and 5½@6% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £150,232, and the per cent of reserve to liabilities was 48.64, against 51.26 last week.

The rate of discount remains unchanged at 3%, as fixed March 19. The Bank of France shows an increase of 6,775,000 francs gold and 3,550,000 francs silver.

The New York City Clearing-House banks in their statement of averages for the week ending March 21 showed an increase in the reserve held and a surplus of $9,322,100 in the reserve held and a surplus of $37,424,450 over the required reserve, against a surplus of $30,665,075 the previous week.

| | 1908. Averages for week ending March 21. | Differences from previous week. | 1907. Averages for week ending March 23. | 1906. Averages for week ending March 24. |

*Note.* The Clearing House now issues a statement weekly showing the totals of the actual figures on Saturday morning. These figures, together with the returns of separate banks also the summary issued by the State Banking Department showing the condition of State banks and trust companies not reporting to the Clearing House, appear on the preceding page.

**Foreign Exchange.**—The market was very dull this week and without special feature. Fluctuations were within a narrow range and the tone was generally firm, closing at about the highest.

To-day's (Friday's) nominal rates for sterling exchange were 4 84@4 84½ for sixty-day and 4 87@4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8370@4 8380 for long, 4 8615@4 8620 for short and 4 8640@4 8650 for cables. Commercial on banks 4 8330@4 8340 and documents for payment 4 82¾@4 83¾. Cotton for payment 4 82¾@4 82⅞, cotton for acceptance 4 8330@4 8340 and grain for payment 4 83⅝@4 83¾.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 18¾*a*@5 18¾ for long and 5 16⅞*d*@5 16⅞ for short. Germany bankers' marks were 94⅝@94 11-16 for long and 95 3-16@95¼*d* for short. Amsterdam bankers' guilders were 40 13@40 15 for short.

Exchange at Paris on London to-day 25f. 13½c.; week's range 25f. 15c. high and 25f. 13½c. low.

The week's range for exchange rates follows:

| | Long | | Short | | Cables | |
|---|---|---|---|---|---|---|
| *Sterling, Actual* | | | | | | |
| High | 4 8370 | @4 8380 | 4 8615 | @4 8620 | 4 8640 | @4 8650 |
| Low | 4 8340 | @4 8345 | 4 8595 | @4 86 | 4 8620 | @4 8625 |
| *Paris Bankers' Francs* | | | | | | |
| High | 5 18¾*a* | @5 18¾ | 5 16⅞*a* | @5 16⅞ | | |
| Low | 5 20*d* | @5 20 | 5 17½*a* | @5 17½ | | |
| *Germany Bankers' Marks* | | | | | | |
| High | 94⅝ | @ 94 11-16 | 95 3-16 | @ 95⅜ | | |
| Low | 94½ | @ 94¾ | 95⅛ | @ 95 3-16 | | |
| *Amsterdam Bankers' Guilders* | | | | | | |
| High | | | 40⅛ | @ 40⅛*x* | | |
| Low | | | 40 13 | @ 40 15 | | |

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *g* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1,000 premium. New Orleans bank, 25c. per $1,000 discount; commercial, 50c. per $1,000 discount. Chicago 35c. per $1,000 premium. St. Louis, 75c. per $1,000 premium. San Francisco, $1 per $1,000 premium.

**State and Railway Bonds.**—No sales of State bonds have been reported at the Board this week.

The market for railway and industrial bonds has been much more active, the transactions on Thursday aggregating about 4½ millions, par value. Prices have generally been steady to strong, but there are a few notable exceptions.

Conspicuous among the latter are Consolidated Gas 6s, which steadily advanced from 107 to 117½ and close near the highest. Southern Railway 1st 5s have advanced nearly 5 points and Western Maryland 4s and Central Leather 5s are from 2 to 2½ points higher than last week. American Tobacco, Rock Island, Green Bay & Western, Missouri Kansas & Texas, Interboro-Metropolitan and United States Steel issues are a point or more higher.

**United States Bonds.**—Sales of Government bonds at the Board include $1,000 3s, coup., 1908-18, at 101; $25,000 4s, coup., 1925, at 122½, and $20,000 4s, reg., 1925, at 120½. The following are the daily closing quotations; *for yearly range see third page following.*

| | Interest Periods | Mch. 21 | Mch. 23 | Mch. 25 | Mch. 25 | Mch. 26 | Mch. 27 |

* This is the price bid at the morning board; no *sale* was made.

**Railroad and Miscellaneous Stocks.**—The stock market has been more active than for some time past and, while the upward movement has been quite irregular, prices are notably higher. In most cases the highest quotations were recorded on Tuesday and, then or later, such prominent railway issues as Pennsylvania, St. Paul, Atchison, Southern Pacific, Great Northern Ore and Brooklyn Rapid Transit reached a new high level. Delaware & Hudson, on the other hand, has lost over 5 points of its recent advance, and New York Central, ex-dividend, is lower.

Industrial stocks have also been active. The copper issues advanced in sympathy with a bull movement on the curb. American Sugar Refining, which was below par in January, sold at 128 on Monday, the highest since March of last year. Consolidated Gas advanced over 15 points on limited transactions and United States Steel, both common and preferred, General Electric, Colorado Fuel & Iron and Amalgamated Copper recorded the highest quotations of the year.

*For daily volume of business see page* 786.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

| STOCKS. Week ending March 27. | Sales for Week. | Range for Week. Lowest. | | Highest. | | Range since Jan. 1. Lowest. | | Highest. | |

**Outside Market.**—The market for unlisted securities was more active this week than for some time past. The activity was accompanied by a general marking up of quotations, though later this upward movement suffered a check and a reactionary tendency prevailed. Boston Consolidated Copper rose a point to 15¾, fell off to 13⅝ and ends the week at 14. Butte Coalition moved up from 20⅝ to 23⅛, losing part of this in a drop to 22. The close to-day was at 22½. Cumberland Ely gained over a point to 9¾, easing off finally to 9⅜. Davis Daly Estates lost from 4⅛ to 3⅜. Nevada Consolidated Copper was especially strong, running up from 11⅜ to 13⅞, the close to-day being at 13¾. Greene Cananea advanced from 8⅜ to 9½. Trinity sold up from 14½ to 17¼ and back to 15½ and United Copper common down from 5⅛ to 4¾, with a final recovery to 5. Nipissing went up from 6¾ to 7⅛ and down to 7. Yukon Gold, which Thomas W. Lawson has been booming in a very sensational way through the advertising columns of the newspapers, was traded in in advance of its issue at from 9 down to 7⅝. It is to be offered on Saturday, March 28, at "not less than $5 nor more than $7 50 per share." In the high-price specialties, sensational advances were recorded. Standard Oil from 509 reached 545, while Guggenheim Exploration gained 35 points to 190, but lost 10 points to 180. Havana Tobacco common gained a point to 8. Chicago Subway sold higher by over 2 points at 19⅜, but sank to 18¾. Consolidated Steamship 4s sold up to-day to 13⅛. Nevada Consolidated Copper 6s advanced from 125 to 138, but declined to 134.

Outside quotations will be found on page 786.
